GRADUATE AND PROFESSIONAL CATALOG

The Graduate School at Texas A&M University-Central Texas aspires to provide accessible and rigorous graduate programs and research within an applied framework with a diverse mixture of educator-scholars and learners committed to accessibility and excellence in graduate education, service, and research to enhance knowledge, skills, and abilities.

Graduate School University Information

Texas A&M University-Central Texas (A&M-Central Texas), located in Killeen, Texas, is an upper-level, regional institution serving Central Texas. A&M-Central Texas offers junior- and senior-level coursework needed to successfully complete baccalaureate degrees and all coursework leading to the completion of graduate (master’s and specialist) degrees. A&M University-Central Texas was established on September 1, 1999, as Tarleton State University-Central Texas, and became a stand-alone university on May 27, 2009, one of 11 universities within the A&M System which became a separately accredited institution in June 2013 through the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC), retroactive to January 1, 2013.

A&M-Central Texas traces its roots back to 1973, when the American Technological University (ATU) was formed more than 30 years before it would become known as A&M-Central Texas. ATU opened it doors, marking an historical effort on behalf of the citizens of this region to establish an upper-division institution in Central Texas. While the early curriculum placed a great deal of emphasis on technological programs—offering baccalaureate degrees in subjects such as general technology, computer science, and industrial technology—ATU progressed toward the liberal arts as it grew, adding degrees in counseling, psychology, criminal justice, and social work. This led ATU to officially change its name to the University of Central Texas (UCT) in September 1989. ATU experienced a concurrent growth in enrollment, from approximately 550 student in 1988 to more than 1000 in 1997. In October of 1998, the Texas Higher Education Coordinating Board (THECB) supported a proposal from Tarleton State University to facilitate a university system center in Central Texas. UCT gifted more than $7 million in assets to Tarleton State University to facilitate the formation of this new institution.

The Texas A&M University System is one of the largest systems of higher education in the nation, with a budget of $4.7 billion. Through a statewide network of 11 universities and seven state agencies, the Texas A&M System educates more than 153,000 students and makes more than 22 million additional educational contacts through service and outreach programs each year. System-wide, research and development expenditures exceeded $996 million in FY 2017 and helped drive the state’s economy.

Geographic Service Area and Student Population

A&M-Central Texas is located on 672 beautiful acres of land at the intersection of State Highway 195 and State Highway 201 in Killeen. The land was transferred to The Texas A&M University System from the U.S. Army in the summer of 2009. The university’s service area includes Central Texas. In addition to classes on the main campus, classes are also offered at the East Williamson County Higher Education Center in Hutto, Texas, and is part of the RELLIS Academic Alliance at the RELLIS Campus in Bryan. The university provides a wide range of flexible course schedules, including online, hybrid, evening and weekend classes.

Full-time faculty, advisors, and support staff are available to assist students with admission, financial aid, degree plans, and career planning. As an upper-level institution, A&M-Central Texas has developed agreements with Central Texas community colleges that enable a seamless transfer without the loss of credits. In addition, A&M-Central Texas faculty and staff actively engage in dialog with representatives from area community colleges to monitor instructional need and to ensure appropriate access to educational opportunity at all levels.

The student population at A&M-Central Texas is diverse and growing. The institution currently serves over 2,400 students, and more than 7,000 students have graduated with a baccalaureate or graduate degree since 2009.

A&M-Central Texas is a member of GoArmyEd, a virtual gateway for soldiers on active duty who may at any time request Tuition Assistance (TA) online for classroom, distance learning, and eArmyU online college courses. GoArmyEd is used by soldiers as a one-stop shop to pursue and manage their postsecondary educational goals; by Army Education Counselors to provide educational guidance; and by colleges to deliver degree and course offerings and to report soldiers’ progress.

Newly admitted A&M-Central Texas students are required to complete an application for admission and meet with an academic advisor to review degree plans. For current students, registration is available online. The university offers programs to assist students with academic advising, special needs, tutoring, counseling, and career services.

Accreditation

University Accreditation
A&M-Central Texas is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate, master’s, and specialist degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, or call 404-679-4500 for questions about the accreditation of A&M-Central Texas.

College of Arts and Sciences
The baccalaureate degree in nursing at A&M-Central Texas is accredited by the Commission on Collegiate Nursing Education, 655 K Street Northwest, Suite 750, Washington, DC 20001. For more information contact the commission by either phone: 202-887-6791 or the website: www.aacnnursing.org.

The baccalaureate of social work program at A&M-Central Texas is accredited by the Council on Social Work Education (CSWE) 1701 Duke Street, Suite 200, Alexandria, VA 22314-3457. For more information contact the council by either phone: 703-683-8080 or the website: info@cswe.org

College of Business Administration
Accreditation Council for Business Schools and Programs (ACBSP) accredits business, accounting, and business-related programs at the associate, baccalaureate, master, and doctorate degree levels worldwide. ACBSP was recognized by the Council for Higher Education Accreditation (CHEA) in 2001 and again in 2011. Contact information for ACBSP is: 11520 West 119th Street, Overland Park, KS 66213; telephone 913-339-9356; and website www.acbsp.org.

College of Education
State Board for Educator Certification (SBEC) granted A&M-Central Texas an Accreditation Status per the 2016 Texas Education Agency Notice and has been approved by the SBEC to prepare, train, and recommend candidates for certification based upon TAC §229.4(b-f). For more information contact the board by either phone: 512-936-9831 or the website: https://tea.texas.gov/About_TEA/Leadership/State_Board_for_Educator_Certification/. The Texas Education Agency is located at 1701 North Congress Avenue, Austin, TX 78701.

University Notices

Student Rights and Responsibilities
While no university may punish, forbid, heavily regulate, or restrict speech rights protected by the First Amendment, A&M-Central Texas aspires that its students will engage with members of the university community in a courteous, respectful, dignified, and academic manner. Each student shall have the right to participate in all areas and activities of the university, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, sexual orientation, or veteran status in accordance with applicable federal and state laws. No university official or student, regardless of position or rank, shall violate these rights; any custom, tradition, or regulation in conflict will not be allowed to prevail. Students are expected at all times to recognize constituted authority, to conform to the ordinary rules of good conduct, to be truthful, to respect the rights of others, to protect private and public property, and to make the best of their time toward an education.

Civil Rights Compliance
A&M-Central Texas is committed to providing an educational and working environment that provides equal opportunity to all members of the A&M-Central Texas community. A&M-Central Texas will strictly comply with all local, state, and federal civil rights laws and regulations prohibiting illegal discrimination, sexual harassment, and/or related retaliation against employees, students, applicants for employment or admissions, and the public, regardless of race, color, sex, religion, national origin, age, disability, genetic information, veteran status, sexual orientation, or gender identity (Rule Statement 08.01.01 D1).

Inquiries regarding faculty and staff compliance with this commitment may be directed to the Office of Human Resources, Warrior Hall, Room 424, (254) 519-8015 or the Title IX Coordinator, Warrior Hall Room 425I, (254) 519-5722, compliance@tamuct.edu.

Notice of Civil Rights Compliance Procedures
Regulation Summary 08.01.01 states: The Texas A&M University System (system) will provide equal opportunity to all employees, students, applicants for employment and admission, and the public. This regulation provides guidance in complying with local, state and federal civil rights laws and regulations (laws) and related system policy. All complaints, appeals, or reports of discrimination received by the system will be taken seriously, appropriately reviewed, and addressed in accordance with this regulation. This regulation establishes systemwide standards for the receipt and processing of complaints, appeals, or reports ("complaints") of discrimination, harassment and/or related retaliation based on a protected class ("discrimination"), including complaints made by employees, students, and/or third parties. A member also has a duty to
respond to inappropriate employee or student conduct that does not constitute discrimination under this regulation. See System Policy 32.02, Discipline and Dismissal of Employees; System Regulation 32.02.02, Discipline and Dismissal of Nonfaculty Employees; and System Policy 12.01, Academic Freedom, Responsibility and Tenure. For student misconduct, see the member's student code of conduct.

Questions regarding equal access may be directed to the Office of Human Resources, Warrior Hall, Room 424 (254) 519-8015 or the Title IX Coordinator, Warrior Hall Room 425l, (254) 519-5722, compliance@tamuct.edu.

Social Security Number Disclosure

Section 7(b) of the Privacy Act of 1974 (5 U.S. Code §552a) requires that when any federal, state, or local government agency requests an individual to disclose his/her social security number (SSN), that individual must also be advised whether that disclosure is mandatory or voluntary, by what statute or other authority the number is solicited, and for what purposes it will be used.

Accordingly, applicants for admission are advised that disclosure of the SSN is strongly recommended for admission as a student at A&M-Central Texas, in view of the practical administrative difficulties that would be encountered in maintaining adequate student records without continued use of the SSN. The SSN is used to verify the identity of the student; determine and record eligibility for student financial assistance, including loans, scholarships, grants, and allowances; determine and record eligibility for participation in Reserve Officers Training Corps programs; and other such related requirements that might arise. A&M-Central Texas has, for several years, consistently requested disclosure of the SSN on admissions application forms and other necessary student forms and documents. This is pursuant to statutes passed by the State of Texas and United States, regulations adopted by agencies of the State of Texas and United States, and by the Board of Regents of the Texas A&M University System.

FERPA Statement

Family Educational Rights and Privacy Act of 1974 - Official Notice to Students
Students' Education Records Policy for Texas A&M University-Central Texas

The Family Educational Rights and Privacy Act of 1974, as Amended (FERPA), provides eligible students certain rights regarding their education records. An "eligible student" under FERPA is any student, regardless of their age, who attends or has attended a postsecondary institution. These rights are outlined in the Statement of Rights section below.

Statement of Rights

A&M-Central Texas encourages students to exercise all of their rights under FERPA (20 U.S.C. § 1232g). Operating under the premise that the educational process is a cooperative venture between a student and the university, we emphasize the following rights of eligible students:

1. The right to inspect and review, with certain limited exceptions, the student's education records. A student must submit a written request to the appropriate A&M-Central Texas official identifying the record(s) the student wishes to inspect. The appropriate A&M-Central Texas official will, within 45 days of receipt of the request for access, make arrangements for the student to inspect the record(s);

2. The right to request the nondisclosure of personally identifiable information (PII) contained within the education records, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests.
   a. A school official is a person or entity:
      i. employed by the university or the university system in an administrative, supervisory, academic, research, or support staff position;
      ii. serving on a university governing body or duly authorized panel or committee; or
      iii. employed by or under contract to the university to perform a special task, function, or service for the university.
   b. A school official has a legitimate educational interest if the information requested is necessary for that official to:
      i. perform appropriate tasks that are specified in his/her position description or in the performance of regularly assigned duties by a lawful supervisor;
      ii. fulfill the terms of a contractual agreement;
      iii. perform a task related to a student's education;
      iv. perform a task related to the discipline of a student; or
      v. provide a service or benefit relating to the student or student's family, such as health care, financial aid, job placement, or former student-related activities.
   c. Disclosure to a school official having a legitimate educational interest does not constitute university authorization to transmit, share, or disclose any or all information received to third parties unless such disclosure is permitted or required by law.

3. The right to request the amendment of their education records if the student believes the record is inaccurate or misleading. The student should submit a written request to the appropriate A&M-Central Texas official clearly identifying the part of the record the student wants changed and specifying why it is inaccurate or misleading. If the university decides to comply, the record will be amended, and the student notified, in writing, that the record has been amended. If the university decides not to comply, the student will be notified in writing of the decision and will be advised of the right to request a hearing to challenge the information believed to be inaccurate or misleading.

4. The right to file a complaint with the U.S. Department of Education regarding alleged failures by the university to comply with the requirements of FERPA. The name of the office that administers FERPA is the Family Policy Compliance Office.

A student is entitled to all the rights and protections given students under FERPA; however, information in student records may be provided to parents/legal guardians without the written consent of the student if the eligible student is a financial dependent of his or her parents/legal guardians as defined under Section 152 of the Internal Revenue Code of 1986.

Directory Information

Under FERPA, A&M-Central Texas has established the following as directory information and may disclose the information without the student's written consent: student's name, address, email address, telephone number, dates of attendance, major field of study, classification, the most recent educational agency or institution attended, degrees, honors and awards received, weight and height of members of athletic teams, and participation in officially recognized activities and sports. Currently enrolled students wishing to withhold any or all directory information items may do so by completing the Information...
Release Restrictions Form (https://www.tamuct.edu/registrar/docs/InformationReleaseRestrictionsForm.pdf) and submitting it to the Registrar's Office. After this information is entered, a message block will appear on the monitor screen indicating that the student's records are confidential. “Confidential” will also appear in the top left-hand corner of the screen when that student's records are accessed.

Once information has been published in a printed publication, it cannot be removed from that publication.

Only currently enrolled students are eligible to restrict directory information. Once a student has left the university, he/she can no longer set restrictions on directory information at the university. If a student restricts his/her directory information and leaves the university, the restriction continues until the student removes it.

**Records Not Available Under FERPA**

Students shall have access to all of their education records as maintained by the university with the exception of the following:

1. A personal record kept by a university official which meets the following tests:
   a. it is in the personal possession of the individual who made it;
   b. information contained in it has never been revealed or made available to any other person except the maker's temporary substitute.

2. An employment record which is used only in relation to a student's employment by the university, except where an individual in attendance at the university is employed as a result of his or her status as a student.

3. Records relating to a student which are created or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his or her professional, or paraprofessional capacity or assisting in that capacity, which are used in connection with providing treatment to a student are not disclosed to anyone other than the individuals providing the treatment.

4. Financial records and statements of a student's parents/legal guardians.

5. Confidential letters and statements of recommendation which were placed in the education records of a student prior to January 1, 1975.

6. Confidential letters and statements of recommendation which were placed in the education records of a student on or after January 1, 1975, if the student has waived his or her right to inspect and review the letters or statements.

7. Records concerning admissions to an academic component of the university which the student has never attended.

Questions concerning FERPA may be referred to the Registrar at records@tamuct.edu or (254) 501-5857.

**Certification for Dependency**

Under provisions of FERPA, students enrolled in post-secondary educational institutions are deemed to "own" their education record from the first enrollment, regardless of the age of the student. Institutions may, but are not required to, grant access to certain non-directory information in a student's education record if the student is claimed as a dependent on his or her parent's/guardian's federal income tax return. Generally, non-directory information will not be released to a parent or guardian unless a Certification of Dependency Form is completed and signed by both the parent(s)/guardian(s) and the student and is brought to the Registrar's Office, Founder's Hall Room 108 or mailed to the Registrar's Office, 1001 Leadership Place, Killeen, TX, 76549. Until this form is filed, parents are not entitled to this information.

**Penalties for Violating FERPA**

The Family Policy Compliance Office reviews and investigates complaints of violations of FERPA. The penalty for violating FERPA is loss of all federal funding, including grants and financial aid.

If you witness or commit what you believe to be a possible FERPA violation, please notify the Compliance Officer immediately at (254) 519-5722. The Compliance Officer will investigate the matter and determine what action, if any, should be taken. If you have any questions about FERPA compliance or the release of student information, please contact the Registrar at records@tamuct.edu or (254) 501-5857.

**Hazing Law**

Texas Education Code (TEC) § 51.936(d) requires each university to publish in its university catalog a summary of the state hazing law. This requirement went into effect on May 30, 1995.

TEC § 51.936 requirement to publish a summary of Education Code Ch. 37, subchapter F. Hazing in the university catalog

The following is a summary of Chapter 37, subchapter F. (§§ 37.151-157) of the TEC, which prohibits hazing in Texas public or private high schools. TEC § 51.936 applies the prohibition on hazing as stated in Ch. 37 to institutions of higher education.

**Summary**

Hazing is a criminal violation under Texas law. A person may be found guilty of criminal conduct for hazing, encouraging hazing, permitting hazing, or having knowledge of the planning of hazing incidents and failing to report in writing his/her knowledge to the Associate Dean of Student Affairs.

Both failing to report hazing and hazing that does not result in serious bodily injury are Class B misdemeanors. Hazing that results in serious bodily injury is a Class A misdemeanor. Hazing resulting in a death is a state jail felony. An organization found guilty of hazing by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his or her professional, or paraprofessional capacity or assisting in that capacity, which are used in connection with providing treatment to a student are not disclosed to anyone other than the individuals providing the treatment.

It is not a defense to prosecution that the person hazed consented to the hazing activity.

Any person reporting a specific hazing incident to the Associate Dean of Student Affairs or other appropriate institutional official is immune from civil and criminal liability unless the report is in bad faith or malicious.

This state law does not limit or affect an educational institution's right to enforce its own penalties against hazing.

The Education Code defines hazing as "any intentional, knowing, or reckless act occurring on or off the campus of an educational institution, by one person or acting with others, directed against a student, that endangers the mental or physical health or safety of a student for the purpose of pledging, being initiated into, affiliating with, holding office in, or maintaining membership in an organization." The statute contains a list of conduct which constitutes hazing.
Graduate School Title IX Compliance

A&M-Central Texas is committed to providing a learning, working and living environment that promotes personal integrity, civility, and mutual respect in an environment free of sexual misconduct and discrimination. Sexual discrimination not only violates an individual’s fundamental rights and personal dignity, it is also a violation of federal and state law. A&M-Central Texas considers sexual discrimination in all its forms to be a serious offense. This Website is a resource on sexual discrimination for students, faculty, staff and visitors who are part of the A&M-Central Texas community.

Title IX of the Education Amendments of 1972 prohibits discrimination based on sex in educational programs and activities that receive federal financial assistance. Sex discrimination is a behavior or action that denies or limits a person’s ability to benefit from or, fully participate in educational programs or activities or employment opportunities because of a person’s sex. This refers to all forms of sex discrimination, including but not limited to: sexual harassment, sexual misconduct, sexual exploitation, sexual violence, and failure to provide equal opportunity in educational programs and co-curricular programs including athletics, discrimination based on pregnancy, and employment discrimination.

To ensure compliance with Title IX and other federal and state civil rights laws, A&M-Central Texas has developed rules and procedures, followed by System policies that prohibit sex discrimination in all its forms.

Any member of the campus community or public who witnesses, is subjected to, or is informed about incidents of discrimination, sexual harassment, and/or related retaliation should report the incident to the Title IX Coordinator or Designated Official who handles alleged violations perpetrated by students, faculty, staff, and visitors.

Members of the A&M-Central Texas community, guests and visitors have the right to be free from sexual violence. All members of the campus community are expected to conduct themselves in a manner that does not infringe upon the rights of others.

Title IX Designated Officials

The Title IX Coordinator has primary responsibility for coordinating efforts for investigation, resolution, implementation of corrective measures, and monitoring the educational environment and workplace to stop, remediate, and prevent discrimination on the basis of sex.

To assure university-wide compliance with this procedure and with federal and state law, the Title IX Coordinator must be advised of all reported incidents of discrimination or sexual misconduct and their resolution, regardless of where the complaint is brought, investigated, or resolved. The Designated Official or designee in conjunction with the Title IX Coordinator will investigate allegations of discrimination in consultation with the respondent’s supervisor, provided the supervisor is not an alleged perpetrator.

Any member of the university community may report conduct that may constitute sexual harassment/misconduct under this policy. In addition, administrators, faculty, supervisors, managers and other designated employees are responsible for preventing sexual harassment, to correct it when it occurs, and to report it promptly to the Title IX Coordinator designated to review and investigate sexual harassment and complaints regarding discrimination, harassment, abuse, neglect, or exploitation.

Students, faculty, staff, visitors, and applicants for employment or admission should notify the appropriate Designated Official below who handles alleged violations perpetrated by students, faculty, staff, and visitors. Employees and student should also notify their supervisor (if that person is not the suspected offender), but are not required to report alleged violations to a direct supervisor or the alleged offender and may instead notify another supervisor or administrator.

University Police Department

The Texas A&M University-Central Texas University Police Department is service and safety oriented with broad enforcement powers, dedicated to providing an atmosphere in which the mission of the university is accomplished. Providing a safe and secure environment for A&M-Central Texas students, faculty, and staff is a top priority.

The police department operates 365 days a year, 24 hours a day, 7 days a week and provides a full range of law enforcement services, including criminal investigations, accident investigations, and emergency services. Representatives of the department are actively involved in instructional and educational outreach. University police have jurisdiction over all university properties. Jurisdiction is extended to off-campus locations in accordance with the Texas Education Code §51.203 and department policy. Our police officers are certified Texas peace officers as defined in article 2.12 of the Texas Code of Criminal Procedure and are authorized to carry firearms at all times within the state of Texas.

Emergency call boxes are strategically located throughout campus for students, faculty, and staff to summon assistance from the police department. In addition, during an emergency the police can be reached by dialing 911. All 911 calls will be answered by Bell County Communications Center and are routed to a university police officer.
Callers should let the 911 operator know the emergency is located on the A&M-Central Texas campus.

Violations of university regulations are reported to the university’s chief judicial officer for further action. Individuals arrested for violations of law are transported to the Bell County Jail for booking.

The police department reports crime statistics to the U.S. Department of Justice and the Texas Department of Public Safety. Each report includes the number and types of crimes committed and is available on the web.

Each year, A&M-Central Texas prepares a report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. The report includes information regarding university rules, reported campus crime statistics, crime awareness and prevention, and important contact information. The most recent report is available on the A&M-Central Texas website at https://www.tamuct.edu/police/clery.html

Warrior Shield
Emergency Warning System for A&M-Central Texas staff and students. Warrior Shield is an emergency notification service that gives A&M Central-Texas the ability to communicate health and safety emergency information quickly via email, text message, and social media regardless of your location. All students are automatically enrolled in Warrior Shield through their myCT email account. Additional information on Warrior Shield is available at https://www.tamuct.edu/police/911cellular.html

Chief of Police: Charles Rodriguez

Residence for Tuition Purposes
In accordance with Texas Education Code § 54.052, the following persons shall be classified as Texas residents and will be entitled to pay in-state tuition.

Residency through High School Graduation in Texas
A person who:⁰¹

1. Graduates from a high school in Texas or receives a GED in Texas; and
2. Physically resides in Texas for the 36 consecutive months immediately prior to high school graduation; and
3. Physically resides in Texas for the 12 consecutive months immediately prior to the census date of the semester in which the student enrolls in a Texas public college or university.

Residency by Establishing and Maintaining Domicile
A person who:⁰²

1. Independent Individuals
   a. Has established and maintained their domicile in Texas for the 12 consecutive months preceding the census date of the academic semester in which they enroll at A&M-Central Texas; and
   b. Provides more than one-half of their own financial support, and is not eligible to be claimed as a dependent for income tax purposes.

2. Dependent Individuals
   a. Whose parent has established and maintained their domicile in Texas for the 12 consecutive months preceding the census date of the academic semester in which they enroll at A&M-Central Texas.

Residency through Prior Residency Classification and Continuous Enrollment
A person who:

1. Was previously enrolled and classified as a Texas resident in a public institution of higher education; and
2. Maintained continuous enrollment, or did not break enrollment for more than one regular semester.

Establishment of Domicile
Establishing domicile in Texas is presumed if, for at least 12 months prior to the census date of the semester in which he or she is to enroll, the person (or their parent if they are a dependent) resided in Texas and:

1. Owned and occupied real property in Texas (renting a home is not ownership); or
2. Owned and managed a “brick & mortar” business in Texas; or
3. Was gainfully employed, including self-employment, in Texas;⁰³ or
4. Marriage for at least 12 months to a person who established a domicile in Texas per one of the above methods is also a basis for establishing domicile;
5. (Military only) The service member’s Home of Record with the military is Texas, or Leave and Earning Statements show the member has claimed Texas as their place of residence for the 12 consecutive months prior to enrollment.

Residency Reclassification
It is the student’s responsibility to ensure residency classification is accurate prior to registering for courses. If incorrect, it is also the student’s responsibility to ensure corrections are made before the census date of the applicable semester. Any applicant or student classified as a non-resident who wishes to be considered for reclassification as a resident must submit the Core Residency Questions. Along with the form, the applicant or student must submit supporting documentation that proves residency for tuition purposes. Oftentimes, an applicant or student will submit the Core Residency Questions and upon receipt, Recruitment & Undergraduate Admissions will request additional documentation specific to the way the Core Residency questions were answered.

For More Information please see the College for All Texans (http://www.collegeforalltexans.com/index.cfm?ObjectID=6D1466D9-AEA5-DE00-C12F3F75E7367718) website.

Documentation for Residency
The following is a list of documents that may provide support to a claim of physical residence in Texas:

1. Utility bills for the 12 consecutive months preceding the census date;
2. Cancelled checks that reflect a Texas residence for the 12 consecutive months preceding the census date;
3. A current credit report that documents the length and place of residence of the person or the dependent’s parent to be in Texas and the length of residence to be at least 12 consecutive months preceding the census date;
4. Texas voter registration card that was issued at least 12 months prior to the census date;
5. Lease or rental of residential real property in the name of the person or the dependent’s parent for the 12 consecutive months immediately preceding the census date;
6. Texas high school transcript for full senior year immediately preceding the census date or a transcript from a Texas institution of higher education showing presence in the state for the 12 consecutive months preceding the census date.

The student has the burden of proof to show by clear and convincing evidence that domicile has been established and maintained.

1. Student visa holders are not eligible for this option for establishment of residency. An individual who is neither a US citizen, nor permanent resident must complete and submit the Residency Affidavit.
2. Students are not able to obtain residency through family members, sponsors, or individuals who are not their biological or adoptive parent, or court-appointed legal guardian, even if that person claims them on taxes or provides the majority of their financial need.
3. Employment intended to provide an income to a person or allow a person to avoid the expense of paying another person to perform the tasks (as in child care) that is sufficient to provide at least one-half of the individual’s tuition, fees and living expenses as determined in keeping with the institution’s student financial aid budget or that represents an average of at least 20 hours of employment per week. A person who is self-employed or who is living off his/her earnings may be considered gainfully employed for purposes of establishing residency, as may a person whose primary support is public assistance.

Non-Resident Tuition Waivers
Non-resident students who do not meet any of the above criteria for establishing residency for tuition purposes may be eligible to have the non-resident portion of the tuition waived, provided waiver eligibility requirements are satisfied. We’ve provided a list of the most common non-resident tuition waivers used at A&M-Central Texas. For additional information and non-resident waiver eligibility requirements, please visit www.collegeforalltexans.com (http://www.collegeforalltexans.com/apps/financialaid/tofa.cfm?Kind=W).

- Non-Resident Tuition Waiver For Active Military Personnel, Spouses and Dependents
- Non-Resident Tuition Waiver For Veterans, Spouses and Dependents
- Non-Resident Tuition Waiver For Family Intent To Make Texas Home

Please Note: It is the student’s responsibility to request a non-resident tuition waiver. All non-resident tuition waivers and requested documentation must be submitted prior to the beginning of the enrollment semester and no later than the official census date of the enrollment semester in order to be considered for the non-resident tuition waiver.

Tuition and Mandatory Fee Rate Plans
A&M-Central Texas has a guaranteed tuition and mandatory fee plan (The Warrior Guarantee), which allows our students to effectively plan for the cost of their education. In addition, we offer a Variable Rate Plan. The Variable Rate Plan is effective for one academic year only.

Which plan should you choose?
Incoming students will need to decide which plan best meets their financial needs. The following discussion provides more information about each of the plans to aid in the decision-making process. The specific dollar amounts for all plans can be found at the following link: https://www.tamuct.edu/business-office/tuition-fees.html

The Variable Rate Tuition Plan
Under the Variable Rate Tuition Plan, tuition and fee rates are established for an academic year and are subject to increase or decrease based on economic conditions, Board of Regents’ action, and/or legislative requirements. This plan is best suited for those students who plan to enroll and graduate within the same academic year.

The Warrior Guarantee
Students opting into The Warrior Guarantee will be assigned to a cohort based on classification for undergraduate students, or program length for graduate students, that guarantees a defined tuition and fee rate that will not change for a specified number of consecutive semesters beginning with their enrollment at A&M-Central Texas. The guaranteed number of consecutive semesters will be as follows for each student classification:

- Students who exceed the specified number of consecutive semesters allowed for degree completion for a specific cohort will be assessed tuition and fees at the approved rate for a similar cohort in the subsequent academic year.
- Students unable to enroll due to special circumstances—such as military deployment or medical emergencies—may request an extension equivalent to the number of semesters missed due to their special circumstance.

For further information on the estimated cost of tuition & fees visit: https://www.tamuct.edu/business-office/tuition-fees.html

Tuition and Fees
Below is the chart for the Graduate Resident - Guaranteed tuition rates and fee schedule for students as of the publication date: (all fees are subject to change without notice). For the most accurate total tuition and mandatory fees inquire with the Business Office (https://www.tamuct.edu/business-office) on campus.

Expenses
Tuition for undergraduate and graduate students varies by semester credit hour (SCH) based on the tuition and fee plan selected by the student. See the "Expenses" section for more information about the available tuition and fee plans. Tuition also varies per SCH based on residency. See "Determination of Residence for Tuition Purposes" in this section for more information.

### Explanation of Fees

The following expenses are required for all students. Tuition, University Services Fee, and Student Services are included in The Warrior Guarantee. Other fees will be assessed based on specific circumstances.

#### Tuition

Tuition for undergraduate and graduate students varies by semester credit hour (SCH) based on the tuition and fee plan selected by the student. See the "Expenses" section for more information about the available tuition and fee plans. Tuition also varies per SCH based on residency. See "Determination of Residence for Tuition Purposes" in this section for more information.

### Additional Fees:

**Installment Plan:** $20.00  
**Late Registration Fee:** $25.00  
**Reinstatement Fee:** $100.00  
**Graduation Application Fee:** $50.00  
**Late Graduation Application Fee:** $20.00  
**Laboratory Fees:** $2.00 - $30.00  
**Certificate Fee:** $25.00 - $100.00  
**Certification Fee:** $25.00 - $150.00  
**Field Experience Fee:** Based upon course requirements  
**Late Graduation Application Fee:** $20.00  
**Graduation Application Fee:** $50.00  
**Reinstatement Fee:** $100.00  
**Late Registration Fee:** $25.00  
**Installment Plan Fee:** $20.00  

### University Services Fee

This fee is charged to all students and pays for numerous services, such as the library, computer labs, classroom technology support, academic advising, administrative services, ID card services, and instructional support.

### Student Services

This fee supports student services at A&M-Central Texas. The maximum amount charged per semester is $237.60.

### Certificate Fee

This is an application fee for students taking certification programs through graduate school.

### Texas Educator Certification Fee

The certification fee covers the required services for admission and compilation of your Texas Candidate Certification Record and to verify your credentials in pursuit of a Texas Educator Certification.

### TEA Fee

Texas Administrative Code 229.9 (7)(A) requires candidates who accept admission into an Educator Preparation Program pay a fee that will be sent to the Texas Education Agency (TEA). This fee is directly billed to the student once acceptance documentation has been received.

### Course Fees

These fees are charged to cover the costs of materials and services directly associated with selected classroom or laboratory activities.

### Distance Learning Fee

The fee of $80 per SCH is assessed for all online courses to provide web-based student services support.

### Excessive Hours Fee

A fee of $100 per excess SCH is charged for students with excessive hours towards a degree program. Reference Texas Education Code § 54.014, which provides a limit to the number of hours an undergraduate Texas resident may attempt while paying in-state tuition.

### Field Experience Fee

A fee per course is charged to all students who register for a student teaching, internship, field placement, or cooperative education course.

### Graduation Application Fee

This fee is due at the time the graduation application is submitted. This fee is used for costs directly related to graduation (diplomas, etc.).

### Graduation Application Late Fee

Students who do not apply for graduation by the appropriate deadline will be assessed a $20 late fee.

### Installment Payment Plan Fee

Students who sign up for the installment payment plan will be assessed a $20 processing fee.

### International Student Program Fee

This is a fee assessed only to international students at a rate of $40 per semester, which funds expenses directly associated with the International Education Program.
International Health Insurance Fee
The Texas A&M University System requires all international students entering the U.S. on a F-1 student visa to be covered under the Texas A&M University System Student Health Insurance Plan (SSHIP) or have equivalent insurance coverage that meets the waiver criteria at http://assets.system.tamus.edu/files/benefits/pdf/studentinsurance/waiver WS20guidelines.pdf. The System Student Health Insurance Regulation is located at http://policies.tamus.edu/26-99-01.pdf.

Internship Fee for Teacher Certification
The internship fee provides the candidate a Field Supervisor and Mentor, as required by Texas Education Agency, in the pursuit of obtaining a Teacher Certification. This fee is required every semester the candidate is enrolled in the Internship I or Internship II course.

Laboratory Fee
A fee for each laboratory course may be charged for materials and supplies.

Late Registration Fee
Students who do not register or make initial payments by the appropriate deadline will pay a $25 late fee.

Late Payment Fee
Students who make an installment payment after the due date will be charged a late payment fee of $20. Students who are delinquent more than five days may be prohibited from registering for classes and blocked from all university services.

Materials Fee
A fee may be added for specialized courses requiring supplies to supplement instructional activities.

Parking Fee
Students who wish to park a vehicle or motorcycle on A&M-Central Texas property must pay a parking fee of $30 for each regular semester and $10 for each summer semester.

Repeated Courses Fee (3-Peat)
An additional course fee will be charged at a rate of $100 per SCH to those students who attempt the same course for a third time since Fall 2002. This provision is described in the Texas Higher Education Coordinating Board Rules (Chapter 13, Subchapter B, § 13.25).

Testing Fee
A testing fee of $15 for first-time students will be assessed to support the Testing Center and other university testing services. It is charged at the time of first enrollment and covers all institutional testing in the Testing Center while the student is enrolled.

Reinstatement Fee
A student who is dropped from the rolls of the university will be charged a fee of $100 for reinstatement of their status as student.

Recreational Sports Fee
The recreational sports fee funds recreational and wellness initiatives and programs for students. The fee of $50 for summer and $100 each for spring and fall will only be charged to individuals who are taking face-to-face courses and who have an assigned course that is designated on the main campus.

Transcript Fee
A fee of $3.00 is charged for transcript processing. The first two transcripts are free.

Financial Obligation for Graduating Students
According to Texas Education Code 54.007 (d), all financial obligations to the university must be paid by the end of the semester. Failure to settle all financial obligations will result in withholding a student’s diploma at graduation. Additionally, a hold will be placed on the student’s account which will prohibit registration in subsequent semesters and receipt of official transcripts.

Chapter 54.007 (d) of the Texas Education Code states “A student who fails to make payment prior to the end of the semester may be denied credit for the work done that semester.

Payment of Fees
All the aforementioned fees must be paid by the designated date stated on a student’s bill. Student account information is available through Warrior Bill Pay via WarriorWeb, which features 24/7 access, E-bills, electronic refunding, online payment plan enrollment, and authorized user access. Payment due dates are also displayed in Warrior Bill Pay.

The following options are available for fee payment in fall, spring and summer semesters:

• OPTION 1. Payment in full by the designated date.
• OPTION 2. Payment in four installments as follows: (fall and spring only)
  - Installment 1: 25% of charges by designated date;
  - Installment 2: 25% of charges by designated date;
  - Installment 3: 25% of charges by designated date;
  - Installment 4: 25% of charges by designated date.
• OPTION 3. Payment in three installments as follows: (summer only)
  - Installment 1: 34% of charges by designated date;
  - Installment 2: 33% of charges by designated date;
  - Installment 3: 33% of charges by designated date;

Each student who elects option 2 and 3 must enroll in the payment plan through Warrior Bill Pay, via WarriorWeb. An installment agreement must be on file in the Business Office. Students who fail to make tuition and fee payments by the due date may be prohibited from registering for classes for succeeding semesters until the payment is made. For minimesters, options 2 and 3, are not available, payment in full is due by the designated date.

Notice Concerning Check Payments
If a check accepted by the university is returned unpaid by the bank (including electronic check) on which it is drawn, the person presenting it will be required to pay a penalty of $30. If the check is not redeemed within 20 days after the date of the first notice, the student may be dropped from the rolls of the university and the check turned over to the County Attorney for collection.
Financial Obligation for Graduating Students

According to Texas Education Code 54.007 (d), all financial obligations to the university must be paid by the end of the semester. Failure to settle all financial obligations will result in withholding a student’s diploma at graduation. Additionally, a hold will be placed on the student’s account which will prohibit registration in subsequent semesters and receipt of official transcripts.

Chapter 54.007 (d) of the Texas Education Code states: "A student who fails to make payment prior to the end of the semester may be denied credit for the work done that semester.

Refunds

Students who pay tuition and fees in full and withdraw from the university will receive a refund based on the refund schedule below. Students paying on an installment basis who withdraw from the university will be required to pay the balance of fees due in accordance with this schedule. The refund schedule is as follows:

<table>

</tbody>
</table>

Special notes: For refund purposes, class days are determined by the calendar, not by the number of class meetings. As an example, if a semester starts on Monday, then Thursday of that week is considered the fourth class day for all classes.

The A&M-Central Texas’ refund policy is established in accordance with the mandates of the State of Texas.

Conditions of Refunds

Tuition and fee refunds will not be made until 10 days have elapsed from the date the fees were paid. Refunds of tuition and fees paid by a sponsor, donor, or scholarship available through the university are made to the funding source, rather than to the student who has withdrawn. All student services and privileges are terminated when a student withdraws or graduates from the university.

Nonrefundable Fees

Fees required for special courses, parking, testing fees, installment plans, reinstatement fee, late payment, or late registration are nonrefundable.

Student Financial Assistance

A&M-Central Texas offers student financial assistance in the form of loans, grants, and scholarships. Financial assistance resources from the university should be viewed only as supplementary to the financial resources of the applicant and family. Graduate School students are only eligible for student loans, certain grants and scholarships.

To apply for financial aid, a student must submit a Free Application for Federal Student Aid (FAFSA) online at https://fafsa.ed.gov/. To determine your eligibility for need-based aid, we take into consideration the cost of attendance (COA) and your expected family contribution (EFC) as determined by the federal government from the information you provided on the FAFSA.

Priority Dates

To receive maximum consideration for financial assistance, your FAFSA information must be received by the institution prior to January 15 for the upcoming academic year. To ensure timely awarding in advance of the respective semester, FAFSA information and all requested documentation should be submitted prior to the following priority dates:

- Summer semester: April 1st
- Fall semester: June 1st
- Spring semester: November 1st

Consortium Agreement

An A&M-Central Texas student concurrently enrolled at an eligible host institution may complete a consortium agreement for financial aid purposes. Under a consortium agreement, a student’s financial aid
eligibility will be based on the combined enrollment between A&M-Central Texas and the participating host institution.

Eligibility requirements:

- Must be a degree-seeking student at A&M-Central Texas, enrolled in at least one course at A&M-Central Texas;
- Must be enrolled in at least one course at an eligible host institution;
- Semester credit hours at host institution must meet outstanding degree requirements;
- Semester credit hours at the host institution must coincide with the academic semester at A&M-Central Texas (i.e., fall credit hours must begin and end within the months of August and December and spring credit hours must begin and end within the months of January and May).

Satisfactory Academic Progress (SAP) Components

There are three components to SAP. Failure to comply with any component may result in a loss of aid eligibility. The three components are as follows:

1. Minimum Cumulative Grade Point Average (GPA)
   - Graduate Students: 3.0
2. Completion Rate (Deficit Hours)
   - While students are expected to enroll full-time to be eligible for financial aid, each student must successfully complete at least 67% of all credit hours attempted.
   - This percentage includes all institutional and transfer credit hours, regardless of whether or not financial aid was received.
   - Grades of W, D, F, I, Q, WF, U, and grade exclusions are not considered to be adequate grades for completion.
3. Maximum Hours (Excessive Hours)
   - Students are expected to complete their degree pursuits within a maximum number of hours, including transfer hours earned in addition to institutionally attempted hours.
   - For students seeking their first master’s degree, the maximum number of credit hours (total attempted hours) is limited to 150% of the published degree program length and includes all hours attempted (including repeats and withdrawals) at any institution of higher education and any hours accepted in transfer—even if financial aid was not received. Evaluated credit will also be included in the total attempted hours once articulated by the Recruitment & Undergraduate Admissions Office.

*NOTE** Credit hours are cumulative. Students obtaining more than the maximum hours (e.g., with a change in major) may reach this maximum time frame before completing their course of study and may need to appeal the time frame eligibility.

Review Policy

The Office of Student Financial Assistance will review the above minimum standards of academic progress at the end of every semester to determine each applicant’s eligibility for aid consideration for the upcoming year (summer, fall, spring). If it is determined that the student does not meet the requirements, they are ineligible to receive financial aid and will be notified accordingly.

Financial Aid Warning

Students who fail to meet the SAP standards of a sufficient cumulative GPA (3.0 GPA for graduate students) and a 67% completion rate will be placed on a warning status for financial aid. The student will remain eligible for financial aid for one semester while on a warning status.

First-time transfer students who fail to meet Financial Aid SAP requirements at the end of their initial semester are not eligible for Financial Aid Warning.

Financial Aid Suspension

Students who fail to meet the SAP standards of a sufficient cumulative GPA (3.0 GPA for graduate students) and a 67% completion rate after a semester on financial aid warning status are placed on financial aid suspension and immediately lose eligibility for financial aid.

Maximum Time Frame Suspension

Students who fail to meet the maximum time frame standards are placed on an excessive hour suspension and immediately lose financial aid eligibility. There is no provision for a warning period if students exceed the maximum time frame.

SAP Appeal

Students placed on a financial aid suspension will be given the opportunity to appeal this suspension to have their financial aid reinstated. Students are limited to two appeals as an undergraduate student and two as a graduate student.

Return of Funds Due to Withdrawal

A student who withdraws from the university after receiving financial assistance may be required to repay all or part of the awarded aid. A withdrawal form must be initiated in the Registrar’s Office before the last day for withdrawals, which is posted on the university calendar. A student is not officially withdrawn until this form is completed with the approval of each appropriate university office and returned to the Registrar’s Office. Please note that students receiving all “F”s, incompletes, or a combination of the two may be considered withdrawn. In addition, the definition of a withdrawal related to financial assistance may differ from the definition used by the Registrar’s Office when a student is enrolled in multiple sessions in a single semester.

As required by federal regulations, the Office of Student Financial Assistance determines if a student must repay all or part of the aid awarded. The calculation of repayment is made at the time of the withdrawal by determining the amount of aid the student was awarded, the amount of awarded aid the student earned, and the amount of awarded aid the student did not earn. Unearned aid must be returned to the aid program(s). The institution returns Title IV funds no later than 30 days after the determination of a student’s withdrawal date. If a student earned more aid than was disbursed, the student may be entitled to a disbursement after their withdrawal. During the withdrawal process, students are encouraged to speak with a representative from the Office of Student Financial Assistance.

The policy governing the return of funds due to withdrawal may be modified at any time, without prior notice, in order to comply with state and federal guidelines.

Tuition and Student Fee Exemptions

Texas currently maintains a variety of programs aimed at exempting tuition, fees, and other expenses related to attending public colleges
or universities. These exemption programs are targeted to specific populations that the Texas Legislature has identified as warranting special consideration related to paying for higher education costs.

All exemptions are processed through the Office of Student Financial Assistance. Claims for exemption from any charges must be supported by evidence sufficient to enable the Office of Student Financial Assistance to verify the student’s exempt status and determine the duration of the exemption and the charges to which it is applicable. Each section below refers to information found in the corresponding Texas Education Code (TEC).

Awarded yearly to the highest-ranking graduate of any accredited high school in Texas. Recipients are exempt from tuition payment for the two long semesters of their freshman year, providing that they attend the same school for both semesters. Eligible students should send or bring their certificate to the Office of Student Financial Assistance prior to registration.

Types of Aid

Grants

Federal, state, and institutional grants are forms of gift aid available to help students cover the cost of obtaining a higher education. These grants are awarded on the basis of financial need and available funding. Below is a list of the grants offered at Texas A&M University-Central Texas.

Texas Public Education Grant (TPEGG)

Texas resident and non-resident undergraduate students may be eligible for a grant for each semester of the academic year based upon the budgetary funding of the grant. Graduate students may also be eligible for the grant for each semester of the academic year based upon the budgetary funding of the grant. Students must be enrolled at least half-time and awards are prorated based on enrollment. No individual award may be more than the student’s financial need. Each institution may set its own maximum award amounts. Your eligibility for this program is determined by the financial aid office at the university. Funds may not be immediately available to you at the beginning of the semester. Refer to Texas Education Code, 56.031 and Texas Administration Code Title 19, Part 1, Chapter 22, Subchapter D.

Warrior Tuition Grant

Texas resident undergraduate and graduate students may be eligible for the grant each semester of the academic year. Students must be enrolled at least half-time and awards are prorated based on enrollment.

Loans

Federal, state, and institutional student loans are borrowed money you must repay with interest.

Federal Direct Student Loans

As an undergraduate student loan borrower, you may be awarded an unsubsidized (non-need-based) loan depending on your financial need. As a graduate student loan borrower, you may only be awarded an unsubsidized loan (non-need-based) loan. If you are awarded a subsidized loan (i.e., an undergraduate student), interest will not accrue on your loan while you are enrolled at least half-time. If you are awarded an unsubsidized loan, you will be responsible for the interest while in school. You will receive quarterly interest statements on your unsubsidized loan from your servicer. It is recommended that you pay this interest every quarter. If you do not, the interest will be added to your loan amount upon entering repayment, which will result in increasing costs when repaying your loans.

Grant (PLUS) Loans

Graduate students may be offered a PLUS loan. These unsubsidized loans are charged interest during all periods of enrollment. Students must be a graduate or professional student enrolled in at least half-time during the semester, not have an adverse credit history and meet the general eligibility requirements for federal student aid.

Emergency Tuition and Fee Loan

Emergency Tuition and Fee Loans are made available to students that are unable to pay their first installment payment at A&M-Central Texas (only tuition and fee charges are covered) during the fall or spring semester(s), or full balance during summer semesters. Applications for all Emergency Tuition and Fee Loans are processed through the Office of Student Financial Assistance. Distribution and repayment of funds is made through the Business Office.

- In the fall and spring semester(s), a student may borrow up to 25% of their total tuition and fee charges. Students must also sign up for an installment plan to complete their semester registration. In the summer semester, a student may borrow up to the amount of their tuition and fees.
- An origination fee of 1.25% will be assessed on the amount of the loan. Emergency Tuition and Fee Loans and applicable fees must be repaid within the prescribed repayment period.
- Deadline for processing Emergency Tuition and Fee Loans will be 30 days before all loans are due.

Book Loans

Students may borrow up to $700 to purchase books at the Warrior Bookstore only. A voucher will be issued which the student will present to
the Warrior Bookstore. The purchase amount, up to $700, will be recorded on the voucher; this amount becomes the principal due on the loan. A $15 service charge will be assessed. Loans must be repaid by the established due date. Loans not paid on time will be assessed a $20 late fee.

Work Opportunities

Eligible students may participate in either the Federal Work Study program, funded jointly by the Department of Education and the university, or the Texas College Work Study Program, funded jointly by the State of Texas and the university. Students must show financial need and meet established eligibility standards. Funds are awarded on a first-come, first-served basis. Current work study employment does not guarantee a student work-study position for the following academic year.

Other Assistance

The Office of Student Financial Assistance assists students with the use of a variety of educational benefits from a variety of sources. These sources may include employer-based programs, state exemption, and waiver programs. Students should contact the Office of Student Financial Assistance to determine how they may utilize their available benefits.

Prepaid Tuition and College Savings Plans

Prepaid tuition plans allow families to prepay future college tuition and fees. The two most common prepaid plans used at A&M-Central Texas are:

- Texas Guaranteed Tuition Plan (formerly the Texas Tomorrow Fund)
- Texas Tuition Promise Fund

Scholarships

A&M-Central Texas offers a variety of merit and need-based scholarship opportunities to support students in pursuit of their education. With the support of the A&M-Central Texas Foundation and generous donors, the scholarship program at A&M-Central Texas continues to grow. Scholarships are awarded for academic ability and achievement, demonstrated leadership, extracurricular activities, financial need, and other criteria as defined by specific scholarship programs.

Scholarship Deadlines

After you have been admitted to A&M-Central Texas, you may apply for scholarships by completing a general scholarship application via the A&M-Central Texas Scholarship Portal. Please see below for the scholarship application submission deadlines associated with each academic semester:

- Fall Semester Deadline-July 15
- Spring Semester Deadline-December 2
- Summer Semester Deadline-April 20

For more information on possible scholarship opportunities please visit our Scholarship Opportunities Web page at https://www.tamuct.edu/financial-aid/scholarships.html.

Military and Veteran Services

Ted and Diane Connell Military and Veteran Services Center

The Ted and Diane Connell Military and Veteran Services Center provides assistance to student veterans, service members, and their families in the utilization of U.S. Department of Veteran Affairs (VA) education benefits and military tuition assistance, military transcripts evaluation (catalog.tamuct.edu/undergraduate-information/military-credit-evaluation), and a successful transition to student life.

Staff are available to answer questions about veterans’ education benefits and military tuition assistance, military credit evaluation (catalog.tamuct.edu/undergraduate-information/military-credit-evaluation), as well as to certify enrollments and monitor students’ degree plans and academic progress. However, the VA Regional Processing Office is the final authority on disbursement of funds. In addition, some chapters of veterans’ education benefits may require the student to verify his/her enrollment status in order for the VA to release his/her monthly payments. Please note that the last day of the month in question is the earliest day that enrollment for that month may be verified.

A&M-Central Texas School Certifying Officials are not VA employees; they act as liaisons between the university and the VA. The School Certifying
Officials work to ensure that the regulations of the VA are satisfied, as well as the policies of the university; however, the School Certifying Officials are not authorized to make judgments regarding the status of a student’s VA education benefits.

Please refer to the VA Website (http://benefits.va.gov/gibill) for additional information regarding education benefits or the VetSuccess on Campus (VSOC) program counselor.

The Military and Veteran Services Center stands ready to facilitate the transition from military life into academics. Services include:

- Information and support related to the Post 9/11 GI Bill®
- Montgomery GI Bill®
- Dependents Educational Assistance (DEA) program
- Reserve Educational Assistance Program (REAP)
- Vocational Rehabilitation
- Montgomery GI Bill-Reserve®
- Military Credit Evaluations (catalog.tamuct.edu/undergraduate-information/military-credit-evaluation)
- Military Tuition Assistance
- Hazlewood Act - Texas Veterans Commission

Please contact (254) 519-5423 for information concerning VA resources and benefits. Questions and inquiries (email) may also be sent to va@tamuct.edu.

**VetSuccess on Campus**

The VSOC Program is a collaborative effort between A&M-Central Texas and the VA with the purpose of providing a supportive, on-campus environment where veteran students may gather to obtain assistance and peer support. The goal of the program is to help veterans transition to college life and successfully complete their educational programs. The VA has placed a full-time, experienced vocational counselor on the A&M-Central Texas campus. The counselor serves as a "one-stop liaison" for veterans, active duty military, and their eligible family members. A&M-Central Texas is one of the original eight schools in the nation to have an on-campus counselor from the VA.

Your VetSuccess Counselor can assist you with:

- Information on VA educational benefits, to include the Montgomery GI Bill® (Chapter 30), Post 9/11 GI Bill® (Chapter 33), and other VA and non-VA educational benefits
- Information, guidance, and support while using your VA educational benefits
- Accessing, understanding, and applying for VA benefits, to include vocational rehabilitation and employment, disability compensation, life insurance, home loan guaranty, and other benefits and services
- Transition support services
- Vocational exploration and career counseling services
- Assistance with electing healthcare benefits through the Veterans Health Administration (VHA)
- Information and referrals for VA medical and mental health services
- Referrals for readjustment counseling services for eligible veterans and their family members
- Job placement assistance and coordination with local Disabled Veteran's Outreach Program (DVOP) specialists and Local Veterans Employment Representatives (LVER)
- Referrals to on-campus, community, and VA resources to ensure academic success

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. Government Web site at https://www.benefits.va.gov/gibill.

**Cancellations and/or refunds for veterans must follow the current Veteran Administration requirements. Contact the Veterans Service Center for assistance.**

**Guidelines for Active-duty Army, National Guard and Army Reserve students (GOARMYED) Only**

All eligible active duty soldiers, National Guard and Army Reserve students must complete the GoArmyEd (GAE) common application and register online in the GoArmyEd portal. All students must meet the general admissions requirements in the A&M-Central Texas University catalog. The guidelines below are to assist students in applying and registering through the portal. Procedures are subject to change, and students are encouraged to visit the GoArmyEd website for the latest information.

1. Access the GoArmyEd portal at http://www.goarmyed.com and create/activate your GoArmyEd account. Once your account is activated in GAE, please select Texas A&M University-Central Texas as your university of choice.
2. If A&M-Central Texas is your home school, request that official transcripts from each regionally accredited university or university previously attended be sent directly to A&M-Central Texas. Submit a high school transcript or GED scores verifying high school graduation equivalency if you have not already successfully completed at least 12 semester hours at another university or college.
3. Students who have not selected A&M-Central Texas as their home school are not required to submit official transcripts unless using financial aid.
4. Visit with a A&M-Central Texas representative (Faculty, College Advisor or Admissions) to obtain degree plan advisement and other school-related information (e.g. prerequisite requirements, instructional materials, WarriorWeb, etc.).
5. For information regarding your GoArmyEd course planner, student agreement requirements, holds, etc., select the “Smart Links” section on your GoArmyEd homepage.

Browse the GoArmyEd schedule of classes, on the GoArmyEd portal and register for classes. Refer to Reference Document titled “How to Enroll in a Class through GoArmyEd” or “How to Enroll in Classes Using the Course Planner”, depending on your particular status. All enrollment actions (i.e. enrollment requests, drops, and withdrawals) must be processed via the GoArmyEd portal prior to the semester’s posted deadline.

For any questions about using GAE with A&M-Central Texas, please call the Military and Veteran Services at 254-519-5423.

**Student Life**

The following areas are designed to assist students in different aspects of educational, emotional, and personnel well being:

**Academic Support:**

Academic Support Programs exists to provide support to all A&M-Central Texas students. Regardless of your major, your year of study, whether you
are an online or on-campus student, we're here to help you succeed and accomplish your academic goals. Offering: Face-to-face tutoring, 24/7 online tutoring, student success workshops, and study abroad opportunities.

**Access and Inclusion:**
At A&M-Central Texas, we value an inclusive learning environment where every student has an equal chance to succeed and has the right to an education that is barrier-free. Access and Inclusion is responsible for ensuring that students with a disability enjoy equal access to the university's programs, services and activities.

**Career and Professional Development:**
Career and Professional Development supports the campus community as they move through their careers. To support the development of career and life-long learning goals, we empower the campus community with the necessary professional tools to explore careers, engage with the career of choice, and embark successfully in their career field.

**Behavioral Intervention Team:**
The Behavioral Intervention Team (BIT) is a multi-disciplinary group of professionals on campus who seek to proactively identify interpersonal and behavioral threats to the safety and well-being of the A&M-Central Texas Community. BIT meets regularly to review referrals brought forward regarding behaviors that can be concerning, disruptive, or threatening. It is the responsibility of the campus community to immediately refer any situation that could possibly harm anyone at the university. Referrals may be made at [https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2](https://cm.maxient.com/reportingform.php?TAMUCentralTexas&layout_id=2). Anonymous referrals are accepted.

**Student and Civic Engagement:**
Student and Civic Engagement supports an active community of student-leaders acting as catalysts for positive change. This office focuses on encouraging student involvement in campus organizations and supporting community-based programs. To get involved on campus, visit Engage [https://tamuct.campuslabs.com/engage](https://tamuct.campuslabs.com/engage) and find your next adventure.

**Student Health Insurance:**
Any enrolled Texas A&M University System student taking at least six (6) credit hours of classes is eligible to enroll in this insurance plan. Students who are enrolled in special classes and take less than six (6) credit/contact hours of class work will be determined eligible for this Student Health Insurance Plan if the reduced coursework meets the criteria for the completion of a degree plan or international program as defined and approved by The Texas A&M University System.

**International Students Health Insurance Coverage**
Those who are not United States citizens or permanent residents of the United States, are required to maintain approved health insurance coverage continuously while enrolled and attending a Texas A&M System institution, unless the student provides proof of coverage that meets the Texas A&M University System waiver requirements. (See the TAMUS Policy #26.99.01).

**Student Success:**
Student Success programs focus on encouraging the personal growth of students, through innovative student-centered programs that promote service, diversity, and integrity. These opportunities can empower students to engage socially, academically, and professionally to enhance lifelong learning.

**Student Counseling Center**:
The Student Counseling Center is a place where students can go for services that are designed to help handle day-to-day challenges and encourage personal growth and development. Our work provides services ranging from assistance with anxiety, depression, relationship concerns and crisis intervention. Students get the personal assistance needed in a welcoming and comfortable atmosphere. Services are available at no additional cost for students currently enrolled at A&M-Central Texas.

**University Writing Center:**
The University Writing Center (UWC) at A&M-Central Texas is a free workspace open to all A&M-Central Texas students. Students may arrange a one-on-one session with a trained and experienced writing tutor by visiting the UWC during normal operating hours (both half-hour and hour sessions are available). Tutors are prepared to help writers of all levels and abilities at any stage of the writing process. While tutors will not write, edit, or grade papers, they will assist students in developing more effective composing practices.

**University Library:**
Our 27,000-square-foot facility on the A&M-Central Texas main campus includes student lounges, private study rooms, group work spaces, computer labs, family areas suitable for all ages, and many other features. Services such as interlibrary loan, TexShare, binding, and laminating are available. The library frequently offers workshops, tours, readings, and other events. The University Library provides many services in support of research across campus and at a distance. We offer over 200 electronic databases containing approximately 250,000 eBooks and 82,000 journals, in addition to the 72,000 items in our print collection, which can be mailed to students who live more than 50 miles from campus. Research guides for each subject taught at A&M-Central Texas are available through our website to help students navigate these resources. On-campus, the library offers technology including cameras, laptops, microphones, webcams, and digital sound recorders.

Research assistance from a librarian is also available twenty-four hours a day through our online chat service, and at the reference desk when the library is open. Research sessions can be scheduled for more comprehensive assistance, and may take place on Skype or in-person at the library. Assistance may cover many topics, including how to find articles in peer-reviewed journals, how to cite resources, and how to piece together research for written assignments.

**Student Conduct:**
The Office of Student Conduct supports the educational mission and goals of the university and is focused on student learning by challenging students to uphold high standards of personal and academic integrity. This is achieved through a procedurally sound conduct process with personal accountability, fairness, community, and learning as bedrock principles. To submit a referral for a possible violation of our standards, visit our online referral form [https://cm.maxient.com/reportingform.php?TAMUCentralTexas](https://cm.maxient.com/reportingform.php?TAMUCentralTexas). For the most up-to-date Code of Student Conduct and applicable expectations, visit the Student Conduct webpage [https://www.tamuct.edu/student-affairs/student-conduct.html](https://www.tamuct.edu/student-affairs/student-conduct.html).

**Student Complaints:**
Prior to filing a formal complaint, students are encouraged to resolve the concern directly with the individuals involved. Students will find that most situations can be effectively addressed in this manner. The right of a student to a prompt and equitable resolution of the complaint so filed
shall not be impaired by the student's pursuit of other remedies, such as filing of a complaint with the responsible federal department or agency. Students are provided opportunities to specifically address complaints through established university procedures for sexual or gender-based discrimination, employment, admissions to the university, disciplinary action, parking citations, academic matters, and grade appeals. The following procedures should be followed for handling other concerns not listed above.

Prescribed Process
1. Any student, hereinafter referred to as the student, wishing to file an appeal of the resolution, the student shall initially file a formal grievance in writing to the Associate Dean of Student Affairs, herein referred to as the administrator. If the grievance is against the Associate Dean of Student Affairs, then the student should notify in writing the Dean of Student Affairs.

A. The written notice should state the specific grievance; student's name, address, and telephone number; specific date(s); if possible, names of other persons allegedly involved as either witnesses or participants; and specific remedies sought. The written grievance must be signed and dated by the student, and submitted within 30 business days of the alleged incident. Determination as to whether complaints submitted after this deadline will be considered on a case-by-case basis by the administrator.

2. After the grievance is received, the investigative period may last up to 30 business days; extenuating circumstances may cause the University to deviate from the defined time frames. An investigation shall follow the submission of the grievance.

A. The administrator shall conduct the investigation or appoint a university or system investigator, if necessary. The administrator will take reasonable measures to avoid any and all conflicts of interest in selecting the investigator. The investigator will gather all facts pertaining to the grievance and submit those in writing to the administrator.

B. This procedure ensures thorough investigations, affording all involved parties an opportunity to submit evidence relevant to the grievance.

3. The administrator shall send a written resolution to the student with the outcome(s), reason(s) for the decision, any remedies afforded, if any, and notice of the appeals process. The administrator shall also forward a copy of the resolution to the employee overseeing the area or individual and be kept on file for one calendar year in the Office of Student Affairs.

Appeal
1. If the student wishes to file an appeal of the resolution, the student shall notify the Dean of Student Affairs of the appeal in writing with a copy of the initial student grievance and copy of the administrator's written resolution. The written appeal must be signed by the student, and submitted within 10 business days of the administrator's resolution. Determination as to whether appeals submitted after this deadline will be considered on a case-by-case basis.

2. An investigation shall follow the submission of the appeal. The Dean of Student Affairs will appoint an impartial panel consisting of 3 employees within the University or system. The Dean of Student Affairs will take reasonable measures to avoid any and all conflicts of interest in selecting the panel. Within 30 business days of receiving the appeal, the panel shall submit their decision in writing to the student with the outcome(s), reason(s) for the decision, any remedies afforded, if any. Extemporaneous circumstances may cause the University to deviate from the defined time frames. The panel shall also forward a copy of the resolution to the Office of Student Affairs and be kept on file for one calendar year. The resolution or outcome from the appeal is final.

Other Resources:
Emergency or Immediate Assistance
To report immediate threats to life or property or if you require emergency assistance, please contact the University Police Department at (254) 501-5800 or call 911.

Texas A&M University System
The Texas A&M University System also maintains an on-line system for reporting waste, fraud, abuse or other serious ethics violations. It is available at: http://www.ethicspoint.com or by calling (888) 501-3850.

Texas Higher Education Coordinating Board (THECB)
This student complaint procedure complies with the U.S. Department of Education’s "Program Integrity" regulations, which require each state to have a student complaint procedure in order for public and private higher education institutions to be eligible for federal Title IV funds. Current, former, and prospective students may initiate a complaint with THECB by visiting the Coordinating Board website. The THECB adopted rules codified under Title 19 of the Texas Administrative Code, Sections 1.110 – 1.120, on October 25, 2012.

Department of Defense Postsecondary Education Complaint System
Military-affiliated students may submit a complaint if they believe A&M-Central Texas is failing to follow the Principles of Excellence established by the President's Executive Order. Examples of education-related issues may include, but are not limited to, misrepresentation or deceptive actions with regards to private or institutional loans, high-pressure recruitment tactics, false representations about degree programs, and misleading statement regarding accreditation. Students may submit a complaint at https://www.militaryonesource.mil/education-employment/for-service-members/choosing-a-college/postsecondary-education-complaint.

Accrediting Agency: Southern Association of Colleges and Schools, Commission on Colleges (SACSCOC)
Information about filing a complaint with the university's accrediting agency, the SACSCOC, can be found on the website. Please note that the SACSCOC complaint process is not intended to be used to involve the Commission in disputes between individuals and member institutions or to cause the Commission to interpose itself as a reviewing authority in individual matters; nor does the policy allow the Commission to seek redress on an individual's behalf. The primary purpose of the SACSCOC complaint procedure is to acquire valuable information regarding an accredited institution's possible non-compliance with accreditation standards, policies and procedures rather than to resolve individual disputes.

Graduate School Information
History
The Texas A&M University System Board of Regents approved graduate degree programs at the master's level for Tarleton State University on November 26, 1969, and for A&M-Central Texas through Tarleton State University on May 26, 2009. Meeting in special session at College Station, the Coordinating Board of the Texas College and University Systems granted approval on December 4, 1969, for three initial master's-level programs, setting the fall semester of 1971 as the effective date of graduate course offerings for the programs.
Administration

Administration of the Graduate School is the responsibility of the Director of the Graduate School. The Graduate Council, comprised of graduate coordinators from each college, assists the Director of the Graduate School in establishing graduate policies and standard administrative procedures. The Director of the Graduate School promotes the mission and goals of the Graduate School and has the authority to act for the administration and Graduate Council within the limits of policy.

Vision

The Graduate School at A&M-Central Texas aspires to provide accessible and rigorous graduate programs and research within an applied framework. We are dedicated to providing the highest cognitive and affective education and research, while increasing regional, state, national, and global connections for all scholars.

Mission

The Graduate School at A&M-Central Texas is a diverse mixture of educator-scholars and learners committed to accessibility and excellence in graduate education, service, and research to enhance knowledge, skills, and abilities. All graduate programs strive for continuous improvement through benchmark assessments, including internal and external peer review.

Values

The Graduate School at A&M-Central Texas provides support to the university core values within a framework based on “Service of Excellence.”

University Core Values

- Excellence & Achievement
- Compassion
- Integrity
- Knowledge
- Diversity
- Initiative
- Collaboration

Graduate Admissions Procedures

Admission to the Graduate School

Admission to the Graduate School is overseen by the Director of the Graduate School. Applicants seeking admission must present the following credentials and materials indicating their ability to successfully pursue graduate-level work:

1. Submit a completed application for graduate admissions by visiting www.applytexas.org (http://www.applytexas.org). Applications must be received by the deadlines indicated in the current university calendar.
2. Submit the 200- to 300-word admission essay addressing academic and career goals. The essay must either accompany the electronic application for admissions or be sent directly to the Graduate School at graduateschool@tamuct.edu (graduatestudies@tamuct.edu).
3. Remit the application-processing fee either through the electronic application or at the Business Office (https://www.tamuct.edu/business-office) by cash, check, money order, or credit card.
4. Submit official transcript(s). Provide official copies of transcript(s) from each previously attended college or university. Transcripts must indicate the date of degree conferral for the baccalaureate and/or graduate degree and must convey good standing. Official transcripts must be delivered in sealed envelopes to the Office of the Graduate School, or emailed by secure electronic transcripts exchange (e.g., eScrip-Safe, National Student Clearing House, Parchment, or Credentials Solutions) from participating institutions directly to graduateschool@tamuct.edu (graduatestudies@tamuct.edu).
5. If required, scores on the General Test of the Graduate Record Exam (GRE) or Graduate Management Admission Test (GMAT) should be sent directly to the Graduate School by the respective testing service.
6. Provide proof of bacterial meningitis vaccination for students aged 21 and under.

Beyond general requirements for admission to the Graduate School, departments may set additional standards for admission to degree programs, subject to administrative approval. Please contact the specific graduate coordinator for additional graduate admission requirements.

Transfer Students within U.S.

Applicants to A&M-Central Texas who have attempted graduate-level credit at another regionally accredited U.S. institution after attaining a bachelor’s degree will be considered transfer students. Applicants must be eligible for re-enrollment at their last attended college or university and must submit final official transcripts from each college or university attended. For students who have previously attended A&M-Central Texas, both transfer work and A&M-Central Texas work will be combined to determine a cumulative GPA. Transferred developmental and similar non-college credits will not be used to determine the required GPA for transfer admission eligibility.

Sexual Assault Prevention Training

In accordance with Texas House Bill No. 699 and the Campus Save Act/Clery Act, A&M-Central Texas provides mandatory orientation/training on the university’s sexual assault policy. This orientation/training is mandatory for all incoming and transfer students. Students will receive the required training information in their student email within the first two weeks of class. Students who do not complete the required training will not be allowed to progress from one semester to the other until the training is complete.

Graduate Admissions Requirements

Conditional Admission

Students are conditionally admitted to the Graduate School at A&M-Central Texas. Full admission occurs at the graduate program level.

Conditional admission is awarded to applicants who meet the following requirements:

- Successful submission of a completed application, including fee, through www.applytexas.org (http://www.applytexas.org);
- Attainment of a bachelor’s degree or higher from a regionally accredited U.S. institution or the equivalent from a foreign institution;
- A minimum 2.5 GPA earned on the last 60 hours of coursework completed, to include all courses in the semester where the 60th hour occurs;
• If an applicant's GPA is between 2.5 and 2.99, acceptable minimum GRE or GMAT scores must be submitted prior to beginning any coursework. Only official score reports will be accepted. These must be sent directly to the Graduate School by ETS or Pearson Education. NOTE: Some graduate programs require GRE scores for program admission, regardless of GPA;
• Proof of bacterial meningitis vaccination for students aged 21 and under.

Admission will not be granted to a student with a GPA less than 2.5 on the last 60 hours (to include all courses in the semester where the 60th hour occurs) for coursework completed. Students who know they have a GPA less than 2.5 on the last 60 hours (to include all courses in the semester where the 60th hour occurs) for coursework are encouraged to improve their GPA through the post-baccalaureate or non-degree seeking (NDS) option.

When a student entering the program on conditional admission has satisfied all conditions, he/she may be granted full admission after receiving a recommendation by the academic department. The graduate program coordinator will inform the student when he/she has obtained full admission. Conditional semester is intended for one semester only.

Applicants who, for reasons beyond their control, cannot provide official documents required for admission to the Graduate School by the time of initial enrollment may be admitted as a Conditional Admission/Requirements Not Met for one semester pending receipt of the required documents. If a graduate student does not submit all official documents within the first semester, the student will not be allowed to continue until the documents are on file.

With conditional admission, a student may proceed to take classes at a full load or lower each semester. All graduate students are encouraged to maintain a full load or lower to support full retention of learned skills.

Full Admission
Admission to any graduate degree program is granted by the Director of the Graduate School upon recommendation of the department of proposed study. Full admission is awarded to applicants who meet all of the following requirements:
• Conditional admission to the Graduate School at A&M-Central Texas;
• Admission to the graduate program; and
• Current degree plan on file.

Completion of specific program requirements may be required for full admission to selected graduate programs. Conditional admission may be granted by the Graduate School until full admission is obtained. Please contact the specific graduate coordinator for additional graduate admission requirements. Contact information is available from the Graduate School.

Full admission allows a graduate student to progress at maximum loads or lower. All graduate students are encouraged to carry a full load or lower to support full retention of learned skills. Maximum loads are discouraged unless graduate students are not working.

Other Categories of Admission
Provisional Admission (A&M-Central Texas Undergraduates Only)
An undergraduate enrolled in a bachelor's degree program at A&M-Central Texas may be considered for provisional admission to the Graduate School. Provisional admission is awarded to applicants who meet all the following requirements:
• Student must be within 12 hours of completion of a bachelor's degree;
• Student has submitted a completed "Graduate Provisional Form"; and
• Student has a minimum GPA of 3.0 on the last 60 hours (to include all courses in the semester where the 60th hour occurs) of undergraduate coursework.

Provisional admission allows undergraduate students to take up to 12 hours of graduate credits, with no more than 6 graduate hours per semester. Provisional admission students must register for classes through the Graduate School. No graduate coursework may be counted toward an undergraduate degree.

Provisional admission students must complete a Graduate Admission application through ApplyTexas and meet university admission requirements when ready for admission to the Graduate School. NOTE: Provisional students are subject to graduate student policies.

Post-Baccalaureate Student
Post-baccalaureate admission allows prospective graduate students to improve their GPA if significant GPA issues exist for admission to the Graduate School. Post-baccalaureate students are subject to the same requirements and regulations that apply to undergraduates; they must meet the academic progress standards applicable to undergraduates and are subject to the same probation/suspension policies.

Non-Degree Seeking Graduate Student
Applicants who indicate that they do not choose to seek a graduate degree but who hold a baccalaureate degree or higher from a regionally accredited college may be enrolled in graduate courses as a non-degree seeking (NDS) graduate student. The NDS option also allows potential graduate students to improve their GPA. In addition:
• NDS graduate students are not required to submit GRE or GMAT scores; however, official transcript(s) which indicate the conferral of a bachelor's degree or higher and good standing at the last college attended are required;
• NDS graduate students may take up to 18 hours of coursework; however, they waive the right to count more than 6 hours toward an advanced degree at A&M-Central Texas; and
• NDS graduate students have no assurance that coursework completed while in this classification will be applicable toward degree requirements with subsequent admission to a degree program. All graduate courses are reviewed on a case-by-case basis for transfer.

Program Entry Requirements
Most graduate degree programs at A&M-Central Texas have program entry requirements beyond those for general admission to the university. Students admitted to the university interested in one of these programs
may be eligible to enroll in certain coursework prior to program entry. The number of courses a student may complete prior to official program entry may vary by department. For additional information regarding graduate degree programs offered at A&M-Central Texas, please see the Graduate Programs section of the catalog.

**Graduate International Students**

Admission of an international student to a graduate program will be predicated upon holding a valid U.S. equivalent bachelor’s-level degree or higher from an accredited college or university. The quality of the applicant’s college-level work is judged from test scores, GPA, and writing samples. Applicants must submit a $100 (US) non-refundable application fee via the electronic application, or pay through the Business Office by cash, check, money order or credit card. Along with the application, the applicant must submit all previous university academic records, including official transcripts and evaluations of all previous university academic records, officially translated in the English language.

Evaluations must be done by recognized evaluation services and typically must adhere to standards of the American Association of Collegiate Registrars and Admissions Officers and include items such as course names, course descriptions, course credit, course grades, GPA, degree earned, and the date earned as recommended by the National Council on the Evaluation of Foreign Educational Credentials. It is the applicant’s responsibility to secure and pay for the evaluation and to ensure it is done early enough to meet admission deadlines.

In addition to providing the aforementioned documents, the applicant must meet the following requirements:

- Student must have a minimum 2.5 GPA on the last 60 hours of coursework completed, to include all courses in the semester where the 60th hour occurs;
- If the student’s GPA is between 2.5 and 2.99, acceptable minimum GRE or GMAT scores must be submitted prior to beginning any coursework. Only official score reports will be accepted, which must be sent directly to the Graduate School by ETS or Pearson Education. NOTE: Some graduate programs require GRE or GMAT scores for program admission, regardless of GPA;
- Student must have completed English 1301 and 1302 with a C or better, or submit acceptable Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) scores (TOEFL-minimum score of 80 on the Internet-based test, a minimum score of 213 on the computer-based test, or a minimum score of 550 on the paper-based test; IELTS-minimum score of 6);
- Student must submit the 200- to 300-word admissions essay addressing academic and career goals. The essay must either accompany the electronic application for admissions or be sent directly to the Graduate School at graduateschool@tamuct.edu.

The applicant may be required to complete leveling classes in a particular field of study as instituted by the department.

To obtain a visa from the American Embassy located in the applicant’s country, a prospective student must have documented evidence of financial solvency. A sponsor is obligated to endorse all expenditures for the applicant during the entire course of study. Note that a copy of all financial statement documentation must be included with the admissions packet. Check with the American Embassy for further details.

International applicants must submit two passport-style color photos taken within six months of application. The A&M System mandates that all international students have medical insurance with coverage in the United States. Students will be automatically enrolled and charged for health insurance as part of their matriculation.

All application materials must be sent to the Graduate School. Applications cannot be processed and an I-20 cannot be issued until all materials are received and the applicant is admitted into the Graduate School.

For more details about admission for international students, please contact the Graduate School at graduateschool@tamuct.edu.

**Graduate Academic Advising**

Prior to formal granting of admission to the program of study, the graduate advisor, as designated by the graduate program coordinator, assists students in planning initial coursework. Students must consult their advisors before seeking enrollment in any course that might be applied toward a master’s degree.

After receiving admission to the Graduate School and enrolling for graduate courses, the student should consult with the graduate advisor concerning the appointment of an advisory committee. The advisory committee is responsible for guiding and directing the student’s entire academic program, which includes initiating all academic actions concerning the student, developing the degree plan, and administering the comprehensive testing prior to conferral of the master’s degree. Moreover, the advisory committee—as a group and as individual members—is responsible for counseling the student on academic matters and, in the case of academic deficiency, initiating recommendations to the Graduate School.

**Graduate Transfer Information**

**Limitations on Transfer and Correspondence Courses**

Recommendations for transfer credit are originated by the graduate program faculty advisor. Upon approval from the Director of the Graduate School, the University may accept up to 12 hours of graduate coursework completed at a regionally accredited institution, inclusive of graduate coursework completed as part of any previously awarded degree.

Credit for coursework submitted for transfer from any college or university must be shown in semester credit hours or equated to semester credit hours. Coursework in which no formal grade is given, or in which grades other than letter grades (A, B, C, etc.) are given (e.g. CR, P, S, U, etc.) will not be accepted for transfer credit. Only A and B grades may be transferred. No academic work completed by correspondence courses may be applied towards graduate degree programs. Correspondence courses include those courses where faculty interaction is absent.

All courses accepted as transfer credits which are more than six years old at time of graduation will not be counted toward degree requirements.

**Graduate Degree Plan Information**

**Degree Program**

A graduate student’s program (degree plan) includes those courses listed for degree credit on the official degree plan form. All courses on the
approved degree plan must be completed with a satisfactory grade to meet requirements for the degree. Changes in an approved degree plan can be made only with a recommendation to the Director of the Graduate School from the student’s advisory committee or graduate coordinator and the chair of his/her major department.

Courses in which the student has received a final grade and that are listed for graduate credit on the approved degree plan may not normally be removed from the degree plan, although courses acceptable for graduate credit may be added. Exceptions to this policy must be approved by the student’s advisory committee or graduate coordinator, chair of his/her major department or college dean, and the Director of the Graduate School.

Degree Major
All degrees require a minimum of 18 semester hours be completed in the graduate student’s major field, with the exception of the Master of Science Liberal Studies. The graduate major requires an undergraduate background of at least 24 semester credit hours, including 12 hours of advanced courses. However, graduate students who have taken 18 hours of advanced undergraduate education courses as a prerequisite for a teaching certificate may be admitted to a Master of Education degree program. Exceptions to this requirement must be approved by the graduate coordinator and/or department chair.

Graduate Student Course Load
Load for a full-time graduate student is 9 semester hours in the fall or spring semester. Summer loads are determined by the length of the summer session in which the student is enrolled. Note: These loads refer to registration status; see Enrollment Status Descriptions for Financial Aid requirements.

<table>
<thead>
<tr>
<th>Semester Hours</th>
<th>16 week (Fall)</th>
<th>10 week (Summer)</th>
<th>8 week session</th>
<th>5 week session</th>
</tr>
</thead>
<tbody>
<tr>
<td>Max Load</td>
<td>16 hours</td>
<td>12 hours</td>
<td>9 hours</td>
<td>6 hours</td>
</tr>
<tr>
<td>Full Load</td>
<td>9 hours</td>
<td>6 hours</td>
<td>5 hours</td>
<td>3 hours</td>
</tr>
</tbody>
</table>

Enrollment Status Descriptions for Financial Aid: For financial aid purposes, enrollment requirements are the same for every semester (Fall, Spring, and Summer). Graduate students must be enrolled in at least 9 graduate-level credit hours to be considered full-time, 7 to 8 graduate-level credit hours to be considered three-fourths time, and 5 to 6 graduate-level credit hours to be considered half-time.

Note: Loads in excess of the maximum require approval from the Director of the Graduate School.

Graduate Grading System
Graduate degree credit is only granted for A, B, and C grades. A GPA of 3.0 or higher is required:

1. for all courses included in a degree plan;
2. for all the courses comprising the major field;
3. for the courses comprising the emphasis, if one is selected;
4. as a cumulative GPA on all courses; and
5. as the semester GPA.

Courses originally taken at A&M-Central Texas may not be repeated at another institution for degree credit. If a course is repeated at A&M-Central Texas, the better grade in the course shall be counted in computing the student’s GPA.

The grading system for graduate students is:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent, 4 grade points per semester hour</td>
</tr>
<tr>
<td>B</td>
<td>Good, 3 grade points per semester hour</td>
</tr>
<tr>
<td>C</td>
<td>Fair, 2 grade points per semester hour</td>
</tr>
<tr>
<td>D</td>
<td>Not Passing for graduate coursework</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete (under exceptional circumstances, see below)</td>
</tr>
<tr>
<td>IP</td>
<td>In-progress (used for non-completed thesis coursework)</td>
</tr>
<tr>
<td>Q</td>
<td>Withdrawal from course, no grade designated</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal from university, no grade designated</td>
</tr>
<tr>
<td>WF</td>
<td>Withdrawal failing from university (included in GPA)</td>
</tr>
<tr>
<td>P</td>
<td>Pass</td>
</tr>
<tr>
<td>S</td>
<td>Satisfactory</td>
</tr>
<tr>
<td>U</td>
<td>Unsatisfactory</td>
</tr>
<tr>
<td>NG</td>
<td>No credit</td>
</tr>
</tbody>
</table>

The lowest passing grade is a “C.” Students should consider the fact that some universities and colleges do not accept a “C” in transfer.

A student who drops a course on or before the census date receives no grade, and the course will not be listed on that student’s permanent record.

The grade of “I” shall be recorded for a student only in cases of extraordinary circumstances. This entry is used only in the event the instructor and his/her department chair or college dean have concurred that the incomplete entry is justified. A grade of "I" must be made up by the end of the next long semester and in all cases before registering for the next sequential course. If this grade is not made up within the prescribed time limit, it automatically becomes an “F.”

Internships in Education not completed during the first semester of registration will receive a letter grade of "I." Registration will be permitted for the following semester, at which time a letter grade will be awarded upon satisfactory completion of the required work. If the work is not completed during the subsequent semester, the "I" received the previous semester will become "NC," and a letter grade of "F" will be placed on the transcript for the subsequent semester’s work.

Eligibility for Honors Graduation
Graduate students are not eligible for institutional honors. Graduate students are eligible for the Distinguished Graduate designation only.

Graduate Student Performance
Every student enrolled in the Graduate School is required to maintain a high level of performance and comply fully with the policies of the institution. Students who have achieved admission are expected to
maintain a minimum 3.0 GPA on work completed at A&M-Central Texas. The Graduate School reserves the right to suspend any graduate student who does not maintain satisfactory academic standing or fails to conform to university regulations. NOTE: Failure to maintain satisfactory academic standing in the final semester prevents degree conferral, regardless of overall GPA.

**Probation** — At the end of any grading period, if a student’s semester or overall GPA falls below the required minimum as set by the department (at least a minimum 3.0 GPA), she/he will be given notice of unsatisfactory academic performance and will be put on probation. The student must attain a 3.0 cumulative GPA during her/his next period of enrollment. Failure to do so will result in suspension.

**Suspension** — At the end of any grading period, if a student’s semester or overall GPA falls below a 2.0 she/he will be automatically suspended and may not attend classes for one long semester or the summer term. Upon return from suspension, a student must sign a contract with the Graduate School stipulating the conditions that must be met for the following term. At a minimum, the graduate student must maintain a minimum 3.0 GPA for every semester thereafter. Additional stipulations may be created on a case-by-case basis. A graduate student is allowed one suspension. If poor academic performance results in a second suspension, the student will be dismissed from the current program and may be permanently dismissed from the university. Dismissal from a second program will result in permanent dismissal from the university.

**Suspension Appeal** — Under exceptional conditions, a student may write a letter of appeal to the Graduate School. Reinstatement will be considered on a case-by-case basis and approved only one time by the Director of the Graduate School or designee. There is no appeal beyond the Director of the Graduate School.

### Class Attendance

The university strongly encourages class attendance and participation as a means to acquire knowledge but does not maintain an institution-wide attendance policy. Faculty members are responsible for establishing the attendance and participation policy for each course and outlining if and when make-up work will be accepted. Notification of attendance and participation requirements should be available at the start of each semester via the course syllabus. Students may request make-up consideration for valid and verifiable reasons, such as illness, death in the immediate family, legal proceedings, or participation in university-sponsored activities. Students participating in university-sponsored activities are responsible for obtaining a written explanation for their absence from the faculty/staff member responsible for the activity. In all cases, students are encouraged to notify the faculty member of the course(s) in advance of any absence. Faculty are required to submit initial attendance verification to the Registrar’s Office by the census date for each part of term. Failure to attend or participate in a course may also negatively affect a student’s financial aid eligibility.

### Important information for Pregnant and/or Parenting Students

A&M-Central Texas supports students who are pregnant and/or parenting. In accordance with requirements of Title IX and related guidance from US Department of Education’s Office of Civil Rights, the Dean of Student Affairs’ Office can assist students who are pregnant and/or parenting in seeking accommodations related to pregnancy and/or parenting. Students should seek out assistance as early in the pregnancy as possible. For more information, please visit the Student Affairs (https://www.tamuct.edu/student-affairs) web page. Students may also contact the institution’s Title IX Coordinator. If you would like to read more about these requirements and guidelines online, please visit the website https://www2.ed.gov/about/offices/list/ocr/docs/dcl-know-rights-201306-title-ix.html.

Title IX of the Education Amendments Act of 1972 prohibits discrimination on the basis of sex and gender—including pregnancy, parenting, and all related conditions. A&M-Central Texas is able to provide flexible and individualized reasonable accommodation to pregnant and parenting students. All pregnant and parenting students should contact the Associate Dean in the Division of Student Affairs at (254) 501-5909 to seek out assistance. Students may also contact the University’s Title IX Coordinator.

### Drops and Withdrawals

#### Dropping a Course

A course drop occurs when a student notifies the institution they wish to cease enrollment in one or more courses while remaining enrolled in at least one course at the institution during the same semester. A student who wishes to drop a course(s) must submit a completed Drop Request Form to the Registrar’s Office. The effective course drop date is the date the form is received by the Registrar’s Office. A student who drops a course(s) after census date and on or prior to the last date to drop course(s) will receive a grade of Q. A student who ceases participation in a course(s) but fails to officially drop prior to the last date to drop a course will be assigned a grade by the instructor of record. The official census date and the last date to drop a course(s) are listed in the chart below and are available on the university calendar.

Faculty cannot drop students; this is always the responsibility of the student. The Registrar’s Office will provide a deadline on the Academic Calendar for which the form must be completed, signed and returned. Should the student miss the deadline or fail to follow the procedure, you will receive an F in the course, which may affect your financial aid and/or Veterans educational benefits.

#### Withdrawal from the University

An official withdrawal occurs when a student notifies the institution they wish to cease enrollment in all courses during a specific semester. A student who wishes to withdraw must submit a completed Official Withdrawal Request Form to the Registrar’s Office. The effective date of the withdrawal is the date the form is received by the Registrar’s Office. A student who withdraws after census date or on or prior to the last date to withdraw will receive a grade of W in all courses. A student who withdraws after the last date to withdraw with a W grade will receive a WF grade for all courses. A student receiving a WF grade may appeal to the instructor for a change of grade to a W if he/she was passing at the time of the withdrawal. Students who cease participation in all courses but fail to officially withdraw will be assigned a grade by the respective instructor of record. The official census date and the last date to withdraw with a W are listed in the chart below and are available on the university calendar.

holds on registration and release of information

the university reserves the right to place holds on student records when obligations to the university have not been met. obligations may include, but are not limited to, academic advising, outstanding account balances, incomplete admissions documentation, library fines, parking fines, etc. holds may restrict a student’s ability to register for courses, obtain transcripts, obtain a diploma, and/or other university-related activities.

financial obligation for graduating students

according to texas education code § 54.007 (c), all financial obligations to the university must be paid by the end of the semester. failure to settle all financial obligations will result in withholding a student’s diploma at graduation. additionally, a block will be placed on the student’s account which will prohibit registration in subsequent semesters and receipt of official transcripts.

citations

• texas education code § 54.007 (c) states “a student who fails to make payment prior to the end of the semester may be denied credit for the work done that semester.”

graduate school restricted activities period

a restricted activities period is enforced each long semester, beginning prior to the start of final examinations and continuing through the last day of final examinations. during the restricted activities period, no examinations may be administered other than finals, no major assignments may be due, and no student activities may be held. dates for the restricted activities period are published in the university calendar.

requirements for master’s degrees and certificates

research requirement

all students seeking a master’s degree must have at least three credits for an approved research course. approved research courses are designated at the graduate program level.

completion time limit

course credits more than six years old at the time of application for graduation may not be counted for a degree. graduate students unable to maintain continuous enrollment may, on a case-by-case basis, be granted an extension. for military members who have deployed and as a result are unable to continue classes, the time limit may be extended. the extension may not exceed the period of deployment, as indicated on orders. for further clarification, contact the graduate school.

application for degree conferral

a candidate for a degree must apply for the degree by submitting an “application for graduation”–online through warrior/web–to the registrar’s office no later than the deadline for submission of the application for graduation, as specified in the university calendar.

deadlines for submitting an application for graduation are strictly enforced. a $50 graduation application processing fee is required at the time the application is submitted. students who miss the late application deadline will be charged a $20 late fee and will be eligible for conferral only. students failing to meet degree requirements in the semester in which they have applied to graduate must reapply and re-pay the graduation application processing fee.

comprehensive exams

candidates for all graduate degrees at a&m-central texas must satisfactorily pass a comprehensive examination, thesis, or designated culminating project. a graduate student must be fully admitted to the respective graduate program before he/she will be allowed to take the comprehensive examination.

the policies and procedures for the comprehensive examinations are available in the program office of the student’s major field of study. early in their degree program, graduate students should review the requirements for taking the examination. comprehensive examinations require written examinations, which must be scheduled early in the semester in which they are to be administered. consult the university calendar for deadlines for submission of comprehensive examination results to the graduate school.

the oral examination, when required in addition to the written examination, is conducted by the student’s advisory committee. a representative of the graduate school may be invited to participate in this examination.

students whose performance on the comprehensive examination is unsatisfactory may reschedule an examination at the next regular administration or (at the discretion of the advisory committee, graduate coordinator, and department chair involved) at an earlier date. unless departmental requirements are more limiting, students who attempt the comprehensive examination three times and are not successful will be dropped from the graduate program. no appeal exists beyond the three attempts to pass the comprehensive examination. students are urged to drop the course prior to the scheduled examination date if they do not intend to sit for the examination, as a no show will be considered a failed attempt.

thesis information

not every graduate program at a&m-central texas requires a thesis for degree completion. students must have full admission to a degree program and the permission of the department chair to enroll in a thesis course. a thesis will not be accepted unless a student has completed a minimum of six semester hours of thesis coursework. the a&m-central texas thesis manual, which contains details regarding the preparation and submission of a thesis for approval, is available on the graduate school (https://www.tamuct.edu/graduate-studies) website. students who plan to pursue a thesis should obtain a copy of this manual early in their graduate programs.

thesis credit

students who begin to write a thesis are required to enroll each semester, to include summer, in at least one thesis hour until the thesis is completed. those who make satisfactory progress will be given the grade of "ip/s." the thesis grade of "s" is not included in the gpa calculation for the degree. only six hours of thesis credit will count towards the required
hours. Students may not exceed the six-hour limit without the approval of the Graduate Coordinator or the Director of the Graduate School.
Graduate Programs

A&M-Central Texas Graduate School welcomes interest from eligible undergraduate students year-round. The Admission to the Graduate School (p. 21) web page includes instructions on how to begin. A&M-Central Texas offers the following graduate programs:

College of Arts and Sciences

Master of Arts (M.A.)
- English (p. 29)
- History (p. 29)

Master of Criminal Justice (MCJ)
- Criminal Justice (p. 31)

Master of Science (M.S.)
- Homeland Security (p. 33)
- Liberal Studies (p. 33)
- Mathematics (p. 34)

College of Business Administration

Master of Business Administration (M.B.A.)
- Business Administration (p. 35)

Master of Science (M.S.)
- Accounting (p. 37)
- Information Systems (p. 37)
- One Planet Leadership (p. 38)

College of Education

Master of Arts (M.A.)
- Teaching (p. 39)

Master of Education (M.Ed.)
- Curriculum and Instruction (p. 41)
- Educational Leadership (p. 43)
- Higher Education Leadership (p. 44)

Master of Science (M.S.)
- Clinical Mental Health Counseling (p. 45)
- Educational Psychology (p. 46)
- Marriage and Family Therapy (p. 47)

Specialist in School Psychology (S.S.P.)
- School Psychology (p. 48)
M.A. English

Overview

The Master of Arts in English at A&M-Central Texas is a flexible, 36-credit hour program designed to help students cultivate a unique professional identity. Through seminars boasting small class sizes and strong faculty mentorship, students can expect to develop expertise in English Studies both in and out of the classroom. Our faculty focuses on helping you contribute to ongoing scholarly conversations and will work with you to find relevant conference and publishing opportunities.

Program Level Student Learning Outcomes

1. Synthesize original contributions to the discipline by conducting research
   a. Demonstrate a scholarship-based understanding of texts (of all kinds) in their appropriate cultural, aesthetic, and historical contexts.
   b. Apply appropriate critical approaches in English studies.
2. Analyze texts using critical thinking skills
   a. Identify and explain what lenses are appropriate for analyzing texts.
   b. Perform analyses that add to scholarly understanding and provide challenging perspectives.
3. Apply clear and effective written and oral communication skills
   a. Produce written arguments and/or analyses that contribute to ongoing disciplinary scholarly conversations.
   b. Craft spoken arguments and/or analyses that contribute to ongoing disciplinary scholarly conversations.

Entry Requirements

To be admitted to the MA in English program, a student should submit the following:

1. Write a two to three-page statement of purpose regarding why you want to pursue an MA in English at TAMUCT.
2. Have earned a minimum GPA of 3.0 for your last 60 undergraduate credit hours.
3. Produce three letters of recommendation that discuss your potential to succeed in graduate school.

If you wish to be considered for an Assistantship (offered on a per semester basis), you must fill out a complete application and return to the Graduate Coordinator by May 1st (to be considered for the fall) and October 1st (to be considered for the spring).

For more on information on this, please see the section entitled “Graduate Assistantships” in the program handbook.

Notes:

1. Up to 12 hours may be taken in another area when appropriate to the student's academic goals and approved by the graduate coordinator.

2. Students not completing a thesis must enroll in an additional 6 hours of approved graduate-level electives and successfully complete a comprehensive exam to complete the degree.

M.A. History

Overview

The Master of Arts (M.A.) in History is designed to expand a student's knowledge of history and historical method, and to develop a student's research, writing, and analytical abilities in U.S., European, and world history. The degree prepares students for careers in public history, further study towards a doctoral degree, and teaching at the secondary and postsecondary levels.

Program Level Student Learning Outcomes

1. Identify connections between historical issues and life outside the classroom, and compare the historical development of their own and other cultures.
2. Think historically about the past by identifying and critiquing historical interpretations (historiographical analysis) and analyzing issues in a historical context.
36 hours are required for the degree.

Master of Arts - History With Thesis Program Requirements

suspension until the course is retaken with a satisfactory grade. If the failing grade results in suspension, the student could remain on suspension or removal from the program. If a student receives a failing grade of less than 3.0, the student could be subject to disciplinary action, including suspension or removal from the program. If at any point a student's GPA in the M.A. in History program falls below 3.0. Once any required leveling has been completed, the student will be permitted to register for graduate history coursework.

Program Admission

Once a student has completed 12 credit hours in graduate history coursework, consideration will be given for full admission to the M.A. in History program. The Graduate Coordinator will review all records submitted to the university and program at the time of the university admission decision and at the time the student was permitted to register for graduate history coursework. If not already submitted, the student will be required to submit the university admission essay and a GRE score taken within the previous six years. The Graduate Coordinator, in consultation with full-time program faculty, is responsible for making the program admission decision.

The Graduate Coordinator is responsible for communicating the program admission decision and should be the point of contact for all inquiries regarding the M.A. in History program. The Graduate Coordinator is also responsible for all advising, including assisting with the student's selection of either the thesis or non-thesis track. Students must have the approval of the Graduate Coordinator to change tracks once they have completed 24 credit hours of coursework.

If at any point a student's GPA in the M.A. in History program falls below 3.0, the student could be subject to disciplinary action, including suspension or removal from the program. If a student receives a failing grade in a course, he or she will be required to retake that course; and if the failing grade results in suspension, the student could remain on suspension until the course is retaken with a satisfactory grade.

Approved graduate-level History electives 1 21
HIST 5198 History Thesis 6

Total Credit Hours 36

1 12 Credit hours can be used in a support field. For further information consult with your graduate coordinator.

Core Requirements

The M.A. in History requires 36 hours of approved coursework, including HIST 5300 (Elements of Historical Inquiry), 5380 (Historiography and Historical Method), and one research course (HIST 5320, 5322, or 5342). In consultation with the Graduate Coordinator, a student may take 12 hours in an appropriate supporting field. A student must take coursework in United States and non-United States history.

Each student must demonstrate reading proficiency in at least one foreign language prior to completion of the degree. Proficiency will be measured by the successful completion (with a "C" or better) of 14 hours in a single foreign language (either in the undergraduate or graduate level, at the equivalent of the intermediate level).

Additional Requirements

Each student completes a thesis under the direction of a thesis advisor, who chairs the student's thesis committee. The student does not begin work on the thesis prior to completion of 24 hours of coursework and will enroll in Thesis (HIST 5198) only with the prior approval of the graduate coordinator. Six hours of Thesis (HIST 5198) may count toward graduation. Students should prepare their thesis in accordance with the procedures specified by the Office of Graduate School. Upon completion of the thesis, the student sits for an oral defense before the student's thesis committee.

Proficiency will be measured by the successful completion (with a "C" or better) of 14 hours in a single foreign language (either in the undergraduate or graduate level, at the equivalent of the intermediate level).

Additional Requirements
Each student must take a written comprehensive examination based on coursework submitted for the M.A. degree. An examination committee, composed of three faculty members, administers the examination. If the examination result is unsatisfactory, the committee allows the student to retake the comprehensive examination one additional time. Additional coursework in areas of weakness may be required.

**MCJ Criminal Justice**

**Overview**
In addition to advancing the mission of A&M-Central Texas and the College of Arts and Sciences, the mission of the Master of Criminal Justice program is to prepare students for advancement in criminal justice career fields, for further graduate study, and for teaching criminal justice at the college level. Program objectives are based on the assumption that criminal justice decision making and policy making in society require broad academic experience, innovative thinking, understanding of the theoretical foundations of the field, knowledge of appropriate research methods, and principles of administration.

Graduates are expected to be:

1. conversant with the theoretical and legal principles implicit in criminal justice administration;
2. knowledgeable about essential research contributions in the field;
3. capable of research analysis appropriate to the field; and
4. competent to assume administrative responsibilities involving decision-making in criminal justice administration.

**Program Level Student Learning Outcomes**

1. Identify current theories and research relating to criminal justice in order to implement appropriate responses to crime.
2. Apply research methods to test theory and apply in addressing public safety concerns.
3. Manage the specialized resources (physical and personnel) available to criminal justice agencies.
4. Discuss the key concepts and evaluate the application of foundational ethical systems to criminal justice practice.

**Entry Requirements**
Students will be admitted into the MCJ by faculty once the application criteria are met.

University admission to graduate studies does not guarantee admittance to the Master of Science in Criminal Justice program. To be admitted into the MCJ program, you must have:

1. Undergraduate (Graduate Coursework): To include 12 hours in upper-level undergraduate criminal justice courses. Courses must have been taken in Criminology (Criminal Justice or Sociology), Research Methods (Criminal Justice or Sociology), and Statistics (Criminal Justice, Sociology, or Psychology). Graduate-level coursework will also apply toward these requirements.
2. Essay: The applicant will submit an essay as an attachment to an email addressed to the Graduate Office. The essay should have a minimum of 1000-words, double-spaced, and typed in Microsoft Word (Times New Roman 12). It should be composed of the following:
   (1) one’s reasons for pursuing the degree, or how the student will use the degree, once awarded,
   (2) one’s personal or professional experience that relates to criminal justice practice or research, and
   (3) one’s understanding of how the bachelor’s degree (or post-graduate work) has prepared the student for graduate study in criminal justice.

**Deadlines for submitting applications are:**
August 1 for the Fall semester.
December 1 for the Spring semester.
No new students are accepted for the Summer term.

Applicants will be notified by email or letter regarding whether they are accepted into the program, within two weeks of their application for admission into the program.

**Master of Criminal Justice With Thesis - Academic Emphasis Program Requirements**
The thesis track is for students seeking to pursue an academic career in teaching, research, and doctoral-level studies. Students attending online may not select this track. Courses that are common to all emphases may be applied to all.

Courses that are common to all emphases may be applied to all. At least 36 hours are required for the degree.

1  These courses assume upper-level, undergraduate competency in applied statistics, criminology, research methods, and ethics. Lack of competency in any of these areas may require completing undergraduate coursework to satisfy competency.

2  Either CRIJ 5304 or CRIJ 5306 may be used here if not used to meet emphasis requirements.

3  CRIJ 5311 assumes upper-level, undergraduate competency in applied statistics, criminology, research methods, multivariate analysis, and ethics. Lack of competency in any of these areas may require completing undergraduate coursework to satisfy competency.
M.S. Homeland Security

Overview
Homeland Security is the study of US efforts to prevent terrorist attacks, to reduce damages that may result from such attacks, and to respond to national emergencies not tied to terrorist activities. A number of government agencies and organizations coordinate efforts in accomplishing these tasks. The academic study of Homeland Security draws on a number of disciplines at A&M-Central Texas, including computer information systems, criminal justice, management, political science, and religious studies.

Program Student Learning Outcomes
1. Describe, analyze, and critique terrorism and its activities, goals and motivations, organizational structure and tactics.
2. Discuss and critique counterterrorism concepts, tactics, organizational structure, goals and motivation.
3. Discuss and critique threats to electronic information systems and ways to prevent or mitigate such threats.
4. Apply basic management skills in planning, organizing, staffing, directing, and decision-making within the context of public agencies.
5. Apply concepts and techniques of research to the activities of terrorism or Homeland Security.

M.S. Liberal Studies

Overview
A graduate degree in Liberal Studies allows students to develop a unique scholarly identity by combining a variety of academic programs into one curriculum. The result is a more personalized degree that can more directly meet the variety of educational and professional goals today's students bring with them to a university.

The Liberal Studies graduate degree aims to address the interests and needs of working professionals seeking an advanced degree or traditional students looking to secure the foundation they need for more advanced academic pursuits.
This program holds particular rewards for students looking to develop scholarly interests that extend beyond traditional disciplinary boundaries or that naturally exist within an interdisciplinary context. All graduates will develop the skills they need to address contemporary questions or concerns through original research, and to express their findings in an effective and meaningful manner.

**Program Level Student Learning Outcomes**

1. Locate scholarly arguments within the disciplinary concerns that define them.

2. Examine one’s own scholarly interests within some established or still developing sets of methodologies and scholarship.

3. Combine and integrate the theories and methodologies from multiple disciplines. Combine and, when appropriate, integrate the theories and methodologies from multiple disciplines into one project.

4. Evaluate intellectual questions against a set of contexts including, but not limited to, political, historical, material, cultural, racial, ethical, national, and geographic contexts.

5. Author original research that exhibits the advanced critical-thinking and communication skills necessary for effective professional and other social or cultural contexts.

6. Develop habits of critical inquiry that include self-direction and self-reflection.

**Master of Science - Liberal Studies Program Requirements**

Individuals in the Graduate Studies Program, together with individuals from the College of Arts and Sciences, serve as advisors to students seeking a Master of Science in Liberal Studies (M.S.L.S.). The M.S.L.S. is an interdisciplinary degree created for those who are seeking generalized graduate-level education with one or two concentration areas, and is designed for a wide spectrum of individuals.

Courses that are common to all emphases may be applied to all. At least 36 hours are required for the degree.

Master of Business Administration

Overview
The M.B.A. program is designed to develop student leadership, decision-making, and critical-thinking abilities. Students are given opportunities to make decisions based on the critical evaluation of real-life situations. Graduate faculty members strive to prepare M.B.A. students for career opportunities and to compete in global business.

In an effort to aid in the successful completion of graduate business courses at A&M-Central Texas, students may be required to demonstrate prerequisite knowledge for certain courses prior to registration. At the initial advising appointment, students’ advisors will confirm which areas of leveling are needed in order to clear prerequisites that have been established for certain courses. Presently, some prerequisite knowledge is required in the following disciplines: Accounting, Finance, Management, Marketing, and Statistics. Prerequisite knowledge may be demonstrated through approved undergraduate coursework in that discipline or satisfactory completion of a required skills examination administered through a third-party provider, Ivy Software. Students should contact their advisor for specific leveling details.

Program Level Student Learning Outcomes
1. Demonstrate effective research and organizational skills for preparing for written or oral communications in the current business environment.
2. Demonstrate effective written communication skills appropriate for the current business environment.
3. Demonstrate effective oral communication skills appropriate for the current business environment.
4. Demonstrate knowledge of leadership principles necessary for the global business environment.
5. Demonstrate the effects of the global environment on business management and operations.
6. Demonstrate the ability to be an effective group member in a project.
7. Demonstrate proficiency in ethical decision-making through the generation of solutions for business-related problems or issues.
8. Demonstrate the ability to integrate the core knowledge into effective organizational decisions.
9. Demonstrate proficiency in analytical thinking through the research and analysis of business problems.

Entry Requirements
Students seeking admission to the Master Business Administration program will need to submit the following items:

1. GMAT scores sent directly to the Graduate School.
2. An essay of 500 words explaining your career goals and qualifications to be an asset to the MBA program.
3. One professional letter of recommendation.

M.S. Accounting Overview
The Master of Science in Accounting degree is a 30-credit-hour program that provides the coursework needed for students looking to meet the requirements of the Texas State Board of Public Accountancy to sit for the CPA Exam and advance their careers in accounting. The degree can also serve as a step towards a doctoral degree in accounting.

Program Level Student Learning Outcomes
1. Demonstrate the application of Generally Accepted Accounting Principles, Generally Accepted Auditing Standards, and Internal Revenue Code.
2. Demonstrate critical thinking by examining and evaluating alternative solutions to accounting problems.
3. Display ability to critically evaluate ethical issues in accounting.
4. Demonstrate ability to communicate technical content clearly and concisely.

Master of Science - Accounting Program Requirements
The Master of Science in Accounting (MS Accounting) program is designed to develop the student’s leadership, decision-making, and critical-thinking abilities. Students entering the program should have an undergraduate degree in accounting or students without an undergraduate degree in accounting must complete the undergraduate courses necessary to be prepared for graduate courses. Students in the MS Accounting program gain extensive experience in the research, analysis, documentation, and communication or real-world problems in accounting and taxation. The faculty strive to prepare graduate accounting students for career opportunities and to compete effectively in global business.

Courses that are common to all emphases may be applied to all. At least 30 hours are required for the degree.

Code  Title  Credit Hours

Total Credit Hours  30

M.S. Information Systems Overview
The Master of Science in Information Systems program (M.S.-I.S.) is designed to meet the needs of three distinct groups:

1. Students with a baccalaureate degree in Information Systems;
2. Students with a baccalaureate degree in another area who have information systems skills and desire to develop new career skills in Information Systems; or
3. Students with a baccalaureate degree in another area who lack information systems skills and desire to develop new career skills in Information Systems.

Students should select an advisor and discuss the courses required for their degree early in their graduate program.

The M.S.-I.S. requires completion of at least 36 hours of graduate credit. Students may choose to do a thesis as part of this degree program. The
degree is offered online, face-to-face, or a combination of the preceding two formats.

**Program Level Student Learning Outcomes**

1. Graduates should demonstrate ability to write effectively on technical and non-technical subjects in computer information systems.

2. Graduates should demonstrate ability to orally communicate effectively on technical and non-technical subjects in computer information systems.

3. Graduates should be able to work well as a part of diverse teams.

4. Graduates should be able to evaluate computer information systems solutions for business situations and select optimal solutions.

5. Graduates should be able to demonstrate the knowledge and skills in areas including, but not limited to, the ethical, legal, security, and social issues inherent in information systems.

6. Graduates should be able to demonstrate the knowledge required to engage in continued professional development.

7. Graduates should demonstrate the skills and abilities necessary to research and evaluate current and emerging trends and technologies in order to build effective organizational solutions.

8. Graduates should demonstrate an understanding of the role information systems plays in supporting organizational decision-making and for achieving competitive advantage.

9. Graduates should demonstrate the knowledge, skills, and abilities necessary to analyze business needs, and then acquire and/or design and develop the appropriate solution from existing and emerging technologies and tools.

**Master of Science - Information Systems With Thesis Program Requirements**

Courses that are common to all emphases may be applied to all. At least 36 hours are required for the degree.

**M.S. One Planet Leadership Overview**

The One Planet Leadership program is designed to prepare students for the leadership challenges that are inherent in all sectors: business, military, government, education, and nonprofit. In so doing, the One Planet Leadership program embraces the call to bring social responsibility and environmental stewardship to the mission of organizations by embedding principles of sustainability into the core curriculum and by challenging students to explore the daunting task of creating learning organizations that simultaneously maximize employee well-being, social responsibility, and performance excellence—the triple bottom line.

The A&M-Central Texas Master of Science degree in One Planet Leadership is designed for busy adults who want to improve their knowledge, abilities, and skills in management. The 36-hour program focuses on one of the most challenging responsibilities for management today—leading change. Students gain the knowledge and skills that are applicable in business, the military, government organizations, and private not-for-profit organizations.

This program is suited for students who want:

- To deepen their understanding of how organizations function;
- To increase their academic credentials;
• To increase their understanding of how to design and implement change within an organization;
• To acquire the requisite 18 hours of graduate coursework needed to teach at the undergraduate level; and
• To acquire the necessary knowledge and skills to help organizations through internal or external consulting.

Program Level Student Learning Outcomes
1. Demonstrate proficiency in applying relevant leadership theories and models to problems/issues encountered in a dynamic and complex business.
2. Formulate leadership action to foster and achieve an organizational vision and to better align organizational form and function.
3. Demonstrate the use of effective written communication skills within a leadership role.
4. Demonstrate the use of effective oral communication skills (both prepared and impromptu) within the context of a leadership role.
5. Demonstrate professionalism in collaborative team activities.
6. Make quality work contributions in collaborative team activities.
7. Analyze and evaluate corporate ethics and socially responsible behaviors in business scenarios.
8. Formulate managerial actions that foster corporate ethics and socially responsible practices.
9. Synthesize and apply their knowledge of globalization and cultural differences to their own managerial practices.
10. Identify and analyze how globalization and national cultural differences affect managerial activities in specific contexts.

Entry Requirements
Students must complete the application on ApplyTexas.

In addition, students seeking admission to the Master of Science in One Planet Leadership program will also need to submit the following items directly to the Graduate School:
1. GMAT scores (if required). Contact the graduate school to determine if required.
2. An essay of 500 words explaining your career goals and qualifications to be an asset to the OPL program.
3. Two professional letters of recommendation (contact graduate school for recommendation form).
4. Resume or CV.

M.A. Teaching Overview
Teacher Education, one of the major programs at the University, emphasizes broad general education as a foundation for mastery of teaching skills and specialized knowledge in academic discipline. The primary purpose of teacher education is to prepare highly qualified teachers for employment in Texas and the nation. The goal of the department is to develop teachers who:

1. possess appropriate knowledge and abilities in specific content areas or teaching fields;
2. communicate effectively with students, parents, and other professionals;
3. apply the principles of instructional planning in the development of curriculum;
4. use effective teaching practices;
5. formally and informally evaluate student performance and use results of such assessment in the instructional decision-making process;
6. promote critical thinking and participatory citizenship;
7. are skilled in the use of instructional technology;
8. are proficient in mathematical skills;
9. operate within the legal guidelines and uphold the ethics of the teaching profession;
10. demonstrate concern for students’ general welfare; and
11. are committed to continued professional growth and development.

Program Level Student Learning Outcomes
1. Demonstrate knowledge and skills to earn teacher certification in Texas.
2. Be employable as educators in Texas.
3. Create effective curriculum.
4. Provide high-quality instruction.
5. Conduct research on relevant issues to curriculum and instruction.

Entry Requirements
Students will be admitted into the M.A. in Teaching major by the faculty once the following application criteria are met:

• A bachelor’s degree from a regionally accredited college or university
• A minimum of 18 semester hours with no letter grade less than a “C” in the certification subject area
• A score of PASS on the Pre-Admission Content Testing (PACT) TExES (http://www.tx.nesinc.com/PageView.aspx?f=HTML_FRAG/GENRB_FacultyPACT.html)
• Successful admission to graduate school
• GRE scores if the applicant has a 2.75-2.99 GPA. Required Scores: Verbal Reasoning 157, Quantitative Reasoning 155, and Analytical Writing 4.5
• Successful completion of professional interview measuring knowledge, experience, skills, and aptitude with a combined minimum score of 45
• Successful completion of writing sample with a combined minimum score of 14
• Evidence of good moral character and the mental, emotional, and physical ability to function effectively in a classroom based on the interview

International Admissions
All applicants for Teacher Certification must demonstrate English Language Proficiency before admission.

• Completion of an undergraduate or graduate degree at an accredited Institution of Higher Education in the United States or from a country in which English is the official language, or
• Verification of satisfactory score on the Test of English as a Foreign Language-Internet Based Test (TOEFL iBT). Applicants must take all four portions and score at or above: Listening - 22, Speaking - 24, Reading - 22, and Writing - 21.

Graduates from foreign universities and colleges must submit an original Foreign Credential Review from one of the following TEA Approved Foreign Credential Evaluation Services (http://tea.texas.gov/Texas_Educators/Certification/Out-of-State_Certification/Foreign_Credential_Evaluation_Services).

Master of Arts - Elementary Education Teacher Certification Preparation
Courses that are common to all emphases may be applied to all. At least 36 hours are required for the degree.

M.Ed. Curriculum and Instruction Overview

A master's degree in Curriculum and Instruction will prepare you to analyze student data, utilize research and employ best practices to improve the quality of teaching and learning in any classroom. The courses are specifically designed to provide you with a wide range of experiences in order to serve as expert teachers and mentors in schools.

At A&M-Central Texas, we strive to provide current, relevant and rigorous material in a time frame that meets the needs of working teachers.

Program Level Student Learning Outcomes

1. Demonstrate knowledge and skills to earn teacher certification in Texas.
2. Be employable as educators in Texas.
3. Create effective curriculum.
4. Provide high-quality instruction.
5. Conduct research on relevant issues to curriculum and instruction.

Students who complete the thesis option are not required to take the Comprehensive Exam.

Students may complete six hours of thesis in lieu of six hours of Graduate content area courses.

Entry Requirements

Students will be admitted into the M.Ed. Curriculum and Instruction major by the faculty once the following application criteria are met:

• Successful admission to graduate school.
• A minimum 2.75 grade point average (GPA) overall or in the last 60 hours.
• GRE scores if the applicant has a 2.75 – 2.99 GPA. Required Scores:
  Verbal Reasoning 157, Quantitative Reasoning 155, and Analytical Writing – 4.5.
• Completed application packet, to include letter of intent, essay, two letters of reference with checklists, and interview.
• Valid Texas Teaching Certificate.
• Completed a minimum of one year of creditable teaching experience, and be currently working in a creditable teaching placement.

**M.Ed. Educational Leadership Overview**
The Department of Educational Leadership and Human Development offers degrees and certification programs designed to help students increase the skills and in-depth knowledge required for broader educational leadership roles in schools and school districts. A Master of Education in Educational Leadership with Principal Certification is available to students interested in school leadership. Additional information about educational leadership programs and contact information may be obtained at: [https://www.tamuct.edu/coe/education-leadership.html](https://www.tamuct.edu/coe/education-leadership.html).

**Program Level Student Learning Outcomes**
1. Integrate the principles of School Culture to establish and implement a shared vision and culture of high expectations.
2. Apply principles of Leading Learning to ensure students receive high-quality instruction.
3. Demonstrate principles of Human Capital to ensure faculty and staff are of the highest quality.
4. Employ the principles of Executive Leadership to model a consistent focus on and commitment to improving student learning.
5. Interpret the principles of Strategic Operations to implement systems that align with the vision and improve the quality of instruction.
6. Employ the principles of Ethics, Equity, and Diversity to implement policies to manage educational environments.

**Entry Requirements**
1. Students must complete all requirements for admission to Graduate School listed in the university catalog. Students seeking certification must apply to the program before beginning coursework.
2. For admission to the Educational Leadership Master’s Degree with Principal Certification Program, a student must submit a formal application to the Program Coordinator of M.Ed. with Principal certification. This application serves as a basis for admittance to the program and for advising the student with regard to general graduate and certificate requirements, coursework, and degree requirements.
The application for admission to the A&M-Central Texas Educational Leadership Program requires that a student submit the following:

a. three (3) letters of reference, one of which must be from the student’s current supervisor;

b. a 500-word essay with artifacts concerning both experiences in fulfilling personal and professional leadership responsibilities as well as future career goals as an educational leader; and

c. documentation of at least two (2) years of creditable teaching experience.

d. Overall GPA of 2.75.

e. GRE Scores: Verbal-143 or higher, Quantitative-140 or higher, if GPA requirement is not met.

Admission to the program does not guarantee recommendation for certification. To be recommended for certification, students must meet all program requirements and satisfy the requirements for recommendation for certification.

**Master of Education - Educational Leadership with Principal Certification Program Requirements**

Courses that are common to all emphases may be applied to all. At least 36 hours are required for the degree.

**Total Credit Hours** 36

**Comprehensive Examination Requirements:**

1. Examinees must have a degree plan on file.
2. Examinees must complete an application.
3. Examinees must register for the comprehensive exam course

Faculty administer examinations three times per year according to the following schedule:

1. April (Application Deadline - March 1)
2. July (Application Deadline - June 1)
3. November (Application Deadline - October 1)

Note: Permission from the graduate advisor, the Dean of the College of Education, and the Director of Graduate School is required for faculty to administer the examination at any time other than the regularly scheduled dates.

**MEd Higher Education Leadership Overview**

The M.Ed. in Higher Education Leadership provides a relevant, accelerated, and cost-effective graduate program for aspiring college and university administrators. Led by experienced and insightful faculty, the program coursework is designed to provide a comprehensive context for the higher education professional with leadership aspirations and can be completed in 12 months. Specifically, coursework includes higher education history, institutional administration, research methodology, organizational change, student development, human and financial resource management, and higher education law. Designed to be a collaborative, cohort-based graduate education, students learn in a team-based environment, blending real-world experience with theoretical frameworks focused on best practices.

**Program Level Student Learning Outcomes**

1. Develop a broad-based foundation in higher education history, organization, and administration.
2. Select appropriate conceptual frameworks to guide their practice.
3. Synthesize a leadership philosophy from both theory and practice.

**Master of Education - Higher Educational Leadership - Organizational Change Emphasis Program Requirements**

Courses that are common to all emphases may be applied to all. At least 30 hours are required for the degree.

M.S. Clinical Mental Health Counseling

Overview
The Master of Science in Clinical Mental Health Counseling, a 60 semester hour program, prepares professional counselors to work in community agencies, educational settings, as well as private practice. Our faculty are committed to graduating students who have exemplary theory-based knowledge and skills in counseling and who have demonstrated aptitude in providing counseling and mental health services to people from diverse backgrounds.

Our master's in Clinical Mental Health Counseling program is intended for students seeking licensure as Licensed Professional Counselors (LPC) in Texas.

Program Level Student Learning Outcomes
1. Demonstrate competency in CACREP's eight core areas of curricular experience.
2. Practice foundational counseling techniques and micro-skills.
3. Apply ethical standards and engage in ethical counseling in professional practice.
4. Counsel diverse populations.
5. Maintain a professional identity, as well as professionalism and fitness to practice as a professional counselor.
6. Conduct research and statistical analysis.

Entry Requirements
Students will be admitted into the M.S. Clinical Mental Health Counseling program by the faculty once the following application criteria are met:

• Completed Counseling and Psychology Department application.
• Bachelor's degree from a regionally accredited institution.
• Minimum GPA of 3.0.
• Submission of GRE test scores. This requirement is waived only for applicants who have already earned a graduate degree from a regionally accredited institution.
• Clinical/Work/Volunteer Experience: While specific experience is not required, previous related work experience may make the applicant more competitive.
• Timely submission of admission materials.

M.S. Educational Psychology

Overview
The Master of Science in Educational Psychology program, with an emphasis in Experimental Psychology, strives to advance psychological science through teaching, research and service. Students will engage in experiences that develop psychology-specific knowledge, critical thinking abilities, scientific writing abilities, and statistical analysis skills. Students will be challenged to integrate theory with empirical research in applications that serve others as citizens of a globally connected community.

Students who graduate with the Educational Psychology degree with its focus on Experimental Psychology are prepared for entrance into doctoral programs and research-based fields. Students who do not pursue doctoral work find careers in a variety of fields that require research skills and data-driven decision making, as well as advancement in their current career or role.

This program is research-based, and students are required to complete a quantitative thesis research project with faculty mentorship.

Program Level Student Learning Outcomes
1. Compute and present descriptive and inferential statistical analysis of data.
2. Write summaries of existing research that address all sections of APA style manuscripts.
3. Write research reports in APA style.
4. Identify and summarize relevant psychological theories and research in content areas of specialization.
5. Analyze the limitations of existing research, articulate gaps in knowledge, and write a logical argument to justify position or project.
6. Write research hypotheses or predictions for future research that are directly supported by existing empirical research.
7. Develop and design a novel project supported by existing empirical research to address a problem, issue, or gap in knowledge.
8. Integrate research results with existing research and theory in an area to draw conclusions supported by data.

Entry Requirements
Students will be admitted into the M.S. Educational Psychology program by the faculty once the following application criteria are met:

- Bachelor’s degree from a regionally accredited institution.
- Minimum GPA of 3.0.
- Timely submission of admission materials.
- Completed Counseling and Psychology Department application.
- Submission of final GRE scores. This requirement is waived only for applicants who have already earned a graduate degree from a regionally accredited institution.
- Research Experience: While research experience is not required, any research experience applicants have should be noted in application materials.

Admission Materials

- Department Application: The "Programs of the Counseling & Psychology Department Application" on the Counseling and Psychology web page must be completed online.
- Personal Statement: An essay describing why the applicant wants to pursue a research-based career in psychology and how the degree will help him/her achieve professional and/or personal goals is required. The essay should include a description of how the applicant plans to use the degree to advance his or her career, the type of research-related profession the applicant plans to enter, the applicant’s strengths and weaknesses as they pertain to graduate-level study with an explanation of how the applicant plans to overcome the weaknesses described, and any other qualities which speak to the applicant’s interest in and potential to succeed in the Educational Psychology Program. The essay should be no less than 400 words and no more than 600 words. The essay must be typed, double-spaced, and submitted electronically as an attachment to the email address provided in the Departmental Application.
- Statement of Research Interests and Experience: An essay describing the applicant’s experience in performing research and the areas of research the applicant is interested in pursuing is required. The essay should describe all research experiences including (but not limited to) the number and types of research papers written for coursework, research-based honors projects, work with faculty members on research projects, lab assistantships (paid or unpaid), conference presentations, publications, etc. The essay should also include a description of the applicant’s ideas and plans for conducting research in the future such as the variables, samples, and/or applications that the applicant wants to explore. The essay should explain why the applicant’s interests are a good fit with the Educational Psychology Program at A&M-Central Texas. The essay should be no less than 400 words and no more than 600 words. The essay must be typed, double-
Students learn ethical responsibility to ensure professional practices are met:

- **Two Letters of Recommendation**: Two letters of recommendation explaining the applicant's academic, professional, and/or research abilities are required. These letters should address the applicant's ability to meet graduate-level academic challenges and to work in a research-related profession. Each letter should include an explanation of the author's relationship with the applicant, evidence of the applicant's relevant competencies, aptitudes, and experiences, and an overall recommendation (e.g., recommend most highly, strongly recommend, recommend, recommend with some reservations, or do not recommend). Letters should be printed and signed by the author then scanned and sent as an attachment to the email address provided in the Department Application.

- **Scores on the Graduate Record Exam (GRE)**: Submission of all scores on the General Test including the Verbal Reasoning, Quantitative Reasoning, and Analytical Writing sections is required. Scores can be no more than 5 years old at time of admission. Submission of GRE scores is waived for applicants who have already earned a graduate degree from a regionally accredited institution.

- **Resume/CV**: A résumé or curriculum vitae summarizing the applicant's education and work experiences should be submitted with the materials.

**Master of Science - Educational Psychology with Experimental Psychology Emphasis Program Requirements**

Courses that are common to all emphases may be applied to all. At least 36 hours are required for the degree.

**M.S. Marriage and Family Therapy Overview**

The Marriage and Family Therapy (MFT) master's program prepares students to effectively serve family systems in a collaborative environment conducive for working within the broader health care system through learning, therapeutic practice and community involvement. Students learn ethical responsibility to ensure professional practices and develop personal and professional growth through intentional self-awareness and self-reflection.

Students participating in our practicums will have the real-world experience serving distressed families in the Central Texas region through The Community Counseling and Family Therapy Center, as well as our practicum site partners. Our program will maintain collaborative relationships with broader healthcare organizations and agencies and will place its students in those settings to develop a critical consciousness and a systemic framework necessary to serve area families.

**Program level Student Learning Outcomes**

1. Demonstrate knowledge and appropriate application of classical and postmodern MFT theories.

2. Demonstrate basic and systemic therapeutic techniques.

3. Assess how contextual issues affect individual lives and relational dynamics.

4. Formulate and execute treatment plans based on individual issues, relational dynamics, and contextual issues.

5. Assess the influence of their social location and personal experiences on the conceptualization and intervention of cases.

6. Develop collaborative relationships with other mental health professionals and agencies within the local community.

7. Demonstrate knowledge of current trends and research methods in the field of marriage and family therapy.

**Entry Requirements**

Students will be admitted into the M.S. Marriage and Family Therapy program by the faculty once the following application criteria are met:

- Bachelor’s degree from a regionally accredited institution.
- Preferred minimum GPA of 3.0.
- Submitted GRE scores. This requirement is waived only for applicants who have already earned a graduate degree from a regionally accredited institution.
- Clinical/Work/Volunteer Experience: While specific experience not required, previous related work experience may make applicant more competitive.
- Completed Counseling and Psychology Department Application.
- Timely submission of admission materials.

**Admissions Material**

- **Departmental application**: The Departmental application can be found online at the Departmental website.
- **References**: Three professional references are required from colleagues or supervisors who can attest to the applicant’s clinical knowledge, skill, and potential aptitude for graduate study. Recommendation letters must include address, phone number, and signature of recommender. The envelope must be submitted unopened. If a recommender prefers to submit an original, hard copy letter, please remind him or her that it must include an ink signature and be submitted in a sealed envelope.
- **Personal Statement**: An essay describing your pertinent human services experiences and how they will enhance your development as a marriage and family therapist.
Resume/CV: A work experiences résumé or curriculum vitae.
Copies of any professional licenses currently held.
Most recent GRE scores.

S.S.P. School Psychology
Overview
The specialist degree in School Psychology is designed to help students achieve licensure from the State of Texas as a Licensed Specialist in School Psychology (LSSP). A LSSP is responsible for providing psychological services to public school children addressing a wide range of behavioral and emotional needs.

The National equivalent to a LSSP is known as a Nationally Certified School Psychologist (NCSP), an accreditation given by the National Association of School Psychologists (NASP). Many of our graduates will seek employment in other states and A&M-Central Texas is committed to helping our students complete all requirements to apply for the NCSP in order to practice in every state.

Class work focuses on developing skills in assessment, intervention, and consultation by preparing students to intervene in difficult situations with a positive impact. Graduates have a strong record of successful job placement with many hired in school districts throughout the region. Other graduates have continued to doctoral programs in School Psychology and related fields.

Program Level Student Learning Outcomes
1. Collaborate and consult through effective written, oral, and visual means.
2. Intervene in academic skills to promote schoolwide learning.
3. Provide mental health, family-school collaborative, preventive, and responsive services.
4. Support diversity in development and learning.
5. Use research to make data-based decisions.

Entry Requirements
Students will be admitted into the Specialist in School Psychology program by the faculty once the application criteria are met. Program requirements include:

- Bachelor’s degree from a regionally accredited institution.
- Submission of GRE scores. This requirement is waived only for applicants who have already earned a graduate degree from a regionally accredited institution.
- Completed Counseling and Psychology Department application.
- An undergraduate GPA of 3.0 or better.
- A degree in Psychology or a closely related field, or advanced degrees in other areas.
- Clinical/Work/Volunteer Experience: While specific experience is not required, previous work related work experience may make the applicant more competitive.
- Timely submission of admission materials.

SSP - Specialist School Psychology With Thesis Program Requirements
Courses that are common to all emphases may be applied to all. At least 69 hours are required for the degree.

COURSE INFORMATION

Explanation of Catalog Course Descriptions
Courses in this catalog are identified by a three- or four-digit subject code followed by a four-digit number. The first digit of the course number indicates the level or academic year of the course (1XXX - freshman, 2XXX - sophomore, 3XXX - junior, 4XXX - senior, 5XXX - master’s, 6XXX - doctoral, and 7XXX - professional). The second digit indicates the semester credit hour value of the course. The third and fourth digits indicate the departmental sequence of the course. For example, ENGL 1311 is a freshman-level English course worth three semester credit hours.

Course titles follow course identifiers.

Course descriptions include information about course content and learning objectives.

Courses offered with writing instructive sections include (WI) at the beginning of the course description.

Fees specific to a course are included in the course description (i.e., lab fees).

Prerequisites are listed at the end of each course description.

A&M-Central Texas Course Descriptions

Accounting (ACCT)

ACCT 3300. Accounting Concepts. 3 Credit Hours.
Learn basic accounting principles, concepts, and methods to include a review of general purpose financial statements and the accounting process. Financial accounting procedures are presented to support the overall managerial function. Used to provide for students without a previous accounting background. (Meets requirements for Accounting I.).

ACCT 3301. Analysis - Using Spreadsheets. 3 Credit Hours.
Learn theory and application of microcomputer spreadsheet technology applied in accounting, finance, management, and other business disciplines. Stimulate creative initiative and to develop basic skills in performing common business tasks. Credit for both CIS 3301 and ACCT 3301 will not be awarded. Prerequisite(s): ACCT 2301.

ACCT 3302. Cost Accounting. 3 Credit Hours.
Learn accounting for material, labor, and manufacturing expenses in both job order and process cost systems. Special emphasis will be given to distribution of service department cost and costing of byproducts and joint products. Prerequisite(s): ACCT 3300 or ACCT 2302.

ACCT 3303. Intermediate Accounting I. 3 Credit Hours.
Study the environment of accounting, development of standards, basic theory, financial statements, worksheets, and the application of generally accepted accounting principles for the business enterprise with emphasis on corporations. Prerequisite(s): ACCT 3300 or ACCT 2301 or permission of department chair.

ACCT 3304. Intermediate Accounting II. 3 Credit Hours.
Continue the study of Intermediate Accounting with a special emphasis on generally accepted accounting principles as applied to the business enterprise. Prerequisite(s): ACCT 3303 or permission of department chair.

ACCT 3305. Governmental Accounting. 3 Credit Hours.
Learn budgeting, accounting, and financial reporting principles and practices for governmental and other not-for-profit entities. Prerequisite(s): ACCT 3303 or permission of department chair.

ACCT 3307. Writing for Accountants. 3 Credit Hours.
(WI) Learn how to improve communication skills for those entering the accounting profession. Study written communication including letter writing, memos, emails, reports, employment resumes, and writing for publication. Special emphasis on organization of thought, critical thinking, and accounting research.

ACCT 3308. Managing Accounting. 3 Credit Hours.
Study the uses of accounting information by management. Accounting procedures and reports essential to management are emphasized, as are cost analysis, cost control, budgeting, and controllership. Prerequisite(s): ACCT 2301 or permission of department chair. Course cannot be counted as part of a degree program for an accounting major.

ACCT 3310. Accounting Information Systems. 3 Credit Hours.
Study the design and implementation of complex accounting information systems. Understand the traditional accounting model and its relationship to each type of accounting information system, including accounts receivable, inventory control, cost accounting, operational budgeting, and capital budgeting. Special emphasis on key elements of a well-designed management control system. Prerequisite(s): ACCT 2301.

ACCT 3387. Cooperative Education. 1-3 Credit Hours.
Integrate academic study with work experience that is relevant to a major or minor. Two-semester minimum requirement that may be accomplished by 1) alternating semesters of full-time study with semesters of curriculum-related employment, or 2) enrolling in courses at least half-time (6 semester hours) and working part-time in parallel positions of curriculum-related employment. Cooperative Education advisor will supervise and assign the final grades. Students may participate in the Cooperative Education but will earn only a maximum of 6 hours credit toward a degree. Prerequisite(s): Completion of 30 semester hours which includes 12 hours in the major or minor discipline in which the Cooperative Education course is desired, minimum overall GPA of 2.5 and a minimum GPA of 3.0 in the appropriate major or minor field, and permission of department chair. Field experience fee $75.

ACCT 4301. Intermediate Accounting III. 3 Credit Hours.
Study financial statement analysis and accounting topics related to financial statement presentation and disclosure. Prerequisite(s): ACCT 3304 or permission of department chair.

ACCT 4303. Advanced Accounting. 3 Credit Hours.
Analyze special phases of partnership accounting, joint ventures, consignments, installment sales, statement of affairs and accounting for insolvent concerns, and business combinations. Prerequisite(s): ACCT 4301 or concurrent registration.

ACCT 4305. Federal Tax Accounting I. 3 Credit Hours.
Study current income tax law and regulations with special emphasis on income tax legislation, treasury and court decisions, departmental rulings, income tax problems and returns, social security, and self-employment taxes. Prerequisite(s): ACCT 2301 and junior standing. Credit for both ACCT 4305 and FIN 4305 will not be awarded.

ACCT 4306. Federal Tax Accounting II. 3 Credit Hours.
Continue the study of current income tax law and tax accounting procedures. Learn about preparation of income tax returns for partnerships and corporations. Prerequisite(s): ACCT 4305 or permission of department chair. Credit for both ACCT 4306 and FIN 4306 will not be awarded.
ACCT 4323. Ethics for Accountants. 3 Credit Hours.
Learn auditing and ethical responsibilities for auditors and other accountants in both public and private practice. Study generally accepted auditing standards, the standard audit report, legal responsibilities of accountants, the Code of Professional Conduct for accountants, independence, and objectivity. Special emphasis on case studies involving ethical reasoning, ethical decision making. Prerequisite(s): ACCT 3304.

ACCT 4324. Auditing. 3 Credit Hours.
Learn procedures used by auditors and accounting practitioners to gather and evaluate information and report on their findings. Special emphasis on evaluation of internal control, planning an audit or other engagement, compliance testing, substantive testing, statistical sampling, evaluation of findings, and preparation of reports. Prerequisite(s): ACCT 3304.

ACCT 4335. Financial Statement Analysis. 3 Credit Hours.
Learn the use of financial statements to analyze the position of a firm. Study analysis techniques and limitations imposed by generally accepted accounting principles. Prerequisite(s): ACCT 3303.

ACCT 4350. Management Information Systems. 3 Credit Hours.
(WI) Study management issues related to business information systems designed to meet the informational needs of the various business subsystems. Special emphasis on the concepts of systems development, security, privacy and ethics associated with information systems. Credit will be awarded for only one of the following courses: ACCT 4350, CIS 4350, or MGMT 4350. Prerequisite(s): COSC 1301 or 3 hours of Advanced CIS or ACCT 3301 or CIS 3301 and junior standing.

ACCT 4357. Accounting Theory. 3 Credit Hours.
Study of the generally accepted accounting rules and principles that govern the practical application of accounting methods. Prerequisite(s): ACCT 3303 and ACCT 3304.

ACCT 4388. Accounting Problems. 1-3 Credit Hours.
Study of selected problems in accounting. Engage in independent research, reading and discussions under the personal direction of the instructor; topics may vary according to student need. May be repeated with permission of department chair. Prerequisite(s): Senior standing and permission of department chair.

ACCT 4389. Special Topics in Accounting. 3 Credit Hours.
Study current issues and developments in accounting. Prerequisite(s): Permission of instructor.

ACCT 5090. Comprehensive Examination. 0 Credit Hours.
Study and take the accounting examination for Non-thesis students. Register for the comprehensive examination during final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis student do not take this examination.

ACCT 5300. Foundations of Accounting. 1 Credit Hour.
Learn basic knowledge of accounting necessary to begin the MBA program. Appropriate for students who have not had prior accounting courses, or who need a refresher course, prior to their MBA studies. Study the accounting process, accounting cycle, preparation of the basic financial statements in corporate annual reports, analysis of corporate financial statements using ratio analysis, the study of cost behavior, and cost-volume-profit analysis.

ACCT 5303. Accounting and Management. 3 Credit Hours.
Study accounting as related to problems of making business and economic decisions. Learn both financial and managerial accounting. MS-ACC majors may not take this course for credit. Prerequisite(s): Required accounting leveling or permission of instructor.

ACCT 5305. Accounting Theory. 3 Credit Hours.
Study the theory of accounting as it has developed in the economy of the United States. Particular emphasis is on concepts, income measurement, and valuation of assets, including valuation and measurement of equities. Application of accounting theory to contemporary problems is analyzed with cases and research papers on selected areas.

ACCT 5310. Advanced Accounting Systems. 3 Credit Hours.
Comprehensive study of computerized accounting systems. Study design, implementation, operation, control and audit techniques of accounting information.

ACCT 5315. Business Law for Accountants. 3 Credit Hours.
Study current business law topics which concern accountants in governing their practice and working with clients.

ACCT 5320. Corporate Tax. 3 Credit Hours.
Analyze formation and capital structures, partial liquidations, S Corporations, accumulated earnings tax, and personal holding companies.

ACCT 5330. Current Topics in Auditing. 3 Credit Hours.
Explore current topics in auditing.

ACCT 5335. Estate Planning. 3 Credit Hours.
Study federal estate and gift taxation, as well as advanced family tax planning. Explore issues in taxation of decedent's estate and lifetime gifts, and valuation of properties subject to gift and estate taxes.

ACCT 5340. Ethics in Accounting. 3 Credit Hours.
Study of ethics as it relates to problems in business and economic decisions. Explore integration of ethical reasoning, objectivity, independence, and other core values important for the development of a professional accountant. Analyze ethical lapses that have occurred in business and the accounting profession, with readings, problems, and cases requiring use of business and accounting data to evaluate the ethical decision process.

ACCT 5345. Financial Statement Analysis. 3 Credit Hours.
Learn an analytical approach to the application of finance and accounting principles relevant to the analysis of financial statements.

ACCT 5350. Forensic Accounting. 3 Credit Hours.
Learn the complete cycle of investigative auditing. Examine business, through study and evaluation of internal control, and corroborative evidence on the details of account balances. Explore flow-charts, test planning, use of statistical samples, computer controls and management audits. Gain experience through team performance on an extended case audit.

ACCT 5355. International Accounting. 3 Credit Hours.
Examine accounting issues unique to multinational enterprises and international business activities.

ACCT 5360. Information Technology Audit. 3 Credit Hours.
Learn controls, issues and audit techniques to explore the use of a computer as an auditing tool. Utilize generalized audit software currently used in auditing practices. Particular emphasis on computer fraud, security measures and controls in advanced online, teleprocessing systems.
ANTH 3300. Cultural Anthropology. 3 Credit Hours.
Explore culture and the different attitudes toward cultural diversity in a postmodern, global community. Special emphasis on prehistory, subsistence, economic anthropology, political anthropology, cultural eras, the rise of state societies, and kinship systems. Learn theories and methods of anthropology, and survey the history of the discipline.

ANTH 3301. Cultural Sensitivity. 3 Credit Hours.
Examines culture and its influence on human life. Explores the basic principles of cultural anthropology that leads to interpretations of different cultures. Exposes the student to the theories, data, and critical thinking skills needed to understand global humanity.

ANTH 3305. Wicca and Neo-Paganism. 3 Credit Hours.
A critical examination of Wicca and Neo-pagan groups in the US. Explores the history of such groups and exposes the student to academic research in this area.

ANTH 3320. Archaeology. 3 Credit Hours.
Study the history of archaeology, its theories, methods, and current techniques in site excavation. Examine archaeological cultural complexity by studying hunter-gatherer and state societies in a worldwide overview, as well as within bioarchaeology, CRM work, and NAGPRA.

ANTH 3321. Archaeological Discoveries. 3 Credit Hours.
Study the historical development of the field of archaeology through investigating the most important archaeological discoveries of the past and present. Critique hoaxes and archaeological myths and learn how archaeologists have dispelled them to develop the science of archaeology.

ANTH 3322. Archaeology of Warfare and Violence. 3 Credit Hours.
Study the complex history of warfare in different time periods and world regions with archaeological record. Explore the development of warfare in preindustrial societies, and review the current state of warfare research in archaeology. Special emphasis on the bioarchaeology of conflict.

ANTH 3340. Biological Anthropology. 3 Credit Hours.
Examine the evolutionary processes acting on human populations, through an anthropological study of human biology. Learn non-human primate anatomy, primate classification and ecology, and explore the primate paleontological record. Special emphasis on human variation and adaptation.

ANTH 3372. Sociolinguistics. 3 Credit Hours.
Study of the relationship of language and society as shown in the following areas: language change, language variation and social class, pidgin and creole languages, and language policy and planning. This course is cross-listed with ENGL 3372; only one may be taken for credit.

ANTH 4310. Myth and Ritual. 3 Credit Hours.
Examine the history, beliefs, and practices of small-scale societies based on ethnographic literature. Study religious origins, shamanism, trance and other altered states, healing and bewitching, new religions, and certain treatments of the major religious traditions of Hinduism, Buddhism, Judaism, Christianity, and Islam. Cross-listed with RELS 4310; only one may be taken for credit.

ANTH 4317. Qualitative Methods. 3 Credit Hours.
Introduces methodological approaches corresponding to qualitative research methods, with special emphases on interviewing, observation techniques, ethnographic field-based methods, and content analysis. Students are encouraged to take SOCI 4316 before or in conjunction with this course.

ANTH 4320. Ancient Civilizations of Mesoamerica. 3 Credit Hours.
Explore the major pre-Columbian cultures of Mesoamerica, from Olmec to Aztec periods, with a focus on ancient Maya. Emphasis on archaeological and bioarchaeological prehistory and history of these cultures up to and beyond the point of European contact.

ANTH 4330. Bioarcheology. 3 Credit Hours.
Study archaeology and physical anthropology with the use of evidence gleaned from human skeletal remains. Focuses on the role of the human skeleton in reconstructing both the biological and cultural past of the human species.

ANTH 4340. Human Osteology. 3 Credit Hours.
Examine the human skeleton as the foundation for biological anthropological study. Learn concepts and methods used by anthropologists to identify, describe, and analyze human skeletal remains from forensic and archaeological contexts.

ANTH 4351. Forensic Anthropology. 3 Credit Hours.
Apply the science of physical anthropology to the legal investigative process. Learn to identify human remains, as well as age, sex, ancestry, and stature of those remains, and how these are used to help establish positive identification. Special emphasis on skeletal trauma, and pathology to determine cause and manner of death. Cross-listed with CRIJ 4351; only one may be taken for credit.

ANTH 4389. Special Topics in Anthropology. 3 Credit Hours.
Investigate selected topics within the field of Anthropology. May be repeated when topic varies.
ANTH 5301. Cultural Sensitivity. 3 Credit Hours.
Examines different cultures and their influences on human lives. The perspective, theories, data, and critical thinking of cultural anthropology assist the student to interpret and appreciate cultural diversity on the world stage.

ANTH 5310. Anthropology of Religion. 3 Credit Hours.
Examine and critique anthropological theories, ethnographies, and literature pertaining to the study of religious phenomena, including myth and ritual, altered states, healing, bewitching, and religious practitioners. This course is cross-listed with RELS 5310 and only one may be taken for credit.

ANTH 5351. Forensic Anthropology. 3 Credit Hours.
Gain a comprehensive understanding of the field of forensic anthropology. Review a diverse range of topics including age, sex, ancestry, stature, and trauma, and understand how these are used in identification and determining cause and manner of death, as well as learn to evaluate and critically analyze scientific publications within the discipline of forensic anthropology.

ANTH 5389. Special Topics in Anthropology. 3 Credit Hours.
Investigate selected topics within the field of anthropology. Students may enroll for additional credit hours when topics vary.

ANTH 2351. Cultural Anthropology. 3 Credit Hours.
The study of human cultures. Topics may include social organization, institutions, diversity, interactions between human groups, and ethics in the discipline.

Aviation Science (AVSC)

AVSC 3301. Air Carrier Operations. 3 Credit Hours.
Explore Federal Aviation Regulations relating to various specialized facets of the aviation industry, including airline operations, aircraft certification, air-worthiness standards and airport operations. Prerequisite(s): Commercial Pilot Certificate or permission of the department Chair.

AVSC 3302. Aviation Techniques of Instruction. 3 Credit Hours.
Examine the fundamentals of teaching and learning in an aviation oriented environment. Develop the techniques of instruction and the analysis of flight maneuvers, and demonstrate the theory of flight. Correlate Federal Aviation Regulations relating to the application of their flight instructor rating. Prerequisite(s): Commercial Pilot Certificate or permission of instructor.

AVSC 3303. Air Traffic Control. 3 Credit Hours.
Study FAA’s procedures for separating aircraft in the National Air Space, including the airport environment and enroute flight. Prerequisite(s): Acceptance into Professional Pilot program and Commercial Pilot Certificate or instructor approval.

AVSC 3304. Airport Management. 3 Credit Hours.
Examine requirements for developing a public airport to include local and state governmental agencies. Explore Federal aid and regulations, and the management required for the overall airport operations. Analyze tenant operators, leases, property development for non-aviation use, user taxation for airport operations, planning and policies, organization and administration, maintenance, safety and airport fuels and regulations. Prerequisite(s): Acceptance into Aviation Management or Professional Pilot program.

AVSC 3307. Aviation History. 3 Credit Hours.
(WI) Study the people and events from ancient times through the present that have influenced modern aviation internationally. Examine historical evidence and recorded documents to understand the role aviation has played in world events. Prerequisite(s): Acceptance into Aviation Management or Professional Pilot program.

AVSC 3308. Aviation History II. 3 Credit Hours.
Study the people and events from 1939 to the present that have influenced modern aviation internationally. Examine historical evidence and recorded documents to understand the role aviation has played in world events. Prerequisite(s): Junior classification.

AVSC 3321. Airline Management. 3 Credit Hours.
Discover the behind-the-scenes activities involved in the business of airline operations. Prerequisite(s): Acceptance into Aviation Management program.

AVSC 3333. Airports and Environmental Impact. 3 Credit Hours.
Review the FAA advisory circular topics such as sustainability, solar alternative energy, environmental hazards and prevention of mishaps with an emphasis on the importance of environmental concerns in modern airports and the impact on the surrounding communities and ecosystems. Prerequisite(s): Acceptance into Aviation Management program.

AVSC 4301. Aviation Law. 3 Credit Hours.
Explore the distinctive body of statutes, treaties, regulation and case law related to general aviation. Examine specialized rules and laws that have been developed due to the distinctive nature of the airplane as a mode of transportation. Prerequisite(s): Acceptance into Aviation Management or Professional Pilot program.

AVSC 4302. Advanced Aircraft Systems. 3 Credit Hours.
Study aerodynamics, federal aviation regulations, weight, balance, and turbine systems, and their relationship with aircraft systems. Apply and operate advanced aircraft systems used by commercial pilots in air carrier operations. Prerequisite(s): Acceptance into Aviation Management or Professional Pilot program.

AVSC 4308. Aviation Safety. 3 Credit Hours.
Analyze effective procedures and techniques in the development and supervision of an Aviation Safety program. Study aircraft accident prevention, and the use of statics in aviation safety. Special emphasis on safety measures and education media materials. Prerequisite(s): Acceptance into Aviation Management or Professional Pilot program.

AVSC 4309. Aviation Security. 3 Credit Hours.
(WI) Consider the use of situational awareness, teamwork, and effective communication to recognize and thwart security threats in the aviation environment. Analyze the use of effective procedures and policies to recognize and prevent the intentional act of humans to cause harm or disruption through aviation.

AVSC 4321. Certification of Airports. 3 Credit Hours.
Discuss the requirements and procedures in seeking government approvals for airport certification as it applies to general aviation and air carrier operations. Students are advised to take a writing intensive course prior to enrolling. Prerequisite(s): AVSC 3321 and acceptance into Aviation Management program.
AVSC 4333. General Aviation and Corporate Business Aviation. 3 Credit Hours.
Study the business skills and knowledge needed to operate a small aviation business. Gain an understanding of the operational managerial aspects of general aviation and corporate business aviation. Prerequisite(s): AVSC 3304, AVSC 3321 and acceptance into Aviation Management program.

AVSC 4344. Historical Application of Aircraft Design. 3 Credit Hours.
Study the evolution, concepts, and design aspects used in aircraft development. Construct and evaluate scale models of historical aircraft. Special emphasis on aerodynamic efficiency and aircraft manufacturing.

AVSC 4350. Aviation Seminar. 3 Credit Hours.
Explore selected topics in aviation. May be repeated for credit when topics vary. Prerequisite(s): Permission of department chair.

AVSC 4384. Aviation Internship. 3 Credit Hours.
Experience supervised Aviation Management in a fixed base operations, regional/major airline operations or municipal airport management operations setting. Analyze management problems, develop resolution techniques, and understand customer service as an important phase of the management process. Prerequisite(s): 12 hours of upper-level aviation courses, AVSC 3304 and permission of instructor. Field assignment fee $75.

AVSC 4388. Aviation Problems. 1-3 Credit Hours.
Explore selected topics in aviation. May be repeated with permission of the department chair. Prerequisite(s): Permission of department chair.

AVSC 4395. Capstone – Professional Pilot (Crew Resource Management). 3 Credit Hours.
Practice the knowledge, skills, attitudes, and abilities attained in the program in demonstrating and utilizing Crew Resource Management (CRM), a teamwork approach to situational awareness and management. Prerequisite(s): Senior standing and acceptance in Professional Pilot program.

AVSC 4396. Capstone – Aviation Management (Emergency Preparedness). 3 Credit Hours.
Practice the knowledge, skills, attitudes, and abilities attained in the program in demonstrating emergency preparedness in simulated emergency scenarios. Prerequisite(s): Senior standing and acceptance in Aviation Management program.

Biology (BIOL)

BIOL 3315. Advanced Physiology. 3 Credit Hours.
Study human physiology at the biochemical, cellular, tissue, and organ level. Designed for upper division science and nursing majors. Prerequisite(s): BIOL 1406.

BIOL 3318. Animal Physiology. 3 Credit Hours.
Explore mammalian physiology as well as other selected vertebrate taxa. Special emphasis on organ-system physiology, cellular and physiological mechanisms in order to present a current view of physiological principles. Highlights the nervous, muscular, cardiovascular, respiratory, renal, digestive, and endocrine physiology. Prerequisite(s): BIOL 1407.

BIOL 3380. Research Methods. 3 Credit Hours.
(WI) Explore the general principles and procedures of scientific research with an emphasis on the use of scientific literature and the methods of research. Prerequisite(s): Junior standing.

BIOL 3400. Introduction to Biology. 4 Credit Hours.
Gain an understanding of basic principles and unifying concepts in biology. Topics include scientific inquiry, basic biochemistry, cell structure and function, genetics, evolution, diversity of life, and anatomy and physiology. For non-biology majors. Laboratory sessions will provide experience with selected biological principles and practices.

BIOL 3401. Ecology. 4 Credit Hours.
(WI) Explore interactions at the organismal, population, and community level, and apply ecological theory to current environmental problems. Emphasis in the laboratory and field exercises is placed on the ecological methodology and the application of these methods. Students are required to use various statistical methods to analyze and interpret the data. Lab fee: $30. Prerequisite(s): BIOL 1407.

BIOL 3420. Entomology. 4 Credit Hours.
Explore the largest and most diverse group of animals on our planet. Examining the physiology, morphology, life histories, diversity, ecology, and evolution of insects. The laboratory focuses on the anatomy and classification of insects. Insect collection is required. Lab fee: $30. Prerequisite(s): BIOL 1407.

BIOL 3430. Botany. 4 Credit Hours.
Analyze the internal organization of plants, particularly angiosperms, with an emphasis on understanding anatomy from a structure-function standpoint. Lab fee: $30. Prerequisite(s): BIOL 1407.

BIOL 3440. Invertebrate Zoology. 4 Credit Hours.
Learn the biology, ecology, taxonomy and comparative anatomy of animals within the invertebrate phylum. Analyze live and preserved specimens in the field and laboratory. Prerequisite(s): BIOL 1407.

BIOL 3445. Comparative Vertebrate Zoology. 4 Credit Hours.
Learn the biology, ecology, taxonomy, and comparative anatomy of animals within the vertebrate phylum. Analyze live and preserved specimens in the field and laboratory. Lab fee: $30. Prerequisite(s): BIOL 1407.

BIOL 3452. Principles of Genetics. 4 Credit Hours.
Explore the mechanisms of inheritance, from bacteria to humans, as well as mutations and phenotypes, Mendelian genetics, population genetics and evolution, and complex inheritance. Lab fee: $30. Prerequisite(s): BIOL 1407.

BIOL 3471. Microbiology. 4 Credit Hours.
Introduction to modern microbiology with emphasis on prokaryotes; includes microbial cell structure, function, and physiology; genetics, evolution, and taxonomy; bacteriophages and viruses; pathogenesis and immunity; and ecology and biotechnology. The laboratory will focus on microbial growth and bacterial identification. Three hours of lecture and three hours of laboratory. Prerequisite(s): BIOL 1407.

BIOL 4301. Conservation Biology. 3 Credit Hours.
Examine conservation of biological diversity at gene, population, species, ecosystem, and global levels. Provides an overview of conservation biology including the causes and consequences of biodiversity loss, conservation approaches and strategies, and the ecological and evolutionary theory underlying these approaches. Prerequisite(s): BIOL 3401.

BIOL 4302. Restoration Ecology. 3 Credit Hours.
Explore the fundamental principles of ecological restoration. Survey the discipline, and the scientific, ethical, and philosophical underpinnings that guide ecological restoration. Principles of ecosystem ecology are introduced to provide an understanding of ecosystem processes across landscapes and within specific restoration sites. Prerequisite(s): BIOL 3401.
BIOL 4346. Animal Behavior. 3 Credit Hours.
Study vertebrate and invertebrate animal behavior. Basic topics include animal learning, mechanisms of behavior, foraging, competition, defense, aggression, sensory systems, communication, mating systems and parental care behavior. Prerequisite(s): BIOL 1407.

BIOL 4372. Virology. 3 Credit Hours.
Study viruses with an emphasis on biology, diversity, and medical importance. Focusing primarily on human and animal viruses, and the molecular and clinical aspects of virology. Prerequisite(s): BIOL 4470.

BIOL 4373. Immunology. 3 Credit Hours.
Explore the basic biological concepts of immunology. Study immunology from the viewpoints of developmental biology, molecular biology, genetics, biochemistry, microbiology, anatomy, and medicine. Prerequisite(s): BIOL 4470.

BIOL 4380. Evolution. 3 Credit Hours.
Examine evolutionary theory, including the historical development of components of evolutionary theory, population level microevolution, the fossil record, and macroevolution. Prerequisite(s): BIOL 1407 and BIOL 3452.

BIOL 4389. Special Topics in Biology. 1-3 Credit Hours.
Examine selected topics in biology. Course may be repeated for credit when topics vary. Prerequisite(s): Permission of department chair.

BIOL 4395. Biology Capstone. 3 Credit Hours.
(WI) Capstone seminar focusing on life science research conducted by seniors and faculty. Prerequisite(s): BIOL 3380 and senior standing.

BIOL 4451. Bioinformatics. 4 Credit Hours.
Study how genomic sequence and its variations affect phenotypes. Focuses on the information available from DNA sequencing projects, ranging from the sequences of individual genes to those of entire genomes. Learn analytical techniques that can be used to evaluate sequence data, and examples of their biological significance. Prerequisite(s): BIOL 4470 and BIOL 4471.

BIOL 4470. Cell Biology. 4 Credit Hours.
Study the cell at the structural, functional, and molecular levels. Emphasis is placed on the molecular mechanisms of cell metabolism, growth, division, and communication. The laboratory focuses on cell structure and laboratory techniques. Prerequisite(s): BIOL 1407.

BIOL 4471. Molecular Biology. 4 Credit Hours.
Study modern molecular biology with an emphasis on gene structure and activity, and the biochemistry related to understanding the functions of the gene. Prerequisite(s): BIOL 1407 and BIOL 4470.

BIOL 4475. Proteomics. 4 Credit Hours.
Study the theory and practice of current techniques of protein analysis including separation, quantification, sequencing, and identification. Current research advances and case studies are also examined. Prerequisite(s): BIOL 4471.

Business (BUSI)

BUSI 3301. Business Communications and Research. 3 Credit Hours.
(WI) Study and demonstrate the different types of letters and reports utilized in the modern business environment. Basic business research and APA citation skills will also be an essential component of the course, as well as presentation fundamentals. Completion of this course is recommended in the first semester of enrollment as it is a prerequisite for most business courses.

BUSI 3311. Business Statistics. 3 Credit Hours.
Study descriptive statistics and the foundations of inferential statistics, including statistical methods of sampling, classifying, analyzing, and presenting numerical data. Learn frequency and sampling distributions, averages, dispersion, hypothesis testing and analyzing up to two populations and population proportions. Additionally, students will be introduced to ANOVA, correlations, regression and Chi-Square analyses. Prerequisite(s): MATH 1324 or higher.

BUSI 3332. Legal Environment of Business. 3 Credit Hours.
The study of principles of law relating to the development and sources of law, dispute resolution, ethics, torts, intellectual property, criminal law, contracts, agency, business entity formation, and international law issues in the 21st century.

BUSI 3344. Introduction to the Global Business Environment. 3 Credit Hours.
Broad coverage of key concepts and issues in the modern global business environment. Emphasis will be placed on political, financial, cultural and regulatory effects on the operations of businesses in the global environment.

BUSI 4301. Business Ethics and Corporate Social Responsibility. 3 Credit Hours.
Examine contemporary organizational ethical issues and challenges. Analyze stakeholder management and sustainability, with emphasis on the manager’s corporate social responsibilities to a wide variety of stakeholders. Study ethical dilemmas, decision-making frameworks and approaches to corporate social responsibility. Service Learning in the community is a required component. Prerequisites: BUSI 3301 and MGMT 3301.

BUSI 4320. Fundamentals of Real Estate. 3 Credit Hours.
Explore the nature of real estate and how ownership is held. Examine legal descriptions, encumbrances and liens, title transfer, title records. Analyze concepts of home ownership, buying, selling and financial real estate, closing the real estate transaction, and real estate taxes, and other issues in liens, leases and landlord tenant laws.

BUSI 4333. Business Law II. 3 Credit Hours.
Study principles of law concerning agency, employment, partnerships, corporations, bankruptcy, secured transactions, creditor/debtor rights, insurance, real and personal property. Examine laws impacting the regulatory environment of business such as consumer protection, environment, anti-trust, and securities law. Prerequisite(s): Junior standing.

BUSI 4334. Employment Law. 3 Credit Hours.
Study laws relating to employment. Explore employer-employee relationships, regulation of discriminatory practices in employment (Title VII, the 1964 Civil Rights Act, and other statutes), regulation of the employment environment, and testing and evaluation of employee job performance. Prerequisite(s): BUSI 3332 or MGMT 3302.

BUSI 4345. International Business Law. 3 Credit Hours.
Study international commercial business and the legal environment. Learn traditional international concepts of treaties, sovereignty, public and private laws, customs laws, licensing, franchising, environmental and employment law. Special emphasis on contracts for international sale of goods (CISG), GATT and WTO Treaties, NAFTA, regional trade areas.
BUSI 4354. Global Business Practices. 3 Credit Hours.  
Study basic international business concepts, cultural literacy, and discipline specific content applied to practical experiences and activities related to the visited foreign country. A required study abroad at the student's expense is required. Student may complete a maximum of six hours of COBA sponsored study abroad toward degree completion. Prerequisite(s): Junior or senior standing. BUSI 4354, MGMT 4356, or MKTG 4356 may not be taken concurrently. Field assignment fee of $75.

BUSI 4359. Business Strategy. 3 Credit Hours.  
(WI) Concepts and principles of accounting, economics, finance, management, marketing, and quantitative methods relevant to developing successful strategy. Examine problem solving and business decision making. Appropriate for senior business majors during their last semester. Prerequisite(s): ACCT 2301, ACCT 2302, ECON 2301, FIN 3301, BUSI 3311, MGMT 3301 and MKTG 3301. A materials fee of $45 is required for needed course materials.

BUSI 4361. General Business Seminar. 3 Credit Hours.  
Study selected topics in dealing with problems or unique needs of business. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need. May be repeated for credit as topics vary. Prerequisite(s): Permission to enroll is required.

BUSI 4363. Small Business Consulting. 3 Credit Hours.  
Study selected problems in diagnosing and analyzing problems of small business clients, and prepare formal written reports and recommendations for client implementation. Engage in independent research, reading and discussions under the personal direction of the instructor. Topics may vary according to student need. Prerequisite(s): Senior standing and permission of department chair.

BUSI 4388. Business Problems. 1-3 Credit Hours.  
Study selected problems in business. Engage in independent research, reading and discussions under the personal direction of the instructor. Topics may vary according to student need. May be repeated with permission of the department chair. Prerequisite(s): Senior standing and permission of department chair.

BUSI 5090. Business Comprehensive Examination. 0 Credit Hours.  
Study and take the business examination for non-thesis students. Register for the comprehensive examination during final semester of graduate coursework concurrently with BUSI 5359, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis students do not take this examination.

BUSI 5310. Business Research Methods. 3 Credit Hours.  
Study nature, scope, and significance of business research and research methodology. Develop primary research methods with applications to specific problems. Learn the place of quantitative methods in research and individual investigation, and report on current problems in a selected field of interest. Prerequisite(s): BUSI 3311 or approved leveling in statistics.

BUSI 5312. Managerial Statistics. 3 Credit Hours.  
Explore applied descriptive and inferential statistical calculations. Examine statistics as a decision-making tool under uncertainty, probability, confidence intervals, hypothesis testing, ANOVA, correlation, regression, and statistical process control in the context of business and organization. Prerequisite(s): BUSI 3311 or approved leveling statistics.

BUSI 5315. International Business Law. 3 Credit Hours.  
Study international commercial business and the legal environment in which it operates. Explore traditional international concepts of treaties, sovereignty, public and private laws, customs laws, licensing, franchising, environmental, and employment law. Special emphasis on contracts for international sale of goods (CISG), GATT and WTO Treaties, NAFTA, regional trade areas.

BUSI 5354. Global Business Practices. 3 Credit Hours.  
Study basic international business concepts, cultural literacy, and discipline specific content applied to practical experiences and activities in the visited foreign country. A study abroad at the student's expense is required. Graduate students will be required to complete an extensive research project in addition to other course requirements. Student may complete a maximum of six hours of COBA sponsored study abroad toward degree completion. Prerequisite(s): Admission into a COBA graduate program and permission of instructor. Field assignment fee of $75.

BUSI 5359. Business Strategy Seminar. 3 Credit Hours.  
Develop an integrated view of the business functions addressed in the MBA core curriculum. Apply case analysis methodology for evaluating complex business situations, developing strategic alternatives, and recommending effective solutions. A culminating capstone interdisciplinary case study project is a required part of the course. Students must make a B on this project to pass the course and a B in the course to graduate. Prerequisite(s): ACCT 5303, FIN 5307, BUSI 5310, MGMT 5301 and MKTG 5308. A student may take one of these concurrently with the permission of the instructor. A materials fee of $45 is required for needed course materials.

BUSI 5388. Business Problems. 1-6 Credit Hours.  
Study selected problems in business, and become acquainted with current research being conducted within the specific area of interest. Participate in directed reading of sources selected in concert by the student and professor. Engage in independent research, reading and discussions under the personal direction of the instructor. Topics may vary according to student need. Prerequisite(s): Permission of department chair.

Chemistry (CHEM)

CHEM 3415. Analytical Chemistry. 4 Credit Hours.  
Explore the principles and applications of gravimetric and volumetric analysis. Learn the theory for selecting analytical methods and separation techniques—precipitations, extraction and complexation, sources of error, data handling, and error analysis. Lab fee: $30. Prerequisite(s): CHEM 2425 or equivalent.

CHEM 4415. Instrumental Analysis. 4 Credit Hours.  
Examine chemical analysis utilizing electronic instrumentation. Learn spectroscopy techniques such as UV/VIS, molecular fluorescence, infrared, Rama, Atomic emission, atomic absorption, atomic fluorescence, NMR and mass spectrometry. Explore chromatographic and electrochemical techniques, such as ion selective electrodes, polarography, coulometry, amperometry, and conductance. Prerequisite(s): CHEM 3415 or equivalent.
CHEM 4430. Biochemistry I. 4 Credit Hours.
Study molecular components of the cell such as amino acids, proteins, enzymes, sugars, lipids, lipoproteins, nucleotides, vitamins and coenzymes. Learn energy yielding processes such as the ATP cycle, glycolysis, tricarboxylic acid cycle, the phosphogluconate pathway, redox enzymes and electron transport, oxidative phosphorylation, fatty acid metabolism, amino acid degradation and photosynthesis. First course in a two semester sequence. Lab fee: $30. Prerequisite(s): CHEM 2425 or equivalent.

CHEM 4431. Biochemistry II. 4 Credit Hours.
Study the synthesis of carbohydrates, lipids, amino acids and nucleotides, the conversion of biochemical energy into motility, membrane transport mechanisms, hormones and the regulation of DNA, protein synthesis, genes and their regulation, and systemic morphogenesis. Second course in a two semester sequence. Lab fee: $30. Prerequisite(s): CHEM 4430 or equivalent.

CHEM 4451. Bioinformatics. 4 Credit Hours.
An introduction for understanding how genomic sequence and its variations affect phenotypes. Will focus on the information available from DNA sequencing projects, ranging from the sequences of individual genes, to those of entire genomes. Students will learn analytical techniques that can be used to evaluate sequence data, and examples of the biological significance of such analyses. Prerequisite(s): BIOL 4470 and BIOL 4471.

Communications (COMM)

COMM 3301. Business & Prof Speaking. 3 Credit Hours.
A study of verbal and nonverbal communication as it functions in business and professional organizations. Special emphasis will be given to developing oral language proficiency, interviewing, small decision-making groups, oral reporting, and organizational communication.

COMM 3303. Debate. 3 Credit Hours.
An introduction to the principles of argumentation and debate. Subject material will include research, evidence, reasoning, case construction, refutation, and delivery. Classroom debating will provide students with opportunities to observe and participate in competitive debating. This course is particularly applicable to those anticipating study in prelaw. Prerequisite(s): SPCH 1311, SPCH 1315 or permission of department chair.

COMM 3304. Interpersonal Communication. 3 Credit Hours.
A course designed to improve individual communication skills relevant to human relationships. The development and maintenance of interpersonal (one-to-one) relations are examined, with special emphasis on identifying and correcting communication breakdown. A portion of the course will be devoted to exercises designed to improve interpersonal skills. Prerequisite(s): SPCH 1311 or COMM 3301 or permission of department chair.

COMM 4304. Organizational Communication. 3 Credit Hours.
An advanced study of communication as it takes place in business and industrial settings. Special attention will be given to managerial communication, communicator style, channels and networks, and organizational communication consulting. Prerequisite(s): COMM 3301.

COMM 4306. Group Process/Decision Making. 3 Credit Hours.
A study of small group theory and process. Special attention will be given to leadership, organization, group analysis, and interaction. Students will observe and participate in small group discussions on contemporary issues. Prerequisite(s): SPCH 1311 or COMM 3301 or COMM 3304 or permission of department chair.

COMM 4389. Special Topics in Communication. 3 Credit Hours.
This course provides students the opportunity to examine a topic as it relates to the interests and methodologies of communication. May be repeated when the topic varies.

COMM 5321. Essentials of Mass Media. 3 Credit Hours.
This is a study of the ascension to power of the mass media and the current devices and practices used in the creation of a culture of online, and other media-based connections. Areas of study focus on religion & denominations, individualism, intellectualism, the Internet, races and cultures, political groups, ethical practices, science, education, the culture and economy of urban areas, etc.

COMM 5322. Politics and Mass Media. 3 Credit Hours.
This course is a study of mass media and their creation of a culture of online and other media-based connections to and with politics, and includes specific groups focused on religion & denominations, individualism, intellectualism, the Internet, race and culture, politics, science, education, urban areas, etc.

COMM 5323. Social Media as Mass Media. 3 Credit Hours.
This course offers a study of mass media and the creation of online social cultures, communication networks, and of the "other" - other groups formed from religions & denominations, or based on individualism, intellectualism, the Internet, races and cultures, political groups, foods, drugs, science, education, social interaction, urban areas, etc.

COMM 5324. Religion and Mass Media. 3 Credit Hours.
This course offers a study of the media and its connections to the media's creation of a culture of online and other mass media-based connections to and with religion, which includes a variety of religions and denominations, individualism, intellectualism, the Internet, other races and cultures, political groups, science, education, the socioeconomics of urban areas, etc.

COMM 5325. Fear Culture and Mass Media. 3 Credit Hours.
This course offers a study of mass media and the creation of online fear, of the other - other religions & denominations, individualism, intellectualism, the Internet, other races and cultures, political groups, science, education, the socioeconomics of urban areas, etc.

COMM 5326. Essentials of Politics and Religion. 3 Credit Hours.
This course is a study of mass media and its connections to the creation of a culture of fear, of the other - other religions & denominations, individualism, intellectualism, the Internet, other races and cultures, political groups, science, education, the socioeconomics of urban areas, etc.

COMM 5327. Essentials of Communication. 3 Credit Hours.
This course provides students the opportunity to examine a topic as it relates to the interests and methodologies of communication. May be repeated when the topic varies.

COMM 5328. Essentials of Media. 3 Credit Hours.
This course provides students the opportunity to examine a topic as it relates to the interests and methodologies of communication. May be repeated when the topic varies.

COMM 5329. Topics in Mass Media. 3 Credit Hours.
This course offers an in-depth study of particular issues within media studies. Topics will vary from year to year. A more specific course description will introduce the particular focus of a class. This course may be repeated when the topic changes.

Computer Information Systems (CIS)

CIS 3300. Computer Technology and Impact. 3 Credit Hours.
Explores computer technology with special attention to its impact on home, work, and school. Many topics are presented: hardware and software fundamentals, essential applications, telecommunications, internet, artificial intelligence, programming, and the future of these technologies. Students work with word processing, spreadsheet, database, and presentation software; other applications; and a programming language. No prior computer experience necessary.

CIS 3301. Business Analysis with Spreadsheets. 3 Credit Hours.
Examine theory and application of microcomputer technology applied in accounting, finance, management, and other business disciplines. Develop creative initiative, and study basic analytical skills in performing common business tasks. Credit for both CIS 3301 and ACCT 3301 will not be awarded.
CIS 3302. Introduction to Business Analytics. 3 Credit Hours.
Examine theory and application of business analytics applied in accounting, finance, marketing, management, and other business disciplines. Develop basic analytical skills to gain insights and make better decisions. Special emphasis on descriptive statistics, data visualization, descriptive data mining, linear regression, forecasting, optimization models, spreadsheet models, Monte Carlo simulation, and decision analysis.

CIS 3303. Programming Logic and Design. 3 Credit Hours.
This course introduces computer programming and problem solving in a structured program logic environment. Study the logic of decision-making, nested looping, multidimensional arrays, implementation of the structure theorem and Boolean algebra. Utilize structured flowcharts, structured pseudocode, hierarchy charts and decision tables, in order to document logical problem solutions. The course focuses on business problem solving and does not count as a programming language. No prior programming experience is necessary.

CIS 3304. Topics in Computer Information Systems. 3 Credit Hours.
Examine selected topics in programming languages, programming techniques, or job control languages. May be repeated once for credit as topics vary. Prerequisite(s): Varies with topic.

CIS 3305. Operating Systems Theory and Practice. 3 Credit Hours.
Study the history, development, and principles of computer operating systems and their variants in mainframe, minicomputer, server, and microcomputer application environments. Explore preferred operating systems representing various hardware environments. Special emphasis on related software issues, programming capabilities, and job control languages. Prerequisite(s): CIS 3303 or permission of department chair.

CIS 3306. Data Visualization. 3 Credit Hours.
Data visualization makes it easier to understand the data. The goal of this course is to introduce students to data visualization including both the principles and techniques. Students will learn the value of visualization, specific techniques in information visualization and scientific visualization, and how to understand how to best leverage visualization methods.

CIS 3307. Application Project with Laboratory. 3 Credit Hours.
Develop and document a software product using a formal software development process. Projects of value are actively sought from local businesses, governments, or nonprofit organizations when possible. May be repeated for credit when topics change. Prerequisite(s): Varies with topic.

CIS 3312. Technical Support Management and Operations. 3 Credit Hours.
Study the scope, significance, job skills, training, software availability, and support problems of technical support within the technology industry. Develop technical support skills, with an emphasis on the use of resources, troubleshooting, and customer relations.

CIS 3315. Web Site Development and Design. 3 Credit Hours.
This course introduces students to basic web design using HTML and CSS. The course does not require any prior knowledge of HTML or web design. Students learn how to plan and design effective web pages; implement web pages by writing HTML and CSS code; enhance web pages with the use of page layout techniques, text formatting, graphics, images, and multimedia; and produce a functional, multi-page website.

CIS 3330. C++ Programming. 3 Credit Hours.
Study structured C++ programming using microcomputers. Special emphasis on syntax, operators, functions, standard input/output, arrays, pointers, and structures in C++ programming. Prerequisite(s): COSC1309 OR COSC 1336 or CIS 3303 or concurrent enrollment or permission of department chair.

CIS 3331. Visual Basic Programming. 3 Credit Hours.
Study visual application development using Visual Basic and the native integrated development environment. Examine logic, working with forms, sequential and direct file access, and scope and visibility rules. Analyze problems within Visual Basic and develop programming solutions. Prerequisite(s): COSC1309 OR COSC 1336 or CIS 3303 or concurrent enrollment or permission of department chair.

CIS 3332. Java Programming. 3 Credit Hours.
Study applications development using Java. Examine identifiers and reserved words, objects and primitive data, program statements, arrays and vectors, exceptions and I/O streams, and graphical user interfaces. Analyze problems within Java and develop programming solutions. Prerequisite(s): COSC1309 OR COSC 1336 or CIS 3303 or concurrent enrollment or permission of department chair.

CIS 3340. Advanced C++ Programming. 3 Credit Hours.
Study C++ programming language. Examine advanced features of C++ such as classes, friends, abstraction, operator overloading, inheritance, polymorphism, templates, and object oriented programming techniques. Analyze problems within C++ and develop programming solutions. Prerequisite(s): CIS 3330 or permission of department chair.

CIS 3341. Advanced Visual Basic Programming. 3 Credit Hours.
Study Visual Basic programming techniques, including declaration and manipulation of arrays, accessing database files, and advanced data handling techniques. Analyze advanced problems in Visual Basic and develop programming solutions. Prerequisite(s): CIS 3331 or permission of department chair.

CIS 3342. Advanced Java Programming. 3 Credit Hours.
Study Java programming language. Examine advanced Java capabilities, including class features, error handling, security techniques, Java streams, JavaBeans, database connectivity, Java servlets, Java Server pages, and advanced object-oriented programming techniques. Analyze advanced Java problems and develop programming solutions. Prerequisite(s): CIS 3332 or permission of department chair.

CIS 3343. C# Programming for Windows and the Web. 3 Credit Hours.
Use C# programming language to create Windows applications in the Internet and intra-network environment. Explore object-oriented design, client-server interaction, event-driven programming, graphical user interfaces, distributed data, and distributed applications. Prerequisite(s): CIS 3330 or CIS 3331 or CIS 3332 or permission of the department chair.

CIS 3345. Topics in Personal Computer Software and Application. 3 Credit Hours.
Examine selected personal computer applications and software packages. Explore the operation and usefulness of commonly available personal computing software solutions. May be repeated once for credit as topics vary. Prerequisite(s): Varies with topic.

CIS 3346. Personal Computer Technology. 3 Credit Hours.
Examine the technology and hardware operations in microcomputers, their peripherals, and operating system software. Special emphasis on hardware configuration and selection, installation and test procedures, and routine maintenance.
CIS 3347. Data Communications and Infrastructure. 3 Credit Hours.
A study of telecommunications architecture, industry standards and communications protocols, the placement of networking devices and components, transmission media selection, logical and physical topologies, voice and data transmission, and structured cabling for local area networks (LANs) and wide area networks (WANs). Application exercises will include evaluating alternatives available in hardware, software, and transmission facilities, design integration, selection and implementation of communications and networking solutions. In addition, students will explore the current and future impact and directions of these technologies. Students will complete an architecture design project that will include required components and address services as specified in an industry specific Request for Proposal (RFP).

CIS 3348. Networking Architecture and Design. 3 Credit Hours.
Examine industry standards and communications protocols in networking. Learn placement of networking devices, transmission media selection, topologies, data transmission, and structured cabling for LANs and WANs. Develop network designs as specified in an industry specific Request for Proposal (RFP). Prepare and present a design proposal in response to an RFP, and installation, configuration, testing and troubleshooting of WAN/LAN wiring interface technologies. Prerequisite(s): CIS 3347 or permission of department chair.

CIS 3351. Data Structures. 3 Credit Hours.
Study theory and applications of commonly used computer data structures, files, file organization and access methods, databases, and other storage and retrieval methods. Prerequisite(s): CIS 3340 or CIS 3341 or CIS 3342 or CIS 3343 or concurrent enrollment or permission of department chair.

CIS 3360. Ethics in Computing. 3 Credit Hours.
WI Examine personal and contemporary organizational ethical issues and challenges in the design, development and the use of computing technologies in a global environment. Special emphasis on the philosophical basis for computer ethics, reliability and safety of computer systems, protecting software and other intellectual property, computer crime and legal issues, and professional codes of ethics (AIS, ACM, IEEE etc.).

CIS 3361. Introduction to Computer Forensics. 3 Credit Hours.
The course focuses on clear and authoritative instructions about the field of computer forensics as it applies to the investigative process; from the collection of digital evidence to the presentation of Computer Forensic Examination findings in a court of law. Upon successful completion of the course, students will have a basic understanding of the computer forensic process, the scientific procedure involved in accounting, law enforcement, and computer sciences. Topics also include the science of computer forensics and how it relates to and is utilized within the judicial system of the United States.

CIS 3365. System Analysis and Design. 3 Credit Hours.
Examine systematic analysis, design, and implementation of software systems with special emphasis on the processes and skills used in the first four stages of the System Development Life Cycle. Analyze traditional and current methodologies in design, including computer aided analysis and design tools. Prerequisite(s): CIS 3330 or CIS 3331 or CIS 3332, or permission of department chair.

CIS 3387. Cooperative Education. 3 Credit Hours.
Develop and apply relevant CIS concepts in a work environment. Work in an approved professional CIS setting for approximately 300 hours before credit will be granted. To remain in the program, the student must remain in good standing with the university and employer. May be repeated once for credit. Prerequisite(s): Permission of co-op coordinator and department chair, and formal application to the program. Field experience fee $75.

CIS 3389. Special Topics in Computer Information Systems. 3 Credit Hours.
Examine selected issues, products, and technology current to computer information systems. This course may be repeated once for credit. Prerequisite(s): Varies with the topic or Permission of department chair.

CIS 4301. Database Theory and Practices. 3 Credit Hours.
Examine database concepts and structures, and understand file and data management principles underlying database construction. Learn fundamental types of database models, with emphasis on relational databases and major non-relational forms. Develop skills in analysis, design, development, and optimization of working database applications on a variety of problems. Prerequisite(s): 12 hours of CIS courses or permission of department chair.

CIS 4302. Advanced Business Analytics. 3 Credit Hours.
Follow the traditional descriptive/predictive/prescriptive framework to analyze large sets of data and explain the theory of formulating statistical models. Special emphasis on cluster analysis, Naïve Bayes, Optimization Modeling, simple and multiple linear regression, and ensemble modeling. Prerequisite(s): CIS 3302.

CIS 4303. Data Mining. 3 Credit Hours.
Discover basic concepts, tasks, methods, and techniques in data mining, and analyze data mining problems and their solutions. Develop an understanding of the data mining process, learn various techniques for data mining, and apply the techniques in solving problems using data mining tools and systems. Prerequisite(s): CIS 3302 or CIS 4301.

CIS 4307. Topics in Networking. 3 Credit Hours.
Explore selected topics in alternative or innovative network software packages, including network focused tools, utilities, and operating systems. Special emphasis on an exploration of the usefulness and operation of the topic of study. May be repeated once for credit as topics vary. Prerequisite(s): Varies with topic.

CIS 4308. Advanced Programming Language. 3 Credit Hours.
Develop programming proficiency in a modern programming language. May be repeated as topics vary. Prerequisite(s): Varies with topic or Permission of department chair.

CIS 4309. Decision Support Methods. 3 Credit Hours.
Use computer-based decision, analysis, planning, and presentation methods in the context of management strategy and problem-solving policy. Apply software tools such as databases, spreadsheets, statistical graphics, and presentation programs for extracting, organizing and presenting information in support of management decision making. Prerequisite(s): COSC 1301 or CIS 3300, or ACCT 2302 or ACCT 2402 or MGMT 3301 or FIN 3301 or MKTG 3314 or BUSI 3311, or permission of department chair.

CIS 4310. Artificial Intelligence. 3 Credit Hours.
A study of AI programming techniques and tools. Topics include Expert Systems, Neural Networks, Genetic Algorithms, Automatic Programming, heuristic search, and others. Prerequisite(s): CIS 3330 or CIS 3331 or CIS 3332 or permission of department chair.
CIS 4311. Android Application Development. 3 Credit Hours.
This course explores the design and development of mobile applications such as Android, including resources, user interfaces, services, alarms, maps and location based services. Prerequisite(s): CIS 3332 or Permission of Department Chair.

CIS 4335. UNIX Systems Administration and Programming. 3 Credit Hours.
Examine the underlying conceptual considerations of the UNIX operating system and its variants in mainframe, minicomputer, server and microcomputer application environments. Explore memory and process management, multi-programming and processing, interrupt structure, and parallel processing mechanisms and procedures. Special emphasis on practical application of configuration and programming of selected UNIX systems. Prerequisite(s): CIS 3305 or 12 hours of CIS courses or permission of department chair.

CIS 4340. Algorithm Design and Analysis. 3 Credit Hours.
Examine computer algorithms, and learn to select appropriate algorithms for tasks within specific computing environments. Study searching and sorting algorithms for their importance in computing. Special emphasis on efficiency, readability, maintainability, advanced design and analysis techniques, advanced data structures, and graph algorithms. Prerequisite(s): CIS 3351 or concurrent enrollment or permission of department chair.

CIS 4341. Information Technology Security and Risk Management. 3 Credit Hours.
Examine the fundamental principles and topics of Information Technology Security and Risk Management at the organizational level. Learn critical security principles and best practices in order to plan, develop and perform security tasks. Special emphasis on hardware, software, processes, communications, applications, and policies and procedures with respect to organizational IT Security and Risk Management. Prerequisite(s): 12 hours of CIS Courses or Permission of the department chair.

CIS 4342. Computer Security Principles and Practices. 3 Credit Hours.
Explore current principles, theories, and concepts behind computer security. Examine basic methods and practices of security as it affects modern business operations. Special emphasis on cryptography, authentication, access control, database security, malware, intrusion detection, firewalls, security policy and management, software and operating system security, auditing and legal aspects of cyber security. Prerequisite(s): 12 hours of CIS courses or permission of department chair.

CIS 4343. Advanced Systems and Analysis. 3 Credit Hours.
Examine data and process decomposition, and modeling in advanced systems analysis. Study the CASE tools which support models and interaction analysis of process and data. Explore the enterprise-wide view of system analysis, and understand the theory behind and the generation of normalized relational database tables. Prerequisite(s): CIS 3365 and CIS 4301 or permission of department chair.

CIS 4344. Network and Systems Security. 3 Credit Hours.
Studies the issues of Network and Systems Security as a continuous process involving analysis, implementation, evaluation and maintenance. Topics will include addressing computer-related risks, case analysis, and future trends. The course will provide approaches, techniques, and best practices for securing modern electronic data systems and networks. Areas covered include information and message security, database and file integrity, physical security, security management, security risk analysis, and encryption/cryptography. Will include practical laboratories in the analysis, and configuration of networking security protocols and tools. Prerequisites: CIS 3347 or approval of Department Chair. Lab fees: $95.

CIS 4346. Applied Security. 3 Credit Hours.
This course will validate and develop in-depth hands on knowledge about the operation and defense from malicious attacks. It builds on previous course work to understand rapid recovery and defense of systems from attack. Students develop knowledge about system vulnerabilities and the process of penetration of systems as a way to evaluate the security of systems. Specific topics include social engineering, malware and malicious software usage and identification, network security tool familiarization and system hardening. Prerequisite(s): CIS 4341, or CIS 4342 or approval of department chair. Lab fees: $95.

CIS 4348. Security Trends and Malware Analysis. 3 Credit Hours.
This course analyzes and investigates security threats and ethical hacking methods. It will introduce students to modern malware analysis techniques through a detailed examination of malware, virus, and malicious code operation by examining case studies and hands-on interactive analysis of real world samples. The course will also examine in detail current trends in the threat environment and the most current attack exploits. Student will use a variety of methods to investigate current security threats and their mitigation. Topics include malware morphology, disassembly of malware, ethical hacking methods on systems including penetration, and trends in the threat-scape. Prerequisite(s): CIS 4345 or CIS 4346 or approval of department chair. Lab fees $95.

CIS 4350. Management Information Systems. 3 Credit Hours.
(WI) Investigate management issues related to business information systems, which are designed to meet the informational needs of the various business subsystems. Special emphasis on systems development, security, and privacy and ethics associated with information systems. Credit will be awarded for only one of the following courses: ACCT 4350, CIS 4350, or MGMT 4350. Prerequisite(s): Senior standing.

CIS 4351. IS Project Management. 3 Credit Hours.
This course studies the processes, methods, techniques and tools that organizations use to manage their information systems projects. The course covers a systematic methodology for initiating, planning, executing, controlling, and closing projects. This course assumes that project management in the modern organization is a complex team based activity, where various types of technologies (including project management software as well as software to support group collaboration) are an inherent part of the project management process. This course also acknowledges that project management involves both the use of resources from within the firm, as well as contracted from outside the organization. Prerequisite: Senior standing or approval of department chair.
CIS 4352. Structured Query Language. 3 Credit Hours.
Study relational database schema, formulating queries and sub-queries of varying complexity, embedding query statements in a "host" language, and defining and querying data views. Prerequisite(s): CIS 4301 or permission of department chair.

CIS 4360. Strategic Information Systems. 3 Credit Hours.
(WI) This course will explore necessary management actions, which will ensure that information is available, correct, manipulable, protected, and archived in proper forms to allow for a strategic use of information systems in the enterprise. Throughout this course we will review a set of conceptual frameworks of IT management, and by developing a critical view of two levels of IT management -- strategic and tactical. We will address the value/importance of IT from strategic and tactical perspectives, and the IT management challenges of managing people, processes and technology. Prerequisite(s): Senior Standing or CIS 4350 or Permission of Department Chair.

CIS 4375. Professional Senior Seminar. 3 Credit Hours.
Participate in professional organizations, current events, research and presentations, job market analysis, interviewing, and resume preparation, in order to prepare for the professional certification exam. Prerequisite(s): 24 hours of CIS courses.

CIS 4376. Network Administration. 3 Credit Hours.
Study communications architectures, protocols, and interfaces as related to network operating systems. Examine communications networking techniques, such as DHCP and DNS server configuration and internet working. Examine industry standards in networking. Special emphasis on installation, configuration, client handling, basic security, and troubleshooting of a network operating system. Use a modern network operating system in order to gain experience in configuration and administration of a network. Lab fee $95. Prerequisite(s): CIS 3347 or permission of department chair.

CIS 4378. Comprehensive Networking. 3 Credit Hours.
A course requiring the student to learn details of various networking protocols and engage in analyzing and designing various computer network applications. Specifically, the course will focus on the OSI and TCP/IP networking protocols, including subnetting of IP address, local area networking (LAN), wide area networking (WAN) and network analysis. This course includes hands-on exercises on various networking layer messages on live web traffic and explore them to understand overall networking process, network operating system, and network performance analysis and simulation. Lab fees: $95. Prerequisite(s): CIS 3347 or permission of department chair.

CIS 4379. Software Engineering for E-Business. 3 Credit Hours.
This course examines the linkage of organizational strategy and electronic methods of delivering products, services, and exchanges in inter-organizational, national, and global environments. Information technology strategy and technological solutions for enabling effective business processes within and between organizations in a global environment are considered. Students study a software life-cycle model, fundamental software engineering principles, and documentation standards in detail. An E-Business team project is required, which emphasizes the production of high quality software for medium and larger scale projects. Prerequisite(s): (CIS 3340 or CIS 3341 or CIS 3342 or CIS 3343) and senior standing.

CIS 4380. Software Engineering. 3 Credit Hours.
Examine the production of high quality software for medium and larger scale projects. Explore theoretical software engineering research as the basis for a practical approach to developing quality software. Special emphasis on the software life-cycle model, fundamental software engineering principles, and documentation standards in detail. Prerequisite(s): CIS 3340 or CIS 3341 or CIS 3342 or CIS 3343 and senior standing.

CIS 4384. Internship in Computer Information Systems. 3 Credit Hours.
Gain practical work experience as a programmer/programmer analyst. Apply the principles, concepts, and skills learned during the first three years of collegiate training to the field of computer information systems. May be repeated for credit. Prerequisite(s): Permission of internship coordinator or department chair. Field experience fee $75.

CIS 5302. Object Oriented Programming. 3 Credit Hours.
This course covers the concepts of object-oriented approach to software design and development. It includes a detailed discussion of programming concepts starting with the fundamentals of data types, control structures, arrays, classes and proceeding to advanced topics such as inheritance and polymorphism, creating user interfaces, and exceptions. Upon completion of this course the students will be able to design and implement applications.

CIS 5304. Data Communications for Managers. 3 Credit Hours.
Examine the management and utilization of data communication technologies including technical components, configurations, applications, protocols, legal issues, software and management issues, Local Area Network (LAN) technologies, and security issues. Upon completion of this course, the students will be able to evaluate, select, and implement different data network options.

CIS 5307. Advanced Systems Analysis and Design. 3 Credit Hours.
Examine system analysis and design processes. Students will be introduced to comparative development methodologies and modeling tools including project management and cost-benefit analysis; information systems planning and project identification and selection; requirements collection and structuring; process modeling; conceptual and logical data modeling; database design and implementation; design of the human-computer interface; system implementation; system maintenance and change management.

CIS 5311. Management Information Systems. 3 Credit Hours.
Study the management and use of information and technology as a resource to create competitive organizations, manage global operations, provide useful products and quality services. Examine intellectual property, privacy, organizational and societal impact, legal issues, ethics, security issues, decision making, strategic information systems, and organizational support systems.
CIS 5312. Technology Support Management Operations. 3 Credit Hours.
Study issues of organizing and staffing a technical support help desk. Explore the numerous management techniques and operational concepts that businesses and governmental organizations use to manage successful technical support activities. Survey the wide array of commercially available technical support software, and work with the public to deliver technical support in an operational environment.

CIS 5316. Advanced Database Management. 3 Credit Hours.
Examine the methodologies of database management including data models, database design, normalization, SQL/PLSQL, NoSQL, performance and reliability, distributed database, data dictionaries, data integrity, security, and privacy.

CIS 5318. Quantitative Concepts. 3 Credit Hours.
Examine and apply measurement techniques to information technology related problems. Use a statistical program to analyze data, and perform analyses of programs and selected algorithms.

CIS 5319. Business Intelligence Systems. 3 Credit Hours.
Examine the fundamentals of Business Intelligence including concepts, techniques and applications. Special emphasis on Decision Support Systems and other collaborative systems, Data Management, Data Mining, Data Visualization, Expert Systems and Intelligent Systems.

CIS 5320. Information Systems Seminar. 3 Credit Hours.
Explore selected topics in information systems. Topics will vary. May be repeated once for credit as topics vary.

CIS 5325. Unified Modeling Language. 3 Credit Hours.
This course covers Systems Development Life Cycle using the Unified Modeling Language (UML) in an object-oriented software system environment. Topics include modeling the elements, structure, and behaviors of object-oriented software systems using UML. Upon completion of this course, students will be able to use UML to identify objects and classes, capture requirements and define use cases, to extend and enhance visual models, and model the details of object behavior with activity and state-chart diagrams.

CIS 5345. Extensible Markup Language. 3 Credit Hours.
Study well-formed XML and validated XML documents and the language facilities for working with hierarchical data. Describe and transform XML data to an external presentation using real world problems.

CIS 5349. Topics in Programming. 3 Credit Hours.
Develop programming proficiency in a modern programming language. Undertake multiple programming assignments to achieve necessary knowledge and skills. May be repeated once for credit as topics vary. Prerequisite(s): Varies with Topic.

CIS 5351. Information Technology Project Management. 3 Credit Hours.
Study the concepts and practices of project management and its importance to improving the success of information technology projects. Utilize project management concepts and techniques within group projects, as a project manager or active team member. Topics include techniques for planning, organizing, scheduling, and controlling information systems projects.

CIS 5353. Big Data Analytics and Management. 3 Credit Hours.
Study fundamental concepts and principles of Big Data Analytics and its role in supporting/enhancing organizational decision making and predictions. Special emphasis on Big Data, trends, challenges and applications, analytic methods, tools, technologies, infrastructure and strategies for Big Data Management, data Privacy and Ethics. Prerequisite(s): CIS 5311 or permission of department chair.

CIS 5354. Advanced Methods in Big Data Analytics. 3 Credit Hours.
Study advanced concepts and principles of Big Data Analytics and its role in supporting/enhancing organizational decision making and predictions. Special emphasis on NoSQL Databases, Hadoop Ecosystem, MapReduce, Pig, Hive, Natural Language Processing, Social Network Analysis, and Data Visualization. Prerequisite(s): CIS 5353, Java Programming or permission of department chair.

CIS 5365. Web Development. 3 Credit Hours.
Examine theory and application of the multimedia application development process. Develop the web-based authoring and scripting tools, to use in the creation of various types of web-based projects. Special emphasis on the planning, design, projection, and evaluation of interactive web-based projects for delivery through a variety of media.

CIS 5370. Foundations of Information Security. 3 Credit Hours.

CIS 5376. Network Administration and Design. 3 Credit Hours.
This course explores network design, installation planning, and preparation. Topics include installing network operating system; establishing network security and services; exploring network administration, network utilities, maintenance techniques; monitoring performance; troubleshooting and configuring the network.

CIS 5380. E-Business Application Development. 3 Credit Hours.
This course provides an in-depth knowledge of systematic approach to analyze digital markets. Upon completion of this course, students will be able to design and implement an e-business project integrating database, and scripting languages. Prerequisite: CIS 5316 or perm of Chair.

CIS 5381. Research Project with Laboratory. 3 Credit Hours.
Engage in independent study in selected topics in Information Systems. May be repeated for credit once when topics change. Prerequisite(s): Varies with topic.

CIS 5382. Research Methods in Computer Information Systems. 3 Credit Hours.
Engage in a supervised professional experience in an information technology-related position with a public or private organization. May be repeated for a total of 6 hours credit. Prerequisite(s): 6 semester hours of CIS courses or equivalent and permission of internship coordinator or department chair. Field experience fee $75.

CIS 5384. Computer Information Systems Internship. 3 Credit Hours.
Engage in a supervised professional experience in an information technology-related position with a public or private organization. May be repeated for a total of 6 hours credit. Prerequisite(s): 6 semester hours of CIS courses or equivalent and permission of internship coordinator or department chair. Field experience fee $75.

CIS 5388. Computer Information Systems Problems. 1-3 Credit Hours.
Study selected topics in CIS and perform research within the student's area of interest as directed by the responsible professor. May be repeated as topics vary for a maximum of 6 semester hours. Prerequisite(s): Varies with topic.

CIS 5389. Special Topics in Computer Information Systems. 3 Credit Hours.
Study selected current topics in computer information systems. May be repeated once for credit as topics vary. Prerequisite(s): Varies with topic.
CIS 5398. Computer Information Systems Thesis. 1-6 Credit Hours.
Prepare and write the information systems thesis. Scheduled when the
student is ready to begin the thesis. No credit until the thesis is accepted.
Prerequisite(s): CIS 5382, 18-hours.

Computer Science (COSC)

COSC 3304. Topics in Computer Science. 3 Credit Hours.
Explore selected topics in computer science including programming
languages, programming techniques, or other specialized topics. May be
repeated once for credit as topics vary. Prerequisite(s): Varies with topic
or permission of department chair.

COSC 3320. Introduction to Software Engineering. 3 Credit Hours.
Study object-oriented software development process, requirements
analysis, software design concepts and methodologies, object-oriented
programming, and debugging. Prerequisite(s): COSC 2436 or permission
of department chair.

COSC 3343. Computer Architecture. 3 Credit Hours.
(WI) Hardware and software structures found in modern digital
computers. Instruction set architecture, hardwired design of the
processor, assembly language programming, microprogramming, I/O and
memory units, analysis of instruction usage, and hardware complexity.
Prerequisite(s): COSC 2436 or CIS 3332 or CIS 3333 or permission of
department chair.

COSC 3351. Data Structures. 3 Credit Hours.
Examine theory and application of commonly used computer data
structures, files, file organization and access methods, databases, and
other storage and retrieval methods. Prerequisite(s): A programming
course in C/C++, Visual Basic, Java, or permission of department chair.

COSC 3360. Ethics in Computing. 3 Credit Hours.
(WI) Examine personal and contemporary organizational ethical issues and
challenges in the design, development and use of computing
technologies in a global environment. Special emphasis on philosophical
basis for computer ethics, reliability and safety of computer systems,
protecting software and other intellectual property, computer crime and
legal issues, and professional codes of ethics such as AIS, ACM, IEEE.

COSC 3380. Operating Systems. 3 Credit Hours.
Examine the design and development of operating systems. Analyze
current system software technology, including process management,
memory organization, security, and file systems. Prerequisite(s): COSC
2436 or CIS 3330 or CIS 3331 or CIS 3332 or permission of department
chair.

COSC 3443. Computer Architecture. 4 Credit Hours.
(WI) Hardware and software structures found in modern digital
computers. Instruction set architecture, hardwired design of the
processor, assembly language programming, microprogramming, I/O and
memory units, analysis of instruction usage, and hardware complexity.
Prerequisite(s): COSC 2436 or CIS 3332 or CIS 3333 or permission of
department chair.

COSC 4301. Database Theory and Practices. 3 Credit Hours.
Examine database concepts and structures. Learn the file and data
management principles underlying database construction. Explore
fundamental types of database models, with emphasis on relational
databases as well as on major non-relational forms. Gain experience in
analysis, design, development, and optimization of working database
applications on a variety of problems. Special emphasis on small and
large system databases. Credit for both CIS 4301 and COSC 4301 will
not be awarded. Prerequisite(s): 6 hours of computer science courses or
permission of department chair.

COSC 4310. Artificial Intelligence. 3 Credit Hours.
A study of AI programming techniques and tools. Topics include Expert
Systems, Neural Networks, Genetic Algorithms, Automatic Programming,
heuristic search, and others. Prerequisite(s): CIS 3331 or CIS 3332 or CIS
3333 or permission of department chair.

COSC 4311. Android Application Development. 3 Credit Hours.
This course explores the design and development of mobile applications
such as Android, including resources, user interfaces, services, alarms,
maps and location based services. Prerequisite(s): CIS 3332 or
permission of department chair.

COSC 4340. Analysis of Algorithms. 3 Credit Hours.
Study modern computer algorithms with emphasis on how to select
the best algorithm for a task considering the specific computing
environment. Examine searching and sorting algorithms for their
importance in computing. Special emphasis on efficiency, readability,
maintainability, advanced design and analysis techniques, advanced
data structures, and graph algorithms. Prerequisite(s): COSC 3351 or
concurrent enrollment or permission of department chair.

COSC 4341. Information Technology Security and Risk Management. 3
Credit Hours.
Examine the realm of information assurance and security. Study the
fundamental principles, concepts, and common body knowledge of
information security. Explore telecommunication and network security,
software development and physical security, cryptography, security
architecture, operations security, business continuity and disaster
recovery planning. Understand the legal and ethical issues in technology
security, and risk management.

COSC 4378. Computer Networks. 3 Credit Hours.
A course requiring the student to learn the details of various networking
protocols and engage in analyzing and designing various computer
network applications. Specifically, the course will focus on the OSI
and TCP/IP networking protocols, including subnetting of IP address,
local area networking (LAN), wide area networking (WAN), and network
analysis. This course includes hands-on exercises on various networking
layer messages on live web traffic and explores them to understand
overall networking process. Lab fees: $95. Prerequisite(s): CIS 3347 or
(COSC 2436 and MATH 2414) or permission of department chair.

COSC 4379. Software Engineering for E-Business. 3 Credit Hours.
This course examines the linkage of organizational strategy and
and electronic methods of delivering products, services and exchanges in
inter-organizational, national, and global environments. Information
technology strategy and technological solutions for enabling effective
business processes within and between organizations in a global
environment are considered. Students study a software life-cycle model,
fundamental software engineering principles, and documentation
standards in detail. An E-Business team project is required, which
emphasizes the production of high quality software for medium and
larger scale projects. Prerequisite(s): (COSC 3340 or CIS 3341 or CIS
3342) and senior standing.

COSC 4388. Computer Science Problems. 1-4 Credit Hours.
Explore selected topics in computer science. May be repeated with the
permission of the department chair for additional credit when fewer than
four credits have been earned. Prerequisite(s): 9 hours of COSC.

COSC 4389. Special Topics in Computer Science. 3 Credit Hours.
(WI) Explore selected topics in computer science, such as artificial
intelligence, security, robotics, and human-computer interaction. May be
repeated for additional credit with permission of the department chair.
Prerequisite(s): 9 hours of COSC.
Counselling (COUN)

COUN 5090. Comprehensive Examination. 0 Credit Hours.
Study for and take the behavioral examination for Non-thesis students. Register for the comprehensive examination during final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis students do not take this examination.

COUN 5300. Behavioral Statistics. 3 Credit Hours.
Study descriptive statistics with inferential statistics, correlation, one-way and two-way analysis of variance, regression analysis and experimental design. Use computer software with emphasis on experience with SPSS.

COUN 5301. Research Methods. 3 Credit Hours.
Study the scientific method of research, types of research and research design. Develop a research project with the assistance of instructor. Prerequisite(s): COUN 5300 or equivalent graduate statistics course or permission of department chair.

COUN 5304. Human Development. 3 Credit Hours.
Study the development of human beings from conception to death. Learn research and theory of physical, cognitive, social and personality development in each of the different age groups, prenatal, infancy, childhood, adolescence, and adulthood also covers related ethical concerns.

COUN 5307. Abnormal Behavior. 3 Credit Hours.
Counselors need to understand the construct of abnormal behavior is a social construction and thus may be defined differently by cultures, families and society. We will examine the theories of abnormal psychology, current research through the lens of a socio-cultural model. We will also examine social and group dynamics that can elicit abnormal behavior from "normal" people. Prerequisite(s): COUN 5350 or permission of department chair.

COUN 5309. Assessment and Treatment of Marital and Family Systems. 3 Credit Hours.
Study evaluative methods and assessment techniques as well as treatment plans and strategies for examining and treating problematic and dysfunctional marital and family systems. Emphasis is placed on case analysis, management and treatment. Prerequisite(s): COUN 5350 and COUN 5356 or permission of department chair.

COUN 5311. Cultural, Minority and Gender Issues. 3 Credit Hours.
Study the interaction of social/cultural groups in America, problems of minorities and ethnic groups, problems related to gender and age, problems within family systems and contemporary sources of positive change also covers related ethical concerns.

COUN 5313. Crisis Intervention and Management. 3 Credit Hours.
Examine the dynamics and treatment of situation crises in various settings. Study theories and approaches to crisis intervention and management. Prerequisite(s): COUN 5350 or permission of department chair.

COUN 5320. Advanced Family Systems Theory. 3 Credit Hours.
Examine theories of family systems in relation to internal functioning and the external environment, including concepts of multi-generational transmission, fusion, emotional cutoff, differentiation, family projection and triangulation among others.

COUN 5350. Foundations of Counseling. 3 Credit Hours.
Study individual and group counseling, testing career planning and placement, referral, and consultation. Examine related theories and concepts with emphasis on counseling skills, as well as history and ethical and professional issues.

COUN 5351. Career Counseling and Guidance. 3 Credit Hours.
Study career counseling and guidance services that focus on occupational, educational, and personal/social issues for general and special populations. Examine theoretical bases for career counseling and guidance, study of organization and delivery of information through individual and group activities, and related ethical concerns. Additional purchase of occupational and education information materials may be required.

COUN 5352. School Counseling Seminar. 3 Credit Hours.
Study comprehensive school counseling and guidance programs. Examine theoretical foundation, knowledge, and skills to prepare the student to implement a counseling and guidance program in an educational (K-12) setting. Covers related ethical concerns. Certification Fee - $150.

COUN 5353. Personality and Counseling Theory Application. 3 Credit Hours.
Investigate personality and counseling theories with an emphasis on how theories influence practice. Special emphasis on applications to various populations, role play, other experiential methods, and related ethical concerns. Prerequisite(s): COUN 5350 or PSYC 5360 or approval of the Department Chair.

COUN 5354. Group Procedure for Counselors. 3 Credit Hours.
Explore group therapy and group procedures with special emphasis on the development of group counseling skills with children, adolescents, adults, special populations, and related ethical concerns while supervised. Prerequisite(s): COUN 5350 and COUN 5357 or permission of department chair.

COUN 5356. Introduction to Family Counseling. 3 Credit Hours.
Learn family systems theory as applied to the study of family dynamics, family development, and the resolution of both family and ethical concerns.

COUN 5357. Methods and Practices in Counseling. 3 Credit Hours.
Study counseling pre-interns to methodology that goes beyond building basic counseling skills and techniques. Learn the basics of professional documentation, treatment planning, legal issues related to counseling, psychological services, and basic business practices. Prerequisite(s): COUN 5350 or PSYC 5360 or approval of the Department Chair.

COUN 5358. Counseling Perspective on Psychopathology. 3 Credit Hours.
Explore psychopathology that includes the history of abnormal behavior and an in-depth study of the specific diagnostic psychological disorders. Emphasis will be on classification systems currently used in clinical settings, treatment alternatives from a counseling perspective, and related ethical concerns. Prerequisite(s): COUN 5350 or PSYC 5360 or approval of the Department Chair.

COUN 5359. Brief Therapy. 3 Credit Hours.
Explore psychopathology that includes the history of abnormal behavior and an in-depth study of the specific diagnostic psychological disorders. Emphasis will be on classification systems currently used in clinical settings, treatment alternatives from a counseling perspective, and related ethical concerns. Prerequisite(s): COUN 5350 or permission of department chair.
COUN 5363. Substance Abuse. 3 Credit Hours.
Study addiction counseling. Special emphasis is given to models of addiction, chemical dependence, process addictions, co-dependence and related ethical concerns.

COUN 5365. Ethical Foundation of Counseling. 3 Credit Hours.
Explore ethical principles of counselors, related codes of ethics, models for ethical decision making, and how to apply them to counseling practice.

COUN 5367. Play Therapy. 3 Credit Hours.
Learn play therapy with an emphasis on developing counseling skills using play as the means of communication and understanding. Study background, history, various play techniques, and related ethical concerns. Prerequisite(s): COUN 5350 or permission of department chair.

COUN 5381. Assessment and Evaluation Fundamentals. 3 Credit Hours.
Examine nature and development of standardized tests, with emphasis on ethical standards, psychometric theory, test standards, and test construction. Selection criteria and utilization of standardized or other instruments in various environments are considered. Analyze evaluations and critiques of published tests and experiential exposure to different types of psychological tests. Prerequisite(s): COUN 5300 or permission of department chair.

COUN 5383. Consultation and Supervision. 3 Credit Hours.
Study application of psychological principles of consultation and supervision in selected settings. Emphasis is on analysis of client and consultee/ supervisor behaviors, individual and group communications, program evaluation and possible intervention options in selected environments. Prerequisite(s): COUN 5393, COUN 5350 and COUN 5353.

COUN 5386. Clinical Mental Health Internship. 3 Credit Hours.
Explore professional activities in counseling and become familiar with a variety of professional activities and resources. Must complete 600 clock hours, of which at least 240 are direct client contact, in no less than two semesters and no more than three semesters. Interns will receive a minimum of 1.5 hours per week of group supervision and 1 hour per week of individual/triadic supervision. Prerequisite(s): COUN 5393 and permission of Practicum/internship Director. Field experience fee - $75.

COUN 5388. Counseling Problems. 1-3 Credit Hours.
Study of selected problems in counseling. Open to graduate students in counseling who are independently capable of developing a problem in the area of counseling and guidance. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need.

COUN 5389. Special Topics in Counseling. 3 Credit Hours.
Examine current advanced study material on a specialized topic of interest to counseling and psychology. Explore required readings from current counseling and psychology publications and other related periodicals. Course may be repeated for credit as topics vary.

COUN 5391. School-Counseling Practicum I. 3 Credit Hours.
Explore professional activities in guidance and counseling. Major emphasis is placed on the involvement in successful practices at the educational level of interest. Students must have met all academic and professional standards of practice before placement and lab experiences are included. Prerequisite(s): COUN 5350, COUN 5351, COUN 5353, COUN 5354, COUN 5357, COUN 5352. Field experience fee - $75.

COUN 5392. School-Counseling Practicum II. 3 Credit Hours.
Experience professional activities in counseling and guidance in areas of interest. Major emphasis is placed on the integration of theoretical and conceptual principles, as well as professional and personal skill development, and related ethical concerns. Prerequisite(s): COUN 5391 and the application for internship. Field experience fee - $75.

COUN 5393. Clinical Mental Health Practicum. 3 Credit Hours.
Gain professional experience in marriage and family, mental health, and/or counseling and guidance placements in the Community Counseling and Family Therapy Center, or in placements outside the university. The field experience will consist of 100 clock hours with 40 client contact hours. Weekly individual and group supervision is included. Prerequisite(s): COUN 5350, COUN 5353, COUN 5354, COUN 5357, COUN 5358 and COUN 5365 with a B or better in each course; and consent of the practicum/internship director. Field Experience fee - $75.

**Criminal Justice (CRIJ)**

CRIJ 3300. Juvenile Delinquency. 3 Credit Hours.
Study the nature, extent, causation, treatment, and prevention of juvenile delinquency, including a survey of the procedures and operations of the juvenile justice agencies.

CRIJ 3301. Female Offenders. 3 Credit Hours.
Study female offenders in the criminal justice system, including historical perspectives, juvenile offenders, programming and treatment, and prison and community corrections.

CRIJ 3305. Criminology. 3 Credit Hours.
Study and critique various theories of crime causation, including an examination of classical, biological, psychological, and sociological perspectives on the etiology of crime. Maybe crosslisted with SOCI 3305. Only one may be taken for credit.

CRIJ 3310. Criminal Justice Supervision and Management. 3 Credit Hours.
Study theories and principles of supervision as applied to criminal justice agencies including organization, leadership, motivation, human resources flow, and managerial ethics. Prerequisite(s): Junior classification or permission of instructor.

CRIJ 3311. Techniques of Interviewing. 3 Credit Hours.
Study interview and interrogation techniques, including preparation, environmental and psychological factors, legal issues, and ethics.

CRIJ 3315. Criminal Evidence. 3 Credit Hours.
Analyze the procedures and rules of evidence applied to the acquisition, offering, admissibility, and presentation of evidence from the crime scene, courtroom, and appellate court perspectives.

CRIJ 3320. Policing. 3 Credit Hours.
Examine law enforcement, and the role of police in communities and society. Learn to critically evaluate policing as a profession. Special emphasis on dispelling myths and providing tools needed to reach conclusions based upon the available research in the field of police work.

CRIJ 3325. Institutional Corrections. 3 Credit Hours.
Study the structure and function of correctional systems and how various philosophies of correctional treatment affect the operation of confinement institutions.

CRIJ 3330. Community Corrections. 3 Credit Hours.
Study the philosophy, administrative procedures, and operational techniques used in the community based treatment and supervision of offenders.
CRIJ 3340. Homeland Security. 3 Credit Hours.
Study the strategic, legal, policy, operational, and organizational issues associated with the defense of the U.S. homeland from foreign and domestic terrorist threats. Examine the psychology of mass movements, terrorists' ideology, religion and terror, legal issues in homeland security, weapons of mass destruction, effective interfacing between local, state, and federal agencies, emergency management operations, and dealing with mass casualties.

CRIJ 3345. Criminal Justice and Moving Images. 3 Credit Hours.
Explore the role of film, television, and other moving images in the development of perceptions and stereotypes of criminals, victims, and criminal justice professionals, and institutions.

CRIJ 3352. Physical Aspects of Forensic Science. 3 Credit Hours.
Examine various forensic physical sciences and their relation to crime scene investigation and the collection, preservation and identification of evidence. Learn methods of laboratory analysis including forensic disciplines of pathology, anthropology, odontology, entomology, toxicology, serology, DNA, and blood pattern analysis.

CRIJ 3353. Biological Aspects of Forensic Science. 3 Credit Hours.
Examine various forensic biological sciences and their relation to crime scene investigation and the collection, preservation and identification of evidence. Learn methods of laboratory analysis including forensic disciplines of pathology, anthropology, odontology, entomology, toxicology, serology, DNA, and blood pattern analysis.

CRIJ 3384. Criminal Justice Field Experience. 3 Credit Hours.
Application and integration of academic content and development of skills within a criminal justice setting. Entry into this course will be arranged with the internship coordinator. May be taken more than once for credit. Field experience fee $75.

CRIJ 4300. Treatment in Corrections. 3 Credit Hours.
Examines the various types of treatment provided in corrections. Students learn about treatment practices and programs used in corrections, with an emphasis on evidence-based practices. Examines research on the effectiveness of treatment programs.

CRIJ 4303. Race, Crime, and Justice. 3 Credit Hours.
Examines racial profiling, immigration, the death penalty in the context of criminal justice practice. Provides current issues regarding the relationship between race and ethnicity and all components of the criminal justice system in the US. One may not take both this course and SOCI 3303 for credit.

CRIJ 4308. Victimology. 3 Credit Hours.
This course includes a comprehensive study of victimization, including the relationship between the victims and offenders, and their interaction with the criminal justice system.

CRIJ 4312. Criminal Justice Ethics. 3 Credit Hours.
(WI) Analyze contemporary ethical issues in crime and justice. Classical and contemporary ethical theories are applied to the discussion of such issues as discretion, corruption, use of force, racism, deception, professionalism, and the nature and meaning of justice.

CRIJ 4315. Criminal Justice Statistics. 3 Credit Hours.
Learn statistical concepts and techniques that can assist in evaluating research. Techniques include measures of central tendency, dispersion, and significance. Examine hypothesis testing using t-tests, ANOVA, and Chi square, and learn to manipulate, analyze, and interpret data using SPSS.

CRIJ 4316. Methods of Criminal Justice Research. 3 Credit Hours.
(WI) Learn the methods of criminological and criminal justice research, with emphasis on research ethics, research design, and methods of data collection and analysis.

CRIJ 4320. Criminal Justice Statistics II. 3 Credit Hours.
Learn intermediate-level statistics used in Criminal Justice research, with focus on statistical analyses commonly used in hypothesis testing with an introduction to measures of association and multivariate analyses. Prerequisite(s): CRIJ 3315 or permission of instructor.

CRIJ 4350. Advanced Investigation. 3 Credit Hours.
Explore advanced criminal and civil investigation, with an introduction to special investigative techniques. Emphasis on crime scene processing, crime scene analysis, forensic evaluations, investigative techniques, and investigative surveys.

CRIJ 4351. Forensic Anthropology. 3 Credit Hours.
Apply the science of physical anthropology to the legal investigative process. Learn to identify human remains, as well as age, sex, ancestry, and stature of those remains and how these are used to help establish positive identification. Special emphasis on skeletal trauma and pathology to determine cause and manner of death. Cross-listed with ANTH 4351; only one may be taken for credit.

CRIJ 4388. Criminal Justice Problems. 3 Credit Hours.
Engage in independent reading, research, and discussion on selected criminal justice topics. Entry into this course will be arranged by the instructor.

CRIJ 4389. Special Topics in Criminal Justice. 3 Credit Hours.
Explore selected criminal justice topics. Topics will vary according to timeliness and special needs. May be taken more than once for credit.

CRIJ 4395. Criminal Justice Senior Seminar. 3 Credit Hours.
Utilize knowledge of the criminal justice system in the capstone of the criminal justice curriculum. Examine current practices related to operations, recruitment, testing, training, and law, to prepare for entry to the criminal justice profession. Prerequisite(s): CRIJ 3305, CRIJ 3310 and CRIJ 4316. Restricted to senior-year CJ majors.

CRIJ 5090. Criminal Justice Comprehensive Examination. 0 Credit Hours.
Study and integrate criminal justice knowledge in order to take the criminal justice comprehensive exam for non-thesis students. Non-thesis students should register for the comprehensive examination during their final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis students do not take this examination.

CRIJ 5198. Criminal Justice Thesis. 1-3 Credit Hours.
Prepare and write a graduate thesis in the field of criminal justice. This course represents a student's initial and continuing thesis enrollment. At least six total hours is required to complete the thesis requirement. The student continues to enroll in this course until the thesis is submitted and the thesis is successfully defended.

CRIJ 5300. Linear Regression. 3 Credit Hours.
Introduces students to statistical concepts and techniques that can assist them in evaluating research and in engaging in research on the graduate level. Both bivariate and multiple regression techniques will provide the main content of the course. Prerequisite(s): 3 hours in undergraduate or graduate statistics, or consent of instructor.
CRIJ 5301. Advanced Criminology. 3 Credit Hours.
Examine major theoretical perspectives of crime and deviance. Analyze theories for their logical and empirical adequacy in light of what is known about the distribution of crime and deviant behavior. Prerequisite(s): Undergraduate or graduate coursework in Criminology or permission of instructor.

CRIJ 5303. Race and Ethnicity. 3 Credit Hours.
Examine issues related to racial and ethnic minorities and crime in America, including perceptions of race, class, offending, and victimization. Emphasis on disparities in offending, victimization, law enforcement practices, trial process, and sentencing.

CRIJ 5304. Advanced Methods in Criminal Justice. 3 Credit Hours.
Study social scientific research methods applied to criminal justice research, and critically examine research designs and published findings. Includes an advanced review of procedures and techniques for research in criminology, law enforcement, courts, and corrections. Prerequisite(s): Undergraduate or Graduate course in Research Methods or permission of instructor.

CRIJ 5306. Criminal Justice Program Evaluation. 3 Credit Hours.
Learn to define program evaluation, the need for program evaluations, and the methods used to conduct evaluations.

CRIJ 5307. Homeland Security. 3 Credit Hours.
Study strategic, legal, policy, operational, and organizational issues associated with the defense of the U.S. homeland from foreign and domestic terrorist threats. Topics include legal issues in Homeland Security, effective interfacing between local, state, and federal agencies, emergency management operations, and planned response strategies. May be crosslisted with HLS 5307. Only one may be taken for credit.

CRIJ 5308. Victimology. 3 Credit Hours.
This course includes a comprehensive study of victimization, including the relationship between the victims and offenders, and their interaction with the criminal justice system. Students will provide a literature review on a topic of interest.

CRIJ 5309. Terrorism. 3 Credit Hours.
Examine the definitions, history, beliefs, practices, organizational structure, and conflicts involved in terrorist activities. Address funding and criminal connections with terrorist organizations, efforts at counterterrorism as well as the psychological aspects of suicide terrorism.

CRIJ 5311. Logistic Regression. 3 Credit Hours.
Introduces students to logistic regression models for estimating discrete or categorical variables. Prerequisite: 3 hours in CRIJ 5300, or consent of instructor.

CRIJ 5315. Graduate Proseminar. 3 Credit Hours.
Introduces students to the department and faculty. Emphasis placed on effective study habits and writing skills associated with research, as well as other activities/parameters that will assist the student in being successful in the program. This course is cross-listed with HLS 5315; only one may be taken for credit.

CRIJ 5321. Leadership and Supervision. 3 Credit Hours.
Examine leadership and organizational theories focused on identifying problems and solutions in criminal justice management. The case study method and current literature provide experiences on how leadership styles, human resources, and the organizational environment impact management decisions. Maybe crosslisted with HLS 5321. Only one may be taken for credit.

CRIJ 5322. Advanced Criminal Justice Ethics. 3 Credit Hours.
Study the practical implications of moral philosophy and ethics in a free society during the day-to-day administration of a criminal justice agency.

CRIJ 5388. Criminal Justice Problems. 1-3 Credit Hours.
Engage in independent reading, research, and discussion on selected criminal justice topics. Entry into this course will be arranged with the School Director. Students may repeat this course for a total of 6 hours credit when topics vary.

CRIJ 5389. Special Topics in Criminal Justice. 3 Credit Hours.
Examine selected topics related to criminal justice. This course may be repeated when topics vary, for additional course credit.

Economics (ECON)

ECON 3301. Intermediate Macroeconomics. 3 Credit Hours.
Study of the aggregate economy introduced in Economics 2301 with emphasis on theory. Learn the Classical and Keynesian systems, general equilibrium theories, economic growth, and public policy in a global setting. Prerequisite(s): ECON 2301.

ECON 3302. Intermediate Microeconomics. 3 Credit Hours.
Explore advanced studies of microeconomic theory. Special emphasis on consumer behavior, production and cost theory, market structure, and factor markets. Prerequisite(s): ECON 2302.

ECON 3303. Money and Banking. 3 Credit Hours.
Study the structure and functions of financial markets and financial intermediaries, the behavior and pattern of interest rates, the basic concepts of commercial bank management, the nature of money and the role of the Federal Reserve in its creation, the basic structure of the economy and the impact of monetary actions on this structure. Credit for both FIN 3303 and ECON 3303 will not be awarded. Prerequisite(s): ECON 2301.

ECON 3304. Environmental Economics. 3 Credit Hours.
Study the economics of the natural environment. Economic tools and issues such as social cost, externalities, cost-benefit analysis, property rights, and state and federal environmental policies will be examined with emphasis on problems associated with water pollution, waste disposal, and society's burden of social costs. Prerequisite(s): 3 hours ECON.

ECON 3305. Economics in Financial Markets. 3 Credit Hours.
Study the aggregate financial system and capital markets and the impact these have on financial intermediaries. Particular emphasis on flow of funds analysis, interest rate theory, role of financial intermediaries, and management of financial assets. Credit for both FIN 3304 and ECON 3305 will not be awarded. Prerequisite(s): FIN 5301 and ECON 3303.

ECON 3306. Political Economy. 3 Credit Hours.
Study the historical, philosophical, and theoretical relationships between the state and the economy. Credit for both POLI 3306 and ECON 3306 will not be awarded. Prerequisite(s): 3 hours of ECON and 6 hours of POLI or permission of instructor.

ECON 4301. International Economics. 3 Credit Hours.
Analyze international economic theory and policy, the foundations of modern trade theory and its extensions, welfare effects of tariffs and non-tariff barriers, commercial policies of the United States, trade policies of developing countries, multinationals, balance of payments, and foreign exchange markets. Prerequisite(s): 3 hours ECON.

ECON 4302. Economic Development of the US. 3 Credit Hours.
Survey of the economic development of the United States from colonial times to the present. Credit for both ECON 4302 and HIST 4302 will not be awarded. Prerequisite(s): ECON 1301 or ECON 2301 and 6 hours HIST.
ECON 4310. Managerial Economics. 3 Credit Hours.
Study economic theory and methodology in business and administrative decision-making. Learn the tools of economic analysis and their use in formulating business policies. Particular emphasis on profits, production and cost functions, demand theory, competitive pricing policies, and business criteria for investment output and marketing decisions. Credit for both FIN 4310 and ECON 4310 will not be awarded. Prerequisite(s): FIN 3301.

ECON 4321. Development of Rural Areas. 3 Credit Hours.
Study the fundamental causes of economic decline in rural areas. Learn application of economic principles and theory to problems of rural areas. Evaluate current methods, and public programs for economic development, with special emphasis on applications of analytical methods to development problems. Prerequisite(s): ECON 2302.

ECON 4365. Intermediate Economics. 3 Credit Hours.
Discuss the American free enterprise system, the nation's economy and its strengths and weaknesses. Examine professional journals, articles, books and reports by the government and private sources, in order to coordinate and apply the analytical knowledge acquired during the period of study. Prerequisite(s): Macroeconomics and microeconomics, college algebra or MATH 3309 or permission of instructor.

ECON 4388. Economic Problems. 1-3 Credit Hours.
Study of selected problems in economics. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need. Entry into this course will be arranged with the Economics counselor.

ECON 5308. Managerial Economics. 3 Credit Hours.
Study economic theory and methodology in business and administrative decision-making. Utilize the tools of economic analysis to demonstrate and formulate business policies. Particular emphasis on profits, production and cost functions, demand theory, competitive pricing policies, and business criteria for investment output and marketing decisions. Credit for both FIN 5308 and ECON 5308 will not be awarded.

ECON 5359. Economic Applications Issues. 3 Credit Hours.
Examine the application of economic theory in the firm (micro) and in the overall economy (macro), in-depth research and analysis of current economic issues through critical examination of the professional literature and the current environment of business government.

ECON 5364. Global Commerce Seminar. 3 Credit Hours.
Focus on global competitive challenges facing business management teams. Evaluate how companies have strategically entered and become familiar with institutions and national policies directing international trade.

ECON 5388. Economic Problems. 1-3 Credit Hours.
Study selected problems in economics. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need.

Education (EDUC)
EDUC 3300. World Regional Geography for Educators. 3 Credit Hours.
Examine practices for teaching World Regional Geography. Required for a Bachelor of Science degree in Interdisciplinary Studies and for teacher certification. Must be completed before students attempt the TExES, the teacher certification exam, and before student teaching.

EDUC 3315. Literacy Instruction for Bilingual Classroom. 3 Credit Hours.
Examine knowledge and skills required to teach limited English language learners, with an emphasis on program implementation, curriculum, materials, oral language, literacy development and assessment strategies. Spanish and English will be spoken in this class. Prerequisite(s): Passing scores on the BTLPT – Spanish (Bilingual Target Language Proficiency Test) – Spanish, EDUC 3325, EDUC 3320 and READ 3311.

EDUC 3320. Professional Development in Learner Centered Schools. 3 Credit Hours.
Examine students in learner centered schools. Study lesson planning, learning styles and strengths of diverse learners, learner-centered instructions, instructional strategies, lesson plans, TEKS educational equality, and the professional standards of educators. Technology lab and documentation of field experiences are required. Certification Fee - $150.

EDUC 3325. Fundamentals of Bilingual and English as a Second Language Education. 3 Credit Hours.
Examine history, philosophies, theoretical, and legal foundations regarding Bilingual/English as a Second Language education. Learn the knowledge and skills required to teach English Language Learners, with an emphasis on instructional strategies. Prerequisite(s): EDUC 3320.

EDUC 3330. Professional Development II: Effective Instruction. 3 Credit Hours.
Examine the relationship between the state-adopted curriculum, learner-centered proficiencies, and best practices. Study lesson cycles, models of learning, instruction, uses of technology, assessment, classroom management, micro-teaching and field experience. Classroom management lab and documentation of field experiences are required. Prerequisite(s): EDUC 3320 and admission to the Teacher Education Program.

EDUC 3340. Mathematics Instruction for Classroom Teachers. 3 Credit Hours.
Study for preservice educators to plan, organize, deliver, and evaluate developmentally appropriate educational strategies and instructional techniques in teaching mathematics to diverse learners. Design responsive instruction appropriate for all learners which reflects an understanding of relevant mathematics content, promotes active engagement, and is based on continuous and appropriate assessment.

EDUC 3350. Science Instruction for Classroom Teachers. 3 Credit Hours.
Study for preservice educators to plan, organize, deliver, and evaluate developmentally appropriate educational strategies and instructional techniques in teaching science to diverse learners. Design responsive instruction appropriate for all learners which reflects an understanding of relevant science content, promotes active engagement, and is based on continuous and appropriate assessment.

EDUC 3360. The Arts for Educators. 3 Credit Hours.
This methods course is concerned with providing experience for preservice educators to plan, organize, deliver, and evaluate developmentally appropriate educational strategies and instructional techniques in teaching the arts to diverse learners. The students design responsive instruction appropriate for all learners which reflects an understanding of relevant music, art and theater content, promotes active engagement, and is based on continuous and appropriate assessment.
EDUC 4304. Early Childhood Environments Professional Development III. 3 Credit Hours.
Study all aspects of classroom management, including the physical environment and use of centers for diverse groups of early elementary students. Examine current issues related to early childhood education. Demonstrate developmentally appropriate effective teaching practices in field-based setting. Prerequisite(s): Admission to the Teacher Education Program, Application for Practicum, READ 3330, EDUC 3325, EDUC 3330, EDUC 3340 and EDUC 3350; Concurrent enrollment in READ 4304, READ 4305 and EDUC 4320. Field experience fee $75.

EDUC 4305. Language Concepts and Proficiencies in a Bilingual Classroom. 3 Credit Hours.
Examine curriculum requirements as applicable to bilingual education, language concepts and proficiencies needed for teaching language arts, math, science, and social studies in bilingual classrooms. Evaluate commercial and research-based programs in order to adapt materials for students with varying degrees of language and literacy proficiency. Field experiences required. Prerequisite(s): Passing scores on the BTLPT – Spanish (Bilingual Target Language Proficiency Test-Spanish), EDUC 3325, EDUC 3315, READ 3311 and READ 3335.

EDUC 4315. Elementary Curriculum, Assessment and Instruction. 3 Credit Hours.
Implement assessment-driven instruction and curricular design in interdisciplinary contexts. Apply knowledge of developmental stages, learner needs, and the stated expectations of TEKS in the core content areas to design, implement, and evaluate an interdisciplinary curriculum. Study effective teaching practices, problem based learning and technology applications. Pre-requisites EDUC 3320, EDUC 3330 and concurrent enrollment in EDUC 4304, READ 4304 and READ 4305.

EDUC 4317. Assessment & Interpretation for Secondary Teachers. 3 Credit Hours.
This course is for students seeking a secondary certification to examine technology driven design and implementation of data-driven instruction to include the implementation of effective assessments, student data collection, analysis, interpretation, and communication aligned to learning goals for a diverse student population. The objective of this course if for the secondary pre-service teachers to be able to demonstrate the ability to effectively collect, analysis and communicate student data for continuous teaching and learning for diverse students. Prerequisite(s): Admittance into the Teacher Education Program. Field Experience required. Field Experience Fee: $25.

EDUC 4320. Social Studies Instruction for Teachers. 3 Credit Hours.
This methods course is concerned with providing experience for preservice educators to plan, organize, deliver, and evaluate developmentally appropriate educational strategies and instructional techniques in teaching Social Studies to diverse learners. The students design responsive instruction appropriate for all learners which reflects an understanding of relevant content, promotes active engagement, and is based on continuous and appropriate assessment. Emphasis is on integration of content.

EDUC 4325. History for Educators. 3 Credit Hours.
This methods course is concerned with providing experience for pre-service educators to plan, organize, deliver, and evaluate developmentally appropriate educational strategies and instructional techniques in teaching US, Texas and world history to diverse learners. The students design responsive instruction appropriate for all learners which reflects an understanding of relevant history content, promotes active engagement, and is based on continuous and appropriate assessment.

EDUC 4330. Professional Development III. 3 Credit Hours.
Field-based and practicum experiences are required in school settings, where students plan units of instruction, examine various models of instruction, analyze classroom management strategies, and demonstrate competencies in effective teaching practices. Prerequisite(s): Admission to the Teacher Education Program, EDUC 3330 and READ 3335. Field experience fee - $75.

EDUC 4331. Curriculum & Instruction for Secondary Teachers. 3 Credit Hours.
The course will study lesson planning, lesson cycles, learning styles and strengths of diverse learners. Additionally, teacher candidates will explore learner-centered instruction and strategies, brain-based learning, cooperative learning, assessment, classroom management, integration of technology, and the state-adopted curriculum (TEKS). The teacher candidates will examine the relationship between the state-adopted curriculum, learner-centered proficiency, and best practices. Field experiences 25 hours are required as well as $25 field experience fee. Additionally, a fee of $150 is due for certification. Prerequisite(s): Admission to the Teacher Education Program. Prerequisite(s): Field Experience required. Field Experience Fee: $25. Certification Fee - $150. Prerequisite(s): Admission to the Teacher Education Program.

EDUC 4332. Classroom Management for Secondary Teachers. 3 Credit Hours.
This course provides secondary educators with knowledge and skills to create safe, supportive, and respectful learning environments. Students will analyze classroom management strategies and examine various modes of instruction. An analysis of legal and ethical issues as they relate to the classroom are an important component of the course. Secondary students will have field-based experience based on in-school settings. Admittance into the Teacher Education Program. Prerequisite(s): Admittance into the Teacher Education Program. Field Experience required. Field Experience Fee: $25.

EDUC 4335. Capstone for Educators. 3 Credit Hours.
Capstone is a culminating course designed for teacher candidates to synthesize their knowledge across the program through the development of artifacts that demonstrate effective integration of content understanding and pedagogical skills. The teacher candidates will analyze student learning and reflect on their teaching effectiveness in order to facilitate learning for all students. Prerequisite(s): Admittance to the Teacher Education Program, successful completion of Content Certification Examination, and concurrent enrollment in Clinical Teaching (EDUC 4691).

EDUC 4337. Educating Secondary Exceptional Learners. 3 Credit Hours.
This course provides instruction in the historical, philosophical, and legal foundations of exceptional education as related to current issues and practices in educational settings. It comprises issues and trends that include transition – related instruction, postsecondary programs, and adaptability to and in secondary classrooms. Teacher candidates will develop an awareness of legal aspects of exceptional education as well as needs and services specific to students with specific needs in the secondary classroom. Prerequisite(s): Field experience required. Field experience fee $25.
EDUC 4340. Technology Application and Integration for Classroom Teachers. 3 Credit Hours.
Study for preservice educators to plan, organize, deliver, and evaluate instruction for diverse learners through the effective use and integration of current technology. Use of technology for ethical and professional communication with colleagues, community, and students. Prerequisite(s): Admission to Clinical Teaching; successful completion of designated content area Texas Examination of Educator Standards (TExES); concurrent enrollment in EDUC 4691 and EDUC 4335 or permission of department chair.

EDUC 4384. Classroom Teaching Internship. 3 Credit Hours.
Explore supervised field-based activities in public school classrooms. Major emphasis is placed on the development of instructional strategies and professional practices designed to improve teaching performance. May be repeated for credit. Prerequisite(s): Admission to the Teacher Education Program. Field experience fee - $75.

EDUC 4388. Education Problems. 1-3 Credit Hours.
Study of selected problems in education. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need. Prerequisite(s): Junior or senior standing, admission to the Teacher Education Program and permission of Curriculum and Instruction Program Coordinator.

EDUC 4691. Clinical Teaching. 6 Credit Hours.
Explore supervised clinical teaching in the public schools at the appropriate level (1-18). A demonstration of proficiency in the application of effective teaching practices and classroom management strategies is required. Prerequisite(s): Admission to Clinical Teaching and the successful completion of designated content area of the Texas Examination of Educator Standards (TExES); Concurrent enrollment in EDUC 4335 and EDUC 4340*, or permission of department chair. * 7-12 math students may take MATH 3315 in place of EDUC 4340. Field experience fee - $75.

EDUC 5090. Education Comprehensive Examination. 0 Credit Hours.
Study and take the education examination for Non-thesis students. Register for the comprehensive examination during final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis student do not take this examination.

EDUC 5198. Education Thesis. 1-6 Credit Hours.
Independent research course in which a student proposes and completes an original, quantitative research project. Scheduled when the student is ready to begin thesis. No credit awarded until proposal and thesis are complete. Prerequisite(s): Completion of all other coursework required for the degree and consent of the major professor or permission of department chair.

EDUC 5300. Foundations and History of Education. 3 Credit Hours.
Examine history of education in the United States through a study of the philosophical, historical, psychological and social foundations of curriculum. Emphasis is on the development of a philosophy of education and critical thinking about issues in education. Students must complete this course within the first twelve semester hour of graduate study.

EDUC 5301. Readings in Professional Development. 3 Credit Hours.
Examine current issues in the professional development of educators. Study models of professional development, impact of professional development on public school student achievement, effective evaluation of professional development, and identification of best practice in writing and evaluating research with an emphasis on literature reviews.

EDUC 5302. Cultural Diversity in Schools and Community. 3 Credit Hours.
Examine various dimensions of culture related to teaching, learning, and support services in the community. Study ethnicity, socio-economic status, language, gender, religion, age, and exceptionality.

EDUC 5304. Human Development. 3 Credit Hours.
Analyze human behavior with emphasis on the child, adolescent, and adult learner. Develop insight and social and cultural forces in the formation of personality, the self, and roles in group membership.

EDUC 5306. Adult Education. 3 Credit Hours.
Examine philosophy and concepts of adult education including the role of the adult educator, setting of objectives, integration of adult learning with career goals or changes and assessment of educational needs of adults.

EDUC 5311. Methods of Effective Teaching. 3 Credit Hours.
Study research on effective teaching practices with an emphasis on direct instruction. Learn mastery learning, assessment of learning and use of assessment to guide instruction. Apply technology and effective teaching practices to the design and delivery of instruction. Technology lab is required. Certification Fee - $150.

EDUC 5312. Language and Social Studies Seminar. 3 Credit Hours.
Learn to teach Social Studies through the application of the writing process, reading/writing connections, and children’s literature. Prerequisite(s): 18 hours of professional education course work.

EDUC 5314. Creating and Managing Learning Environment. 3 Credit Hours.
Learn to create and maintain a positive learning environment. Study cultural dimensions of classroom management, motivating student achievement, fostering cooperation among students, reinforcing appropriate behavior, and ethics and law governing teacher-student relations. Apply teaching and classroom management practices in a clinical laboratory setting.

EDUC 5322. Teaching Mathematics and Science. 3 Credit Hours.
Study methods and materials for the teaching of math and science. Emphasis will be on helping teachers become more effective in teaching math and science by developing questions, investigations, speculations, and explorations that reflect not only the content of each area of study, but the process involved in learning.

EDUC 5334. Curriculum for Early Childhood. 3 Credit Hours.
Study early childhood education curriculum and practices. Examine current trends in early childhood curriculum with an emphasis on the modifications needed to ensure the success of all young children. Prerequisite(s): 18 hours of professional educational course work.

EDUC 5338. Curriculum Design and Implementation. 3 Credit Hours.
Explore curriculum selection, design, implementation, and evaluation processes within the classroom and school district settings. Study factors that influence curriculum decision-making processes and a review of theories of curriculum development. Major emphasis on curriculum alignment and curriculum auditing.

EDUC 5340. Evidence Based Teaching. 3 Credit Hours.
In this course, participants will learn about various instructional strategies to enhance learning experiences in education. The class will cover appropriate methods and techniques from basic principles of learning and brain-based/whole-brain techniques. The course will also foster the development of working skills needed in cooperative planning, selecting, and organizing teaching materials, utilization of the environment, individual and group guidance, and evaluation activities.
EDUC 5345. Advanced Instructional Strategies for Diverse Learners. 3 Credit Hours.
Study appropriate methods and techniques from basic principles of learning. Develop working skills needed in cooperative planning, selecting, and organizing teaching materials, utilization of the environment, individual and group guidance, and evaluation activities.

EDUC 5350. Assessment and Interpretation for Education Leaders. 3 Credit Hours.
Examine assessment as a process with emphasis on assessment of student achievement and on data interpretation for the purpose of improving instruction.

EDUC 5355. Effective Instructional Programs. 3 Credit Hours.
Study research-based best instructional and curricular practices and the evaluation and enhancement of instructional and curricular programs related to identified best practices.

EDUC 5360. The Gifted Learner. 3 Credit Hours.
Study characteristics and needs of gifted and talented students as they relate to both school and family settings. Different models and programs for gifted education will be studied. Formal and informal identification procedures will be examined in line with federal and state guidelines.

EDUC 5362. Creativity In the Classroom. 3 Credit Hours.
Study theories and models of creativity. Emphasis will be given to identifying the creative potential of students in all classrooms. Examine and develop instructional processes which accommodate the needs of creative learners. Prerequisite(s): EDUC 5360.

EDUC 5364. Curriculum and Material Development For Gifted Learners. 3 Credit Hours.
Study a comparison of regular and gifted curricula with a focus on developing an interdisciplinary curriculum for gifted learners. Examine and evaluate existing materials and equipment which support instruction for the gifted in both regular and special programs. Emphasis will be on developing and evaluating teacher constructed materials. Prerequisite(s): EDUC 5360.

EDUC 5366. Instruction and Evaluation For Gifted Learners. 3 Credit Hours.
Analyze methods of determining specific learning styles and talents, with emphasis placed on implementing appropriate instruction for programs. Learn methods and tools of informal and formal evaluation and assessment. Prerequisite(s): EDUC 5360 and EDUC 5364.

EDUC 5369. Education Seminar. 1-3 Credit Hours.
Presentation of project proposal, implementation, and conclusions. Must be repeated a minimum of 3 times for 1 hour credit each semester to complete masters project. Student must be continuously enrolled until the graduate project is completed.

EDUC 5370. Techniques of Research. 3 Credit Hours.
Explore fundamental concepts and tools of research applied to psychological and educational problems. Study rationale of research, analysis of problems, library skills, sampling, appraisal instruments, statistical description and inference, writing the research report, and representative research designs.

EDUC 5384. Teaching Internship. 3 Credit Hours.
Gain field-based experience in classroom teaching. Interns must demonstrate proficiency in applying effective teaching practices and classroom management strategies in a school classroom. Prerequisite(s): admission to a teacher certification program; satisfactory performance in the professional development courses preceding the internship. May be repeated for credit. Field experience fee - $75 or Internship fee - $1500 (effective fall 2016).

EDUC 5385. Teaching Internship II. 3 Credit Hours.
Explore a supervised field-based experience in classroom teaching. Interns must demonstrate proficiency in applying effective teaching practices and classroom management strategies in a school classroom. Prerequisite(s): Admission to a teacher certification program at TAMUCT; satisfactory performance in the professional development courses preceding the internship; Second semester Prerequisite(s): EDUC 5384. Field experience fee - $75 or Internship fee - $1500 (effective fall 2016).

EDUC 5388. Special Education Problems. 1-6 Credit Hours.
Study of selected problems in special education. Engage in independent research, reading and discussions under the personal direction of the instructor; topics may vary according to student need. Open to graduate students who are capable of developing a problem independently. Prerequisite(s): Graduate major in Education.

EDUC 5389. Special Topics In Education. 3 Credit Hours.
Examine different topics each semester with a focus on such subjects as the gifted student, the education of culturally disadvantaged, teacher evaluation, or other selected topics concerning the teaching/learning process. This course may be repeated for credit as topic changes. Prerequisite(s): Permission of instructor.

EDUC 5391. Gifted Education Practicum. 3 Credit Hours.
Supervise professional activities in gifted and talented programs. Students will be required to demonstrate competence in the process of delivering a synergistic gifted and talented program. Prerequisite(s): Successful completion of EDUC 5360, EDUC 5362, EDUC 5364 and EDUC 5366.

Educational Leadership (EDLD)

EDLD 5090. Educational Leadership Comprehensive Examination. 0 Credit Hours.
Study for and take the educational leadership exam for non-thesis students. Non-thesis students should register for the comprehensive examination during their final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis students do not take this examination.

EDLD 5198. Educational Leadership Thesis. 1-6 Credit Hours.
Prepare for and write the educational leadership thesis for graduate students. Scheduled when the student is ready to begin the thesis. No credit until the thesis is completed. Prerequisite(s): Completion of all other coursework required for the degree and consent of the major professor or permission of department chair.

EDLD 5300. Foundations of Educational Leadership. 3 Credit Hours.
Study lenses of power, influence, ethics, and leadership theory. Compare personal diagnoses of leadership, learning, and personality strengths to the knowledge and skill set needed for leadership of prek-12 schools. Prerequisite(s): Approval of program coordinator.

EDLD 5301. Research in Educational Leadership. 3 Credit Hours.
Study the fundamentals of research with emphasis on research terminology, design, methodology, data collection, ethics, psychometric measurement qualities, and quantitative and qualitative research paradigms. Develop research and evaluation skills necessary to become critical consumers and producers of research in prek-12 schools. Advancing Educational Leadership (AEL), a state-required teacher appraiser certification course, is included. $100 AEL certificate fee. Prerequisite(s): Approval of program coordinator.
EDLD 5307. Leadership of Human Resources. 3 Credit Hours.
Examine supervision and evaluation of faculty and staff in prek-12 schools. Study effective supervisory and evaluation approaches for the development of a continuous improvement learning culture for faculty and staff. The Texas Teacher Evaluation and Support System (T-TESS), a state-required teacher appraiser certification course, is included. $100 T-TESS certificate fee. Prerequisite(s): Admission to program and approval of program coordinator.

EDLD 5309. Legal Issues in School Leadership. 3 Credit Hours.
Explore legal issues impacting the administration of prek-12 schools. Understand the ethical application of legal principles found in relevant constitutional, statutory, administrative, and case law. Learn how these laws and principles determine operation, organization, and administration of prek-12 schools. Special emphasis is placed on the relationship of state and federal law. Prerequisite(s): Admission to program and approval of program coordinator.

EDLD 5310. Special Educational Law. 3 Credit Hours.
Examine the legal framework for special education in the United States. Understand federal constitutional provisions, federal and state statutes, and federal and state judicial decisions affecting special education, including the rules and regulations for the various federal and state agencies.

EDLD 5316. Leadership of Effective Instruction. 3 Credit Hours.
The study of effective teaching and learning practices. Develop effective instructional practice in prek-12 schools with use of data analysis, research-based instructional strategies, special programs support, technology integration, and teacher collaboration. Special emphasis on maintaining a continuous improvement cycle to ensure equity and engagement of all students. Prerequisite(s): Admission to program and approval of program coordinator.

EDLD 5317. Public School Finance and Fiscal Management. 3 Credit Hours.
Study the principles of school finance, budgeting, and accounting procedures used in school districts. Special emphasis is placed on the development of a working knowledge of the history of school finance, current and emerging financial issues, litigation, budget development, fiscal policy, and accountability. Prerequisite(s): EDLD 5318 and EDLD 5336 or permission of department chair. Certification Fee - $150.

EDLD 5318. Administrative Law and Personnel Administration. 3 Credit Hours.
A comprehensive study of public school law as it relates to contractual and at-will personnel. Emphasis is placed on advertising, interviewing, selecting, and evaluating personnel. Special attention is given to Equal Employment Opportunity guidelines, Federal Right to Privacy Act, employee contracts, induction, and recordkeeping. Prerequisite(s): Superintendent Certificate Program admission or permission of department chair.

EDLD 5319. The School Superintendentcy. 3 Credit Hours.
Examine the roles and responsibilities of the chief school administrator. Emphasis is placed on the range of leadership skills that executive leadership utilize to work with the community, school board, professional staff, and students in development of a capacity-building culture and district vision. Prerequisite(s): EDLD 5318 and EDLD 5336 or permission of department chair.

EDLD 5335. Educational Planning and Resource Development. 3 Credit Hours.
Develop a sustainable leadership process and examine the role of leadership in educational planning. Study strategic planning and the use of district's major administrative systems and resources to fulfill organizational goals. Prerequisite(s): EDLD 5317, EDLD 5318, EDLD 5319 and EDLD 5338 or permission of department chair.

EDLD 5336. Instructional Development and School Improvement. 3 Credit Hours.
Examine state policy affecting instructional improvement on public school campuses. Special emphasis is placed on results-based accountability systems. Explore curriculum planning and evaluation, professional development, student assessment, and data analysis utilized to develop and sustain a learning system that meets the needs of all students. Prerequisite(s): Superintendent Certificate Program admission or permission of department chair.

EDLD 5339. Processes of Educational Leadership. 3 Credit Hours.
Study effective organizational processes in prek-12 schools. Special emphasis on learning organization strategies, exemplary leadership practices, and collaborative action tools, in order to support the development of a flexible and creative culture continuously engaged in school improvement. Certification fee: $150. Prerequisite(s): Admission to program and approval of program coordinator.

EDLD 5342. Leadership of Campus Resources. 3 Credit Hours.
Examine school resources in support of school improvement. Develop integrated continuous improvement processes supported by optimal allocation of financial, human, technological, facility, time, and other campus resources. Special emphasis on developing a safe and engaging school learning environment. Prerequisite(s): Admission to program and approval of program coordinator.

EDLD 5340. School-Community Relationships. 3 Credit Hours.
Systems of interpretation of schools to community publics. Promotion of effective school-community relations through media of communication.

EDLD 5345. Leadership of Curriculum Systems. 3 Credit Hours.
Study learning systems in prek-12 schools. Develop and implement coherent processes that are responsive to unique student needs, establish a culture of high expectations and continuous improvement, align academic standards across grade levels and subject areas, and ensure academic success and social-emotional well-being for each student. Prerequisite(s): Admission to program and approval of program coordinator.

EDLD 5355. Leadership of Diverse Learning Communities. 3 Credit Hours.
Study diverse prek-12 school communities with an emphasis on ethical issues dealing with leadership, governance, and policy development. Develop processes for identifying and ameliorating issues associated with demographic and cultural differences. Learn to facilitate internal and external community engagement to achieve equity and excellence within the school system. Prerequisite(s): Admission to program and approval of program coordinator.

EDLD 5360. Educational Leadership Applications. 3 Credit Hours.
Apply leadership theory to campus leadership practice. Analyze critical issues in school leadership through the integration of the roles of the principle with professional experience. Master's degree comprehensive exam preparation and Principal Practicum planning are included. Prerequisite(s): Admission to program and approval of program coordinator.
EDLD 5388. Problems. 1-3 Credit Hours.
Open to graduate students who are capable of developing a problem independently. Problems are chosen by the student and approved in advance by the instructor. Prerequisite(s): Full admission into the Office of Graduate Studies and a graduate degree or certification program.

EDLD 5389. Special Topics In Educ Admin. 3 Credit Hours.
An examination of different topics each semester with a focus on contemporary issues in Educational Administration and leadership. This course may be repeated for credit as the topic changes.

EDLD 5391. Superintendency Practicum. 3 Credit Hours.
Demonstrate competent professional practice through supervised activities in the culminating experience for the Superintendent Certificate Program. Implement an action plan for professional growth and school district improvement based on state standards and leadership practices. For satisfactory completion of practicum requirements, course may be repeated one time. Only 3 semester hours of coursework can be used to satisfy certification requirements. Field experience fee - $75. Prerequisite(s): EDLD 5317, EDLD 5318 and EDLD 5319 or permission of program coordinator.

EDLD 5392. Principalship Practicum 1. 3 Credit Hours.
The Principalship Practicum 1 course is delivered the first semester of the two-semester practicum experience. Candidates in the course will demonstrate competent professional practice through supervised activities in the culminating experience for the MEd/Principal Certificate program. Candidates will also implement an action plan for professional growth and school improvement based on state standards and leadership practices. For satisfactory completion of practicum requirements, course may be repeated one time. Field experience fee - $75. Prerequisite(s): Admission into program and approval of program coordinator.

EDLD 5393. Principalship Practicum 2. 3 Credit Hours.
The Principalship Practicum 2 course is delivered the second semester of the two-semester practicum experience. Candidates in the course will demonstrate competent professional practice through supervised activities in the culminating experience for the MEd/Principal Certificate program. Candidates will also implement an action plan for professional growth and school improvement based on state standards and leadership practices. For satisfactory completion of practicum requirements, course may be repeated one time. Field experience fee - $75. Prerequisite(s): Admission into program and approval of program coordinator.

EDTE 3300. Desktop Publishing in Classroom. 3 Credit Hours.
Explore applications relating to digital graphics, printing techniques, animation products, and editing tools used in desktop publishing. Analyze K-12 Technology Applications Texas Essential Knowledge and Skills (TEKS) and create a variety of desktop publishing products for use in future classrooms.

EDTE 3305. Multimedia in the Classroom. 3 Credit Hours.
An application of multimedia, graphics, and animation tools used for teaching Technology Applications. Students will apply appropriate techniques and strategies to create lesson plans and examples for use in the classroom. Prerequisite(s): EDTE 3300.

EDTE 3315. Teacher Technology Application. 3 Credit Hours.
Explore field based opportunities in area schools for students to observe technology applications teachers at all levels (EC-12) and explore computer lab management in K-12 learning environments. Prerequisite(s): EDTE 3305 and EDUC 3320.

EDTE 4300. Video in the Classroom. 3 Credit Hours.
Learn to teach video, graphics, and animation in K-12 Technology Applications classes. Apply tools and techniques for integrated video technology to enhance the learning environment and prepare exemplar videos and lesson plans for future classroom use. Prerequisite(s): EDTE 3315, EDUC 3320 and admission to Teacher Education Program.

EDTE 4305. Web Mastering. 3 Credit Hours.
Explore and use Web technology in educational settings. Study appropriate technologies and techniques to plan and implement web based instructional products for use in the K-12 classroom. Create lesson plans and exemplar products appropriate for teaching Technology Applications in Web mastering. Prerequisite(s): EDTE 4300 and EDUC 3330.

EDTE 4310. Learning, Leading and Assessment. 3 Credit Hours.
Study K-12 learning outcomes, data analysis, instructional decision making, and mentoring skills necessary for peer support. Apply tools for enhancing professional growth and productivity and use technology in communicating, collaborating, conducting research, and solving problems that typically arise in learning environments. Prerequisite(s): EDTE 4300 and EDUC 3330.

EDTE 4388. Educational Technology Problems. 1-3 Credit Hours.
Study of selected problems in educational technology. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need. Open to students of Junior or senior standing who have been admitted to the Teacher Education Program and permission of instructor and Curriculum and Instruction Program Coordinator.

EDTE 5348. K-12 Educational Technology. 3 Credit Hours.
This course focuses on K-12 learning outcomes, data analysis, and instructional decision making. Mentoring skills necessary for peer support are also explored. Students will apply tools for enhancing their own professional growth and productivity and will use technology in communicating, collaborating, conducting research, and solving problems that typically arise in learning environments.

EDTE 5349. Educational Media and Technology. 3 Credit Hours.
Examine the role of technology in school settings and explore available technologies and the applications for instruction. Focus is on Web 2.0 applications for communication and collaboration that expand and extend learning environments.

EDTE 5350. Teaching Desktop Publishing. 3 Credit Hours.
Integrate tools of desktop publishing and graphic applications to successfully demonstrate knowledge and skills needed to teach Desktop Publishing. Explore current research in the area of technology applications. Apply tools for enhancing professional growth and productivity and use technology in communicating, collaborating, conducting research, and solving problems that typically arise in learning environments. Prerequisite(s): EDTE 5349.

EDTE 5351. Multimedia Animation for Kindergarten through 12th Grade. 3 Credit Hours.
Integrate tools of multimedia, graphics, and animation to successfully demonstrate knowledge and skills necessary to teach the Technology Applications Texas Essential Knowledge and Skills (TEKS). Explore current research in the area of multimedia and use technology in communicating, collaborating, conducting research, and solving problems that typically arise in learning environments. Prerequisite(s): EDTE 5350.
EDTE 5352. Teaching Kindergarten through 12th Grade Video Technology. 3 Credit Hours.
Integrate tools of video and animation to successfully demonstrate knowledge and skills needed to teach the Technology Applications Texas Essential Knowledge and Skills (TEKS). Explore current research in the area of video technology and use technology in communicating, collaborating, conducting research, and solving problems that typically arise in learning environments. Prerequisite(s): EDTE 5351.

EDTE 5359. Leading and Learning with Technology. 3 Credit Hours.
Learn to demonstrate the knowledge and skills necessary to teach Web mastering. Explore current research in the area of web-based applications and will use technology in communicating, collaborating, conducting research, and solving problems that typically arise in learning environments. Prerequisite(s): EDTE 5352.

EDTE 5388. Educational Technology Problem. 1-3 Credit Hours.
Study of selected problems in educational technology. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need. Open to graduate students who are capable of developing a problem independently and permission of instructor and Curriculum and Instruction Program Coordinator. Prerequisite(s): Full admission to the Office of Graduate Studies and a graduate degree or certification program.

English (ENGL)

ENGL 3310. Technical Writing & Editing. 3 Credit Hours.
(WI) Study of advanced technical communication situations such as formal reports, grant proposals, and professional articles, and extensive discipline-specific professional-level practice in these forms. Study of general editorial techniques in formats, graphics, and layout and design methods in technical publications. Prerequisite(s): ENGL 1301, ENGL 1302, and 3 hours sophomore ENGL and ENGL 3309.

ENGL 3312. Graphics & Technical Writing. 3 Credit Hours.
This course examines the integration of graphic components in printed and electronic mediums. Students use computer applications to compose and design graphics such as bar graphs, organizational charts, flow charts, diagrams, and drawings. Prerequisite(s): ENGL 1301, ENGL 1302, and 3 hours sophomore ENGL and ENGL 3309.

ENGL 3320. Advanced Grammars. 3 Credit Hours.
An introduction to the grammatical structure of modern English at the level of word, clause, and discourse presented through the application of the principles of descriptive grammars accompanied by a review of current prescriptive grammars. Prerequisite(s): ENGL 1301 and ENGL 1302.

ENGL 3330. Advanced Composition. 3 Credit Hours.
(WI) Students examine the rhetoric of composition through intensive writing workshops and close reading of composition-related texts. The goals of the course are (1) to discover and define some coherent relations between rhetoric and composition and (2) to challenge the students’ presuppositions about essayistic space through a process of peer- and instructor-reviewed writing workshops. Prerequisite(s): ENGL 1301.

ENGL 3335. Film Studies. 3 Credit Hours.
(WI) A study of movies as dramas involving narrative plot, characterizations, theme, etc. and as artistic productions involving shots, cuts, and other film techniques.

ENGL 3339. Literature & Film. 3 Credit Hours.
This course introduces students to the relationship between literature and film and the practice of cinematic adaptation.

ENGL 3343. Creative Writing. 3 Credit Hours.
Focuses on the craft and art of writing narrative, poetic, and dramatic discourse. Attention to the conception, design, and execution both of the whole work and of elements of figurative language, characterization, dialogue, point of view, and poetic structure, as well as other elements of the craft. Prerequisite(s): ENGL 1301 and ENGL 1302.

ENGL 3350. Children's Literature. 3 Credit Hours.
A general survey of literature for children. Includes a study of types of literature for children and of the development of criteria for the selection and evaluation of children's books. This course may be counted as an elective but not towards the 24-hour advanced English requirement for an English major. Prerequisite(s): ENGL 1301, ENGL 1302, and 6 hours sophomore ENGL.

ENGL 3370. Introduction to Linguistics. 3 Credit Hours.
A study of descriptive linguistics revealing the nature and scope of the characteristics and complexities of human language. Much of the course consists of learning the phonology, morphology, syntax, semantics, and pragmatics of modern English. Attention also focuses on the nature and diversity of the rule-bound creativity underlying the tacit systematic use of human language. Prerequisite(s): ENGL 1301 and ENGL 1302.

ENGL 3372. Sociolinguistics. 3 Credit Hours.
Study of the relationship of language and society as shown in the following areas: language change, language variation and social class, pidgin and Creole languages, and language policy and planning.
ENGL 3374. Psycholinguistics. 3 Credit Hours.
Deals with a variety of formal cognitive mechanisms that are relevant to the knowledge and use of natural languages.

ENGL 3376. Discourse Analysis. 3 Credit Hours.
Investigates the structure of spoken communication from a linguistic perspective to enable students to understand narrative and conversation. Students study the principles of pragmatic theory, speech act theory and critical discourse analysis.

ENGL 4300. Shakespeare. 3 Credit Hours.
An in depth study of representative types of Shakespeare's drama and poetry. Prerequisite(s): ENGL 1301 and ENGL 1302 and one English WI course.

ENGL 4311. History of Rhetoric. 3 Credit Hours.
(WI) This course provides students with a foundation in the history of rhetoric, paying particular attention to what many have labeled as the origin of rhetorical studies in classical Greece. Prerequisites: ENGL 1301 and ENGL 1302 and one English WI course.

ENGL 4312. Rhetorical Criticism. 3 Credit Hours.
(WI) This course introduces students to rhetorical criticism. Through a survey approach, students will be introduced to a wide range of analytical tools and strategies to effectively describe, analyze, and interpret a wide range of discourse. Prerequisite(s): ENGL 1301 and ENGL 1302 and one English WI course.

ENGL 4313. Visual Rhetoric. 3 Credit Hours.
(WI) Introduces students to a variety of lenses that can be used to study visual texts, including (but not limited to) Content Analysis, Compositional Interpretation, Semiology, Psychoanalysis, Discourse Analysis, and Audience Studies. Emphasizes the importance of visual rhetoric in communication and argument. Prerequisite(s): ENGL 1301 and ENGL 1302 and one English WI course.

ENGL 4314. Multicultural Rhetorics. 3 Credit Hours.
(WI) This course introduces students to multicultural rhetorics. Students will read texts examining the theory/practice of Asian, African, Latino/a, and African American Rhetorics. Special attention will be given to traditionally underrepresented voices in the rhetorical tradition. Prerequisites: ENGL 1301 and ENGL 1302 and one English WI course.

ENGL 4320. Writing for Electronic Media. 3 Credit Hours.
The advanced study of and practice in writing for electronic mediums with a primary focus on planning, designing, and composing professional pages for the World Wide Web. Prerequisite(s): ENGL 1301, ENGL 1302, 3 hours sophomore ENGL and ENGL 3309.

ENGL 4330. Grant & Proposal Writing. 3 Credit Hours.
This course offers advances practice in analyzing and writing proposals for businesses, governmental agencies, and/or private foundations.

ENGL 4336. Film History. 3 Credit Hours.
This course examines the historical development of film as an industry and major modern art form. Attention given to important movements, periods, and nationalities.

ENGL 4337. Film Auteurs. 3 Credit Hours.
This course examines the work of one or more film director. Attention given to critical analysis of representative films and comprehension of critical literature.

ENGL 4338. Film Genres. 3 Credit Hours.
This course examines genre as a means of production and reception. Attention given to the recurring characters, actions, and values in films and the cultural role of these stories.

ENGL 4339. Film Theory & Criticism. 3 Credit Hours.
This course examines the theoretical and critical approaches common to film. Attention given to the major approaches to understanding film from the spectator's side of the camera.

ENGL 4360. Adv Studies in Secondary Engl. 3 Credit Hours.
This course applies the standards of the National Council of Teachers of English to the curriculum of secondary English. It provides an intensive review of composition principles, language conventions, literary genres, and computer instructional technology. Prerequisite(s): ENGL 1301 and ENGL 1302 and one English WI course.

ENGL 4378. History of the English Language. 3 Credit Hours.
Diachronic study of the English language with focus on the Old English, Middle English, and Modern English periods. Topics include phonological, morphological, syntactic, and lexical change in English along with the cultural and historical events and contact situations, which accompany language development.

ENGL 4388. English Problems. 1-3 Credit Hours.
A course featuring independent reading, research, and discussion under personal direction of instructor, topics to vary according to student need. Open to students of Senior classification with permission of department chair.

ENGL 4390. Writing Center Pedagogy. 3 Credit Hours.
This class introduces students to the theory, research, and practices of tutoring writing by engaging them with the prominent scholarship on writing centers while providing practical experience through observations, co-tutoring, and live tutoring hours in the University Writing Center.

ENGL 5300. Shakespeare. 3 Credit Hours.
A close study of Shakespeare's literature and language with selections from representative texts including the histories, comedies, tragedies, and/or sonnets.

ENGL 5310. Studies in American Literature. 3 Credit Hours.
Focuses on restricted periods in American literary history. Examples include colonial American literature, the American Renaissance, American literary naturalism, post-World War II American literature, and minority literature in America. May be repeated for credit when topics vary.

ENGL 5320. Studies in English Language. 3 Credit Hours.
Focuses on historical and/or linguistic study of the English language. Topics will vary. Examples include history of the English language and the English language in America. May be repeated for credit when topics vary.

ENGL 5321. Psycholinguistics. 3 Credit Hours.
Deals with a variety of formal cognitive mechanisms that are relevant to the knowledge and use of natural languages. Primary emphasis is on the modular view of the mind and its consequences for both L1 and L2 language acquisition.

ENGL 5330. Studies in Rhetoric. 3 Credit Hours.
A study of written language theories. Course contents include readings from a wide spectrum including classical Greece and Rome, the European enlightenment, nineteenth century America, and modern and post-modern periods. May be retaken for credit when topics vary.

ENGL 5340. Studies in Modern Fiction. 3 Credit Hours.
An evaluation of English and American short stories, novels, and related criticism. Topics will vary and will include study of themes and development of the genre. May be repeated for credit when topics vary.
ENGL 5342. Adaptation. 3 Credit Hours.
This course introduces students to the concept of adaptation and to one account for how this concept has evolved. The focus is, admittedly, more on the notion of adaptation as a way to engage a text critically than it is on specific adaptations. All assignments, even those that ask students to evaluate a particular adaptation, should reflect this conceptual focus.

ENGL 5350. Studies in Lit before 1500. 3 Credit Hours.
A study of representative types of pre-1500 literature in English. Topics may vary. May be repeated for credit when topics vary.

ENGL 5352. Chaucer. 3 Credit Hours.
An in-depth study of the language and literature of Geoffrey Chaucer, including his minor poetry and dream visions, Troilus and Criseyde, and the Canterbury Tales.

ENGL 5360. Modern American & Brit Poetry. 3 Credit Hours.
A study of representative themes in the development of American and English poetry. Related critical readings will be studied. Topics will vary. May be repeated for credit when topics vary.

ENGL 5370. Studies in Comparative Lit. 3 Credit Hours.
A comparative study of great literature in the world in translation. Topics may vary and may include examination of theme, technique, and type. May be repeated for credit when topics vary.

ENGL 5372. English Seminar. 1-3 Credit Hours.

ENGL 5374. Methods of Bib & Res Analysis. 3 Credit Hours.
An introduction to methods of research and effective utilization of library resources. May include analytical bibliography, enumerative bibliography, and textual criticism.

ENGL 5380. Studies in Teaching of Comp. 3 Credit Hours.
The course is devoted to the study of the aims, skills, materials, and practices of composition teaching at college and junior college levels. May be repeated for credit when topics vary.

ENGL 5382. Composition Assessment. 3 Credit Hours.
This class introduces students to the scholarship, theory, and methods for assessing writing with a particular focus on assessment theory and history (especially non-psychometric understandings of validity and reliability) and classroom assessment (e.g. grading and response) with some discussion of large-scale assessments (e.g. program assessment, placement, standardized testing, etc.).

ENGL 5384. English Internship. 3 Credit Hours.
Supervised professional activities in the college composition classroom including presentations, evaluation, and conferences. May be repeated once for credit. Field experience fee $75.

ENGL 5385. Writing Program Administration. 3 Credit Hours.
Investigates the work of writing program administrators, including FYC Coordinators, WAC Coordinators, WID Coordinators, and Writing Center Coordinators. Students can anticipate learning from current writing program administrators.

ENGL 5386. Computer Mediated Composition. 3 Credit Hours.
Explores notions of 21st century writing, paying particular attention to digital and multimodal composition; particular attention is given to teaching these text-types.

ENGL 5387. Studies in Literacy. 3 Credit Hours.
Examines the evolution of literacy and the expectations of literate students; approaches for conducting research in literacy studies is also addressed.

ENGL 5388. Special Problems. 1-3 Credit Hours.
Conference course. Directed independent study under supervision of a senior faculty member.

ENGL 5389. Writing Center Pedagogy. 3 Credit Hours.
This class introduces students to the theory, research, and practices of tutoring writing by engaging them with the prominent scholarship on writing centers while providing practical experience through observations, co-tutoring, and live tutoring hours in the University Writing Center.

ENGL 5398. Thesis. 1-6 Credit Hours.
Scheduled when student is ready to begin thesis. No credit until thesis is accepted. Prerequisite(s): ENGL 5374, 24 hours of graduate credit and permission of department chair.

Exercise Physiology (EPHP)

EPHP 3301. Exercise Physiology I. 3 Credit Hours.
The purpose of this course is to increase the student’s knowledge and understanding of the physiological adaptations that occur during exercise. Emphasis will be applied to the cardiovascular, respiratory, and digestive systems. Prerequisites: BIOL 2401, BIOL 2402.

EPHP 3302. Exercise Physiology II. 3 Credit Hours.
The purpose of this course is to further increase the student’s knowledge and understanding of the physiological adaptations that occur during exercise. Emphasis will be applied to the nervous, muscular, skeletal, and endocrine systems. Prerequisite: EPHP 3301.

EPHP 3303. Anatomical Kinesiology. 3 Credit Hours.
The purpose of this course is to study the application of basic mechanics of human motion to physical education activities. Includes a study of gross anatomy with application of the anatomical and mechanical principles involved in human movement. Prerequisites: BIOL 2401, BIOL 2402.

EPHP 3304. Exercise Biochemistry. 3 Credit Hours.
This course provides an overview of the biochemistry and metabolism related to exercise, training adaptations, and nutrition. Prerequisite: CHEM 1411, CHEM 1412.

EPHP 3305. Principles and Techniques of Strength Training and Conditioning. 3 Credit Hours.
This course provides an overview of the principles of program design. Methods of resistance training and assessment are emphasized in laboratory demonstrations. Prerequisite: EPHP 3302.

EPHP 3306. Exercise Testing and Prescription. 3 Credit Hours.
The purpose of this course is to teach students how to use relevant fitness testing equipment and prescribe appropriate exercise program based on fitness evaluations. Students will learn the guidelines and protocols for safe and effective exercise testing for normal and special populations. Prerequisite: EPHP 3302.

EPHP 4101. Advanced Resistance Training. 1 Credit Hour.
This course provides an opportunity for students to develop an increased understanding and appreciation for the principles of resistance training through direct participation in this style of training. Prerequisite: EPHP 3302.

EPHP 4102. Advanced Cardiovascular Training. 1 Credit Hour.
This course provides an opportunity for students to develop an increased understanding and appreciation for the principles of cardiovascular training through direct participation in this style of training. Prerequisite: EPHP 3302.

EPHP 4301. Leadership in Exercise and Sport. 3 Credit Hours.
(WI)The purpose of this course is to provide a general overview of leadership dynamics and their application to exercise and sports settings.
EPHP 4302. Sports Nutrition. 3 Credit Hours.
This course provides an overview of the role of nutrition as a means to enhance health and performance in exercise and sport. Topics to be covered include principles of healthful nutrition, energy metabolism, the role of vitamins and minerals, ergogenic aids, and weight management. Prerequisite: EPHP 3304.

EPHP 4395. Exercise Physiology and Human Performance Capstone. 3 Credit Hours.
(WI) This course serves as a capstone seminar in which students will demonstrate expertise in a selected area of exercise and sport science. Prerequisites: 18 hours of EPHP credit.

EPHP 4684. Exercise Physiology and Human Performance Internship. 6 Credit Hours.
The internship provides hands-on experience for the human performance major in the area of his or her concentration. A minimum of 250 hours on-site is required. The experience includes a special project determined jointly by the student and the agency intern supervisor. Prerequisites: EPHP 3301, 3302, 3303, 3304, 3305, 3306.

Finance (FIN)

FIN 3300. Introduction to Financial Planning. 3 Credit Hours.
Analyze personal financial decisions, including basic financial planning, tax issues, managing savings and deposit accounts, buying real assets, the use of credit, insurance management investments and saving for retirement.

FIN 3301. Financial Management I. 3 Credit Hours.
Analyze financial decision-making at the corporate level with emphasis on the maximization of stockholder wealth. Learn financial statement analysis, the valuation of stocks and bonds, cost of capital, capital budgeting, dividend policy, leverage and capital structure, methods of firm valuation, working capital management, mergers and acquisitions, and bankruptcy. Prerequisite(s): ACCT 2302 or ACCT 2402 and ECON 2301.

FIN 3302. Financial Intermediaries. 3 Credit Hours.
Study the internal operations of financial intermediaries with major emphasis on organization, source and allocation of funds, supervision, and regulation. Prerequisite(s): FIN 3301 and ECON 3303.

FIN 3303. Money and Banking. 3 Credit Hours.
Study the structure and functions of financial markets and financial intermediaries, the behavior and pattern of interest rates, the basic concepts of commercial bank management, the nature of money and the role of the Federal Reserve in its creation, the basic structure of the economy and the impact of monetary actions on this structure. Credit for both FIN 3303 and ECON 3303 will not be awarded. Prerequisite(s): ECON 2301.

FIN 3304. Economics in Financial Markets. 3 Credit Hours.
Study the aggregate financial system and capital markets and the impact these have on financial intermediaries. Special emphasis on flow of funds analysis, interest rate theory, role of financial intermediaries, and management of financial assets. Credit for both FIN 3304 and ECON 3305 will not be awarded. Prerequisite(s): FIN 3301.

FIN 3309. Global Financial History. 3 Credit Hours.
Study different financial crises in history. Explore global and long-term overviews of socio-economic factors that influence the development of financial instruments, institutions, markets and entrepreneurs.

FIN 3387. Cooperative Education. 1-3 Credit Hours.
Integrate academic study with work experience that is relevant to a major or minor. Two-semester minimum requirement that may be accomplished by 1) alternating semesters of full-time study with semesters of curriculum-related employment, or 2) enrolling in courses at least half-time (6 semester hours) and working part-time in parallel positions of curriculum-related employment. Cooperative Education advisor will supervise the student's and assign the final grades. Students may participate in the Cooperative Education but will earn only a maximum of 6 hours credit toward a degree. Prerequisite(s): Completion of 30 semester hours which includes 12 hours in the major or minor discipline in which the Cooperative Education course is desired, minimum overall GPA of 2.5 and a minimum GPA of 3.0 in the appropriate major or minor field, and permission of department chair. Field experience fee $75.

FIN 4300. Advanced Financial Management. 3 Credit Hours.
Analyze value-based management techniques with emphasis on the factors affecting the corporation's intent to maximize shareholder wealth. Explore financial statement analysis, cash flow analysis, economic and market value added securities valuation, the cost of capital, capital budgeting, capital structure, divided policy, the use of leverage, working capital management, and corporate governance. Prerequisite(s): FIN 3301.

FIN 4301. International Financial Management. 3 Credit Hours.
Analyze the financing of investment abroad, the management of assets in differing financial environments, issues and questions which concern financial management of international corporations. Explore foreign investments decision, cost of capital and financial structure for multinational decision making, management of foreign subsidiary working capital, and financial control of multinational operations. Prerequisite(s): FIN 3301 or permission of department chair.

FIN 4302. Real Estate Finance. 3 Credit Hours.
Study monetary systems, primary and secondary money markets, sources of mortgage loans, federal government programs, loan applications, processes and procedures, closing costs, alternative financial instruments, equal credit opportunity acts, community reinvestment act, and state housing agency. Prerequisite(s): Permission of department chair.

FIN 4303. Case Studies in Finance. 3 Credit Hours.
(WI) Utilize fundamental concepts learned in previous finance, accounting, and economics courses to analyze real-world finance problems. In structured and unstructured cases, student teams analyze problems and recommend solutions. Cases drawn from areas such as corporate finance, investments, international finance, and personal finance. Prerequisite(s): FIN 3301.

FIN 4304. Investments. 3 Credit Hours.
Study the development of investment policy, the character of investment risk, comparison of investment media, description and analysis of security markets and their operations. Prerequisite(s): FIN 3301.

FIN 4305. Federal Tax Accounting I. 3 Credit Hours.
Explore the present income tax law and regulations, income tax legislation, treasury and court decisions, departmental ruling, income tax problems and returns, social security and self-employment taxes. Prerequisite(s): ACCT 2302 or ACCT 2402 and Junior classification. Credit for both ACCT 4305 and FIN 4305 will not be awarded.

FIN 4306. Federal Tax Accounting II. 3 Credit Hours.
Study current income tax law and tax accounting procedures. Preparation of income tax returns of partnerships and corporations. Prerequisite(s): FIN 4305 or permission of School Director. Credit for both ACCT 4306 and FIN 4306 will not be awarded.
FIN 4307. Analysis of Fin Statements. 3 Credit Hours.
Analyze corporate financial statements. Learn how information can be analyzed and processed to aid creditors, investors, managers, consultants, auditors, directors, regulators and employees in their business decisions. Prerequisite(s): FIN 3301.

FIN 4308. Risk Management. 3 Credit Hours.
Analyze risk processing, investing, and evaluation of risk management. Examine risk management process and its application in commercial, personal, and public risk. Explore various types of insurance products, the process by which insurance is sold, and how individuals and organizations manage risk via insurance products. Prerequisite(s): FIN 3301 or permission of department chair.

FIN 4310. Managerial Economics. 3 Credit Hours.
Study economic theory and methodology in business and administrative decision-making. Explore economic analysis and its use in formulating business policies. Analyze concepts of profits, production and cost functions, demand theory, competitive pricing policies, and business criteria for investment output and marketing decisions. Credit for both FIN 4310 and ECON 4310 will not be awarded. Prerequisite(s): FIN 3301.

FIN 4384. Financial Internship. 1-6 Credit Hours.
Participate in a finance related position for work experience with a public or private organizations that is preapproved and supervised. May be repeated for a total of 6 credit hours. Prerequisite(s): FIN 3301 and permission of department chair.

FIN 4388. Financial Problems. 1-3 Credit Hours.
Study of selected problems in finance. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need. May be repeated with permission department chair. Prerequisite(s): Permission of department chair.

FIN 4389. Selected Topics in Finance. 3 Credit Hours.
Examine current issues and topics in finance. Study readings from current finance publications and other related periodicals. Activities may include directed study, participation in professional organizations, research and presentations, job market analysis, preparation and sitting for professional certification exams. May be repeatable for credit if the topic varies. Prerequisite(s): 12 semester hours of FIN and permission of department chair.

FIN 5301. International Fin Strategy. 3 Credit Hours.
Examine the major international issues pertaining to finance, including choosing and implementing an appropriate corporate strategy, the determination of exchange rates, international risk management, transfer pricing, and evaluating and financing international investment opportunities.

FIN 5303. Bank Management. 3 Credit Hours.
Study bank management and bank regulation. Examine the operations and management policies of depository institutions, the conditions that have led to bank regulation and deregulation, the risk structure of credit for commercial and consumer clients, and capital management issues for a bank.

FIN 5304. Investments. 3 Credit Hours.
Explore the development of investment policy, the character of investment risk, a comparison of investment media, description and analysis of security markets and their operations. Prerequisite(s): FIN 3301 or equivalent.

FIN 5305. Corporate Finance Case Studies. 3 Credit Hours.
Incorporate case studies and financial analysis to make financial management decisions. Analyze selected cases and prepare solutions. Discuss solutions in class and prepare proposals. Students will be required to use prior knowledge, current research, and analytical ability in preparing their proposals. Prerequisite(s): Graduate standing.

FIN 5306. Markets and Institutions. 3 Credit Hours.
Explore the operation, mechanics, and structure of the financial system within the United States, emphasizing its institutions, markets, instruments, and monetary policy of the Federal Reserve and its impact upon financial institutions.

FIN 5307. Financial Management. 3 Credit Hours.
Study financial decision making in the modern corporation. Explore capital budgeting, capital structure, corporate sources of funding, dividend policy, financial risk management, standard theories of risk and return, and valuation of assets. Prerequisite(s): FIN 3301 or equivalent.

FIN 5308. Managerial Economics. 3 Credit Hours.
Analyze economic theory and methodology in business and administrative decision-making. Study the tools of economic analysis and their use in formulating business policies. Explore concepts of profits, production and cost functions, demand theory, competitive pricing policies, and business criteria for investment output and marketing decisions. Credit for both FIN 5308 and ECON 5308 will not be awarded.

FIN 5309. Global History of Finance. 3 Credit Hours.
Study the history of money to develop a unified framework for understanding the economic events, public policy, and financial innovation that characterize different geographical settings over time.

FIN 5310. Risk Management. 3 Credit Hours.
Explore the theory and practice of private insurance and its economic and social significance. Analyze life, health, automotive, homeowners, and liability insurance. Study various forms of risk management, characteristics of insurance contracts, government regulatory characteristics, and institutional structures are studied. Prerequisite(s): none.

FIN 5360. Finance Theory. 3 Credit Hours.
Study selected theoretical models used in finance. Explore the seminal theories that make up modern finance and form the basis for current research. Prerequisite(s): FIN 5307.

FIN 5370. Consumer Finance Seminar. 3 Credit Hours.
Explore consumer and business finance topics. Analyze debt management, initial public offering of a new business, Internet based finance and regulatory aspects, and management of compensation. Credit for both FIN 5370 and HRM 5326 will not be awarded.

FIN 5377. Financial Problems. 1-3 Credit Hours.
This course offers students the opportunity to become acquainted with current research being conducted within the student’s area of interest.; directed reading of a number of sources selected in concert by the student’s professor. Prerequisite(s): Permission of instructor.

FIN 5388. Financial Problems. 1-3 Credit Hours.
Study selected topics in finance. Special emphasis on investments, corporate financial management, and financial markets and institutions. This course may be repeated for credit as the topic changes. Prerequisite(s): Graduate standing and FIN 3301 or FIN 5307 or permission of instructor.
**Fine Arts (F A)**

**FA 3347. Music History to 1750. 3 Credit Hours.**
Explore the history of western music, beginning with the earliest musical instruments ever found, proceeding through ancient Mesopotamia, ancient Greece and Rome, and continuing through the Medieval, Renaissance, and Baroque periods of European music. Special emphasis on theoretical structure, social and historical context, interaction with other art forms, instrumentation, and others.

**FA 3349. Music History from 1750. 3 Credit Hours.**
Explore the history of western music, continuing the Baroque period, and proceeding through the Classical, Romantic, and twentieth century periods. Special emphasis on theoretical structure, social and historical context, interaction with other art forms, and instrumentation.

**FA 3350. World Music. 3 Credit Hours.**
Introduces ethnomusicology and a cross cultural study of music. Explore music and performance from around the world, and their impact on the political, social, religious, artistic, and economic spheres. This course is appropriate for any student of any musical background. Formal training in music is not required, and you do not have to know how to read music notation.

**FA 4301. The Arts in Contemporary Society. 3 Credit Hours.**
(WI) Explore an interdisciplinary approach to the relationships of art, music, and theatre in contemporary society.

**FA 4311. The Protest Song in America. 3 Credit Hours.**
(WI) This course explores the connection between songs and social/political movements in the United States from the founding of the nation to the present era with special emphasis on analyzing lyrics as poetic expressions in the great American song tradition.

**FA 4312. The Blues. 3 Credit Hours.**
(WI) Explore the origins, evolution, and influence of the blues as both a musical and literary art form through its impact on American culture and society with special emphasis on analyzing blues lyrics as poetic expressions in the great American song tradition.

**FA 4321. The Artist on Film. 3 Credit Hours.**
(WI) Explore a variety of films and texts on various artists in order to debate and define the stereotypes placed upon artists. Analyze the ways in which the films either clarify or distort the artist's biography, work, and legacy.

**FA 4330. Fine Arts Seminar. 1-3 Credit Hours.**
Explore current topics and issues in fine arts. Topics will vary. May be repeated twice for credit as topics vary.

**FA 4388. Fine Arts Problems. 1-3 Credit Hours.**
Independent reading, research, and discussion under personal direction of instructor. Topics vary according to student need. Prerequisite(s): Permission of department chair.

**Geography (GEOG)**

**GEOG 3303. Geographic Techniques. 3 Credit Hours.**
Examine the three main techniques in geographic analysis: computer cartography, spatial statistics, and geographic information systems (GIS). Learn basic principles and techniques of producing maps, basic spatial statistics, and the use of GIS as a tool to gather, store, manipulate, and analyze various spatial databases. Prerequisite(s): GEOG 1303 or permission of instructor.

**GEOG 4305. Geography Seminar. 3 Credit Hours.**
Examine major issues within modern geography. May be repeated for credit when topics vary. Prerequisite(s): GEOG 1303 or permission of instructor.

**Health (HLTH)**

**HLTH 3351. Principles of Health and Fitness for Children. 3 Credit Hours.**
Study health and physical education as they relate to children ages 6-14. Emphasis on skills related to personal health and safety, physical fitness, motor development, games and sports, gymnastics, and rhythmic activities. Prerequisite(s): Junior classification or permission of department chair.

**Health Administration (HEAD)**

**HEAD 5311. Health Administration and Strategy. 3 Credit Hours.**
Analyze the foundation of strategy within the complex industry of health organizations. Study theoretical frameworks and empirical analyses to emphasize the health services administrator's role in health care. Learn how health administrators support both the providers and recipients of health care. Use a focal point to create a deep understanding of competitive advantage in the market and in government operations.

**HEAD 5312. Health Care Economics, Finance and Accounting. 3 Credit Hours.**
Study the highest cognitive and affective understanding of applied health care, economics, finance and accounting in health services organization. Analyze theoretical frameworks and empirical analyses to emphasize organizational and provider services. Use these services in relation to capacities and competencies within the health care industry and patient/client needs and wants.

**HEAD 5313. Health Policy and Law. 3 Credit Hours.**
Study current policy and future political ideology and their impact on care in health organizations. Learn clinical framework to present issues and policy outcomes. Examine the basic principles and practices of laws affecting health facilities and medical practices, patient care and treatment, and medical and health employment.

**HEAD 5314. Health Informatics and Trends. 3 Credit Hours.**
Study the Management Information Systems (MIS) needed in health care organizations. Explore the hardware, software, and human systems requirements for operational support. Provides a foundation for those individuals who are interested in becoming certified as computer systems managers in health care organizations.

**HEAD 5315. Health Ethics and Residency. 3 Credit Hours.**
Learn historical, present and future ethical issues in health administration. Emphasis on decision, clinical, business, organizational and social ethics.

**Higher Education Leadership (HIED)**

**HIED 5090. Comprehensive Exam. 0 Credit Hours.**

**HIED 5300. Career & Professional Development Seminar. 3 Credit Hours.**
This course provides students intentional opportunities to engage in self-reflection, work place skill enhancement, and leadership development.

**HIED 5301. History and Organization of Higher Education. 3 Credit Hours.**
This course provides an overview of the history, organizational structures, and dynamics of higher education. Particular attention is given to the diversity of post-secondary institutions in the United States and how varying institutional settings influence organizational behavior, structures, and cultural norms of operating.
HIED 5302. Planning and Resource Management in Higher Education. 3 Credit Hours.
This course provides an overview of the economics and finance of higher education in the United States, with an emphasis on the analysis of financial policies and current issues at the national, state, and institutional levels.

HIED 5303. Higher Education Law & Ethics. 3 Credit Hours.
This course explores legal aspects and issues of constitutional, statutory, and case law and the ethical implications on professional practice and compliance. Current trends and potential ethical dilemmas of the practitioner will also be covered.

HIED 5304. Student Development and the College Environment. 3 Credit Hours.
This course serves as an overview of the field of student affairs and the impact of the college environment on student development.

HIED 5305. Research Methods in Higher Education. 3 Credit Hours.
This course provides a general overview of research in the field through an introduction to research methodologies and basic statistics.

HIED 5306. Critical Issues in Higher Education. 3 Credit Hours.
This course is an examination of social, political, ethical, and economic issues that impact higher education.

HIED 5307. Leading Change in Higher Education. 3 Credit Hours.
This course provides a survey of organizational change and corresponding leadership dynamics in the field of higher education.

HIED 5308. Assessment and Evaluation in Higher Education. 3 Credit Hours.
This course examines various aspects of assessment and evaluation in higher education such as assessing student outcomes, reviewing program outcomes, and institutional accreditation.

HIED 5309. Introduction to Technology-Enhanced Learning. 3 Credit Hours.
This course provides as study of the history and evolution of distance education. Social and political/economic factors, theories, learning and teaching models, technology and media innovations, institutions and systems, and major works are examined. A variety of technologies are used to support the development of foundational skills that are integral to current practice.

HIED 5310. Utilizing Technology in Course Design and Development. 3 Credit Hours.
This course provides an exploration of the online teaching and learning dynamic, including its theoretical foundation and best practices. Philosophical frameworks of learning, such as instructional, social, and cognitive presence; interaction, collaboration, engagement, and participation will be discussed.

HIED 5311. Leadership and Administration in Technology-Enhanced Learning. 3 Credit Hours.
This course provides an introduction to the organization, management, and administration of distance education and e-learning training programs and systems. Topics include management theory and practice, organizational behavior and change, leadership roles and styles, and planning and policy as they pertain to technology-enhanced learning.

HIED 5385. Higher Education Internship II. 3 Credit Hours.
This course provides experiential learning opportunities for students within their area of emphasis. Students will be responsible for accruing 100 hours of contact with the internship site supervisor and/or time spent on internship major project. Prerequisite(s): HIED 5300.

HIST 3300. Historian's Craft. 3 Credit Hours.
(WI) Introduces the study of history. Learn to think historically, understand how historians construct and write about the past, and critically evaluate historical arguments. Develop writing and research skills to interpret primary sources and master professional standards of presentation. Required for all history majors. Prerequisite(s) for upper level History courses, and must be taken during the first semester, open only to declared History majors or by consent of instructor.

HIST 3310. American Beginnings. 3 Credit Hours.
Explore the history of America from first European contact to 1763. Special emphasis on relations between Europeans and Native Americans, imperial rivalries, and the development of the English mainland colonies. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3311. Creating a Nation. 3 Credit Hours.
Explore the history of the United States from 1763 to 1815. Special emphasis on the causes and consequences of the American Revolution, the writing of the Constitution, and the triumph of liberal democracy. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3312. The Age of Jackson from 1815-1848. 3 Credit Hours.
Examine American development during the Jacksonian period with an emphasis on the expansion of social and political democracy. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3313. The Civil War and Reconstruction. 3 Credit Hours.
Explore the events leading to the Civil War and the impact of that war on Reconstruction on American development. Special emphasis on social and cultural forces as well as politics. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3315. Populism and Progressivism, 1877-1917. 3 Credit Hours.
Study American history, at the turn of the century, emphasizing the impact of industrialism and urbanism on politics and society. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3316. Military History of the United States. 3 Credit Hours.
Study the role of the military in American development with emphasis on the 20th century. Concentrates on the evolution of strategy and tactics, organizational change and civilian-military relations. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3320. Social History of the United States to 1877. 3 Credit Hours.
Examine the social, cultural, and economic development of the United States from colonial times to the end of Reconstruction. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3321. Social History of the United States from 1877. 3 Credit Hours.
Examine the social, cultural, and economic development of the United States since the end of Reconstruction. Prerequisite(s): 6 hours of HIST or permission of department chair.
HIST 3322. History of Texas. 3 Credit Hours.
Explore Texas history from the Spanish colonial period to the present. Concentrates on the dynamics of Hispanic heritage, the Revolution and Republic, the Civil War and Reconstruction, and the political and economic developments of the modern state. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3324. Hollywood Westerns and the American West. 3 Credit Hours.
Examine the 20th century American Western history through an examination of Western films, from the early twentieth century to the present day. Analyze mythic interpretations and historical realities of the American West to understand the role of the western in shaping perceptions of the West.

HIST 3325. United States Women’s History to 1877. 3 Credit Hours.
Study the history of women in America from the colonial period through 1877, with special emphasis on women's roles in public and private life, and the historical role of women in the development of the nation.

HIST 3326. United States Women’s History from 1877. 3 Credit Hours.
Study the history of women in America from 1877 through the present, with special emphasis on the emergence of modern American women during the latter part of the Nineteenth century and women's roles in the continued development of the nation.

HIST 3327. African American History to 1877. 3 Credit Hours.
Explore African American history from the colonial period to 1877, with special emphasis on the slave trade, the development of the institution of slavery, free blacks and the impact of the Civil War and Reconstruction on African Americans.

HIST 3328. African American History from 1877. 3 Credit Hours.
Explore African American history from the end of Reconstruction to the present, with special emphasis on black leaders, disenfranchisement, lynching and the quest for equality in the mid-twentieth century.

HIST 3329. Church and State. 3 Credit Hours.
Examine the relationship of church and state in United States history, and the role religion has played in American political life, culture, and society.

HIST 3332. The Renaissance and Reformation, 1300-1648. 3 Credit Hours.
Examine European political, diplomatic, and cultural history from 1300 to 1648. Special emphasis on Renaissance Humanism, the Protestant movements, the Catholic Reformation, and the emergence of the European state system during the age of religious wars. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3339. Europe in the Middle Ages. 3 Credit Hours.
Examine Medieval Europe from the decline of the ancient world to the eve of the Renaissance. Special emphasis on the political, economic and social changes underlying the formation and development of medieval civilization. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3341. Europe from 1814 - 1919. 3 Credit Hours.
Examine the important developments in the political, diplomatic, social, economic, and intellectual history of Europe between the Congress of Vienna and the first World War, including the Revolution of 1848, the Industrial Revolution, and European diplomatic events leading to the Great War. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3360. Asian Civilization. 3 Credit Hours.
A survey of Asian civilizations with a primary focus on the history and cultures of India, China, and Japan. Examine general trends in the political, economic, social, and intellectual history of Asia, highlighted by discussions and consideration of selected cultural elements, such as art, literature, and film.

HIST 3361. History and Film. 3 Credit Hours.
Introduces topics in history through the study of film, with supplementary reading, lectures, and discussions.

HIST 3370. Colonial Latin America. 3 Credit Hours.
Examine the exploration and colonization of the Spanish and Portuguese dominions in South and Central America, including political history of the colonies, the church and colonial institutions, commercial systems of Spain and Portugal, expansion into the North American borderlands, and early independence movements. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 3371. History of Mexico Before Independence. 3 Credit Hours.
Examine Mexican history from the arrival of the first peoples through the end of the Spanish colonial era. Special emphasis on early native civilizations, especially the Maya and Aztec, as well as the incursion of the Spanish and the conquest and colonization of Mexico.

HIST 3372. History of Mexico from 1821 - Present. 3 Credit Hours.
Examine modern Mexico, including the independence movement, conflict of centralism and federalism, war with the United States, political and economic developments under Juarez, Maximilian, and Diaz, and the social revolution of the 20th century. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 4301. United States History and the World. 3 Credit Hours.
(WI) Learn how world events influenced American history from 1789 to the present. Examine American diplomatic, economic, political, and social reactions to major world occurrences. Emphasis will be on the twentieth century, particularly on the two world wars and the Cold War Era.

HIST 4302. Economic Development of the United States. 3 Credit Hours.
Survey the economic development of the United States from colonial times to the present. Credit for both HIST 4302 and ECON 4302 will not be awarded. Prerequisite(s): ECON 1301 or ECON 2301 and 6 hours of HIST.

HIST 4307. History Careers Outside the Classroom. 3 Credit Hours.
Examine the choices available for historians who seek careers outside of classroom teaching, including museums, historic preservation, cultural resource management, archival administration, parks, oral history, corporate history, and editing and publishing. Will not count as a history course for purposes of teacher certification. Prerequisite(s): 6 hours of HIST.

HIST 4310. 20th Century United States History. 3 Credit Hours.
Examine the recent history of the United States, with an emphasis on the political, social, cultural, and economic development of the nation. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 4312. Topics in Women’s History. 3 Credit Hours.
Explore special topics in the history of American women. May be repeated the when topic varies.

HIST 4313. Topics in African American History. 3 Credit Hours.
Develop understanding of African American history through advanced study of selected topics. May be repeated when the topic varies.
HIST 4314. History of Trans-Mississippi West. 3 Credit Hours.
Examines the history of the Great West from the Lewis and Clark expedition to the 20th century. Special emphasis on the West as a distinctive region in national politics, state building in the 19th century, and the development of agriculture, transportation, and commerce. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 4315. History of the South. 3 Credit Hours.
Surveys southern history emphasizing distinctive factors which set the region apart from the rest of the United States, including social and cultural development. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 4317. Topics in Native American History. 3 Credit Hours.
Examine advanced Native American history topics. May be repeated when the topic varies.

HIST 4318. Topics in Oral History. 3 Credit Hours.
Examine advanced Oral History topics, including, instruction in the history, methodology, and analysis of oral history. May be repeated when the topic varies.

HIST 4327. History of Russia and Eastern Europe to 1917. 3 Credit Hours.
Examination of Russia and Eastern Europe from the ancient period to the 1917 Bolshevik Revolution. Topics include: the development of Kievan Rus, the Mongol invasion, the Time of Troubles, the French Revolution and Napoleon, the Crimean War, the growth of revolutionary movements, and major philosophical, cultural, religious, and political ideas. Prerequisite(s): 6 hours of History or permission of Department Chair.

HIST 4328. History of the Soviet Union and Post-Soviet Russia and Eastern Europe. 3 Credit Hours.
Examination of the creation and the development of the Soviet Union and Post-Soviet Europe. Major events covered include: the Bolshevik Revolution, official cultural policies, World War II, the Cold War, the fall of Communism, transition to Capitalism, resurgent nationalism, and post-Communist political movements. Prerequisites: Recommended that students take History of Russia and Eastern Europe to 1917 Required: 6 hours HIST or permission of Department Chair.

HIST 4332. England and Great Britain to 1603. 3 Credit Hours.
Explore English history from Roman Britain to the death of Queen Elizabeth and the end of the Tudor dynasty. Special emphasis on the political, legal, and religious changes which formed the foundations of modern England. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 4333. England and Great Britain from 1603. 3 Credit Hours.
Explore English and British history from 1603 to modern times. Special emphasis on the constitutional, political, economic, and legal changes which shaped Great Britain, including a survey of the empire and the United Kingdom. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 4335. Social History of Modern Europe. 3 Credit Hours.
An analysis of European society since the industrial revolution, with emphasis on the social impact of industrialization and urbanization, changing patterns of social stratification, mobility, and class conflict in the 19th and 20th centuries. Pre-requisite: 6 hours of HIST or permission of department chairperson.

HIST 4336. European Intellectual and Cultural History. 3 Credit Hours.
Examine the fundamental ideas in the European intellectual tradition through an analysis of primary texts. Analyze the foundations of Western thought in the Judeo-Christian and Greco-Roman traditions, as well as the ideas and ideologies that have shaped modern European mentalities. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 4337. Europe from 1919 - 1945. 3 Credit Hours.
Examine the period from the Paris Peace conference in 1919 to the end of the Second World War in Europe. Special emphasis on political and economic instability, the rise of dictatorships, and European diplomatic crises leading to war.

HIST 4341. Revolutionary Europe from 1789 - 1814. 3 Credit Hours.
Examine the political, social, economic, and intellectual forces unleashed in the French Revolution and Napoleonic era, beginning with a study of the Old Regime and ending with the Congress of Vienna in 1814. Special emphasis on the rise of liberalism and nationalism in Europe. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 4345. World War II and the Holocaust. 3 Credit Hours.
Examine European history between the rise of Fascism and Communism after the Great War to the end of World War II in 1945. Special emphasis on European diplomacy in the inter-war years, the conduct of the Second World War, and the Holocaust. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 4346. History of the World since 1919. 3 Credit Hours.
Explore major trends in world history following World War I, including the impact of the Great Depression, the rise of totalitarianism, and the coming of World War II. Special emphasis on the postwar period. Prerequisite(s): 6 hours of HIST or permission of department chair.

HIST 4380. History Seminar. 1-3 Credit Hours.
Individual instruction in selected fields of history. Emphasis on reports and wide readings in selected fields. May be taken more than once for credit. Prerequisite(s): Senior standing or permission of department chair.

HIST 4381. Concepts of History Education. 3 Credit Hours.
Considers the methods and techniques for presenting historical material to secondary students. Learn to organize material into a logical framework to better present the interplay of people, nations, and cultures through time. Focuses on mastery of subject areas of the Texas Examination for Educator Standards for teacher certification.

HIST 4382. Historical Method. 3 Credit Hours.
(WI) Examine the concepts basic to historical thinking, causation, periodization, change, and continuity, the roles of social forces and individuals, and problems of interpretation, accuracy, and truth. Compare the social sciences and the humanities with an emphasis on the distinctive nature of the historical discipline as it has developed through time. Prerequisite(s): HIST 3300.

HIST 4388. History Problems. 1-6 Credit Hours.
Independent reading, research and discussion. Entry into this course will be arranged with the history counselor.

HIST 4389. Special Topics in History. 3 Credit Hours.
Examine important periods, regions, and themes in history. May be repeated when the topic varies.

HIST 4391. History Practicum. 3 Credit Hours.
Gain professional experience in the workplaces where historians find professional careers including museums, historic preservation, cultural resource management, archival administration, teaching, parks, oral history, corporate history, and editing and publishing. Will count as an elective but not for teacher certification or completion of the history major. Prerequisite(s): HIST 4307. May be repeated once for credit. Field experience fee $75.
HIST 4395. History Senior Research Seminar. 3 Credit Hours.
(WI) Develop and apply historical research and writing skills through the exploration of selected topics. Prerequisite(s): HIST 2311, HIST 2312, HIST 1301 and HIST 1302.

HIST 5090. History Comprehensive Examination. 0 Credit Hours.
Comprehensive Examination for non-thesis students in the field of History. The Comprehensive Examination should be completed during the final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis students do not take this examination.

HIST 5198. History Thesis. 1-6 Credit Hours.
Scheduled when the student is ready to begin the thesis. No credit until the thesis is completed. Prerequisite(s): 24 hours graduate credit, including HIST 5380 and at least one research seminar, and consent of major professor.

HIST 5300. Elements of Historical Inquiry. 3 Credit Hours.
Examine history as a profession, including how historians read sources, pose questions, draw inferences, shape their narratives, and engage historical writings.

HIST 5307. Public History Seminar. 3 Credit Hours.
Examine public history careers available for master’s level history graduates in areas outside of classroom teaching. This is a gateway course for all public history courses.

HIST 5308. Museum Studies. 3 Credit Hours.
Examine the theory and practice of the multiple careers available to historians in museums, including curating, collections care, educational programming, exhibits, media relations, financial development, and construction and management of facilities.

HIST 5309. Historic Preservation. 3 Credit Hours.
Examine historic preservation as an area of professional employment for historians.

HIST 5310. Archival Principles and Practices. 3 Credit Hours.
Examine the principles and practices of archival management.

HIST 5315. United States Foreign Policy since 1945. 3 Credit Hours.
Explores United States national security and foreign policy since 1945, and the historical antecedents of contemporary foreign policy challenges. Emphasis on policy decisions, domestic and bureaucratic processes, the role of intelligence, and the use of force and diplomacy.

HIST 5320. Selected Topics in State and Local History. 3 Credit Hours.
Explore selected topics in state and local history, as well as readings and research in Texas history. May be repeated when topics vary.

HIST 5322. Selected Topics in American History. 3 Credit Hours.
Research and writing on selected topics in American History. May be repeated for credit when topics vary.

HIST 5325. Readings in American History to 1877. 3 Credit Hours.
Explore the major themes and critical works in selected topics of American History to 1877. Writing assignments will include the types of writing conducted most frequently by historians, including book reviews, literature reviews, and annotated bibliographies.

HIST 5326. Readings in American History since 1877. 3 Credit Hours.
Readings and discussions of selected problems in American History since 1877. May be repeated for credit when topics vary.

HIST 5335. Europe since 1945. 3 Credit Hours.
Study the main turning points in the history of postwar Europe, with an emphasis on the European integration movement. Themes include theories of integration, the democratic deficit, the transparency, accountability, and legitimacy of European policy processes, the Common Market, monetary integration and the Euro, common foreign, security, and the defense policy, social immigration policy, issues of enlargement, and relations between the European Union and non-EU entities.

HIST 5340. Readings In European History. 3 Credit Hours.
Readings and discussions of selected topics in early modern and modern European history. May be repeated for credit when topics vary.

HIST 5342. Selected Topics in European History. 3 Credit Hours.
Research and writing on selected topics in European history. May be repeated for credit when topics vary.

HIST 5360. Readings In World History. 3 Credit Hours.
Readings and discussion of selected topics in the history of regions and countries outside of Europe and the United States. May be repeated for credit when topics vary.

HIST 5380. Historiography and Historical Method. 3 Credit Hours.
Explore various ideological schools of thought in the study of history. Emphasis on recent trends and techniques in historical writing. Prerequisite(s): HIST 5300 and full admission to the graduate program or permission of instructor.

HIST 5388. History Problems. 1-6 Credit Hours.
Conference course exploring various topics in the study of history, with independent reading, research, and discussion, under supervision of senior professor.

HIST 5391. History Practicum. 3 Credit Hours.
Gain professional experience in workplaces where historians find professional careers including museums, historic preservation, cultural resource management, archival administration, teaching, parks, oral history, corporate history, and editing and publishing. Will count as an elective but not for teacher certification or completion of the history major. May be repeated once for credit. Prerequisite(s): Permission of instructor and department chair. Field experience fee $75.

Homeland Security (HLS)

HLS 5090. Comprehensive Exam. 0 Credit Hours.
The study and integration of Homeland Security knowledge in order to take the Homeland Security comprehensive exam for non-thesis students. Non-thesis students should register for the comprehensive examination during their final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written. A maximum of three attempts will be allowed. Thesis students do not take this examination.

HLS 5198. Homeland Security Thesis. 1-3 Credit Hours.
Prepare and write a graduate thesis in the field of Homeland Security. This course represents a student’s initial and continuing thesis enrollment. At least six total hours is required to complete the thesis requirement. The student continues to enroll in this course until the thesis is submitted and the thesis is successfully defended.
HLS 5300. Linear Regression. 3 Credit Hours.
Introduction to multiple OLS linear regression, use of statpak and outputs. This course assumes basic competency in upper-level, undergraduate statistics (3 semester hours) and prepares students for comp exams. Prerequisite: undergraduate or graduate coursework in statistics, or instructor approval. This course is cross-listed with CRIJ 5300; only one may be taken for credit. Prerequisite: 3 semesters hours of upper-level, undergraduate statistics, or approval of instructor.

HLS 5301. Advanced Criminology. 3 Credit Hours.
In-depth examination of major theoretical perspectives of crime and delinquency. Theories are analyzed for their logical and empirical adequacy in light of what is known about the distribution of crime. Prerequisite: undergraduate or graduate coursework in criminology/victimology, or instructor approval. This course is cross-listed with CRIJ 5301; only one may be taken for credit. Prerequisite: 3 semesters hours of upper-level, undergraduate or graduate criminology/victimology, or approval of instructor.

HLS 5303. Race and Ethnicity. 3 Credit Hours.
Addresses issues related to racial and ethnic minorities and crime. Perceptions of race, class, offending, and victimization are examined. Disparities in offending, victimization, law enforcement practices, trial processes, and sentencing are examined in depth. This course is cross-listed with CRIJ 5303; only one may be taken for credit.

HLS 5304. Advanced Research Methods. 3 Credit Hours.
The application of social scientific research methods that focus on criminal justice phenomena. Students critically examine research designs and published research. Students produce acceptable research proposals. This course is cross-listed with CRIJ 5304; only one may be taken for credit. Prerequisite: Undergraduate course in Research Methods or approval of instructor.

HLS 5306. Program Evaluation. 3 Credit Hours.
Introduces student to program evaluation, the need for program evaluations, and the methods used to conduct the research. This course is cross-listed with CRIJ 5306; only one may be taken for credit. Prerequisite: Undergraduate course in Research Methods or approval of instructor.

HLS 5307. Homeland Security. 3 Credit Hours.
Study the strategic, legal, policy, operational, and organizational issues associated with the defense of the U.S. homeland from foreign and domestic terrorist threats. Topics include legal issues in Homeland Security, effective interfacing between local, state, and federal agencies, emergency management operations, and planned response strategies. Maybe crosslisted with CRIJ 5307. Only one may be taken for credit.

HLS 5308. Victimization. 3 Credit Hours.
This course includes a comprehensive study of victimization, including the relationship between the victims and offenders, and their interaction with the criminal justice system. Students will provide a literature review on a topic of interest.

HLS 5309. Terrorism. 3 Credit Hours.
Examine the definitions, history, beliefs, practices, organizational structure, and conflicts involved in terrorist activities. Address funding and criminal connections with terrorist organizations, and discuss efforts at counterterrorism as well as the psychological aspects of suicide terrorism. Cross-listed with CRIJ 5309; only one may be taken for credit.

HLS 5315. Graduate Proseminar. 3 Credit Hours.
Introduces students to the department and faculty. Emphasis placed on effective study habits and writing skills associated with research, as well as other activities/parameters that will assist the student in being successful in the program. This course is cross-listed with CRIJ 5315; only one may be taken for credit.

HLS 5320. Religious Terrorism. 3 Credit Hours.
Examine the religious motivations, support, and tactics behind the phenomena of domestic and foreign terrorism. Review case studies and histories of specific terrorist organizations, and discuss justifications for violence and terrorist targets. Cross listed with RELS 5320; only one may be taken for credit.

HLS 5321. Leadership and Supervision. 3 Credit Hours.
Examine leadership and organizational theories focused on identifying problems and solutions in criminal justice management. Utilize the case study method and current literature to explore how leadership styles, human resources, and the organizational environment impact management decisions. Maybe crosslisted with CRIJ 5321. Only one may be taken for credit.

HLS 5322. Advanced Ethics. 3 Credit Hours.
The practical implications and application of moral philosophy and ethics in a free society during the daily administration of criminal justice agencies and their impact on criminal events. This course is cross-listed with CRIJ 5322; only one may be taken for credit. Prerequisite: Undergraduate course in Ethics or approval of instructor.

HLS 5370. Foundations of Information Security. 3 Credit Hours.
Examine fundamental concepts and principles of information Security Management, and Information Assurance as it affects modern business operations. Explore major issues and legal aspects related to physical, technical, and operational cyber security measures. Develop risk management skills, and learn business access security, communication and network security, operating systems security, and identity and access control management. Maybe crosslisted with CRIJ 5370. Only one may be taken for credit. Prerequisite(s): None.

Human Resource Management (HRM)

HRM 5090. Human Resources Comprehensive Examination. 0 Credit Hours.
Study and take the human resources examination for non-thesis students. Register for the comprehensive examination during final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis students do not take this examination.

HRM 5302. Human Resource Management. 3 Credit Hours.
Presents the fundamental principles and techniques of personnel management and examines the management of human resources from the point of view of the personnel officer, the operational manager and the employee. Examines the responsibilities of organizational leadership for incorporating human resource issues in strategic planning and initiatives. Emphasis is placed in current legal considerations, issues and research. Prerequisite(s): Management Leveling.

HRM 5303. Managing Human Resource Development. 3 Credit Hours.
Study of talent development program design and management, dominate learning process models and theories, and the changing nature of work. Identify strategic considerations of an increasingly global and diverse workforce on learning program design, development and implementation. Investigate recent trends in instructional design and learning technologies. Prerequisite: Management Leveling.
HRM 5305. Human Resource Law. 3 Credit Hours.
Examine legal issues and regulatory processes related to employment relationships, equal employment opportunity and affirmative action, privacy, employment testing and staffing, compensation and benefits, employee/labor relations, and occupational health and safety.

HRM 5307. Human Resource Consulting and Job Analysis. 3 Credit Hours.
Study theories, strategies, operational issues and research related to conducting job analyses. Learn job description and specification development. Emphasis is placed on using appropriate techniques to acquire measure, assess and use information gathered in the work place. Explore and develop consulting skills as used in the HR field. Field projects are used extensively. Prerequisite(s): HRM 5302 or the permission of instructor.

HRM 5310. The Adult Learning Environment. 3 Credit Hours.
Examine learning patterns, interests and participation among adults, with implications for training and development programs. Particular attention is given to the joint responsibility for learning between trainer and adult participants.

HRM 5314. Workforce Planning and Employment. 3 Credit Hours.
Study of the legal, ethical and organizational considerations related to the process of planning, sourcing, recruiting, assessing, selecting, placing, and retaining a qualified workforce. Emphasis is placed on decision making and strategic considerations in forecasting, measurement and evaluation, equal employment opportunity, employer brand management, and talent management. Prerequisites: Management Leveling.

HRM 5315. Employee Benefits and Services. 3 Credit Hours.
Examine legal, social and technical issues and research surrounding current trends in employee benefit programs. Analyze group health, disability and life insurance, retirement planning, time-off (leave) and wellness programs. Emphasis is placed on program administration, implementation and evaluation. Prerequisite(s): HRM 5302 or permission of instructor.

HRM 5316. Compensation Management. 3 Credit Hours.
Explore how a variety of factors such as labor market, organization, and job characteristics affect (or are correlated with) the levels and methods of pay. Examine recent pay related issues such as pay inequality and gender pay gap. Emphasis is placed on the development of sound compensation programs which consider current trends, legal implications and social requirements. Prerequisites: Management Leveling.

HRM 5324. Employment and Labor Relations. 3 Credit Hours.
Explore the labor union movement and the process of collective bargaining, the formation of a union, labor agreement negotiation, labor agreement administration, grievance processes, and arbitration and mediation. Examine labor law and legal issues in labor relations, including the National Labor Relations Act and the functions of the NLRB. Negotiation skills are developed in mock labor contract negotiations. Prerequisite(s): HRM 5302 and HRM 5301 or HRM 5305 or concurrent enrollment.

HRM 5326. Human Resource Management Seminar. 3 Credit Hours.
Study selected topics in human resource management. Engage in independent research, reading, and discussions under direction of professor. Topics may vary according to student need. May be repeated once for credit when topics vary.

HRM 5330. Global Human Resource Management Practices. 3 Credit Hours.
Study basic international business concepts, cultural literacy, and discipline specific content applied to practical experiences and activities in a visited foreign country. Graduate students will be required to complete an extensive research project in addition to other course requirements. A study abroad at the student's expense is required. Student may complete a maximum of six hours of COBA sponsored study abroad toward degree completion. Prerequisite(s): Admission into a COBA graduate program and permission of instructor. Field experiences fee $75.

HRM 5334. Professional Issues in Human Resource. 3 Credit Hours.
Examine contemporary professional issues in human resource management. Emphasis on current issues, ethical decision-making processes, work place investigations, and continued professional development. Successful completion of a comprehensive competency examination covering the principal areas within the human resource management functions is required. Prerequisite(s): BUSI 5310, HRM 5302, HRM 5303, HRM 5305, HRM 5314 and HRM 5316, or concurrent enrollment in each.

HRM 5338. Human Resource Management Internship. 3 Credit Hours.
Gain professional experience in the human resource field under the supervision of a faculty-approved management sponsor. Emphasis is placed on the application of human resource management skills to practical problems and situations. A minimum of 20 work hours per week is expected, with a total of 200-300 on-the-job hours required during the semester. Prerequisite(s): Completion of 12 graduate semester hours in Human Resource Management, preregistration coordination and permission of course instructor. Field experiences fee $75.

HRM 5388. Human Resource Management Problems. 3 Credit Hours.
Study selected problems in human resource management, and conduct research within a specific area of interest. Engage in independent research, reading, and discussions as directed by the responsible professor. Topics may vary according to student need. Prerequisite(s): Permission of department chair.

Liberal Studies (LIBS)

LIBS 3300. Intro to Liberal Studies. 3 Credit Hours.
(WI) Students are introduced to the major issues in interdisciplinary studies. Students research how their academic concentrations emerged as distinct disciplines and produce a research paper and presentation of their findings. Prerequisite(s): ENGL 1301.

LIBS 4395. Liberal Studies Capstone. 3 Credit Hours.
(WI) This course requires students to integrate and use fundamental concepts learned in previous courses within the students' degree concentrations including research and analysis of real-world phenomena and problems. Students present written reports on their research, supplemented by appropriate internet and multimedia materials, as well as portfolios documenting their research. This is a writing intensive course for Liberal Studies majors. Prerequisite(s): BCIS 1301 or CIS 3300; ENGL 3309; LIBS 3300; senior standing and approved degree plan for Bachelor of Science in Liberal Studies program.

LIBS 5090. Comprehensive Examination. 0 Credit Hours.
Non-thesis students should register for the comprehensive examination during their final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis student do not take this examination.
LIBS 5300. Interdisciplinarity. 3 Credit Hours.
This course allows students to assess and to discuss various topic(s) examined from an interdisciplinary approach. Emphasis is upon investigating the contributions of interdisciplinary research in academia. Prerequisite: Graduate standing.

LIBS 5310. Interdisciplinary Methods. 3 Credit Hours.
This course investigates interdisciplinary research methods and the application of these methods. Students research, write, and present projects on topic(s) related to their focus areas. Prerequisite: Graduate standing.

LIBS 5398. Interdisciplinary Capstone. 3 Credit Hours.
Students enroll in this course when they are prepared to begin their capstone project. Students need to earn an A or B to complete this course satisfactorily and to earn credit. Prerequisites: 24 hours graduate credit, including LSK 5300 and LSK 5310, and consent of the MSLS Graduate Coordinator.

Management (MGMT)

MGMT 3301. Principles of Management. 3 Credit Hours.
Study the basic managerial functions of planning, organizing, staffing, directing, and controlling resources to accomplish organizational goals. Special emphasis on the systems concept of management and role of the manager in each level of the organization.

MGMT 3302. Personnel and Human Resource Management. 3 Credit Hours.
Study fundamental functions of human resources management, relationship between personnel management and organizations’ emerging role of personnel administration in development of strategic policy for organizations. Prerequisite(s): MGMT 3301 or permission of department chair.

MGMT 3303. Supervisory Management. 3 Credit Hours.
Investigate the role, function, and responsibilities of the supervisor in modern organizations through study of sociological and psychological theories in human relations. Emphasis is on development of supervisory skills in communications, motivation, discipline, morale, and grievances as they arise in superior-subordinate relationships. Prerequisite(s): MGMT 3301 or permission of department chair.

MGMT 3310. Entrepreneurship I. 3 Credit Hours.
Learn how to identify and evaluate opportunities that may become the foundation for a new business ventures. Learn to develop a new business venture using the business model canvas. Assess the value of a concept and explore opportunity recognition, innovation and creativity, the legal structure of business, and types of entrepreneurial ventures. Prior knowledge in basic business fundamentals and good writing skills are preferred, but not required.

MGMT 3350. Organizational Behavior. 3 Credit Hours.
Analyze behavior of people at work in all types of organizations. Learn fundamentals of organizational behavior, values, ethics, motivation, group dynamics, individual differences, attitudes, decision-making, conflict, power, change, stress, leadership, rewarding behavior, communication, and organizational structure. Prerequisite(s): MGMT 3301 and BUSI 3301.

MGMT 4302. Productive Relationships. 3 Credit Hours.
Examine the practicals and theories related to dealing with human behavior. Emphasis on identifying and classifying behavior in order to better understand behavior and to develop strategies for effectively managing interpersonal relationships. A materials fee of $45 is required for needed course materials. Prerequisite(s): MGMT 3301 and BUSI 3301.

MGMT 4303. Managing Compensation. 3 Credit Hours.
Understand the various factors that affect the two important compensation decisions: How to (pay method) and how much (pay level) an organization should pay its employees. Emphasis is placed on the understanding of basic concepts, theories, current trends, and legal and social requirements related to the issue of compensation. Prerequisites: BUSI 3301 and MGMT 3302.

MGMT 4304. Recruitment and Selection of Human Resources. 3 Credit Hours.
Study recruitment and selection of human resources for organizations. Examine optimal utilization of human resources within organizations, and the use of tests and other techniques in human resource management. Prerequisite(s): MGMT 3302 and BUSI 3301.

MGMT 4305. Human Resource Development. 3 Credit Hours.
Learn practical and theoretical approaches to training and development of employees in an organization. Study role and scope of training and development functions, philosophies, strategies, needs analysis, development of program content, and evaluation Prerequisite(s): MGMT 3302 and BUSI 3301.

MGMT 4306. Employer and Labor Relations. 3 Credit Hours.
Study collective bargaining, labor market fundamentals, unionism, and related issues of labor economics. Prerequisite(s): MGMT 3301.

MGMT 4310. Entrepreneurship II. 3 Credit Hours.
Develop skills required to manage and grow a new venture past the start-up. Apply general business concepts to the challenges facing entrepreneurs. Draw on a broad range of business disciplines including management, marketing, finance, and accounting to develop a business plan. As such, background knowledge in these areas, as well as good writing skills, is strongly preferred, but not required. Prerequisite(s): MGMT 3301 or permission of department chair.

MGMT 4321. Production and Operations Management. 3 Credit Hours.
Study industrial organization, scientific management, planning and control, building locations and layouts, wage rates, corporation relationships, and research. Prerequisite(s): MGMT 3301 and BUSI 3311.

MGMT 4322. Management Science. 3 Credit Hours.
Learn quantitative techniques of decision-making with an emphasis on managerial needs. Study discipline of continuous improvement in managerial decision-making. Analyze problem definition, data gathering and analysis, process improvement, improvement control, and be able to make recommendations to improve business results. Prerequisite(s): MGMT 3301 and BUSI 3311.

MGMT 4325. Leadership Theory and Practice. 3 Credit Hours.
Study leadership theories and issues with practical application of newer leadership models in contemporary organizations. Explore facets of both leadership and followership, along with the impact of the particular organizational setting and situation. Explore situation analysis through active reflection, analysis of case studies, simulations, and popular business press treatment of leadership situations. Prerequisite(s): BUSI 3301 and MGMT 3301.

MGMT 4340. Management Seminar. 3 Credit Hours.
Study current issues in management. Analyze readings from current management publications and other related periodicals. May be repeated for credit when topics vary. Prerequisite(s): 15 hours of MGMT or permission of department chair.
MGMT 4350. Management Information Systems. 3 Credit Hours. (WI) Investigate management issues related to business information systems designed to meet the informational needs of the various business subsystems. Learn the concepts of systems development, security, privacy, and ethics associated with information systems are stressed. Credit will be awarded for only 1 of the following courses: ACCT 4350, CIS 4350, or MGMT 4350. Prerequisite(s): BUSI 3301 and MGMT 3301.

MGMT 4354. International Management. 3 Credit Hours. Study the international dimensions of the marketplace and environment related to management. Examine the role of culture within international strategic management, organizational behavior and human resource management. Prerequisite(s): MGMT 3301, BUSI 3301 and BUSI 3344.

MGMT 4356. Global Management Practices. 3 Credit Hours. Study basic international business concepts, cultural literacy, and discipline specific content applied to practical experiences and activities in a visited foreign country. A study abroad at the student's expense is required. Student may complete a maximum of six hours of COBA sponsored study abroad toward degree completion. Prerequisite(s): Junior or senior standing. BUSI 4354, MGMT 4356, or MKTG 4356 may not be taken concurrently. Field assignment fee of $75.

MGMT 4360. Emergency Management. 3 Credit Hours. Learn theories, principles and approaches to emergency management. Study the Philosophy of Comprehensive Emergency Management (CEM) with its four phases of preparedness, mitigation, response, and recovery. Analyze past disasters presented along with their attendant policy formations leading to the FEMA all hazards approach.

MGMT 4370. Introduction to Project Management. 3 Credit Hours. This course provides a comprehensive overview of project management. The culture, principles, and basic techniques of project management are addressed using the project life-cycle as the primary organizational guideline. The project management functions of planning, organizing, motivating and controlling with an emphasis on the application to business and technology are explained. Basic tools of project management such as work breakdown structure, scheduling, earned value analysis, and risk management are explained and demonstrated. Prerequisite(s): BUSI 3301, BUSI 3311, MGMT 3301; Materials Fee: $35 for a simulation experience.

MGMT 4384. Management Internship. 3 Credit Hours. Participate in a management related position with a public or private business organization that is preapproved and supervised. May be repeated for a total of 6 credit hours. Prerequisite(s): MGMT 3301 and permission of department chair. Field experiences fee: $75.

MGMT 4388. Management Problems. 1-3 Credit Hours. Study selected problems in management. Engage in independent research, reading and discussions under the personal direction of the instructor. Topics may vary according to student need. May be repeated with permission of department chair. Prerequisite(s): Senior standing and permission of department chair.

MGMT 5090. Management Comprehensive Examination. 0 Credit Hours. Study and take the management examination for Non-thesis students. Register for the comprehensive examination during final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis students do not take this examination.

MGMT 5301. Organizational Behavior. 3 Credit Hours. Learn behavioral theory in organizational context. Study individual and group dynamics in the business environment. Specific emphasis given to leadership, motivation, communication, employee supervision, and morale. Prerequisite(s): Management leveling.

MGMT 5302. Sustainable Business: A One Planet Approach. 3 Credit Hours. The leaders of today's organizations must navigate the challenges surrounding sustainability. Sustainability relates to the creation of long-term value for the triple bottom line of People, Planet and Profit through the adroit management of a firm's social, environmental, and economic impact. This course will provide students with the understanding and necessary to integrate sustainability into the business disciplines (marketing, finance, operations, etc.), emphasize how sustainability challenges can be turned into strategic competitive advantage, explore emerging market opportunities for sustainable products and services, and underscore the role of leadership in innovating, organizing, and managing the changes necessary to adopt a "one-planet" approach to survive and thrive in this rapidly changing environment. Prerequisite(s): Management Leveling.

MGMT 5305. Analytical Methods of Management Decisions. 3 Credit Hours. Study analytical techniques which may be used to facilitate decisions analysis. Learn concepts of utility, break even analysis, network models, linear programming, game theory and computer simulation. Use course activity to survey analytical techniques which may be used to facilitate analysis of alternative decisions and practice in applying the techniques through problem solving. Prerequisite(s): BUSI 3311 or MATH 3300 and graduate standing.

MGMT 5306. Influence Organizational Productivity By Interpersonal Relationships. 3 Credit Hours. Learn the practicals and theories related to interpersonal behavior and its influence on organizational productivity. Learn to identify and classify behavior in order to better understand behavior and to develop strategies for creating productive relationships with others. Particular emphasis is directed toward the impact of interpersonal behavior in business organizations and the potential effect on productivity. A materials fee of $45 is required for needed course materials.

MGMT 5307. Responsibilities and Ethics of Leadership. 3 Credit Hours. Analyze an organization's social and environmental responsibilities to its employees, customers, and other key stakeholder groups. Emphasis is given to the case study method for evaluating the performance of various organizations. Develop a theoretical framework for understanding ethics, principles and values of leadership as they affect the organization, the organizational environment, and society. Prerequisite(s): Management Leveling.

MGMT 5308. Designing Organizations for Sustainable Effectiveness. 3 Credit Hours. Examine theories, processes and "fit" models of organization design and alignment of structure, technology, information systems, reward systems, people and culture, and management processes with organizational goals. Emphasis is on maximizing the triple bottom line for sustainable effectiveness and how organizations can be led and managed so they are economically, socially, and environmentally sustainable. Prerequisite(s): MGMT 5301.
MGMT 5309. Global Leadership for Sustainability. 3 Credit Hours.
This course is the integrating capstone course for the MS One Planet Leadership program. Examines both mainstream and emerging theories and approaches to leadership, including models of leadership for sustainability and developing the global mindset necessary for flourishing enterprises to maximize the triple bottom line. Applies leadership principles and models to varied organizational situations with a primary focus on developing leaders who can effectively deal with the economic, social, and environmental challenges global leaders face in today’s volatile and chaotic business climate. A culminating capstone sustainability case study project is a required part of the course. Students must make a B on this project to pass the course and a B in the course to graduate. Prerequisite(s): Students must have completed or be currently enrolled in the core courses for the program, MGMT 5301, MGMT 5308, & MGMT 5368, or instructor approval.

MGMT 5310. Leadership Formation and Development. 3 Credit Hours.
This course examines both mainstream and emerging theories and approaches to leadership development and formation, with an emphasis on case study and experiential methods of examining the application of leadership principles and models. It provides each student the opportunity to focus on developing their personal and organizational abilities and skills to become triple bottom line leaders who can better resolve the economic, social and environmental issues of the global, Internet age. Prerequisite(s): MGMT 5301.

MGMT 5311. Sustainable Operations & Services. 3 Credit Hours.
Focuses on providing students with a broad understanding and knowledge of operations and service management concepts. Emphasis will be placed on incorporating various aspects of sustainability, while designing, managing and controlling business operations and services. In addition, students will be exposed to several analytical tools, models and methodologies that are necessary to design, develop and evaluate various sustainable business operations. Prerequisites: Management and Statistics Leveling.

MGMT 5315. International Management for Sustainability. 3 Credit Hours.
Focus on the multinational aspects of leading and managing sustainable development. Research, synthesis, and presentation of current and seminal research on the subjects of globalization and internationalization will be dominant components. The need for social, ecological, and economic dimensions of sustainability in international business transactions will also be discussed. Prerequisite: MGMT 5301.

MGMT 5320. Negotiations. 3 Credit Hours.
Learn distributive negotiation, integrative negotiation, biases and pitfalls in negotiation, building trust, developing a negotiation style, power, persuasion, ethics, creativity and problem solving. Theoretical lecture/discussion and practical application/skill development, including in-class role plays, are used in this course. A materials fee of $40 is required for needed course materials.

MGMT 5330. Cross Sector Partnerships for Sustainability. 3 Credit Hours.
Cross-sector partnerships have proven to be one of the most effective approaches to complex environmental challenges. Through case studies of environmental partnerships, literature on collaboration strategies, reflective journals and field research, students will develop the skills necessary to lead future collaborative sustainability initiatives. Prerequisites: MGMT 5301 and MGMT 5307.

MGMT 5340. Management Seminar. 3 Credit Hours.
Explore selected management topics of current importance to business management. May be repeated once for credit when topics vary.

MGMT 5345. Entrepreneurship. 3 Credit Hours.
The course is designed to cover the fundamentals of entrepreneurship. Students will be provided with tools and methods for successfully developing and launching a new venture. Students will have an opportunity to develop a business plan, and will be exposed to concepts such as creativity, risk-taking, and sustainable entrepreneurship.

MGMT 5350. Project Management. 3 Credit Hours.
Study a comprehensive overview of project management. Analyze culture, principles, and basic techniques of project management using the project life cycle as the primary organizational guideline. Learn project management functions and use basic tools of project management such as work breakdown structure, scheduling, contracting, earned value analysis, and risk management. A materials fee of $35 is required to support a learning simulation.

MGMT 5356. Global Management Practices. 3 Credit Hours.
Study basic international business concepts, cultural literacy, and discipline specific content applied to practical experiences and activities in a visited foreign country. A study abroad at the student’s expense is required. Student may complete a maximum of six hours of COBA sponsored study abroad toward degree completion. Prerequisite(s): Admission into a COBA graduate program and permission of instructor. Field experiences fee $75.

MGMT 5368. Development & Change for Learning Organizations. 3 Credit Hours.
Study the role and techniques of personal selling as a component of the sales program. Prerequisite(s): MGMT 5301.

MGKTG 3301. Marketing. 3 Credit Hours.
Examine principles and concepts of marketing goods, services, and intangibles by profit and non-profit organizations in a free enterprise and global economy.

MGKTG 3312. Public Relations. 3 Credit Hours.
Study the techniques used in planning public relations programs for businesses, schools, churches, and civic associations. Learn press relations, crisis management, advertising, speech writing, and campaign activities. Prerequisite(s): MKTG 3301 and BUSI 3301.

MGKTG 3315. Personal Selling. 3 Credit Hours.
Study the role and techniques of personal selling as a component of the marketing mix. Prerequisite(s): MKTG 3301 and BUSI 3301.

MGKTG 3316. Consumer Behavior. 3 Credit Hours.
Analyze individual and group behavior of people performing in consumer role. Study buying motives, social class, and research techniques in consumer behavior. Prerequisite(s): MKTG 3301 and BUSI 3301.
MKTG 3317. Retailing. 3 Credit Hours.
Learn fundamental operations of retailing, studying of buying practices, pricing, store locations and layout, sales promotions, personnel management, and stock control. Study design to aid the student seeking a general knowledge of the retail field as well as those specializing in Marketing. Prerequisite(s): MKTG 3301 and BUSI 3301.

MKTG 3318. Promotional Strategy. 3 Credit Hours.
Study a controlled, integrated program of promotional variables. Learn how to present a company and its products to prospective customers, to promote need-satisfying attributes of products toward the end of facilitating sales, and long-run performance. Prerequisite(s): MKTG 3301 and BUSI 3301.

MKTG 3320. Marketing Research. 3 Credit Hours.
Study accurate, objective, and systematic gathering, recording, and analyzing of data about problems relating to marketing goods and services. Prerequisite(s): MKTG 3301, BUSI 3301 and BUSI 3311.

MKTG 4301. Advertising. 3 Credit Hours.
Analyze advertising in modern media. Study the history, design, effects of advertising, and the uses of different media for advertising purposes. Prerequisite(s): MKTG 3301 and BUSI 3301.

MKTG 4302. Services Marketing. 3 Credit Hours.
Learn about service environment. Analyze the most successful service-oriented industries and firms within the world's fastest-growing economic sector. Prerequisite(s): MKTG 3301 and BUSI 3301.

MKTG 4305. Digital and Internet Marketing. 3 Credit Hours.
This course provides a theoretical and practical understanding of digital marketing. Students will learn various digital marketing practices such as managing and executing search engine optimization campaign (e.g., Google AdWords), building an effective website, and converting clicks into purchases through an experiential learning approach. Prerequisite: MKTG 3301.

MKTG 4316. Marketing Strategy. 3 Credit Hours.
Learning how to formulate and implement a strategic marketing plan to try to achieve a sustainable competitive advantage. This course uses practical approaches, including case studies and a marketing plan project. Prerequisites: MKTG 3301, MKTG 3316, and MKTG 3320 or permission of the instructor.

MKTG 4340. Marketing Seminar. 3 Credit Hours.
Examine the current issues/topics in Marketing. May be repeated for credit if the topic varies. Prerequisite(s): MKTG 3301, BUSI 3301 and permission of instructor.

MKTG 4354. International Marketing. 3 Credit Hours.
Study comparative marketing systems, including economic, social, technological, governmental, and political environments as they affect international marketing operations. Prerequisite(s): MKTG 3301, BUSI 3301 and BUSI 3344 or permission of department chair.

MKTG 4356. Global Marketing Practices. 3 Credit Hours.
Study basic international business concepts, cultural literacy, and discipline specific content applied to practical experiences and activities in a visited foreign country. A study abroad at the student’s expense is required. Student may complete a maximum of six hours of SOBA sponsored study abroad toward degree completion. Field assignment fee: $75. Prerequisite(s): MKTG 3301, junior or senior standing and permission of instructor. BUSI 4354, MGMT 4356, or MKTG 4356 may not be taken concurrently.

MKTG 4384. Marketing Internship. 1-6 Credit Hours.
Participate in a marketing-related position with a public or private business organization that is preapproved and supervised. Acquiring a new marketing-related position after approval of the internship or the approval of experiences beyond the scope of the student’s present job. May be repeated for a total of 6 hours credit. Prerequisite(s): MKTG 3301, Faculty Sponsorship, and permission of department chair. Field experiences fee: $75.

MKTG 4388. Marketing Problems. 1-6 Credit Hours.
Study of selected problems in marketing. Engage in independent research, reading and discussions under the personal direction of the instructor; topics may vary according to student need. May be repeated with permission of department chair. Prerequisite(s): Senior standing and permission of department chair.

MKTG 4389. Special Topics in Marketing. 3 Credit Hours.
Examine current topics in marketing. Explore required readings from current marketing publications and other related periodicals. May be repeated for credit when topics vary. Prerequisite(s): 9 hours of MKTG.

MKTG 5308. Marketing Management. 3 Credit Hours.
Study the planning and coordination of marketing functions specifically related to product, pricing, promotion, and distribution strategies. Explore case analysis and participate in presentation of results. Prerequisite(s): Marketing Leveling.

MKTG 5309. Marketing Strategy. 3 Credit Hours.
Develop the role of product, pricing, promotion, and channel and physical distribution in the development of a firm's integrated marketing program. Study cases used to evaluate and compose alternative courses of action.

MKTG 5310. Integrated Marketing Communications. 3 Credit Hours.
Study concepts associated with Integrated Marketing Communications (IMCs). Learn an experiential learning approach, wherein students apply the concepts learned in the classroom to the creation of an IMC campaign for an organization.

MKTG 5312. Brand Management. 3 Credit Hours.
Learn branding, what it is, how it works, how it acquires and maintains economic and non-economic value. Explore the origins, power, theory, meaning, relevance and practice of brands, brand development, brand metrics and brand management through an experiential learning approach. Prerequisite(s): MKTG 5308 or permission of department chair.

MKTG 5315. International Marketing. 3 Credit Hours.
Study comparative marketing systems, including economic, social technological, governmental, and political environments as the affect international marketing operations. Students will be required to complete an extensive research project in addition to other course requirements.

MKTG 5340. Marketing Seminar. 3 Credit Hours.
Explore selected marketing topics of current importance to business marketing. May be repeated once for credit when topics vary.

MKTG 5356. Global Marketing Practices. 3 Credit Hours.
Study of basic international business concepts, cultural literacy, and discipline specific content applied to practical experiences and activities in the foreign county. A study abroad at the student’s expense is required. Graduate students will be required to complete an extensive research project in addition to other course requirements. Student may complete a maximum of six hours of COBA sponsored study abroad toward degree completion. Prerequisite(s) Course: Admission into a COBA graduate program and permission of instructor. Field experiences fee $75.
MKTG 5388. Marketing Problems. 1-3 Credit Hours. (Credit-variable) Study selected problems in marketing. Engage in independent research, reading and discussions under the personal direction of the instructor; topics may vary according to student need. Prerequisite(s): Permission of department chair.

Marriage and Family Therapy (MFT)

MFT 5090. Marriage and Family Therapy Theory Comprehensive Examination. 0 Credit Hours. Study and take the marriage and Family Therapy Theory examination for Non-thesis students. Register for the comprehensive examination during final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis student do not take this examination.

MFT 5301. Introduction of Marriage and Family Therapy Theory. 3 Credit Hours. Explore the historical development, theoretical and empirical foundations of systems theory including a survey of the major models of marriage, couple and family therapy.

MFT 5302. Advanced Marriage and Family Therapy Theory. 3 Credit Hours. Examine contemporary therapeutic directions and core competencies in the field of marriage and family therapy.

MFT 5307. Ethics in Marriage and Family Therapy. 3 Credit Hours. Analyze ethical issues related to the profession and practice of Marriage and Family Therapy including the AAMFT Code of Ethics, professional identity, professional organizations and state licensure.

MFT 5309. Assessment and Treatment of Diverse Families. 3 Credit Hours. Learn the impact of diversity, power, and privilege as related to culture, class, ethnicity, gender, sexual identity, and religion in families and the influence of context on couple and family treatment. Assess the use of genograms and treatment will focus on effectively helping multi-stressed families.

MFT 5313. The Person of the Therapist Identification. 3 Credit Hours. Study identification and the development of the person as the therapist, which serves to hone skills in therapy.

MFT 5350. Marriage and Family Therapy Research Methods. 3 Credit Hours. Learn research methodology, data analysis and the evaluation of research in couple and family therapy. Study how research informs, Marriage and Family Therapy common factors, and evidence based practice.

MFT 5351. Diverse Couples Assessment and Treatment. 3 Credit Hours. Analyze theoretical models and skills necessary for effective treatment of couple relationship problems. Seminar format will offer training towards certification in Gottman Method Couples Therapy, as well as introduction to Emotion Focused Couples Therapy. Prerequisite(s): MFT 5301.

MFT 5352. Gender and Sexuality in Marriage and Family Therapy. 3 Credit Hours. Learn male and female sexual anatomy, and address male and female sexual problems and their treatment. Special Emphasis on sex therapy, including cultural diversity, age, disability and illness, sexual abuse and rape.

MFT 5353. Medical Family Therapy. 3 Credit Hours. Examine the role of the marriage and family therapist in larger behavioral health systems. Learn collaborative manner addressing the unique psychosocial problems of individuals, couples, and families with acute and chronic medically related concerns. Study principles of individual diagnosis of mental illness as defined in the DSM and the implications for systematically based treatment.

MFT 5355. Treating Military Families. 3 Credit Hours. Explore unique characteristics of military families and provide an overview of assessment and treatment options for common clinical concerns presented by military families.

MFT 5356. Combat Related Trauma. 3 Credit Hours. Explore the unique characteristics and symptoms of grief, PTSD and combat related trauma. Study systemic treatment options in order to help clients meet their treatment goals.

MFT 5357. Common Factors in Marriage and Family Therapy. 3 Credit Hours. Explore therapeutic relationship, client factors and hope/expectancy, and their implications for clinical practice.

MFT 5358. Group Process in Marriage and Family Therapy. 3 Credit Hours. Study human relationships in groups, particularly in the group therapy context. Explore the application of various aspects of group dynamics including leadership, motivation, perception, power and decision making.

MFT 5371. Advanced Couples Interventions. 3 Credit Hours. Study advanced skills and interventions in Gottman Method Couple Therapy and Emotion Focused Couple Therapy. Prerequisite(s): MFT 5301, MFT 5302 and MFT 5351.

MFT 5372. Relationship Education. 3 Credit Hours. Study multiple approaches to providing relationship education directly to couples and provides students the opportunity to prepare presentations that could be delivered in real-world settings. Prerequisite(s): MFT 5301, MFT 5302 and MFT 5351.

MFT 5380. Addiction in Marriage and Family Therapy. 3 Credit Hours. Study systemic framework for understanding addictions and how they impact the family system. Prerequisite(s): MFT 5301 and MFT 5302.

MFT 5381. Adolescent in Family Therapy. 3 Credit Hours. Explore marriage and family therapy theories in relation to treatment of various disorders in adolescence. Study relational, systemic, and contextual factors that are considered in and behavioral health systems which treat adolescents. Prerequisite(s): MFT 5301, MFT 5302 and PSYC 5304.

MFT 5382. Delinquency in Marriage and Family Therapy. 3 Credit Hours. Study juvenile delinquency and adolescent substance use through systemic and contextual lens. Examine and compare MFT theories related to juvenile delinquency and adolescent substance use. Prerequisite(s): MFT 5301, MFT 5302, PSYC 5304 and MFT 5381.

MFT 5383. Marriage and Family Therapy Pre-Practicum. 3 Credit Hours. Study interviewing and training skills in the Marriage and Family Therapy program while preparing for field placement. Gain an understanding of Marriage and Family Therapists, how clients change and basic therapeutic strategies. Explore basic skills and tools necessary to become competent clinicians. Use role playing, videotapes, and video cameras as part of the learning process. Prerequisite(s): MFT 5301.
MFT 5391. Clinical Practicum I. 3 Credit Hours.
Gain experience in marriage and family therapy by providing therapy services in the on-campus clinic and additional approved practicum sites while under supervision of the Marriage and Family Therapy faculty. Demonstrate appropriate levels of competency, assessed through direct supervision, video supervision, as well as case conference, maintaining appropriate documentation of clinical work, and meeting clinical hours requirement as described in the departmental handbook. Prerequisite(s): MFT 5301, MFT 5307 and MFT 5383. Field experience fee - $75.

MFT 5392. Clinical Practicum II. 3 Credit Hours.
Gain experience in marriage and family therapy by providing therapy services in the on-campus clinic and additional approved practicum sites while under supervision of the Marriage and Family Therapy faculty. Demonstrate appropriate levels of competency, assessed through direct supervision, video supervision, as well as case conference, maintaining appropriate documentation of clinical work, and meeting clinical hours requirement as described in the departmental handbook. Prerequisite(s): MFT 5301, MFT 5307 and MFT 5383 and MFT 5391. Field experience fee - $75.

MFT 5393. Clinical Practicum III. 3 Credit Hours.
Gain experience in marriage and family therapy by providing therapy services in the on-campus clinic and additional approved practicum sites while under supervision of the Marriage and Family Therapy faculty. Demonstrate appropriate levels of competency, assessed through direct supervision, video supervision, as well as case conference, maintaining appropriate documentation of clinical work, and meeting clinical hours requirement as described in the departmental handbook. Prerequisite(s): MFT 5301, MFT 5307, MFT 5383, MFT 5391 and MFT 5392. Field experience fee - $75.

MFT 5394. Clinical Practicum IV. 3 Credit Hours.
Gain experience in marriage and family therapy by providing therapy services in the on-campus clinic and additional approved practicum sites while under supervision of the Marriage and Family Therapy faculty. Demonstrate appropriate levels of competency, assessed through direct supervision, video supervision, as well as case conference, maintaining appropriate documentation of clinical work, and meeting clinical hours requirement as described in the departmental handbook. Prerequisite(s): MFT 5301, MFT 5307, MFT 5383, MFT 5391, MFT 5392 and MFT 5393. Field experience fee - $75.

MFT 5397. Clinical Practicum V. 3 Credit Hours.
Gain experience in marriage and family therapy by providing therapy services in the on-campus clinic and additional approved practicum sites while under supervision of the Marriage and Family Therapy faculty. Demonstrate appropriate levels of competency, assessed through direct supervision, video supervision, as well as case conference, maintaining appropriate documentation of clinical work, and meeting clinical hours requirement as described in the departmental handbook. Prerequisite(s): MFT 5301, MFT 5307, MFT 5383, MFT 5391, MFT 5392, MFT 5393, and MFT 5394. Field experience fee - $75.

Mathematics (MATH)

MATH 3300. Principles of Statistics. 3 Credit Hours.
Data collection and analysis, elementary probability, discrete and continuous distributions, regression, correlation, estimation, and nonparametric methods. This course cannot be counted on a degree program for a mathematics major. Credit cannot be awarded for both MATH 3300 and MATH 3450. Prerequisite(s): MATH 1314.

MATH 3301. Number Theory. 3 Credit Hours.
The study of congruence relations, rational integers, diophantine equations, quadratic reciprocity law, linear forms, integral domains, and related topics. Prerequisite(s): 6 hours of MATH including MATH 2413.

MATH 3302. Principles of Geometry. 3 Credit Hours.
Euclidean geometry topics including logic, properties of parallel lines, triangles, quadrilaterals, circles, measurement, similarity, proportionality, and transformations. Technology will be incorporated where appropriate. Credit for both MATH 3302 and MATH 4302 will not be awarded. Prerequisite(s): MATH 2413.

MATH 3303. Concepts of Elementary Math I. 3 Credit Hours.
Problem solving, sets, functions, logic, elementary number theory, concepts of properties of whole numbers, rational numbers, integers, and real numbers. Designed for those planning to teach in elementary school. Prerequisite(s): MATH 1314 and Junior standing.

MATH 3305. Concepts of Elementary Math II. 3 Credit Hours.
Basic concepts in algebra, geometry, calculators and computers, metric system and measurement, and probability and statistics. Meets basic probability requirement for math majors, certifying teachers, and interdisciplinary studies. Prerequisite(s): MATH 3303.

MATH 3306. Differential Equations. 3 Credit Hours.
Solutions and applications of homogeneous and nonhomogeneous ordinary differential equations, including first-order equations and higher-order linear equations. Qualitative properties of solutions are investigated, as well as exact methods for solving differential equations and initial value problems including series, Laplace transform, separation of variables, variation of parameters, and undetermined coefficients. Prerequisite(s): MATH 2414.

MATH 3309. Algebraic Function. 3 Credit Hours.
Survey of elements from Algebra, Trigonometry, Geometry, Probability and Statistics, Finite Mathematics, and Calculus. The class places a strong emphasis on real-world applications and interpretation. Technology will be incorporated where appropriate.

MATH 3310. Discrete Mathematics. 3 Credit Hours.
Introduces students to the techniques and tools of reasoning, decision making, and combinational problem solving. Topics include sets and logic, combinations, probability, relations and functions, Boolean properties, and graph theory. Prerequisite(s): MATH 1314 or MATH 3309.

MATH 3311. Probability & Statistics I. 3 Credit Hours.
This course contains the fundamentals of probability theory and the basics of statistics. Topics include probability axioms, sampling distributions, descriptive statistics, finite random variables, infinite discrete random variables, continuous random variables, and the Central Limit Theorem. Prerequisite(s): MATH 2414 and MATH 3305 or an elementary probability course.

MATH 3315. Mathematics & Technology. 3 Credit Hours.
Use of current technologies related to creating interactive presentations/documents for math as well as use of current technologies related to mathematical analysis and state certification exams.

MATH 3332. Linear Algebra. 3 Credit Hours.
A study of the theory of real vector spaces and linear transformations. Topics include vector spaces, inner product, norm, distance, subspaces, spanning sets, linear dependence and independence, bases, dimension, linear systems, coordinates, linear transformations, kernel, image, isomorphisms, inverse linear transformations, matrix representations of linear transformations, similarity, direct sums, and canonical forms. Prerequisite(s): MATH 2414.
MATH 3350. Principles of Bio-Statistics. 3 Credit Hours.
An introduction to statistical methods that are applied in biology and agriculture. Use of technology and hands-on spreadsheet assignments are required in this course. Prerequisite(s): MATH 2413.

MATH 3360. Numerical Analysis I. 3 Credit Hours.
An introduction to numerical analysis. Topics are being selected from error analysis, solving algebraic equations, interpolation, numerical differentiation and integration, methods for solving systems of equations, approximation theory, and initial value problems of ordinary differential equations. Prerequisite(s): MATH 2414 and 3 hours of COSC.

MATH 3370. An Introduction to Linear Programming. 3 Credit Hours.
The topics will include Convexity, Extreme Points, Linear Programming for efficiency of mixtures, transportation, and other economic models. Basic analysis of the simplex method and duality will be used to solve such problems and to determine the long-term usefulness of models.

MATH 3375. An introduction to Partial Differential Equations. 3 Credit Hours.
The topics will include advanced vector calculus, the heat and wave equations, separation of variables, Fourier Transforms, convolution, and geometric analysis. Prerequisite(s): MATH 2414 and PHYS 2425.

MATH 3433. Calculus III. 4 Credit Hours.
The calculus of two dimensional vectors, parametric equations, cylindrical and spherical coordinates, multivariable differential calculus, directional derivatives and their applications, multiple integration, vector analysis, line and surface integrals, Green's Theorem, Stokes' Theorem. Use of computer technology and laboratory assignments will be required in this course. Prerequisite(s): MATH 2414.

MATH 4302. College Geometry. 3 Credit Hours.
Euclidean geometry topics including logic, properties of parallel lines, triangles, quadrilaterals, circles, measurement, similarity, proportionality, and transformations. Additional topics include projective and non-Euclidean geometry. Technology is incorporated where appropriate. Substitutes for MATH 3302 for 4-8 certifying students. Prerequisite(s): MATH 2413.

MATH 4304. Survey of Mathematical Ideas. 3 Credit Hours.
This course is designed to bring together and supplement the technical material of other mathematics courses to communicate mathematics effectively. Topics in algebra, trigonometry, geometry, statistics, and discrete mathematics will be explored. Technology will be used where appropriate. Prerequisite(s): MATH 2413 and either MATH 3302 or MATH 4302 or concurrent registration.

MATH 4304L. Survey of Mathematical Ideas Lab. 1 Credit Hour.
This lab is required for all math majors and must be taken with MATH 4304. This lab addresses and prepares students for content on the state certification exam and will reflect current state requirements for the mathematics state examinations for grade levels 7-12. All other majors requiring MATH 4304 will continue to take base course, but will not take this lab. Prerequisites: MATH 2413 and either MATH 3302 or MATH 4302 or concurrent registration and Senior Standing.

MATH 4305. Concepts of Elem Math III. 3 Credit Hours.
This course is designed to develop and extend the mathematical content knowledge of prospective middle school teachers. Topics include the development of algebraic reasoning through the use of patterns, relations, and functions with an emphasis on multiple representations (numerical, graphical, verbal, and/or symbolic). Technology is being integrated into the curriculum where appropriate. Prerequisite(s): MATH 3305 for EC-6 and 4-8 Mathematics majors; MATH 2413 for all other students.

MATH 4309. Advanced Analysis I. 3 Credit Hours.
(WI) A study of the theory of the calculus of functions of a single variable. Topics include the topology of the real line, functions, sequences and their limits, continuity, differentiation, and integration. Prerequisite(s): MATH 2414.

MATH 4311. Probability & Statistics II. 3 Credit Hours.
Continuation of MATH 3311 with focus on statistical inference. Topics include the Central Limit Theorem, sampling distributions, confidence intervals, hypothesis testing, inferences based on two samples, and an introduction to ANOVA. Prerequisite(s): MATH 3311.

MATH 4320. Mathematical Modeling. 3 Credit Hours.
An advanced introduction to models related to applied sciences. Topics include applications of linear programming, scheduling, graph theory, and game theory. Prerequisite(s): MATH 2414 and 6 hours of advanced mathematics or pre-calculus.

MATH 4332. Abstract Algebra. 3 Credit Hours.
(WI) An introduction to abstract algebraic structures, including groups, rings, ideals, polynomial rings, and applications. Prerequisite(s): MATH 3352.

MATH 4380. Undergraduate Research Project. 1-3 Credit Hours.
Methods of research in the mathematical sciences or in mathematics education through a research project directed by a departmental faculty member. The student is required to prepare a final report and presentation. No credit is earned until the student has enrolled in at least 3 credit hours, and the final report and presentation are certified as completed by the faculty member directing the project, at which time the student will receive 3 credit hours. Prerequisite(s): Mathematics major, senior standing, and 24 semester hours of MATH courses and permission of department chair.

MATH 4389. Special Topics in Math. 3 Credit Hours.
Topics are being selected from areas of mathematics suitable for upper level study. This course may be repeated once with permission of department chair, as topics change. Prerequisite(s): MATH 2414 and 6 hours of advanced MATH.

MATH 4488. Mathematic Problems. 1-4 Credit Hours.
Special problems in mathematics. Not covered by any course in the curriculum. Work may be either theory or laboratory. May be repeated with permission of department chair for additional credit when fewer than four credits have been earned. Prerequisite(s): Permission of department chair.

MATH 5090. Comprehensive Examination. 0 Credit Hours.
Non-thesis students should register for the comprehensive examination during their final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis student do not take this examination.

MATH 5198. Thesis. 1-6 Credit Hours.
Scheduled when the student's committee chair determines the student is ready to begin the thesis. No credit is earned until the student has enrolled in at least 6 credit hours of thesis and the thesis is certified as completed by the student's committee, at which time the student will be awarded 6 credit hours of thesis.

MATH 5301. Nonparametric Statistics. 3 Credit Hours.
Introduction to nonparametric statistics. Topics will include hypothesis testing, contingency tables, rank tests, and goodness-of-fit tests. Prerequisite(s): MATH 3300 or MATH 3311 or MATH 3450 or MATH 5305.
MATH 5302. Financial Mathematics I. 3 Credit Hours.
A thorough review of the mathematics related to calculating present and accumulated values for various streams of cash flows, with applications to: reserving, valuation, pricing, asset/liability management, investment income, capital budgeting, and valuing contingent cash flows. This class (together with Financial Mathematics 2) is intended to provide sufficient background for the student to succeed in passing the Actuarial FM exam.

MATH 5305. Probability & Statistics. 3 Credit Hours.
Topics will be selected from: distributions and stochastic processes, parametric and nonparametric statistics, and time series analysis. Prerequisite(s): MATH 3311.

MATH 5306. Dynamical Systems. 3 Credit Hours.
Advanced study of dynamical systems. Topics will be selected from discrete and continuous dynamical systems, sensitivity analysis, models of the physical, life, and social sciences, and bifurcation analysis. Prerequisite(s): MATH 3306 and MATH 3332.

MATH 5308. Abstract Algebra. 3 Credit Hours.
Topics will be selected from: groups, homomorphism, isomorphism, direct products and sums, invariant properties, rings, and fields. Prerequisite(s): MATH 4332.

MATH 5309. Complex Variables. 3 Credit Hours.
An introduction to complex analysis. Topics will be selected from elementary operations and analytic functions, curves and integrals, power series, Cauchy's theorem, zeroes and singularities of analytic functions, Laurent series, maximum principle, analytic continuation, harmonic functions, conformal mapping and transformations. Prerequisite(s): MATH 3433.

MATH 5311. Operations Research. 3 Credit Hours.
This course examines the theoretical support and applications of the simplex algorithm for linear programming and for dynamic programming. Transportation and scheduling problems are among the applications to be emphasized. Prerequisite(s): MATH 3332.

MATH 5312. Design of Experiments. 3 Credit Hours.
Students will learn about planning and conducting an experiment. Data analysis using appropriate software is covered. Prerequisite(s): MATH 5305 or permission of department chair.

MATH 5315. Operations Research II. 3 Credit Hours.
Selected topics in Operations Research, chosen from among the following: Search, Selection and Optimization Techniques; System Modeling; Network Analysis; Inventory and Production Modeling; Sequencing and Scheduling; Decision Theory; Queuing Theory; Simulation and Monte Carlo Techniques; and Markov Chains.

MATH 5320. Real Analysis. 3 Credit Hours.
Topics will be chosen from: sets and operators; cardinal numbers and ordinal types; metric spaces and Lebesgue measure; metric properties of sets; differentiation and integration. Prerequisite(s): MATH 4309.

MATH 5325. Real Analysis II. 3 Credit Hours.
Completeness properties of the real number system. Topology of the real line. Introduction to Lebesgue measure and integral. Convergence of sequences.

MATH 5330. Mathematical Modeling. 3 Credit Hours.
An advanced course in mathematical modeling. Topics will be selected from scaling, dimensional analysis, regular and singular perturbation theory, stability theory, and asymptotic analysis. Prerequisite(s): MATH 3306 and MATH 3332.

MATH 5335. Statistics II. 3 Credit Hours.
This is an advanced course in probability distributions, joining distributions, covariance and problems related to the actuary field. Prerequisite(s): MATH 5305.

MATH 5340. Topology. 3 Credit Hours.
An introduction to point set topology. Topics will include open and closed sets, interior, closure, boundary, neighborhoods, continuous functions, separation and subspaces. Additional topics will be selected from compactness, connectedness and continua. Prerequisite(s): MATH 4309.

MATH 5345. Financial Mathematics II. 3 Credit Hours.
A mathematical introduction to financial instruments, including derivatives, and the concept of no-arbitrage as it relates to financial mathematics. This class (together with Financial Mathematics 1) is intended to provide sufficient background for the student to succeed in passing the Actuarial FM exam.

MATH 5350. Applied Linear Algebra. 3 Credit Hours.
An advanced course in linear algebra. Topics to be selected from linear spaces and operators, canonical forms, quadratic forms and optimization, computation and condition, and compatible systems. Prerequisite(s): MATH 3332.

MATH 5360. Numerical Analysis. 3 Credit Hours.
An advanced study of numerical analysis. Topics will be selected from linear systems, approximation theory, numerical differential and integral equations, integration theory. Prerequisite(s): MATH 4309 and MATH 3360 or 6 hours of COSC.

MATH 5375. Statistical Reasoning and Probability. 3 Credit Hours.
Topics in applied statistics including ANOVA, experimental design, single and multiple linear regression, hypothesis testing of linear models, forecast errors and confidence intervals. Prerequisite(s): MATH 3311 or equivalent.

MATH 5376. Topics in Secondary Math. 3 Credit Hours.
This course applies the standards of the National Council of Teachers of Mathematics to the curriculum of secondary mathematics. It explores techniques to implement the standards through the use of manipulatives, graphing handhelds, and computer technology. Prerequisite(s): 24 hours of MATH, including MATH 2413.

MATH 5378. Technology-Aided Mathematics. 3 Credit Hours.
Students will engage in mathematical problem-solving using technological tools. Technologies may include graphing handhelds, data collection devices, computer software packages, and internet resources. This course may be repeated for credit as the topic changes. Prerequisite(s): 24 hours of MATH, including MATH 120.

MATH 5379. Topics In Mathematics Theory. 3 Credit Hours.
An examination of topics in mathematical theory appropriate for secondary mathematics educators. Topics will be selected from geometry and topology, number theory, modern algebra, and library research in mathematics. This course may be repeated for credit as the topic changes. Prerequisite(s): Permission of department chair.

MATH 5380. Selected Topics in Mathematics. 3 Credit Hours.
An examination of topics in applied mathematics. Topics for study will be selected from advanced mathematical modeling, advanced numerical techniques, practical optimizations, calculus of variations, dynamic programming, integral equations, optimal control, perturbation methods, and library research in applied mathematics. This course may be repeated for credit as the topic changes. Prerequisite(s): Permission of department chair.
MATH 5381. Research Analysis. 1 Credit Hour.
An overview of the components of research in the main areas of mathematics. These areas will include pure mathematics and statistics, applied mathematics and statistics, and mathematics education. The course will culminate with a study of what is a proper literary review and how to submit an article for publication. Prerequisite(s): Graduate standing in the mathematics department or permission of department chair.

MATH 5389. Advanced Special Problems. 1-3 Credit Hours.
Special problems in mathematics. Work may be either theory or laboratory. May be repeated with permission of the department chair for additional credit when fewer than four credits have been earned. Prerequisite(s): Permission of department chair.

Mechanical Engineering Technology (ENGT)

ENGT 3213. Thermal Fluids Lab. 2 Credit Hours.
Thermal Fluids Lab This course introduces students to practical applications of fluid properties, fluid statics, fluid dynamics, and kinematics. Conservation of energy and momentum as well as incompressible laminar and turbulent flow are also utilized in experiments. Corequisite(s): ENGT 3312.

ENGT 3302. Manufacturing Processes. 3 Credit Hours.
Introduction to metal and non-metallic manufacturing processes including casting, forging, rolling, extrusion, sheet metal forming, cutting tools turning and milling operations, abrasive machining, welding and joining powder compaction, molding, forming of plastics, and surface treatments. Prerequisite(s): ENGT 3415 (Co-requisites), CTC ENGR 2302 or equivalent.

ENGT 3305. Computer Aided Problem Solving. 3 Credit Hours.
This course introduces concepts for solving problems numerically using computers. Students will learn to solve engineering problems using spreadsheet methods, mathematical programs, and basic programming. Prerequisite(s): CTC MATH 2314 or equivalent.

ENGT 3306. Engineering Ethics. 3 Credit Hours.
This course discusses the ethical considerations and value judgments related to the design, manufacturing, and management of mechanical systems and engineering technology decisions. Students will focus on engineering codes of ethics, safety, and environmental responsibility.

ENGT 3310. Applied Thermodynamics. 3 Credit Hours.
This course introduces the theory and application of the laws of thermodynamics in engineering technology. Application of theory will focus on heat engines, heat pumps, refrigeration cycles, and power cycles commonly used in mechanical systems. Prerequisite(s): CTC CHEM 1411 or equivalent; CTC PHYS 2425 or equivalent.

ENGT 3311. Fluid Mechanics. 3 Credit Hours.
An introduction to fluid properties, fluid statics and dynamics; conservation of energy and momentum; and incompressible, laminar, viscous, and turbulent flow. Students will learn various problem solving techniques including similarity and dimensional analysis. Prerequisite(s): CTC ENGR 2302 or equivalent.

ENGT 3312. Manufacturing Processes. 3 Credit Hours.
The theory and application of heat transfer in engineering applications will be studied. Topics include steady and unsteady conduction in one- and two-dimensions, forced convection, internal and external flows, heat exchangers, radiation, and elements of thermal system design. Prerequisite(s): ENGT 3310, ENGT 3311. Corequisite: ENGT 3213.

ENGT 3320. Quality Control Technology. 3 Credit Hours.
Quality Control This course covers the statistical analysis of data to establish quality control systems for manufacturing facilities. Prerequisite(s): ENGT 3302.

ENGT 3415. Material Science. 4 Credit Hours.
Study of the structure and properties of metallic and nonmetallic materials. This course covers material microstructure; phase diagrams; thermal, optical, electrical properties; testing and failure analysis; and corrosion. Prerequisite(s): CTC ENGR 2332 or equivalent.

ENGT 4307. Engineering Economics. 3 Credit Hours.
This course emphasizes the systematic evaluation of the costs and benefits associated with proposed technical projects. The student will be exposed to the concepts of the time value of money and the methods of discounted cash flow. Students are prepared to make decisions regarding money as capital within a technological or engineering environment. Prerequisite(s): ENGT 3306.

ENGT 4325. Senior Design A. 3 Credit Hours.
Students will complete a design process starting with topic research through conceptualization and generation of final design and documents. The design process begun in this course will be further developed and implemented in Senior Design B. Prerequisite(s): Senior classification.

ENGT 4326. Senior Design B. 3 Credit Hours.
This course is the final formulation, construction, and fabrication of a senior design project started in Senior Design A. Students will analyze results as well as prepare and submit design documents including a project report. Prerequisite(s): ENGT 4325.

ENGT 4421. Solid Modeling. 4 Credit Hours.
A study of the development and application of solid models of components and assemblies. The course covers the use of solid models in problems related to component design, stress analysis, fluid flow, heat transfer, machine dynamics, and assembly interference. Students will produce engineering drawings, visual representations, and data files for machining and rapid prototyping. Prerequisite(s): ENGT 3302.

ENGT 4422. Electrical Power and Controls. 4 Credit Hours.
Fundamentals of electrical and electronic power, controls, and instrumentation for Mechanical Engineering Technology students. This course covers the electric machines and control, Sensors and actuators, interfacing to PLC and PC, Feedback control theory and implementation, and automated data collection. Prerequisite(s): CTC MATH 2415 or equivalent.

Military Science (MILS)

MILS 3301. Training Mgmt & Warfight Funct. 3 Credit Hours.
This course is designed to enable a student with no prior military or cadet experience to quickly learn essential cadet knowledge and skills. The course introduces the principles of physical fitness, healthy lifestyles and the Leader Development Program that will be used to evaluate leadership performance and provides cadets with developmental feedback, used throughout the year. Cadets learn how to plan and conduct individual and small unit training, as well as basic tactical principles. The course conducts a four-week study of reasoning skills and the military-specified application of these skills in the form of the Army’s troop leading procedures. The final four weeks examines officer ship. This course serves as the first and primary course of the ROTC Advanced Courses.
MILS 3302. Leadership in Small Unit Ops. 3 Credit Hours.
This course is designed to continue the development of cadets as leaders by presenting instructions in the areas of leadership, interpersonal communications, values and ethics. The leadership module expands on key leadership concepts and provides feedback for cadet leadership self-development efforts. Interpersonal communications lessons address general communication theory as well as written and spoken communication skills. The highlight of the communication module is the opportunity for cadets to present an information briefing and receive feedback from both instructor and fellow students.

MILS 4301. The Army Officer. 3 Credit Hours.
This course concentrates on Army operations and training management, communications and leadership skills and supports the beginning of the final transition from cadet to lieutenant. The course enables cadets to attain knowledge and proficiency in several critical areas needed to operate effectively as an Army officer. These subjects have the added benefit of preparing cadets to lead the cadet battalion throughout the remainder of the year. At the end of this semester, cadets possess the fundamental skills, attributes, and abilities required to operate as competent leaders in the cadet battalion.

MILS 4302. Company Grade Leadership. 3 Credit Hours.
The final semester course of the M S IV year trains cadets on Military Law, task organizations, maintenance, supply management, and physical training. Cadets conduct a Capstone Practical Exercise, assuming leadership roles as a lieutenant entering a new unit. The course is designed to prepare transition and groom senior cadets to become Army Officers.

MILS 4305. Intro to Cross Cultural Learn. 3 Credit Hours.
The course enables students to contribute to a local society beyond the University setting. This course is a series of cultural immersion trips sponsored by the US Army Cadet Command over a 29 day period, usually during the summer semester. Prerequisite(s): ROTC cadets accepted into the ROTC program, MILS 3301 and MILS 3302.

MILS 4389. Special Topics. 1-6 Credit Hours.
A course open to Military Science students. Topics vary according to student need. May be repeated for a maximum of 6 hours. Open to students of junior or senior standing. Prerequisite(s): Permission of department chair.

Music (MUSI)

MUSI 3129. Intermediate & Advanced Band Repertoire. 1 Credit Hour.
This course focuses increasing knowledge and awareness of the importance of selecting appropriate concert band literature for the contest and concert stage. In addition there will be an emphasis on improving the skills needed to plan, conduct and rehearse instrumental ensembles of a variety of levels.

MUSI 3130. Intermediate & Advanced Orchestra Repertoire. 1 Credit Hour.
This course focuses increasing knowledge and awareness of the importance of selecting appropriate concert orchestra literature for the contest and concert stage. In addition there will be an emphasis on improving the skills needed to plan, conduct and rehearse instrumental ensembles of a variety of levels.

MUSI 3134. Brass Class. 1 Credit Hour.
This course focuses on the basics of musical performance with special attention to rhythm, tone quality, range, musical phrasing, intonation and style, from different stylistic periods, in a variety of key signatures and meter signatures.

MUSI 3135. Vocal Class (Instrumental Majors). 1 Credit Hour.
This course serves an introduction to singing for instrumentalists who need a pedagogical knowledge for future work with singers or choirs. Instruction will include work on anatomy of the voice, breathing, posture, resonance, diction, repertoire and vocal health. In addition to accessing voices for choral and/or private lesson for singing students.

MUSI 3137. Percussion. 1 Credit Hour.
This course is designed to facilitate the development of skills, techniques, understandings, and professional dispositions which are necessary for choral leadership. This course is designed to prepare prospective choral leaders, public school or secular group, in both musical and non-musical aspects of being a choral teacher.

MUSI 3138. String Class. 1 Credit Hour.
This course is designed to facilitate the development of skills, techniques, understandings, and professional dispositions which are necessary for teaching others to play stringed instruments.

MUSI 3161. Diction for Singers. 1 Credit Hour.
This class will study the proper pronunciations for lyrics of English, Italian, German, and French musical literature. The student is expected to effectively apply these guidelines in their own speech and singing.

MUSI 3162. Opera Workshop. 1 Credit Hour.
This focuses on the organization and staging of standard operas and operettas. May be repeated. Fall (opera), spring (musical).

MUSI 3259. Choral Repertoire. 2 Credit Hours.
This course focuses on the analysis of tonality, harmony and form in European music of the 18th and 19th centuries. Includes aural recognition of forms.

MUSI 3263. Form & Analysis. 2 Credit Hours.
Analysis of tonality, harmony and form in European music of the 18th and 19th centuries. Includes aural recognition of forms. Prerequisite(s): MUSI 2115, MUSI 2117 and MUSI 2312.

MUSI 3264. Orchestration. 2 Credit Hours.
This course covers the fundamentals of instrumentation and arranging music for instruments and vocalists in a variety of musical performance settings.

MUSI 3313. Music Appreciation. 3 Credit Hours.
This course provides opportunities to become familiar with the basic elements of music. Emphasis is on learning to listen to music and on the role it plays within the wider contexts of history and society. Listening materials are drawn from a variety of sources: classical music, non-Western music, American popular music (particularly jazz, country, and rock), and the American folk tradition.

MUSI 3324. Popular Music in America. 3 Credit Hours.
An introductory study of popular music in the U.S., emphasizing development and application of analytic skills oriented toward the popular arts. Concert attendance and listening requirements.

MUSI 3343. Computer Assisted Electronic Music. 3 Credit Hours.
This course focuses on the use of microcomputers in generation and control of electronic music. Study of one or more commonly available microcomputer programs for MIDI application. Includes technology for music teachers.
MUSI 4095. Senior Recital. 0 Credit Hours. 
Senior Recital is a course in which the student prepares for and performs in their senior recital.

MUSI 4098. Senior Recital. 0 Credit Hours. 
Senior Recital is a course in which the student prepares for and performs in their senior recital.

MUSI 4105. Beginning Conducting. 1 Credit Hour. 
This class is an introduction to basic conducting skills with an emphasis on the art and study of conducting, baton technique, left hand technique, non-verbal communication, leadership, conducting terminology, transpositions and score reading.

MUSI 4207. Advanced Conducting. 2 Credit Hours. 
This class is focused on advanced conducting skills.

MUSI 4312. Vocal Pedagogy. 3 Credit Hours. 
This course focuses on the physical aspects of the vocal mechanism, anatomy, breathing, resonance, phonation, articulation and various techniques used in identifying vocal problems and pedagogical issues for a singer as a choral director and voice teacher.

MUSI 4326. Elementary Music Methods. 3 Credit Hours. 
This course is designed to facilitate the development of skills, techniques, understandings, and professional dispositions which are necessary for elementary music educators. This course is designed to prepare prospective elementary music educators, public school or secular group, in both musical and non-musical aspects of being a music educator.

MUSI 4327. Instrumental & Marching Methods. 3 Credit Hours. 
This course focuses on teaching and procedural methods required to produce a quality marching band and instrumental program.

MUSI 4328. Sec Orchestra & Guitar Methods. 3 Credit Hours. 
This course focuses on teaching and procedural methods required to produce a quality orchestra program.

MUSI 4388. Problems. 1-6 Credit Hours. 
A directed study of selected problems in music.

Music - Applied (MUAP)

MUAP 3269. Private Lesson Instruction V. 2 Credit Hours. 
This course is designed to provide individualized instruction in solo technique and repertoire for the musical performer. Prerequisite: 4 semesters of private instruction.

MUAP 3270. Private Lesson Instruction VI. 2 Credit Hours. 
This course is designed to provide individualized instruction in solo technique and repertoire for the musical performer. Prerequisite: 5 semesters of private instruction.

MUAP 4269. Private Lesson Instruction VII. 2 Credit Hours. 
This course is designed to provide individualized instruction in solo technique and repertoire for the musical performer. Prerequisite: 6 hours of private instruction.

MUAP 4270. Private Lesson Instruction VIII. 2 Credit Hours. 
This course is designed to provide individualized instruction in solo technique and repertoire for the musical performer. Prerequisite: 7 semesters of private instruction; Corequisite: MUSI 4098 (Senior Recital) required.

Music Ensemble (MUEN)

MUEN 3121. Symphonic Band. 1 Credit Hour. 
Rehearsal and performance of quality concert band literature from a variety of styles. Open to any student by audition only.

MUEN 3123. Orchestra. 1 Credit Hour. 
Rehearsal and performance of quality orchestral literature from a variety of styles. Open to any student by audition only.

MUEN 3124. Jazz Ensemble. 1 Credit Hour. 
Rehearsal and performance of quality jazz ensemble literature from a variety of styles. Open to any student by audition only.

MUEN 3142. Chorale. 1 Credit Hour. 
Designed to give participants a challenging, styled choral experience. Performs a wide variety of literature, emphasizing the more difficult choral works. Open to any student by audition.

Nursing (NURS)

NURS 3300. Professional Role Transitions. 3 Credit Hours. 
(WI) Nursing is defined, especially as it relates to promotion and restoration of health. Roles of the nurse are explored. Professional nursing is examined from historical and contemporary perspectives, including the philosophy and theoretical foundations that define professional nursing practice. Students will examine personal, professional and cultural values as influences upon nursing practice. The process of critical thinking and the use of nursing informatics is examined from multiple perspectives. Prerequisite(s): ENGL 1301 and admission into the nursing program.

NURS 3304. Nursing Research. 3 Credit Hours. 
(WI) This course is a study of basic research methodologies and an examination of the professional nurse's role in evidence-based practice. Students employ high level critical thinking and informatics skills to explore, identify, and critically appraise the credibility of Internet sources and library electronic databases to gather relevant evidence across professions that answer questions about nursing practice. Through this examination, students increase their awareness of the impact of culture and ethics on the research process and evidence-based practice. Prerequisite(s): MATH 1342 Elementary Statistics. Pre or Co-requisite NURS 3300.

NURS 3307. Health Assessment. 3 Credit Hours. 
In this course, the concepts and principles underlying the assessment of the health status of culturally diverse individuals are presented. Emphasis is placed on reviewing and renewing cognitive, affective, and psychomotor skills to obtain health histories and discover physical and psychosocial findings in the well person. Emphasis is placed on health assessment as a systematic and organized examination that will provide accurate data to form valid nursing diagnoses and plans of care. Practicum experiences allow students to enhance comprehensive health assessment and analysis skills. Prerequisite(s) or Corequisite(s): NURS 3300.

NURS 3317. Pathophysiology for the Registered Nurse. 3 Credit Hours. 
The focus of this course is to understand the pathophysiological basis for disease processes in adults and children. Central concepts will address symptoms, treatment, and prognosis. The major direction of this course will be on clinical application of findings that underlie pathogenesis and provide a basis for evidence-based practice. The course is specifically designed to meet the needs of nursing students. Prerequisite(s) or Corequisite(s): NURS 3300.
NURS 3330. Nursing Care of Older Adults. 3 Credit Hours.
In this course the aging process will be examined with a focus on risk reduction and disease prevention in the older adult. The concept of healthy aging will be explored. Strategies for health promotion, restoration, and maintenance of the older adult will be examined. Expected professional nurse competencies in providing and directing culturally sensitive care of the older adult across the wellness/illness continuum will be emphasized. Prerequisite(s): NURS 3307.

NURS 4212. Professional Issues for the Registered Nurse. 2 Credit Hours.
This course provides opportunities for analysis of elements that reflect the progressive development of the role of the professional nurse. It formalizes a framework that integrates the issues of political action, socio-legal concerns, multiculturalism, and ethical models into nursing practice through the debate process. Prerequisite(s): NURS 3300 and GOVT 2305 and GOVT 2306.

NURS 4220. Professional Topics in Nursing. 2 Credit Hours.
This course is designed to promote nationally recognized nursing specialty certification exam. After developing a plan of study approved by the nursing program director, the student will conduct an independent study in the field of nursing specialty certification under the direction of a faculty member. Evidence of exam completion will be required for credit to be awarded. Specialty certification must be in an area recognized by a national certifying body such as the the National Commission for Certifying Agencies and the Accreditation Board for Specialty Nursing Certification. Prerequisite(s): NURS 3300.

NURS 4405. Care of Individuals and Families. 4 Credit Hours.
This course emphasizes the importance of the professional nurse’s engagement in ethical and evidence-based practice. Students examine nursing care management concepts as they apply critical thinking skills to integrate the concepts of pathophysiology, pharmacology, psychosocial behavior, and cultural competence to coordinate quality and safe care in a variety of settings. Students experience the nurse educator role as they employ teaching and learning principles and nursing informatics to initiate interventions with individuals and families that highlight health promotion activities. Practicum experiences are individualized. Prerequisite(s): NURS 3300 and SOCI 1301.

NURS 4410. Leadership and Management for the Registered Nurse. 4 Credit Hours.
In this course, theories and principles of human behavior in organizations are examined, including an exploration of leadership roles in professional nursing practice. Students analyze concepts that reflect the progressive development of the nurse leader who applies critical thinking and information technology skills to evidence-based practice. The role of the nurse leader as an inter-professional team member is also examined. The importance of the nurse leader as a role model for continued professional growth through lifelong learning is emphasized. Issues related to political action, socio-legal concerns, cultural diversity, and ethics in professional nursing practice are explored with an emphasis on the advocacy role of the nurse. Practicum experiences are individualized. Prerequisite(s): NURS 3300 and any lower level speech course.

NURS 4506. Community Health. 5 Credit Hours.
In this course, students are introduced to public/community health nursing practice and the role of systems in the care of culturally diverse populations. The role of the professional nurse as part of an inter-professional team in health promotion, disease prevention, and management of chronic health problems in community settings is explored. Students apply critical thinking and information technology skills to develop and implement evidence-based projects that positively impact the quality of life of identified populations. Practicum experiences are individualized. Prerequisite(s): NURS 3300 and NURS 4405.

Physics (PHYS)

PHYS 3331. Mechanics. 3 Credit Hours.
Particle dynamics in one, two, and three dimensions; conservation laws; dynamics of a system of particles; motion of rigid bodies; central force problems. Prerequisite(s): MATH 3306 and MATH 3433; or concurrent registration.

PHYS 3332. Electromagnetic Field Theory. 3 Credit Hours.
Electrostatics; Laplace’s equation; the theory of dielectrics; magnetostatic fields; electromagnetic induction; magnetic fields of currents; Maxwell’s equations. Prerequisite(s): PHYS 2426 and MATH 3306 or concurrent registration; MATH 3433 or concurrent registration.

PHYS 3333. Thermodynamics. 3 Credit Hours.
Concept of temperature, equations of state; the first and the second law of thermodynamics; entropy; change of phase; the thermodynamics functions. Prerequisite(s): PHYS 2426; MATH 3433 or concurrent registration.

PHYS 3334. Modern Physics. 3 Credit Hours.
Foundations of the atomic theory of matter; kinetic theory; elementary particles; radiations; atomic model; atomic structure; atomic spectra and energy levels; quantum theory of radiation; x-rays; special theory of relativity. Prerequisite(s): PHYS 2426 and MATH 3433, or MATH 3306 or concurrent registration.

PHYS 3350. Medical Physics I. 3 Credit Hours.
The course will provide an introduction to the physics of human physiological processes as well as the physics used in the design of medical diagnostic tools and techniques. Prerequisite(s): PHYS 2426 or consent of the instructor.

PHYS 4170. Undergraduate Research Project. 1-2 Credit Hours.
Methods of research in physics or in physics education through a research project directed by a departmental faculty member. The student is required to prepare a final report and presentation. No credit is earned until the student has enrolled in at least 2 credit hours and the final report and presentation are certified as completed by the faculty member directing the project, at which time the student will receive 2 credit hours. Prerequisite(s): junior standing and 14 semester hours of PHYS.

PHYS 4330. Mathematical Methods of Phys. 3 Credit Hours.
Mathematical techniques from the following areas: infinite series; integral transforming; applications of complex variables; vectors, matrices, and tensors; special functions; partial differential equations; Green’s functions; perturbation theory; integral equations; calculus of variations; and groups and group representatives. Prerequisite(s): MATH 3306 and MATH 3433.

PHYS 4335. Quantum Physics. 3 Credit Hours.
The Schrödinger equation; one dimensional systems; the Heisenberg uncertainty principle; magnetic moments and angular momentum; two and three dimensional systems; approximation methods; scattering theory. Prerequisite(s): PHYS 3334 and MATH 3306.
Political Science (POLI)

POLI 3301. Political Economy of Globalization. 3 Credit Hours.
Examine the demographic, technological, and economic forces that have come together to shape a more culturally, economically, and politically integrated world, and the hard political and economic choices that must be made in competitive environments.

POLI 3302. Elections and Political Parties. 3 Credit Hours.
Study electoral process in American national, state, and local political systems. Special emphasis on the evolution of the structure and functions of political parties, and other participants in the electoral process.

POLI 3303. Comparative State and Local Government. 3 Credit Hours.
Explore variations and similarities in the practice of politics and in the administration of government in the states. Special emphasis on local government and state-national relations. Prerequisite(s): GOVT 2305, GOVT 2306.

POLI 3304. The Executive Branch. 3 Credit Hours.
Examine the organization of executive power in the United States national, state, and local government systems. Evolution of the structure and functions of the Presidency, national, state and local bureaucracies, the role of parties, legislatures, courts, and interest groups are analyzed as participants in the executive process. Prerequisite(s): GOVT 2305.

POLI 3305. Legislation. 3 Credit Hours.
Examine the legislative process in American national, state, and local political systems. Analyze the evolution of the structure and functions of the Congress and the state legislatures, and the role of executives, courts, parties, interest groups, and other participants in the legislative process. Prerequisite(s): GOVT 2305.

POLI 3306. Political Economy. 3 Credit Hours.
Explore the historical, philosophical, and theoretical relationships between the state and the economy. Prerequisite(s): None.

POLI 3307. Public Administration. 3 Credit Hours.
Examine the concepts and practices of American public administration. Prerequisite(s): GOVT 2305.

POLI 3308. International Politics. 3 Credit Hours.
(WI) Explore the development of the national state system, the problems and issues which have arisen, international agencies created to cope with these problems, and the principles of international conduct.

POLI 3310. Environmental Politics. 3 Credit Hours.
Examine the politics of environmental protection in America. Special emphasis on domestic environmental policy and the effects of federalism in shaping and implementing environmental policies. Prerequisite(s): GOVT 2305.

POLI 3320. Terrorism and Political Violence. 3 Credit Hours.
Examine the causes of terrorism and other forms of political violence, with special emphasis on measures of prevention and counter-terrorism.

POLI 3330. Understanding Social Science Research. 3 Credit Hours.
(WI) Develop skills in political science research, with emphasis on hypothesis testing, measurement, formal modeling, and statistical analysis. Statistical concepts covered include central tendencies and statistical distributions, regression, and maximum likelihood estimation.

POLI 3350. Politics and Propaganda in Film. 3 Credit Hours.
(WI) This course explores the political uses of film, with a particular focus on the uses of the documentary style to influence public opinion. Topics covered include government-sponsored and privately-produced propaganda, the role of film in broader propaganda or political campaigns, and the ethical uses of film in the context of politics.

POLI 3355. Religion and Politics. 3 Credit Hours.
Explore the historic development of church-state relations in the United States, the evolution of church-state constitutional law, and the impact of this history and law on the current political environment. Special emphasis on the role played by religion in political campaigns, local politics, and interest group activities.

POLI 4302. Constitutional Law II. 3 Credit Hours.
Examine the origin and development of constitutional prohibitions as shown by leading US Supreme Court decisions on civil rights, contracts, due process, economic regulation, eminent domain, labor relations, obscenity, political utterance, and religion. Prerequisite(s): GOVT 2305.

POLI 4303. Political Theory through 1789. 3 Credit Hours.
Philosophical ideas concerning basic political problems from the Greeks to 1789. Prerequisite(s): GOVT 2305, GOVT 2306.

POLI 4304. Political Theory Since 1789. 3 Credit Hours.
Philosophical ideas concerning basic political problems since 1789. Prerequisite(s): GOVT 2305, GOVT 2306.

POLI 4305. Comparative Government and Politics. 3 Credit Hours.
Examine the relationship of government and politics of the major world powers, including topics from Asia, Africa, Europe, and the Americas.

POLI 4310. Environmental Policy. 3 Credit Hours.
Examine the politics of environmental protection worldwide. Special emphasis on international environmental policy and agreements and treaties made by nations to shape and implement environmental policy. Prerequisite(s): GOVT 2305.

POLI 4315. Foreign Policy. 3 Credit Hours.
Study America's role in the modern world. Particular emphasis is placed on the policy makers, and on external and internal factors which affect decision making.

POLI 4316. Conflict Studies. 3 Credit Hours.
Study the causes of international and civil conflict, historical changes in the nature of war, and predictions of future conflicts.

POLI 4317. Peace Studies. 3 Credit Hours.
Explore the causes of peace, covering bargaining and war termination, social conflict resolution, international cooperation, and the ethics of peace.

POLI 4320. Weapons of Mass Destruction. 3 Credit Hours.
Examine the physical and political effects of chemical, biological, and nuclear weapons, with emphasis on issues of deterrence and arms control.

POLI 4321. Civil Wars and Military Intervention. 3 Credit Hours.
Examine the causes, characteristics, and effects of civil wars, with particular emphasis on preventing the resumption of warfare after peace agreements, and the effect of military intervention on the outcome and recurrence of civil war.

POLI 4340. Political Ethics. 3 Credit Hours.
Compare theories of political ethics from ancient times to the present. Special attention is given to the topics of justice and virtue.

POLI 4341. Freedom and Authority. 3 Credit Hours.
Examine the legitimacy of government and the sources of individual rights. Special attention is given to the idea of a "social contract," restraints on government, arguments for and against restricting liberty, and who should be permitted to participate in politics.
POLI 4350. Government Seminar. 3 Credit Hours.
Explore topics in government with independent reading, research, discussion, and writing, under personal direction of instructor. May be taken more than once for credit. Prerequisite(s): Senior standing, 18 hours of POLI, or permission of Program Coordinator.

POLI 4380. Administration of Justice. 3 Credit Hours.
Analyze the structure, function, and interrelationship of the components of the criminal justice system at the federal, state, and local levels, including the history and philosophy of criminal justice in a democratic society.

POLI 4384. Political Science Internship. 3,6 Credit Hours.
Apply and integrate academic study with professional experience in Political Science. Field projects include direction of a political campaign, internship in a city or county administrative office, or in a not-for-profit organization for analyzing or carrying out governmental policy. Minimum of 160 hours of work required for 3 hours of credit. Prerequisite(s): 2.5 overall grade point average, senior standing, and permission of Program Coordinator. Field experience fee $75.

POLI 4388. Political Science Problems. 1-3 Credit Hours.
Explore problems in Political Science with independent reading, research and discussion. Entry into this course will be arranged with the political science advisor and instructor.

POLI 4395. Political Science Capstone. 3 Credit Hours.
(WI) Integrate and use fundamental concepts learned in previous political science courses to research and analyze real-world political phenomena and problems. Students present oral and written reports on their research, supplemented by appropriate internet and multimedia materials, as well as portfolios documenting their research.

POLI 5090. Political Science Comprehensive Examination. 0 Credit Hours.
Non-thesis students should register for the comprehensive examination during their final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis students do not take this examination.

POLI 5300. Political Science Research Methods. 3 Credit Hours.
Learn the elements of research design and statistical analysis. Topics covered include hypothesis-testing, reliability and validity, measures of association, linear regression, and maximum likelihood estimation.

POLI 5301. Political Decision-Making. 3 Credit Hours.
Learn formal models of political decision-making, including game theory, spatial voting models, decision theory, and collective social choice.

POLI 5302. Constitutional Law. 3 Credit Hours.
Predict the resolution of constitutional controversies by examining theories of constitutional interpretation and judicial decision-making in the United States.

POLI 5303. Origins of Conservative Political Thought. 3 Credit Hours.
This course covers the philosophical origins of conservative political thought, focusing on its traditional, statist, and libertarian variants.

POLI 5304. Political Liberalism and its Critics. 3 Credit Hours.
Explore the philosophical assumptions and implications of liberalism, and examine its internal consistency and the extent to which it withstands challenges from competing systems of political thought.

POLI 5305. American Politics. 3 Credit Hours.
Examine basic approaches to the study of American Politics, including major works and recent research on this topic.

POLI 5306. Comparative Politics. 3 Credit Hours.
Examine basic approaches, major works, and recent research on the study of comparative politics and government.

POLI 5307. International Relations. 3 Credit Hours.
Examine basic approaches to the study of the politics of international relations, including major works and recent research on the topic.

POLI 5315. Foreign Policy. 3 Credit Hours.
Learn foreign policy decision-making. Understand how decisions are made, their consequences, and their ethical implications, with special emphasis on the foreign policy decisions of the United States.

POLI 5316. Conflict Studies. 3 Credit Hours.
Study the causes of international and civil conflict, historical changes in the nature of war, and predictions of future armed conflicts.

POLI 5317. Peace Studies. 3 Credit Hours.
Study the causes of peace, covering bargaining and war termination, social conflict resolution, international cooperation, and the ethics of peace.

POLI 5318. Terrorism Studies. 3 Credit Hours.
Study the causes of terrorism and other forms of political violence, with particular emphasis on measures of prevention and counter-terrorism.

POLI 5321. Civil Wars. 3 Credit Hours.
Examine the onset, evolution, and termination of civil wars. Particular emphasis is given to the role that outside actors play in civil wars, including foreign military intervention.

POLI 5330. Theories of Public Management. 3 Credit Hours.
Apply theories of public administration, and study the problems of administrative management in public organizations, and the use of law for administrative decision-making.

POLI 5350. Political Forecasting. 3 Credit Hours.
Research and analyze real-world political phenomena and problems. Learn and use different approaches to political forecasting, with a focus on formal models of politics.

POLI 5352. General Wars in World History. 3 Credit Hours.
Assess theories of war between major powers. Attention is given to structural, economic, and military factors that contribute to world wars, as well as the prospects for a Third World War.

POLI 5355. International Relations of the Middle East. 3 Credit Hours.
Examine the international politics of the Middle East, with particular emphasis on Israel and its regional rivals.

POLI 5360. Political Culture and Public Policy. 3 Credit Hours.
Study the political culture as it forms and is formed by public policy, including the culture of environmental policy, bureaucratic policy, and foreign policy.

POLI 5361. Politics of Education. 3 Credit Hours.
Study the relationship between politics and education in America, including both K-12 and post-secondary systems.

POLI 5362. Environmental Policy. 3 Credit Hours.
Study the politics of the natural environment with emphasis on the role of government in environmental protection.

POLI 5365. Politics of Literature. 3 Credit Hours.
This graduate seminar examines the politics of literature through a single author or genre as a method of introducing and critically evaluating normative political theory. Special attention is paid to the political uses of genre conventions and the political power of shared myths. POLI 5365 may be repeated once for credit when the author/genre covered differs.
POLI 5388. Problems. 1-3 Credit Hours.
Explore selected topics in Political Science. Independent reading, research, discussion, under supervision of senior professor.

POLI 5391. Political Science Practicum. 3 Credit Hours.
Gain professional experience in school administration, counseling, supervision, college or public school teaching, or other public service professions. May be repeated once for credit. Field experience fee: $75.

POLI 5398. Political Science Thesis. 3 Credit Hours.
Scheduled when student is ready to begin thesis. No credit until thesis is accepted.

Public Administration (PADM)

PADM 5301. Introduction to Managing Public Sector Organizations. 3 Credit Hours.
Learn the key dynamics in managing public sector organizations. Study the classic readings in the history of public administration in the United States, providing context for the current practice of public management. Particular emphasis will be on the distinctive aspects of public sector organizations and managerial strategies to promote organizational effectiveness and change in these complex environments.

Psychology (PSYC)

PSYC 3301. Psychology of Learning. 3 Credit Hours.
Investigate major theoretical approaches, concepts and principles, and experimental methods of learning. Prerequisite(s): PSYC 2301 or permission of department chair.

PSYC 3302. Health Psychology. 3 Credit Hours.
Apply psychology principles and techniques to the fields of health and medicine, including emotional, behavioral, cognitive, social, and multidisciplinary factors. Examine the effects of illness and injury on behavior. Prerequisite(s): PSYC 2301.

PSYC 3303. Educational Psychology. 3 Credit Hours.
Apply psychological theories and principles to teaching and learning. Learn theories of human development, learning, and motivation, and how these impact the processes of teaching and learning. Analyze the impact of cultural diversity on the learning process and standardized testing. Students seeking teacher certification must be admitted to the Teacher Education Program. Prerequisite(s): PSYC 2301 or permission of department chair.

PSYC 3305. Human Cognitive Processes. 3 Credit Hours.
Study human cognition and information processing, including perception, attention, memory, reasoning, and problem solving. Explore experimental methods and current theories of human cognition. Prerequisite(s): PSYC 2301 or permission of department chair.

PSYC 3307. Human Lifespan. 3 Credit Hours.
Explore development from conception through adulthood with emphasis on social adaptation of individuals and roles in families, groups, and communities. Study cognitive, social, personal and biological factors of the stages of development.

PSYC 3309. Writing in Psychology. 3 Credit Hours.
(WI) Examine advanced technical communication in psychology. Study and use the current edition of the Publication Manual of the American Psychological Association for formal research reports, literature reviews, grant proposals, and professional articles. Learn to write professional psychological reports. Prerequisite(s): PSYC 2301, ENGL 1301, and ENGL 1302, or permission of Departmental Chair.

PSYC 3310. Abnormal Psychology. 3 Credit Hours.
Study an overview of the history, causes, and treatments of deviant behavior. Learn psychological, social, and physiological factors as they relate to the development of abnormal behavior and its subsequent treatment. Prerequisite(s): PSYC 2301 and PSYC 3309 or permission of Departmental Chair.

PSYC 3311. Behavior Analysis and Behavior Management. 3 Credit Hours.
Examine the basic principles and methods of behavior analysis and behavior management techniques. Study systematic review of behavioral and cognitive-behavioral methodologies for dealing with human problems such as disruptive behavior, personal adjustment difficulties, behavioral deficits, phobias and fears, developmental disorders, stress and maladaptive behavior in a variety of settings. Prerequisite(s): PSYC 2301 or permission of department chair.

PSYC 3312. Biological Foundations of Behavior. 3 Credit Hours.
Study biological basis of behavior. Learn in-depth examination of physical structure of the human body and the role of chemical and electrical operations within it. Emphasis will be placed on the developmental, cognitive, affective, and behavioral effects of such operations, and recent research will be reviewed. Prerequisite(s): PSYC 2301, BIOL 3400, 6 hours of lab science, and PSYC 3309 or permission of department chair.

PSYC 3315. Human Sexuality. 3 Credit Hours.
Study psychology of sexual behavior, exploring the field's diversity, controversy, and current research, in a non-judgmental way. Explores historical, biological, psychological, and relevant social aspects of human sexuality. Prerequisite(s): PSYC 2301.

PSYC 3318. Psychology of Gender. 3 Credit Hours.
An examination of gender from a psychological and cultural perspective. Discusses how and why social expectations, standards, and opportunities tend to be systematically related to gender and the corresponding effects on male and female experience. Prerequisite: PSYC 2301 or permission of department chair.

PSYC 3320. Psycholinguistics. 3 Credit Hours.
Analyze the study of language, understanding languages, producing language and speech, language development, and related topics such as reading, language and the brain, linguistic diversity, and universals. Prerequisite(s): PSYC 2301 and PSYC 3309 or permission of department chair.

PSYC 3330. Statistics for the Behavioral Science. 3 Credit Hours.
Study measures of central tendency, variability, and correlation. Analyze applications of statistical inference to research in Psychology, reliability and validity of psychological tests and measurement, analysis of variance, multiple analysis of variance, and regression. Prerequisite(s): PSYC 2301 and MATH 1314 or MATH 1342 or permission of department chair.

PSYC 3350. Personality. 3 Credit Hours.
Analyze personality, the unique and relatively stable patterns of behavior, thoughts, and feelings that make individual human beings. Learn the different theoretical approaches - psychodynamic, cognitive, behavioral, humanistic, and existential — as they relate to personality and personality development. Prerequisite(s): PSYC 2301 or permission of department chair.
PSYC 3360. Sport Psychology. 3 Credit Hours.
Explore theories and research related to sports and exercise behavior. Study the history of sport psychology, behavioral principles, anxiety, motivation, leadership, group dynamics, gender, and personality. Analyze related principles to exercise and sport performance. Prerequisite(s): PSYC 2301 or permission of department chair.

PSYC 4301. Psychological Assessment. 3 Credit Hours.
Explore principles of psychological testing. Study uses and critical evaluation of tests, achievements, intelligence, aptitude, and personalities. Prerequisite(s): PSYC 2301, PSYC 3309, and PSYC 3330, or permission of department chair.

PSYC 4302. Adaptive Psychology. 3 Credit Hours.
A consideration of how adaptation has influenced social, cognitive and developmental processes in humans. Comparisons between humans and other species, and between different human cultures will be included. Prerequisite(s): PSYC 2301, BIOL 3400, 6 hours of lab science or permission of department chair.

PSYC 4303. Animal Behavior. 3 Credit Hours.
Study animal behavior research from a psychological perspective. Examine the development and display of behaviors will include subject samples ranging from insects to humans conducted in natural, quasi-experimental, and experimental studies. Prerequisite(s): PSYC 2301, BIOL 3400, 6 hours of lab science, or permission of department chair.

PSYC 4305. Social Psychology. 3 Credit Hours.
Learn theory and phenomena of social psychology. Study the effect of social variables upon the behavior of individuals. Examine socialization, language and communication, prejudice, social attitudes, attitude change, aggression, prosocial behavior, and group behavior. Prerequisite(s): PSYC 2301 and PSYC 3309 or permission of department chair.

PSYC 4310. Industrial and Organizational Psychology. 3 Credit Hours.
Study basic theories and practices of Industrial/Organizational psychology including selection testing, job analysis, performance appraisal training, employment motivation, job satisfaction, leadership and group processes within organizations. Prerequisite(s): PSYC 2301 or permission of department chair.

PSYC 4315. Fundamentals of Program Evaluation. 3 Credit Hours.
Study fundamentals of program evaluation methods used in the fields of education and human service. Learn theory, methodology, utilization of information, standards of practice and ethics. Prerequisite(s): PSYC 2301, PSYC 3309, and MATH 1342 or PSYC 3330; or permission of instructor.

PSYC 4320. History of Psychology. 3 Credit Hours.
(WI) Analyze historical prescientific psychology in philosophy and physiology through the period of the psychological schools of thought. Prerequisite(s): PSYC 3307, PSYC 3309, PSYC 3330, PSYC 3312, PSYC 4305; or permission of department chair.

PSYC 4325. Motivation. 3 Credit Hours.
Learn synthesis of theories of motivation with practical applications of motivating people, such as students or business employees. Examine historical and recent developments and their relationship to behavioral research, including concepts such as goals, work quality, work environment, and the use of rewards and other incentives. Prerequisite(s): PSY 2301.

PSYC 4332. Psychopharmacology. 3 Credit Hours.
Study neuroscientific basis of the effects of drugs on behavior. Emphasis will be placed on major antipsychotic, anti-anxiety, antidepressant drugs and their clinical use and side effects and drug abuse such as alcohol, marijuana, and cocaine. Prerequisite(s): PSYC 2301, BIOL 3400, and 6 hours of lab science or permission of department chair.

PSYC 4350. Forensic Psychology. 3 Credit Hours.
Study forensic psychology and its relation to criminal justice. Emphasis is on social and cognitive psychology aspects like eyewitness testimony and courtroom behavior. Analyze psychological aspects of the legal system such as juvenile justice, competency to stand trial, and expert psychological testimony. Prerequisite(s): PSYC 2301.

PSYC 4384. Psychology Undergraduate Internship. 1-3 Credit Hours.
Explore supervised professional activities in psychology. Major emphasis is placed on the student’s involvement in successful practices in the area of interest. Students must have the approval of the Department Chair to enroll in this course.

PSYC 4388. Psychology Problems. 1-3 Credit Hours.
Study of various topics related to Psychology. Engage in independent research, reading and discussions under the personal direction of the instructor; topics may vary according to student need. Entry into the course will be arranged by the department chair.

PSYC 4389. Special Topics in Psychology. 3 Credit Hours.
Examine different topics each semester with a focus on contemporary issues in psychology. This course may be repeated for credit as the topic changes.

PSYC 4435. Principle Research for Behavioral Sciences. 4 Credit Hours.
(WI) Study various research designs used in the behavioral sciences. Laboratory experiences will be required to acquaint the student with experimental procedures. Instruction will also be provided in writing research reports according to the APA manuscript style and SPSS statistical applications. Prerequisite(s): PSYC 3309 or ENGL 3309 and PSYC 3330 or equivalent.

PSYC 5090. Psychology Comprehensive Examination. 0 Credit Hours.
Study and take the psychology examination for Non-thesis students. Register for the comprehensive examination during final semester of graduate coursework, or upon permission of advisor. All comprehensive examinations will be written, but an oral component may also be required. A maximum of three attempts will be allowed. Thesis student do not take this examination.

PSYC 5198. Psychology Thesis. 1-6 Credit Hours.
Independent research course in which a student proposes and completes an original, quantitative research project in conjunction with three graduate faculty members who serve on the thesis committee. Scheduled when the student is ready to begin thesis. No credit awarded until proposal and thesis are approved, respectively. Six hours of thesis credit is required. Prerequisite(s): PSYC 5300 and PSYC 5301 and successful completion of 12 additional credit hours in the degree plan and, permission of the Chair of the thesis committee or department chair.

PSYC 5300. Behavioral Statistics. 3 Credit Hours.
Review of descriptive statistics with emphasis on inferential statistics. Learn correlation, one-way and two-way analysis of variance, regression analysis and experimental design. Use of computer software with emphasis on experience with SPSS. Prerequisite(s): undergraduate statistics recommended.

PSYC 5301. Research Methods. 3 Credit Hours.
Study scientific method of research, types of research and research design. Review, analyze and interpret research findings in major field and develop a research project with the assistance of their instructor. Prerequisite(s): PSYC 5300 or equivalent graduate statistics course.
PSYC 5302. Social Psychological Processes. 3 Credit Hours.
Examine the individual in a social and cultural context. Learn the behavior of groups, the roles of individuals within groups, and the influence of groups on an individual's perceptions, attitudes, emotions, and behavior. Study major theories and supporting research.

PSYC 5303. Theories of Learning. 3 Credit Hours.
Study major theories of learning, factors which influence the process of learning, and application of these theories and processes to general and special populations. Prerequisite(s): Admission to Graduate School or permission of department chair.

PSYC 5304. Human Development. 3 Credit Hours.
Study the development of human beings from conception to death. Analyze research and theory into physical, cognitive, social, and personality development in each of the different age groups: prenatal, infancy, childhood, adolescence, and adulthood.

PSYC 5311. Culture, Minority and Gender Issues. 3 Credit Hours.
Study interaction of social/cultural groups in America, problems of minorities and ethnic groups, problems related to gender and age, problems within family systems and contemporary sources of positive change.

PSYC 5313. Crisis Intervention and Management Individual and Family. 3 Credit Hours.
Examine dynamics and treatment of situational crises in various settings. Learn theories and approaches to crisis intervention and management. Prerequisite(s): PSYC 5350 or permission of department chair.

PSYC 5314. Assessment Intelligence and Achievement. 3 Credit Hours.
Study the selection, administration, and interpretation of selected tests used in the individual measurement of intelligence. Prerequisite(s): PSYC 5358 and PSYC 5381, or permission of department chair. Field experience fee - $75.

PSYC 5315. Physiological Psychology. 3 Credit Hours.
Examine biological basis of behavior with an emphasis on the structure and biochemistry of the human nervous system. Explore interactive relationships between biological processes, psychopharmacology, genetics, neurological disorders, normal growth and maturation, perception, memory, emotion, stress, mental disorders, consciousness, and communication. Study of contemporary theories and research are investigated and critiqued.

PSYC 5316. Advanced Quantitative Methods and Experimental Design. 3 Credit Hours.
Learn statistical techniques to analyze quantitative data resulting from experimental research designs. Engage in a continuation of PSYC 5300 and PSYC 5301 and students are required to demonstrate proficiency in SPSS for data analysis. Review One-Way and Two-Factor ANOVA. Emphasis on ANCOVA, MANOVA, MANCOVA, multiple regression, logistic regression, data reduction techniques (factor analysis and principal components analysis), and non-parametric analyses appropriate for two- and multi-group designs. Explore the integration of multivariate and advanced statistical design with applicable research paradigms. Prerequisite(s): PSYC 5300 and PSYC 5301.

PSYC 5320. History and Systems. 3 Credit Hours.
Analyze the historical development of the science of psychology from early philosophical theories through the establishment of psychology as a science to modern theoretical positions.

PSYC 5321. Evolutionary Psychology. 3 Credit Hours.
Evaluate current theories of adaptation with a large focus on how adaptation has influenced social, cognitive and developmental processes in humans. Review and discuss evidence from cross-cultural and cross species studies.

PSYC 5322. Psychometrics. 3 Credit Hours.
Study systematic treatment of the logic of measurement, including scaling models, validity, variance and covariance, reliability, theories of measurement error an test construction. Prerequisite(s): Admission to Graduate School or permission of department chair.

PSYC 5360. Foundations of School Psychology. 3 Credit Hours.
Study the foundations, professional standards, ethics, and laws related to the delivery of school psychological services. Prerequisite(s): admission to graduate school or permission of department chair.

PSYC 5380. Personality Social Assessment. 3 Credit Hours.
Gain instruction and supervision in the assessment of emotional, motivational, interpersonal, and attitudinal characteristics of children and adults. Learn the administration, scoring, and interpretation of many widely-used tests. Prerequisite(s): COUN 5358 and PSYC 5381, or permission of department chair.

PSYC 5381. Assessment and Evaluation Fundamentals. 3 Credit Hours.
Examine nature and development of standardized tests, with emphasis on ethical standards, psychometric theory, test standards, and test construction. Learn selection criteria and utilization of standardized or other instruments in various environments are considered. Explore evaluations and critiques of published tests and experiential exposure to different types of psychological tests. Prerequisite(s): Admission to the Graduate School.

PSYC 5382. Behavior Management and Therapy. 3 Credit Hours.
Examine basic theories of human learning, major approaches to behavior management and therapy and principles of applied behavior analysis. Learn formal treatment planning application and evaluation of programs for management of specific behavioral/psychological problems. Study case reviews and practice in individual interventions.

PSYC 5383. Consultation and Supervision. 3 Credit Hours.
Study application of psychological principles of consultation and supervision in selected settings. Emphasis is on analysis of client and consultee/supervisor behaviors, individual and group communications, program evaluation and possible intervention options in selected environments. Prerequisite(s): COUN 5350 or PSYC 5360, and COUN 5353, or permission of department chair.

PSYC 5384. Psychology Internship I. 3 Credit Hours.
Explore supervised professional activities in psychology. Major emphasis is placed on the student's involvement in successful practices in the area of interest. Students must have met all academic and professional standards of practice before placement. Lab experiences are included. Prerequisite(s): Completion of all course work required by the degree and application for internship. Field experience fee - $75.

PSYC 5385. Psychology Internship II. 3 Credit Hours.
Explore professional activities in psychology in the student's area of interest. Major emphasis is placed on the integration of theoretical and conceptual principles, as well as professional and personal skill development. Prerequisite(s): PSYC 5383 and application for internship. Field experience fee - $75.
PSYC 5388. Psychology Problems. 1-3 Credit Hours.
Study selected problems in psychology. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need. Prerequisite(s): graduate standing and permission of department chair.

PSYC 5389. Special Topics in Psychology. 1-3 Credit Hours.
Examine different topics each semester with a focus on current topics in counseling. This course may be repeated for credit as the topic changes.

PSYC 5391. Psychology Practicum I: Field Experience. 3 Credit Hours.
Explore supervised experience in settings such as marriage and family, mental health, and/or counseling and guidance placements outside the University. The field experience will consist of 150 clock hours with 100 client contact hours. Prerequisite(s): PSYC 5351, a 3.0 GPA, and permission of department chair. Field experience fee - $75.

PSYC 5392. Psychology Practicum II: Field Experience. 3 Credit Hours.
Explore settings such as marriage and family, mental health, and/or counseling and guidance placements outside the University. The field experience will consist of 150 clock hours with 100 client contact hours. Prerequisite(s): PSYC 5391, a 3.0 GPA, and permission of department chair. Field experience fee - $75.

PSYC 5393. Psychology Practicum III: Field Experience. 3 Credit Hours.
Explore settings such as marriage and family, mental health, and/or counseling and guidance placements outside the University. The field experience will consist of 200 clock hours with 100 client contact hours. Prerequisite(s): PSYC 5392, a 3.0 GPA, and permission of department chair. Field experience fee - $75.

Reading (READ)

READ 3301. Introduction to Children's Literature. 3 Credit Hours.
Study literature for children focusing on the use of classic and contemporary texts to promote interest, motivation, and critical reading skills for self-selected reading in the elementary student. Learn to use texts to emphasize literary genre, text structures, and literary devices as tools for making connections and meaning. Prerequisite(s): Required core ENGL classes for degree. Credit will not be granted for READ 3301 and ENGL 3350.

READ 3311. Reading I: Reading Acquisition and Development. 3 Credit Hours.
Explore research-based competencies essential for effective literacy instruction. Study characteristics of normal reading development in the emergent/early learner, explore materials, procedures, assessments and instructional methods considered effective in teaching oral language, writing, strategy building for comprehension, vocabulary, word identification, and review diagnoses of reading difficulties in the young reader. Prerequisite(s): Completion of or concurrent enrollment in required core and degree ENGL and concurrent enrollment in EDUC 3320.

READ 3320. Fundamentals of Teaching Reading. 3 Credit Hours.
(WI) This course focuses on research-based competencies essential for effective literacy instruction. Surveys characteristics of normal reading development in the elementary through middle school learner; explores materials, procedures, assessment and instructional methods considered effective in teaching oral language, writing, strategy building for comprehension, vocabulary, and word identification.

READ 3330. Reading II: Assessment, Instruction and Reader Development. 3 Credit Hours.
(WI) Study characteristics of the transitional and fluent literacy learner, methods of assessment and instruction for strategy building, comprehension, vocabulary, word identification, and TEKS/TAKS. Examine normal reading development, reading difficulties, strategies for assessing/addressing reading differences including diverse learner reading processes and development of literacy in English or ELL. Prerequisite(s): READ 3311 and Admission to the Teacher Education Program. Concurrent enrollment in EDUC 3330.

READ 3335. Content Area Reading. 3 Credit Hours.
(WI) Examine factors that influence learning from content text and study specific instructional strategies which promote comprehension, vocabulary development, effective study strategies, and test-taking skills. Study ways to modify text for diverse learners and the principles of research-based reading instruction. Must be admitted to the Teacher Ed Program.

READ 4304. Reading and Writing Across the Curriculum. 3 Credit Hours.
(WI) Study theory and instructional strategies for teaching the writing process in elementary and middle schools. Learn stages of the writing process, issues at the different grade levels, teaching with mini-lessons, early literacy, spelling, handwriting, developing listening skills, process writing, and the use of children's literature to teach writing. Prerequisite(s): READ 3330 and EDUC 3330, and concurrent enrollment in READ 4305 and EDUC 4304 or EDUC 4330.

READ 4305. Implement Classroom Reading Instruction. 3 Credit Hours.
Study state and national reading initiatives, approaches to teaching reading, procedures for organizing the elementary and middle school classrooms for reading instruction, research on effective reading-writing instruction, and roles of school personnel and parents in the school reading program. Prerequisite(s): READ 3330 and EDUC 3330, and concurrent enrollment in READ 4304 and EDUC 4304 or EDUC 4330.

READ 5370. Literacy Development. 3 Credit Hours.
Analyze models of the reading and writing processes. Emphasis on characteristics of emergent, early, transitional and fluent literacy, instructional strategies in reading and writing, phonics instruction and strategies for teaching English language learners, and the essential knowledge and skills in the language arts curriculum. Prerequisite(s): admission to the teacher certification program.

READ 5371. Advanced Strategy for Literacy Development. 3 Credit Hours.
Study research in literacy development from early childhood through adulthood. Learn to develop research-based literacy programs from early childhood through adulthood, apply informal diagnostic and remedial procedures for English language learners, elementary, secondary and adult readers, and survey print and non-print materials, including textbooks, trade books and computer software. Prerequisite(s): admission to the teacher certification program.

READ 5372. Language Arts. 3 Credit Hours.
Study research and strategies for implementing the reading/writing process in classrooms. Explore integrated curriculum, the use of children's literature, classroom management and organization, evaluation, working with diverse learners, and developing support networks. Prerequisite(s): READ 5373 or 9 hours of undergraduate READ courses or permission of department chair.
READ 5373. Foundations of Reading. 3 Credit Hours.
Examine theoretical models of the reading process, historical perspectives on reading instruction, and language learning. Develop an understanding of the construction of reading theory and its relationship to instructional practices. Prerequisite(s): Elementary, secondary, or all-level certification or permission of department chair.

READ 5374. Reading Resources and Materials. 3 Credit Hours.
Study print and non-print materials including content-area textbooks, trade books, and computer software. Evaluate materials and application of reading principles to instruction in content areas. Prerequisite(s): READ 5373 or 9 hours of undergraduate READ courses or permission of department chair.

READ 5375. Reading Research and Assessment. 3 Credit Hours.
Examine methods and techniques employed in reading research and assessment. Review research and the development, implementation, and dissemination of classroom research. Explore the application of appropriate diagnostic and correctional procedures for elementary, secondary, and adult learners having difficulty reading. Prerequisite(s): READ 5373 or 9 hours of undergraduate READ courses or permission of department chair.

READ 5376. Organization and Administration of Reading Programs. 3 Credit Hours.
Study state laws, trends and issues related to the administration of reading programs. Examine instructional issues and reading programs for pre-K through adult learners, censorship issues, textbook/test adoption procedures, roles and responsibilities in the reading program, staff development, and change strategies. Prerequisite(s): READ 5373 or 9 hours of undergraduate READ courses or permission of department chair.

READ 5388. Reading Problems. 1-3 Credit Hours.
Study of selected problems in reading. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need. Prerequisite(s): Permission of department chair.

READ 5391. Reading Practicum. 3 Credit Hours.
Apply knowledge gained in previous Reading Specialist certification courses. Practicum candidates will be directly involved in providing 180 clock hours of reading services to students in a local public or private school setting, and will document expertise and experience in all four Standards. Prerequisite(s): READ 5373, READ 5374, READ 5375, READ 5376 and ENGL 5321; two years of creditable classroom teaching experience. Field experience fee - $75.

Religious Studies (RELS)

RELS 3300. Introduction to Religious Studies. 3 Credit Hours.
Examine religious phenomena from a non-confessional, interdisciplinary academic perspective. Explore the concept of religion as a component of culture in a postmodern, diversified, global community. Survey major religious traditions, and trends throughout the history of the discipline.

RELS 3301. Classical Greek Mythology. 3 Credit Hours.
Study classical myths and legends pertaining to the Greek pantheon, heroes, and other supernatural beings and events. Evaluate samples of English literature alluding to classical Greek mythology, and understand the cultural significance of myth within classical Greek society.

RELS 3302. Dead Sea Scrolls. 3 Credit Hours.
Explore the archaeological discovery of the Dead Sea Scrolls. Examine and interpret content of selected manuscripts. Evaluate the history of controversies surrounding Scrolls management and presentation to the academic world.

RELS 3303. Hebrew Scriptures. 3 Credit Hours.
Examine the canonical Hebrew scriptures in the light of present-day scholarship. Read translated scriptural passages to evaluate sources, historical and cultural milieus, and forms of modern criticism. Reading competency in the Hebrew language is not required.

RELS 3304. World Religions. 3 Credit Hours.
Study the philosophical, ethical, and social dimensions of the religions of the world. Special emphasis on the major world religions, but lesser known religions will be explored to gain a broad view of the diversity of religious experience and tradition.

RELS 3305. Wicca and Neo-Paganism. 3 Credit Hours.
A critical examination of Wicca and Neo-pagan groups in the US. Explores the history of such groups and exposes the student to academic research in this area.

RELS 3329. Church and State. 3 Credit Hours.
Surveys church-state relations in U.S. history. Examines the role religion has played in American political life, culture, and society. This course is cross-listed with HIST 3329; only one may be taken for credit.

RELS 3355. Religion and Politics. 3 Credit Hours.
Explores the historic development of church-state relations in the United States, the evolution of church-state constitutional law, and the impact of this history and law on the current political environment. Special emphasis placed on the role played by religion in political campaigns, local politics, and interest group activities. This course is cross-listed with POLI 3355; only one may be taken for credit.

RELS 4300. Prophets of Ancient Israel. 3 Credit Hours.
Examine prophet types in light of their historical and cultural milieus. Understand the differences between the eponymous ancestors, leaders, wonder-workers, and literary prophets of Ancient Israel, and evaluate the relationship between prophecy, prophets, and scribal culture in the ancient Near East.

RELS 4310. Myth and Ritual. 3 Credit Hours.
Examine the religious beliefs and practices of small-scale societies based upon ethnographic literature. Special emphasis on altered states, shamanism, bewitching, and religious practitioners. Maybe crosslisted with ANTH 4310. Only one may be taken for credit.

RELS 4312. Psychology of Religion. 3 Credit Hours.
Discover the major issues, theories, and psychological approaches to the study of religion, and address the practice of pastoral counseling. Explore the formation of meaning systems, motivation for behaviors, and psychological accounts for religious impulses and phenomena. Prerequisite(s): None.

RELS 4315. Philosophy of Religion. 3 Credit Hours.
Examine religious phenomena, and concepts of God, miracles, claims of religion, the problem of evil, and religious ethics. Study and evaluate the relationship of religion and philosophy, and the place of philosophy within the religious experience. Prerequisite(s): None.

RELS 4320. Religious Terrorism. 3 Credit Hours.
Examine the religious motivations, support, and tactics behind the phenomena of domestic and foreign terrorism. Prerequisite(s): None.
SOWK 3301. Methods and Skills of Social Work. 3 Credit Hours.  
Study the Generalist Social Work Practice Model. Develop social work skills in the principles of conducting a helping interview, initial client contact, attending and listening, empathetic responses, exploration and elaboration, questioning, gaining cooperation, self-disclosure, and termination. Understand issues of problem-solving with diverse populations and persons from different cultural backgrounds, and examine ethical issues of helping relationships.

SOWK 3302. Social Welfare in the United States. 3 Credit Hours.  
Study human services in the United States and how they have developed over time. Special Emphasis on services and programs directed at the most vulnerable populations in our society. Race, ethnicity, gender, and socioeconomic status are considered in an effort to understand the need for and eligibility for various human services and social welfare programs.

SOWK 3303. Social Work with Diverse Populations. 3 Credit Hours.  
Examine theoretical, political, historical, cultural, and economic issues related to diverse populations. Special emphasis on social work practice with oppressed populations, societal forces that promote discriminatory and oppressive values, beliefs, and attitudes.

SOWK 3304. Social Work with Diverse Populations. 3 Credit Hours.  
Examine theoretical, political, historical, cultural, and economic issues related to diverse populations. Special emphasis on social work practice with oppressed populations, societal forces that promote discriminatory and oppressive values, beliefs, and attitudes.

SOWK 3305. Biological Foundations of Social Work Practice. 3 Credit Hours.  
Explore issues related to human biological functioning as applied to social work practice. Emphasis on the functioning of the human body across the lifespan, healthy living and prevention of illness, and illness and disabilities (physical and mental) that social workers encounter in clients.

SOWK 3310. Human Behavior and Social Environment II. 3 Credit Hours.  
Explore issues related human biological functioning as applied to social work practice. Emphasis on theories and knowledge about the range of social systems in which individuals live and the ways in which systems deter people from achieving well-being, including values and ethical issues related to bio-psycho-social theories. Prerequisite(s): SOWK 3304.

SOWK 3311. Generalist Practice I: Micro Systems. 3 Credit Hours.  
Examine theories and methodologies needed for generalist social work practice with individuals and small groups. Evaluate the value base of the social work profession and basic practice concepts for understanding a variety of intervention models in diverse settings. Prerequisite(s): Admission to the Social Work Program and SOWK 3301.

SOWK 4300. Social Welfare Policy. 3 Credit Hours.  
(WI) Study social welfare as society's response to the needs of individuals, groups, and communities. Examine the history of policy development reflecting society's changing values. Analyze policy to determine impact on various systems, including populations at risk, and explore the role of social policy in promoting social justice and social change. Prerequisite(s): SOWK 3302.
SOWK 4301. Social Work and Mental Health. 3 Credit Hours.
The course emphasizes the Generalist Practice of Social work in mental health in areas such as case management, assessment, treatments, and working in interdisciplinary teams. The current Diagnostic and Statistical Manual of Mental Disorders, to assess mental issues will be used. Prerequisite(s): SOWK 3300, SOWK 3304.

SOWK 4305. Rural Social Work. 3 Credit Hours.
The purpose of the course is to provide the student with an overview of social welfare services for rural communities and people. Topics covered include rural communities, rural culture and behavior, diversity, social welfare policy and services, professional values and ethics, history of rural social services, and professional practice with rural communities. Prerequisite(s): None.

SOWK 4311. Child Welfare. 3 Credit Hours.
Examine the history and practice of child welfare. Study programs and policies dedicated to child welfare, and learn the social work practice settings for the discipline.

SOWK 4320. Social Work Research Methods & Statistic. 3 Credit Hours.
Study basic principles and concepts of the scientific method and social science research as applied to social work. Learn descriptive and inferential statistical analysis and critical analysis of research, including quantitative and qualitative research designs, measurement, sampling. Students should have completed a statistics course before enrolling. Prerequisite(s): Statistics.

SOWK 4321. Writing for Social Work Research. 3 Credit Hours.
(WI) Apply social work knowledge to facilitate understanding and interpretation of research findings. Develop the evaluation and analysis process, and understand ethical issues in social science research. Explore evaluation of practice, critical evaluation of published research, and completion of a research proposal. Prerequisite(s): SOWK 4300 and SOWK 4320.

SOWK 4324. Generalist Practice II: Macro. 3 Credit Hours.
Study theory and practice of social change at organizational, community, society, and global levels. Examine methods of resource delivery and redistribution, and learn models of community organization, including community development, social action, and social planning. Prerequisite(s): SOWK 4300.

SOWK 4331. Death and Dying. 3 Credit Hours.
Examine the ramifications of death, including the experiences and rights of the dying and the significance to those who mourn. Use major sociology theories to analyze societal meaning of the reality and symbolism of death. Credit for SOWK 4331 will not be awarded. Prerequisite(s): SOCI 1301.

SOWK 4333. Social Work Field Seminar. 3 Credit Hours.
Integrate field experience and social work skills in order to transition from student to professional social worker. The Field Seminar is a course taken concurrently with a block field placement (SOWK 4932). Serves as an integrative capstone course for the field placement and social work program. Corequisite: SOWK 4932. May not be taken for credit if SOWK 4684 or SOWK 4685 has been completed.

SOWK 4334. Social Work Seminar. 1-3 Credit Hours.
Study current trends and issues related to professional social work practice, social service delivery, and populations at risk. May be repeated for credit when topics vary. Prerequisite(s): Junior standing & permission of department chair.

SOWK 4388. Social Work Problems. 1-6 Credit Hours.
Engage in independent reading and research on selected topics within social work. Entry into the course will be arranged by faculty member teaching the course.

SOWK 4684. Social Work Field Placement I. 6 Credit Hours.
Integrate theory and professional skill in a supervised, social work agency-based field placement. A minimum of 225 hours required to be completed and participation in a three-hour-per-week seminar. Prerequisite(s): Acceptance into the field program and completion of SOWK 3301, SOWK 3303, SOWK 3311 and SOWK 3304. Internship fee: $125.

SOWK 4685. Social Work Field Placement II. 6 Credit Hours.
Integrate theory and professional skill in a supervised, social work agency-based field placement. Special emphasis on generalist social work practice and on the interrelationships among human behavior, social policy, research, and practice. A minimum of 225 hours required to be completed and participation in a three-hour-per week seminar. Prerequisite(s): Admission to the major, SOWK 4684 with a grade of C or better. It is advised that SOWK 4324 be taken as a co-requisite. Internship fee: $125.

SOWK 4932. Social Work Field Instruction. 9 Credit Hours.
Integrate social work theory and professional skill within a supervised, agency-based generalist social work setting. A minimum of 450 hours required to be completed. Prerequisite(s): Acceptance into the field program, SOWK 4321. Corequisite SOWK 4333. May not be taken for credit if SOWK 4684 or SOWK 4685 has been completed. Internship fee: $175.

Sociology (SOCI)

SOCI 3301. Sociology of the Family. 3 Credit Hours.
Study the family as a social institution with emphasis on formation, functions, maintenance, child rearing, and family disorganization.

SOCI 3303. Race and Ethnicity. 3 Credit Hours.
Analyze relationships between dominant groups and minority groups that make up American society. Examine theories of race relations and prejudice, the meaning of racial differences, group conflict, and modes of accommodation.

SOCI 3305. Criminology. 3 Credit Hours.
Examine theories of criminology and significant research on causes, extent, cost and ecology of crime, police, criminal, and juvenile courts, and prisons and reformatories. Special emphasis on prevention and rehabilitation. Credit for both CRIJ 3305 and SOCI 3305 will not be awarded.

SOCI 3308. Deviant Behavior. 3 Credit Hours.
Examine factors and conditions leading to behaviors that violate and deviate from fundamental social values. Analyze the relationship of personal and social maladjustment in relation to the various theories of deviant behavior.

SOCI 3310. Sociology of Aging. 3 Credit Hours.
Study the reciprocal relationship between society and those considered aged by society, utilizing concepts and theoretical frameworks applicable to that population group. Explore the social forces that impinge on the aging process, including socially constructed images of the aged, and patterns of inequality of gender, race, and economics.
SOCI 3312. Environmental Sociology. 3 Credit Hours. (WI) Examine relationships and interactions between society and the environment. Explore how the natural world influences the way societies are organized, with special emphasis on human communities as part of natural ecosystems. Prerequisite(s): None.

SOCI 3340. Media and Society. 3 Credit Hours. Examine the interactions of culture and the media with a focus on representations of race, class, gender, and sexuality. Evaluate contemporary mass media to explore the unique relationship between media content, the industry that creates it, and audiences whose interpretations and demands constitute its market.

SOCI 4301. The Military Family. 3 Credit Hours. Examine the relationship between the work organization and the family in the armed forces of the United States. Using a sociological perspective, analyze and discuss contemporary issues, situations, problems, and policies relevant to military families.

SOCI 4303. Social Inequalities. 3 Credit Hours. Examine social inequality and categories of difference from a sociological perspective. Analyze social difference and stratification on the basis of race/ethnicity, class, gender, religion, and sexuality by examining how these categories are constructed, institutionalized, and experienced. Special emphasis on economic and labor-based inequality through the lens of contemporary global processes.

SOCI 4304. Sociology of Religion. 3 Credit Hours. Examine the principles of religion, religious belief, and practice as a sociological concept. Special emphasis on the relationship of religion to the progress and stability of the social order.

SOCI 4305. Sociological Theory. 3 Credit Hours. (WI) Examine the major schools of sociological thought, including perspectives from both classic and contemporary sociological theory.

SOCI 4310. Sociology of the Body. 3 Credit Hours. Study the body as the container and expression of the self, as the object of social control, and the body as it relates to race, gender, sex, class, age, ability, sexuality, and transgender identities.

SOCI 4311. Sociology of Sexuality. 3 Credit Hours. Study how sexuality is perceived, defined, and experienced in the context of society. Analyze the influence of sexuality on our lives, reflected in social norms, attitudes and beliefs, through public and private policies and practices, and social institutions.

SOCI 4312. Gender in Society. 3 Credit Hours. Examine socialization to sex roles, and the male/female differences in family, work, and political behavior. Special Emphasis on male/female inequality, effects of gender in education and religion, and current changes in sex role definitions.

SOCI 4313. Development and Social Change. 3 Credit Hours. Explore social processes and social problems as they are contained in the highly interdependent world system. Examine social change and development through historical, comparative, and critical perspectives. Analyze the problem of how and why societies and cultures around the world change, and evaluate whether those changes promote justice, equity, democracy, and development of human potential.

SOCI 4315. Social Science Statistics. 3 Credit Hours. Apply the elementary forms of statistical processes, including central tendency, variation, the normal curve and Z scores, analysis of variance, regression analysis, and correlations to social science data. Explore the role of statistics in social work, sociology, criminal justice, political science, and gerontology. SPSS is utilized for data analysis.

SOCI 4316. Methods of Sociological Research. 3 Credit Hours. (WI) Learn the principles and methods of social research, including research design, methods of observation, questionnaires, and interviews. Apply qualitative and quantitative techniques of inference, analysis, and research report writing, to gain practical experience in limited research studies.

SOCI 4317. Qualitative Research Methods. 3 Credit Hours. Introduces methodological approaches corresponding to qualitative research methods, with special emphases on interviewing, observation techniques, ethnographic field-based methods, and content analysis. Prerequisite/Corequisite: SOCI 4316.

SOCI 4320. Social Psychology. 3 Credit Hours. Explore symbolic interactionism, and the influence of society, groups, culture, and other persons on the attitudes, behavior, and experiences of the individual.

SOCI 4388. Sociology Problems. 1-6 Credit Hours. Engage in independent reading, research and discussion on selected topics in sociology. Entry into this course will be arranged with the sociology counselor.

SOCI 4389. Special Topics in Sociology. 1-3 Credit Hours. Engage in independent reading, research, discussion, and paper writing under personal direction of instructor. Prerequisite(s): Senior standing or permission of department chair. May be taken more than once for credit if topics vary.

SOCI 5303. Social Inequalities. 3 Credit Hours. An critical examination of religions and religious phenomena from the perspectives, theories, and methods of sociology. Reviews the major works of classical theorists such as Durkheim, Weber, and Marx, and recent theorists such as Berger and Stark.

SOCI 5304. Sociology of Religion. 3 Credit Hours. Study the historical development of sociological theory by examining the major works of classical, contemporary, postmodern and modern social theorists.

SOCI 5388. Sociology Problems. 3 Credit Hours. Engage in independent reading, research, and discussion on selected topics in sociology, under the supervision of an instructor. May be repeated as topic varies for up to six hours of credit.

Spanish (SPAN) SPAN 3600. Spanish Language and Culture. 6 Credit Hours. This course is designed to allow students to study of intersections of language and culture in Spanish-speaking countries with emphasis on continued development of speaking, writing, and reading skills.

Special Education (SPED) SPED 3361. Survey Exceptional Learners. 3 Credit Hours. Study characteristics and educational programs for individuals with disabilities. Examine the legislation and litigation related to special education and the referral, diagnosis, and placement of exceptional learners. A field experience is required. Co-requisite: Passing score on the THEA, ACCUPLACER, COMPASS, or ASSET.
SPED 4362. Special Education Rules and Regulations for Teacher. 3 Credit Hours.
Analyze laws and litigation that affect the education of students with disabilities. Examine procedures pertinent to teachers providing special education services such as federal and state regulations, IEPs, and the development of basic instructional plans. Field experience required. Prerequisite(s): SPED 3361.

SPED 4363. Teaching Learners with Learning Disabilities. 3 Credit Hours.
Analyze laws and litigation that affect the education of students with disabilities. Examine procedures pertinent to teachers providing special education services such as federal and state regulations, IEPs, and the development of basic instructional plans. Field experience required. Prerequisite(s): SPED 3361.

SPED 4364. Teaching Learners with Developmental Disabilities. 3 Credit Hours.
Study the etiology and characteristics associated with deficits in development. Examine effects of developmental disabilities in the areas of language acquisition and physical, social and emotional functioning. Explore methods for teaching functional academic skills, communication skills and life management skills, working with parents, paraprofessionals and related service personnel, community based instruction and vocational planning. Field experience required. Prerequisite(s): SPED 3361.

SPED 4365. Behavioral Management for the Classroom. 3 Credit Hours.
Explore managing a classroom that includes students with disabilities. Study positive interpersonal relationships in the classroom, increasing student motivation and learning, minimizing disruptive behavior, behavioral management strategies, curriculum adaptations, crisis management and behavior management theories and strategies. Also study typical characteristics associated with emotional disabilities and identification procedures utilized. Field experience required. Prerequisite(s): SPED 3361.

SPED 4366. Curriculum Modifications and Accommodations for General Education. 3 Credit Hours.
Study methods and approaches for adapting educational processes for students with disabilities. Emphasis on specialized teaching methods, preparation of materials, use of technology for adapting instruction and developing modifications and accommodations for the general education curriculum. Field experience required.

SPED 4367. Programs For Young Children with Disabilities. 3 Credit Hours.
Study young children with disabilities from birth to 6 years old, with an emphasis on the techniques for implementing programs to meet the needs of the child and the family. Learn early intervention, medical intervention, and public school educational programming for at-risk infants, toddlers, and young children, as well as parent involvement models to promote optimum parent-child and parent-professional relationships. Special emphasis on recent research related to early childhood special education. Field experience required. Prerequisite(s): SPED 3361.

SPED 4383. Teaching Learners with Learning and Behavior Anomalies. 3 Credit Hours.
Learning disabilities, emotional disturbances, and behavior management are investigated as intertwining educational divisions. Histories, definitions, etiologies, and characteristics are examined in conjunction with teaching methods for academics and social skills as well as effective inclusive practices. Strategies for successful collaboration with parents and various educators are explored. Field experience is required. Prerequisite: SPED 3361.

SPED 4388. Special Education Problems. 1-3 Credit Hours.
Study of selected problems in special education. Engage in independent research, reading and discussions under the personal direction of the instructor, topics may vary according to student need. Prerequisite(s): Junior or senior standing and admission to the Teacher Education Program and permission of the instructor and Curriculum and Instruction Program Coordinator.

SPED 5305. Introduction to Exceptional Learners. 3 Credit Hours.
Study learner characteristics and an examination of instructional techniques that promote academic, personal, and social growth in exceptional learners also examination of the process and procedures relating to the services provided to learners with disabilities. Prerequisite(s): 18 hours of professional education, certification, or admission to the graduate teacher certification program.

SPED 5311. Behavioral Management in Special Education Environment. 3 Credit Hours.
Study characteristics of students with emotional disabilities, including the application of behavioral management strategies appropriate for students with emotional and behavioral disabilities. Engage in functional assessments of behavior, development of behavior intervention plans, strategies for teaching appropriate behavior, crisis management strategies, and integrating behavior management with instructional programs in school, community and home settings. Prerequisite(s): Admission to the graduate teacher certification program.

SPED 5313. Advanced Study of Learning Disabilities. 3 Credit Hours.
Study research on learning disabilities, including causation, diagnosis and educational programming. Learn methods for teaching students with learning disabilities, adapting general education classrooms to accommodate the inclusion of students with learning disabilities, and collaboration with parents, paraprofessionals and general education teachers. Prerequisite(s): Admission to the graduate teacher certification program.

SPED 5315. Advanced Study of Developmental Disabilities. 3 Credit Hours.
Study research-based instructional methods appropriate for students with developmental disabilities. Learn assessment and teaching of functional academic skills, life management and communication skills, collaborating with parents, paraprofessionals, general education teachers and related service providers, community-based instruction, and vocational planning and preparation. Prerequisite(s): Admission to the graduate teacher certification program.

SPED 5325. Appraisal Exception for Learners. 3 Credit Hours.
Analyze standardized assessments of the academic achievement of students referred for or currently receiving special education services, administer, score, analyze, report and plan programs according to results. Prerequisite(s): PSYC 5301 or concurrent enrollment or permission of Curriculum and Instruction Program Coordinator.

SPED 5327. Teaching Students with Severe and Profound Disabilities. 3 Credit Hours.
Study definitions, characteristics, and instructional techniques for students with severe and profound disabilities, including functional assessment, applied behavioral analysis, Individualized Education Program (IEP) goals and objectives, and transition and placement issues. Prerequisite(s): SPED 5305 or permission of Curriculum and Instruction Chair.
SPED 5328. Case Management Education Diagnosticians. 3 Credit Hours. This course addresses state and federal laws that affect the diagnosis, placements, and programs for students with disabilities and the diagnostician's role and responsibilities as compliance officers. Enrollment limited to students admitted to the Diagnostician Certification Program or permission of Curriculum & Instruction Program Coordinator. Prerequisite(s): SPED 5325.

SPED 5329. Assessing Cognitive Abilities. 3 Credit Hours. Standardized assessment of the cognitive and adaptive behavior abilities of exceptional students. Includes test administration, scoring, analysis, and program planning. Prerequisite(s): PSYC 5381 or permission of Curriculum & Instruction Program Coordinator.

SPED 5384. Special Education Teaching Internship. 3 Credit Hours. A supervised, field-based experience in a special education classroom. Interns must demonstrate proficiency in applying effective teaching practices and classroom management strategies in a school classroom. Prerequisite(s): admission to a teacher certification program at TAMUCT; satisfactory performance in the professional development courses preceding the internship. May be repeated for credit. Field experience fee $75.

SPED 5385. Education Diagnostician Internship. 3 Credit Hours. Supervised professional activities for persons preparing for certification as an educational diagnostician. Professional activities will include test administration, scoring, analysis, diagnosis, report writing, and program planning. Interns will be required to demonstrate competence in the performance of professional duties as an educational diagnostician. A minimum of 300 hours of documented related professional activities will be required. Prerequisite(s): SPED 5305, SPED 5325 and SPED 5329 or permission of Curriculum & Instruction Program Coordinator. Field experience fee: $75.

SPED 5388. Special Education Problems. 1-3 Credit Hours. Open to graduate students who are capable of developing a problem independently. Problems are chosen by the student and approved in advance by the instructor and Division Director. Prerequisite(s): Full admission to the Graduate School and a graduate degree or certification program.

Lower Level and General Education Courses

The courses listed in this section are for informational purposes only; they are NOT offered at A&M-Central Texas.

ACCT 2301. Principles of Financial Accounting. 3 Credit Hours. This course is an introduction to the fundamental concepts of managerial accounting as prescribed by U.S. generally accepted accounting principles (GAAP) as applied to transactions and events that affect business organizations. Students will examine the procedures and systems to accumulate, analyze, measure, and record financial transactions. Students will use recorded financial information to prepare a balance sheet, income statement, statement of cash flows, and statement of shareholders’ equity to communicate the business entity's results of operations and financial position to users of financial information who are external to the company. Students will study the nature of assets, liabilities, and owners’ equity while learning to use reported financial information for purposes of making decisions about the company.

ACCT 2302. Principles of Managerial Accounting. 3 Credit Hours. This course is an introduction to the fundamental concepts of managerial accounting appropriate for all organizations. Students will study information from the entity's accounting system relevant to decisions made by internal managers, as distinguished from information relevant to users who are external to the company. The emphasis is on the identification and assignment of product costs, operational budgeting and planning, cost control, and management decision making. Topics include product costing methodologies, cost behavior, operational and capital budgeting, and performance evaluation.

ANTH 2351. Cultural Anthropology. 3 Credit Hours. The study of human cultures. Topics may include social organization, institutions, diversity, interactions between human groups, and ethics in the discipline.

BCIS 1301. Microcomputer Applications. 3 Credit Hours. Overview of computer information systems. Introduces computer hardware, software, procedures, systems, and human resources and explores their integration and application in business and other segments in society. The fundamentals of computer problem solving and programming in a higher level programming language may be discussed and applied.

BCIS 1309. Intro to Program Logic & Design. 3 Credit Hours.

BIOL 1406. Biology for Science Majors I (Lecture + Lab). 4 Credit Hours. This lecture and lab course should combine all of the elements of BIOL 1306 Biology for Science Majors I (lecture) and BIOL 1106 Biology for Science Majors I (lab), including the learning outcomes listed for both courses.

BIOL 1407. Biology for Science Majors II (Lecture + Lab). 4 Credit Hours. This lecture and lab course should combine all of the elements of BIOL 1307 Biology for Science Majors II (lecture) and BIOL 1107 Biology for Science Majors II (lab), including the learning outcomes listed for both courses.

BIOL 1411. General Botany. 4 Credit Hours. Fundamental biological concepts relevant to plant physiology, life cycle, growth and development, structure and function, and cellular and molecular metabolism. The role of plants in the environment, evolution, and phylogeny of major plant groups, algae, and fungi.

BIOL 1413. General Zoology. 4 Credit Hours. Fundamental biological concepts relevant to animals, including systematics, evolution, structure and function, cellular and molecular metabolism, reproduction, development, diversity, phylogeny, and ecology.

BIOL 2301. Anatomy & Physiology I. 3 Credit Hours. Anatomy and Physiology I is the first part of a two course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.

BIOL 2401. Anatomy and Physiology I. 4 Credit Hours. Anatomy and Physiology I is the first part of a two course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.
BIOL 2402. Anatomy and Physiology II. 4 Credit Hours.
Anatomy and Physiology II is the second part of a two-course sequence. It is a study of the structure and function of the human body including the following systems: endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics). Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.

BIOL 2421. Microbiology for Science Majors. 4 Credit Hours.
Principles of microbiology, including metabolism, structure, function, genetics, and phylogeny of microbes. The course will also examine the interactions of microbes with each other, hosts, and the environment.

BUSI 1301. Business Principles. 3 Credit Hours.
This course provides a survey of economic systems, forms of business ownership, and considerations for running a business. Students will learn various aspects of business, management, and leadership functions; organizational considerations; and decision-making processes. Financial topics are introduced, including accounting, money and banking, and securities markets. Also included are discussions of business challenges in the legal and regulatory environment, business ethics, social responsibility, and international business. Emphasized is the dynamic role of business in everyday life.

BUSI 2301. Business Law. 3 Credit Hours.
The course provides the student with foundational information about the U.S. legal system and dispute resolution, and their impact on business. The major content areas will include general principles of law, the relationship of business and the U.S. Constitution, state and federal legal systems, the relationship between law and ethics, contracts, sales, torts, agency law, intellectual property, and business law in the global context.

CHEM 1411. General Chemistry I. 4 Credit Hours.
Fundamental principles of chemistry for majors in the sciences, health sciences, and engineering; topics include measurements, fundamental properties of matter, states of matter, chemical reactions, chemical stoichiometry, periodicity of elemental properties, atomic structure, chemical bonding, molecular structure, solutions, properties of gases, and an introduction to thermodynamics and descriptive chemistry. Introduction of the scientific method, experimental design, data collection and analysis, and preparation of laboratory reports.

CHEM 1412. General Chemistry II. 4 Credit Hours.
Chemical equilibrium; phase diagrams and spectrometry; acid-base concepts; thermodynamics; kinetics; electrochemistry; nuclear chemistry; an introduction to organic chemistry and descriptive inorganic chemistry; introduction of the scientific method, experimental design, chemical instrumentation, data collection and analysis, and preparation of laboratory reports.

CHEM 2323. Organic Chemistry I (Lecture). 3 Credit Hours.
Fundamental principles of organic chemistry will be studied, including the structure, bonding, properties, and reactivity of organic molecules; and properties and behavior of organic compounds and their derivatives. Emphasis is placed on organic synthesis and mechanisms. Includes study of covalent and ionic bonding, nomenclature, stereochemistry, structure and reactivity, reaction mechanisms, functional groups, and synthesis of simple molecules. THIS COURSE IS INTENDED FOR STUDENTS IN SCIENCE OR PRE-PROFESSIONAL PROGRAMS.

CHEM 2325. Organic Chemistry II (Lecture). 3 Credit Hours.
Advanced principles of organic chemistry will be studied, including the structure, properties, and reactivity of aliphatic and aromatic organic molecules; and properties and behavior of organic compounds and their derivatives. Emphasis is placed on organic synthesis and mechanisms. Includes study of covalent and ionic bonding, nomenclature, stereochemistry, structure and reactivity, reaction mechanisms, functional groups, and synthesis of simple molecules. THIS COURSE IS INTENDED FOR STUDENTS IN SCIENCE OR PRE-PROFESSIONAL PROGRAMS.
CRIJ 1301. Introduction to Criminal Justice. 3 Credit Hours.
This course provides a historical and philosophical overview of the American criminal justice system, including the nature, extent, and impact of crime; criminal law; and justice agencies and processes.

CRIJ 1306. Court Systems & Practices. 3 Credit Hours.
This course is a study of the court system as it applies to the structures, procedures, practices and sources of law in American courts, using federal and Texas statutes and case law.

CRIJ 1310. Fundamentals of Criminal Law. 3 Credit Hours.
This course is the study of criminal law including application of definitions, statutory elements, defenses and penalties using Texas statutes, the Model Penal Code, and case law. The course also analyzes the philosophical and historical development of criminal law and criminal culpability.

CRIJ 2313. Correctional Systems & Practices. 3 Credit Hours.
This course is a survey of institutional and non-institutional corrections. Emphasis will be placed on the organization and operation of correctional systems; treatment and rehabilitation; populations served; Constitutional issues; and current and future issues.

CRIJ 2314. Criminal Investigation. 3 Credit Hours.
Investigative theory; collection and preservation of evidence; sources of information; interview and interrogation; uses of forensic sciences; case and trial preparation.

CRIJ 2328. Police Systems & Practices. 3 Credit Hours.
This course examines the establishment, role and function of police in a democratic society. It will focus on types of police agencies and their organizational structure, police-community interaction, police ethics, and use of authority.

DRAM 1310. Introduction to Theatre. 3 Credit Hours.
Survey of theater including its history, dramatic works, stage techniques, production procedures, and relation to other art forms. Participation in productions may be required.

ECON 2301. Principles of Macroeconomics. 3 Credit Hours.
An analysis of the economy as a whole including measurement and determination of Aggregate Demand and Aggregate Supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, and fiscal policy and monetary policy.

ECON 2302. Principles of Microeconomics. 3 Credit Hours.
Analysis of the behavior of individual economic agents, including consumer behavior and demand, producer behavior and supply, price and output decisions by firms under various market structures, factor markets, market failures, and international trade.

EDUC 1301. Introduction to the Teaching Profession. 3 Credit Hours.
An enriched, integrated pre-service course and content experience that provides active recruitment and institutional support of students interested in a teaching career, especially in high need fields. The course provides students with opportunities to participate in early field observations at all levels of P-12 schools with varied and diverse student populations and provides students with support from college and school faculty, preferably in small cohort groups, for the purpose of introduction to and analysis of the culture of schooling and classrooms. Course content should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards; and the course must include a minimum of 16 contact hours of field experience in P-12 classrooms.

EDUC 2301. Introduction to Special Populations. 3 Credit Hours.
An enriched, integrated pre-service course and content experience that provides an overview of schooling and classrooms from the perspectives of language, gender, socioeconomic status, ethnic and academic diversity, and equity with an emphasis on factors that facilitate learning. The course provides students with opportunities to participate in early field observations of P-12 special populations and should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards. Must include a minimum of 16 contact hours of field experience in P-12 classrooms with special populations.

ENGL 1301. Composition I. 3 Credit Hours.
Intensive study of and practice in writing processes, from invention and researching to drafting, revising, and editing, both individually and collaboratively. Emphasis on effective rhetorical choices, including audience, purpose, arrangement, and style. Focus on writing the academic essay as a vehicle for learning, communicating, and critical analysis.

ENGL 1302. Composition II. 3 Credit Hours.
Intensive study of and practice in the strategies and techniques for developing research-based expository and persuasive texts. Emphasis on effective and ethical rhetorical inquiry, including primary and secondary research methods; critical reading of verbal, visual, and multimedia texts; systematic evaluation, synthesis, and documentation of information sources; and critical thinking about evidence and conclusions.

FREN 1311. Beginning French I. 3 Credit Hours.
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture.

FREN 1312. Beginning French II. 3 Credit Hours.
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture.

FREN 1411. Beginning French I. 4 Credit Hours.
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture.

FREN 1412. Beginning French II. 4 Credit Hours.
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture.

FREN 2311. Intermediate French I. 3 Credit Hours.
Review and application of skills in listening comprehension, speaking, reading, and writing. Emphasizes conversation, vocabulary acquisition, reading, composition, and culture.

FREN 2312. Intermediate French II. 3 Credit Hours.
Review and application of skills in listening comprehension, speaking, reading, and writing. Emphasizes conversation, vocabulary acquisition, reading, composition, and culture.

GEOG 1301. Physical Geography. 3 Credit Hours.
This course introduces students to the processes that drive Earth’s physical systems. Students will explore the relationships among these physical systems, with emphasis on weather and climate, water, ecosystems, geologic processes and landform development, and human interactions with the physical environment.
GEOG 1302. Human Geography. 3 Credit Hours.
This course introduces students to fundamental concepts, skills, and practices of human geography. Place, space, and scale serve as a framework for understanding patterns of human experience. Topics for discussion may include globalization, population and migration, culture, diffusion, political and economic systems, language, religion, gender, and ethnicity.

GEOG 1303. World Regional Geography. 3 Credit Hours.
This course is an introduction to the world's major regions seen through their defining physical, social, cultural, political, and economic features. These regions are examined in terms of their physical and human characteristics and their interactions. The course emphasizes relations among regions on issues such as trade, economic development, conflict, and the role of regions in the globalization process.

GERM 1311. Beginning German I. 3 Credit Hours.
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture.

GERM 1312. Beginning German II. 3 Credit Hours.
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture.

GERM 1411. Beginning German I. 4 Credit Hours.
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture.

GERM 1412. Beginning German II. 4 Credit Hours.
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture.

GERM 2311. Intermediate German I. 3 Credit Hours.
Review and application of skills in listening comprehension, speaking, reading, and writing. Emphasizes conversation, vocabulary acquisition, reading, composition, and culture.

GERM 2312. Intermediate German II. 3 Credit Hours.
Review and application of skills in listening comprehension, speaking, reading, and writing. Emphasizes conversation, vocabulary acquisition, reading, composition, and culture.

GOVT 2305. Federal Government. 3 Credit Hours.
Origin and development of the U.S. Constitution, structure and powers of the national government including the legislative, executive, and judicial branches, federalism, political participation, the national election process, public policy, civil liberties and civil rights.

GOVT 2306. Texas Government. 3 Credit Hours.
Origin and development of the Texas constitution, structure and powers of state and local government, federalism and inter-governmental relations, political participation, the election process, public policy, and the political culture of Texas.

HIST 1301. United States History I. 3 Credit Hours.
A survey of the social, political, economic, cultural, and intellectual history of the United States from the pre-Columbian era to the Civil War/Reconstruction period. United States History I includes the study of pre-Columbian, colonial, revolutionary, early national, slavery and sectionalism, and the Civil War/Reconstruction eras. Themes that may be addressed in United States History I include: American settlement and diversity, American culture, religion, civil and human rights, technological change, economic change, immigration and migration, and creation of the federal government.

HIST 1302. United States History II. 3 Credit Hours.
A survey of the social, political, economic, cultural, and intellectual history of the United States from the Civil War/Reconstruction era to the present. United States History II examines industrialization, immigration, world wars, the Great Depression, Cold War and post-Cold War eras. Themes that may be addressed in United States History II include: American culture, religion, civil and human rights, technological change, economic change, immigration and migration, urbanization and suburbanization, the expansion of the federal government, and the study of U.S. foreign policy.

HIST 2301. Texas History. 3 Credit Hours.
A survey of the political, social, economic, cultural, and intellectual history of Texas from the pre-Columbian era to the present. Themes that may be addressed in Texas History include: Spanish colonization and Spanish Texas; Mexican Texas; the Republic of Texas; statehood and secession; oil, industrialization, and urbanization; civil rights; and modern Texas.

HIST 2302. United States History II. 3 Credit Hours.
A survey of the political, social, economic, cultural, and intellectual history of Europe and the Mediterranean world from human origins to the 17th century. Themes that should be addressed in Western Civilization I include the cultural legacies of Mesopotamia, Egypt, Greece, Rome, Byzantium, Islamic civilizations, and Europe through the Middle Ages, Renaissance, and Reformsations.

HIST 2305. Texas History. 3 Credit Hours.
A survey of the political, social, economic, cultural, and intellectual history of Texas from the pre-Columbian era to the present. Themes that may be addressed in Texas History include: Spanish colonization and Spanish Texas; Mexican Texas; the Republic of Texas; statehood and secession; oil, industrialization, and urbanization; civil rights; and modern Texas.

HIST 2311. Western Civilization I. 3 Credit Hours.
A survey of the social, political, economic, cultural, religious, and intellectual history of Europe and the Mediterranean world from the 17th century to the modern era. Themes that should be addressed in Western Civilization I include absolutism and constitutionalism, growth of nation states, the Enlightenment, revolutions, classical liberalism, industrialization, imperialism, global conflict, the Cold War, and globalization.

HUMA 1315. Fine Arts Appreciation. 3 Credit Hours.
This course is an exploration of the purposes and processes in the visual and performing arts (such as music, painting, architecture, drama, and dance) and the ways in which they express the values of cultures and human experience.

ITSE 1402. Computer Programming. 4 Credit Hours.
Introduction to computer programming including design, development, testing, implementation, and documentation.

ITSE 2421. Object-Oriented Programming. 4 Credit Hours.
Program design with classes, including development, testing, implementation, and documentation.

LANG 1311. Foreign Language I. 3 Credit Hours.
These courses are intended to serve as generic foreign language credits for students in the International Baccalaureate Diploma program. They are for transcripting purposes only, and may not be submitted for state reimbursement.

LANG 1312. Foreign Language II. 3 Credit Hours.
These courses are intended to serve as generic foreign language credits for students in the International Baccalaureate Diploma program. They are for transcripting purposes only, and may not be submitted for state reimbursement.

LANG 1411. Foreign Language I. 4 Credit Hours.
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture.

LANG 1412. Foreign Language II. 4 Credit Hours.
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture.
LANG 2311. Intermediate Language I. 3 Credit Hours.
Review and application of skills in listening comprehension, speaking, reading, and writing. Emphasizes conversation, vocabulary acquisition, reading, composition, and culture.

LANG 2312. Intermediate Language II. 3 Credit Hours.
Review and application of skills in listening comprehension, speaking, reading, and writing. Emphasizes conversation, vocabulary acquisition, reading, composition, and culture.

MATH 1314. College Algebra. 3 Credit Hours.
In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

MATH 1316. Plane Trigonometry. 3 Credit Hours.
In-depth study and applications of trigonometry including definitions, identities, inverse functions, solutions of equations, graphing, and solving triangles. Additional topics such as vectors, polar coordinates and parametric equations may be included.

MATH 1324. Mathematics for Business & Social Sciences. 3 Credit Hours.
The application of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; systems of linear equations; matrices; linear programming; and probability, including expected value.

MATH 1325. Calculus for Business & Social Sciences. 3 Credit Hours.
This course is the basic study of limits and continuity, differentiation, optimization and graphing, and integration of elementary functions, with emphasis on applications in business, economics, and social sciences.

MATH 1332. Contemporary Mathematics. 3 Credit Hours.
Intended for Non STEM (Science, Technology, Engineering, and Mathematics) majors. Topics include introductory treatments of sets and logic, financial mathematics, probability and statistics with appropriate applications. Number sense, proportional reasoning, estimation, technology, and communication should be embedded throughout the course. Additional topics may be covered.

MATH 1342. Elementary Statistical Methods. 3 Credit Hours.
Collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals and hypothesis testing. Use of appropriate technology is recommended.

MATH 1350. Mathematics for Teachers I. 3 Credit Hours.
This course is intended to build or reinforce a foundation in fundamental mathematics concepts and skills. It includes the conceptual development of the following: sets, functions, numeration systems, number theory, and properties of the various number systems with an emphasis on problem solving and critical thinking.

MATH 1351. Mathematics for Teachers II. 3 Credit Hours.
This course is intended to build or reinforce a foundation in fundamental mathematics concepts and skills. It includes the concepts of geometry, measurement, probability, and statistics with an emphasis on problem solving and critical thinking.

MATH 1414. College Algebra. 4 Credit Hours.
In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

MATH 2305. Discrete Mathematics. 3 Credit Hours.
A course designed to prepare math, computer science, and engineering majors for a background in abstraction, notation, and critical thinking for the mathematics most directly related to computer science. Topics include: logic, relations, functions, basic set theory, countability and counting arguments, proof techniques, mathematical induction, combinatorics, discrete probability, recursion, sequence and recurrence, elementary number theory, graph theory, and mathematical proof techniques.

MATH 2312. Pre-Calculus Math. 3 Credit Hours.
In-depth combined study of algebra, trigonometry, and other topics for calculus readiness.

MATH 2313. Calculus I. 3 Credit Hours.
Limits and continuity; the Fundamental Theorem of Calculus; definition of the derivative of a function and techniques of differentiation; applications of the derivative to maximizing or minimizing a function; the chain rule, mean value theorem, and rate of change problems; curve sketching; definite and indefinite integration of algebraic, trigonometric, and transcendental functions; with an application to calculation of areas.

MATH 2314. Calculus II. 3 Credit Hours.
Differentiation and integration of transcendental functions; parametric equations and polar coordinates; techniques of integration; sequences and series; improper integrals.

MATH 2320. Differential Equations. 3 Credit Hours.
Ordinary differential equations, including linear equations, systems of equations, equations with variable coefficients, existence and uniqueness of solutions, series solutions, singular points, transform methods, and boundary value problems; application of differential equations to real-world problems.

MATH 2412. Pre-Calculus Math. 4 Credit Hours.
In-depth combined study of algebra, trigonometry, and other topics for calculus readiness.

MATH 2413. Calculus I. 4 Credit Hours.
Limits and continuity; the Fundamental Theorem of Calculus; definition of the derivative of a function and techniques of differentiation; applications of the derivative to maximizing or minimizing a function; the chain rule, mean value theorem, and rate of change problems; curve sketching; definite and indefinite integration of algebraic, trigonometric, and transcendental functions; with an application to calculation of areas.

MATH 2414. Calculus II. 4 Credit Hours.
Differentiation and integration of transcendental functions; parametric equations and polar coordinates; techniques of integration; sequences and series; improper integrals.

MATH 2415. Calculus III. 4 Credit Hours.
Advanced topics in calculus, including vectors and vector-valued functions, partial differentiation, Lagrange multipliers, multiple integrals, and Jacobians; application of the line integral, including Green's Theorem, the Divergence Theorem, and Stokes' Theorem.

MUSI 1071. Student Recital. 0 Credit Hours.
Recital attendance credit for music majors and minors. Required of all music majors and minors. This course may be repeated for credit.
MUSI 1114. Piano Class for Music Majors I. 1 Credit Hour.
Class piano instruction for music majors with an emphasis on the practical application of music theory involving harmonization, transposition, and related keyboard skills.

MUSI 1115. Piano Class for Music Majors II. 1 Credit Hour.
Class piano instruction for music majors with an emphasis on the practical application of music theory involving harmonization, transposition, and related keyboard skills.

MUSI 1116. Sight Singing & Ear Training I. 1 Credit Hour.
Singing tonal music in treble and bass clefs, and aural study of elements of music, such as scales, intervals and chords, and dictation of basic rhythm, melody and diatonic harmony.

MUSI 1117. Sight Singing & Ear Training II. 1 Credit Hour.
Singing tonal music in various clefs, continued aural study of the elements of music, and dictation of intermediate rhythm, melody and diatonic harmony.

MUSI 1301. Fundamentals of Music I. 3 Credit Hours.
Introduction to the basic elements of music theory for non-music majors: scales, intervals, keys, triads, elementary ear training, keyboard harmony, notation, meter, and rhythm. (Does not apply to a music major degree.).

MUSI 1307. Music Literature. 3 Credit Hours.
A survey of the styles and forms of music as it developed from the middle ages to the present. This course will familiarize the student with cultural context, terminology, genres, and notation.

MUSI 1310. American Music. 3 Credit Hours.
General survey of various styles of music in America. Topics may include jazz, ragtime, folk, rock, and contemporary art music.

MUSI 1311. Music Theory I. 3 Credit Hours.
The study of analysis and writing of tonal melody and diatonic harmony, including fundamental music concepts, scales, intervals, chords, 7th chords, and early four-part writing. Analysis of small compositional forms. Optional correlated study at the keyboard.

MUSI 1312. Music Theory II. 3 Credit Hours.
The study of analysis and writing of tonal melody and diatonic harmony, including all diatonic chords and seventh chords in root position and inversions, non-chord tones, and functional harmony. Introduction to more complex topics, such as modulation, may occur. Optional correlated study at the keyboard.

MUSI 2114. Piano Class III for Music Majors. 1 Credit Hour.
Continuation of Class Piano II, with emphasis on scales and arpeggios (hands together), harmonization, sight reading, score reading, ensemble, and simple accompanying.

MUSI 2115. Piano Class IV for Music Majors. 1 Credit Hour.
Continuation of Piano Class III with further study given to scales (including chromatic scale), arpeggios, broken chords, score reading, solo and ensemble performance, and accompanying.

MUSI 2116. Sight Singing & Ear Training III. 1 Credit Hour.
Singing more difficult tonal music in various clefs, aural study including dictation of more complex rhythm, melody, chromatic harmony, and extended tertian structures.

MUSI 2311. Music Theory III. 3 Credit Hours.
Advanced harmony voice leading, score analysis and writing of more advanced tonal harmony including chromaticism and extended-tertian structures. Optional correlated study at the keyboard.

MUSI 2312. Music Theory IV. 3 Credit Hours.
Continuation of advanced chromaticism and survey of analytical and compositional procedures in post-tonal music. Optional correlated study at the keyboard.

MUAP 3269. Private Lesson Instruction V. 2 Credit Hours.
This course is designed to provide individualized instruction in solo technique and repertoire for the musical performer. Prerequisite: 4 semesters of private instruction.

MUAP 3270. Private Lesson Instruction VI. 2 Credit Hours.
This course is designed to provide individualized instruction in solo technique and repertoire for the musical performer. Prerequisite: 5 semesters of private instruction.

MUAP 4269. Private Lesson Instruction VII. 2 Credit Hours.
This course is designed to provide individualized instruction in solo technique and repertoire for the musical performer. Prerequisite: 6 hours of private instruction.

MUAP 4270. Private Lesson Instruction VIII. 2 Credit Hours.
This course is designed to provide individualized instruction in solo technique and repertoire for the musical performer. Prerequisite: 7 semesters of private instruction; Corequisite: MUSI 4098 (Senior Recital) required.

MUEN 3121. Symphonic Band. 1 Credit Hour.
Rehearsal and performance of quality concert band literature from a variety of styles. Open to any student by audition only.

MUEN 3123. Orchestra. 1 Credit Hour.
Rehearsal and performance of quality orchestral literature from a variety of styles. Open to any student by audition only.

MUEN 3124. Jazz Ensemble. 1 Credit Hour.
Rehearsal and performance of quality jazz ensemble literature from a variety of styles. Open to any student by audition only.

MUEN 3142. Chorale. 1 Credit Hour.
Designed to give participants a challenging, stylized choral experience. Performs a wide variety of literature, emphasizing the more difficult choral works. Open to any student by audition.

PHIL 1301. Introduction to Philosophy. 3 Credit Hours.
A study of major issues in philosophy and/or the work of major philosophical figures in philosophy. Topics in philosophy may include theories of reality, theories of knowledge, theories of value, and their practical applications.

PHIL 2302. Introduction to Logic. 3 Credit Hours.

PHIL 2303. Introduction to Formal Logic. 3 Credit Hours.
The purpose of the course is to introduce the student to symbolic logic, including syllogisms, propositional and predicate logic, and logical proofs in a system of rules.

PHYS 1401. College Physics I. 4 Credit Hours.
Fundamental principles of physics, using algebra and trigonometry; the principles and applications of classical mechanics and thermodynamics, including harmonic motion, mechanical waves and sound, physical systems, Newton's Laws of Motion, and gravitation and other fundamental forces; with emphasis on problem solving. Laboratory activities will reinforce fundamental principles of physics, using algebra and trigonometry; the principles and applications of classical mechanics and thermodynamics, including harmonic motion, mechanical waves and sound, physical systems, Newton's Laws of Motion, and gravitation and other fundamental forces; emphasis will be on problem solving.
PHYS 1402. College Physics II. 4 Credit Hours.
Fundamental principles of physics, using algebra and trigonometry; the principles and applications of electricity and magnetism, including circuits, electrostatics, electromagnetism, waves, sound, light, optics, and modern physics topics; with emphasis on problem solving. Fundamental principles of physics, using algebra and trigonometry; the principles and applications of electricity and magnetism, including circuits, electrostatics, electromagnetism, waves, sound, light, optics, and modern physics topics; with emphasis on problem solving.

PHYS 1405. Elementary Physics I. 4 Credit Hours.
Conceptual level survey of topics in physics intended for liberal arts and other non-science majors.

PHYS 1415. Physical Science I (Lecture + Lab). 4 Credit Hours.
Course, designed for non-science majors, that surveys topics from physics, chemistry, geology, astronomy, and meteorology.

PHYS 2125. University Physics Laboratory I (Lab). 1 Credit Hour.
Basic laboratory experiments supporting theoretical principles presented in PHYS 2325 involving the principles and applications of classical mechanics, including harmonic motion and physical systems; experimental design, data collection and analysis, and preparation of laboratory reports.

PHYS 2126. University Physics Laboratory II (Lab). 1 Credit Hour.
Laboratory experiments supporting theoretical principles presented in PHYS 2326 involving the principles of electricity and magnetism, including circuits, electromagnetism, waves, sound, light, and optics; experimental design, data collection and analysis, and preparation of laboratory reports.

PHYS 2325. University Physics I. 3 Credit Hours.
Fundamental principles of physics, using calculus, for science, computer science, and engineering majors; the principles and applications of classical mechanics, including harmonic motion, physical systems and thermodynamics; and emphasis on problem solving.

PHYS 2326. University Physics II. 3 Credit Hours.
Principles of physics for science, computer science, and engineering majors, using calculus, involving the principles of electricity and magnetism, including circuits, electromagnetism, waves, sound, light, and optics.

PHYS 2425. University Physics I. 4 Credit Hours.
Fundamental principles of physics, using calculus, for science, computer science, and engineering majors; the principles and applications of classical mechanics, including harmonic motion, physical systems and thermodynamics; and emphasis on problem solving. Involving the principles and applications of classical mechanics, lab activities include harmonic motion and physical systems; experimental design, data collection and analysis, and preparation of laboratory reports.

PHYS 2426. University Physics II. 4 Credit Hours.
Principles of physics for science, computer science, and engineering majors, using calculus, lab activities: the principles of electricity and magnetism, including circuits, electromagnetism, waves, sound, light, and optics.

PSYC 2301. General Psychology. 3 Credit Hours.
General Psychology is a survey of the major psychological topics, theories and approaches to the scientific study of behavior and mental processes.

PSYC 2308. Child Psychology. 3 Credit Hours.
This course will address psychological development from conception through middle childhood with references to physical, cognitive, social and personality changes. Students will examine the interplay of biological factors, human interaction, social structures and cultural forces in development.

PSYC 2314. Lifespan Growth & Development. 3 Credit Hours.
Life-Span Growth and Development is a study of social, emotional, cognitive and physical factors and influences of a developing human from conception to death.

PSYC 2315. Psychology of Adjustment. 3 Credit Hours.
Study of the processes involved in adjustment of individuals to their personal and social environments.

SO CI 1301. Introduction to Sociology. 3 Credit Hours.
The scientific study of human society, including ways in which groups, social institutions, and individuals affect each other. Causes of social stability and social change are explored through the application of various theoretical perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional context may include topics such as social stratification, gender, race/ethnicity, and deviance.

SPAN 1311. Beginning Spanish I. 3 Credit Hours.
Basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students will acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the beginner level.

SPAN 1312. Beginning Spanish II. 3 Credit Hours.
Continued development of basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the high beginner to low intermediate level.

SPAN 1411. Beginning Spanish I. 4 Credit Hours.
Basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students will acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the beginner level.

SPAN 1412. Beginning Spanish II. 4 Credit Hours.
Continued development of basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the high beginner to low intermediate level.

SPAN 2311. Intermediate Spanish I. 3 Credit Hours.
The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading, and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

SPAN 2312. Intermediate Spanish II. 3 Credit Hours.
The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading, and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

SPCH 1311. Introduction to Speech Communication. 3 Credit Hours.
Introduces basic human communication principles and theories embedded in a variety of contexts including interpersonal, small group, and public speaking.
SPCH 1315. Public Speaking. 3 Credit Hours.
Application of communication theory and practice to the public speaking context, with emphasis on audience analysis, speaker delivery, ethics of communication, cultural diversity, and speech organizational techniques to develop students’ speaking abilities, as well as ability to effectively evaluate oral presentations.

SPCH 1318. Interpersonal Communication. 3 Credit Hours.
Application of communication theory to interpersonal relationship development, maintenance, and termination in relationship contexts including friendships, romantic partners, families, and relationships with co-workers and supervisors.

SPCH 1321. Business & Professional Communication. 3 Credit Hours.
Study and application of communication within the business and professional context. Special emphasis will be given to communication competencies in presentations, dyads, teams and technologically mediated formats.

TECA 1303. Families, School, & Community. 3 Credit Hours.
A study of the child, family, community, and schools, including parent education and involvement, family and community lifestyles, child abuse, and current family life issues. 241 Course content must be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards and coincide with the National Association for the Education of Young Children position statement related to developmentally appropriate practices for children from birth through age eight. Requires students to participate in field experiences with children from infancy through age 12 in a variety of settings with varied and diverse populations. The course includes a minimum of 16 hours of field experiences.

TECA 1354. Child Growth & Development. 3 Credit Hours.
A study of the physical, emotional, social, language, and cognitive factors impacting growth and development of children through adolescence.
FACULTY LISTING

(*Graduate Faculty)

Air-Larrasa, Samantha *
Assistant Professor - Clinical Mental Health Counseling
PhD in Counselor Education and Supervision University of Texas - San Antonio
Masters of Arts in Counseling St. Edward's University
Bachelor of Arts in Psychology University of Texas - Brownsville

Allen, Amanda
Associate Professor - Curriculum and Instruction
EdD in Special Education University of Alabama
Masters of Arts in Special Education University of West Florida
Bachelor of Science in Special Education Mississippi State University

Almond, Brad *
Chair, Department of Management/Marketing
Associate Professor - Management
PhD in Organization Studies Boston College
Masters of Business Administration Baylor University
Bachelor of Arts in Music Baylor University

Altman, Barbara *
Associate Dean, College of Business Administration
Associate Professor - Management
DBA in Organizational Behavior Boston University
Masters in Public Administration University of Texas
Bachelor of Science in Management University of Texas

Ang, Tyson *
Assistant Professor - Marketing
PhD in Marketing Southern Illinois University
Masters of Business Administration in Marketing Southern Illinois University
Bachelor of Science in Marketing Southern Illinois University

Berry, Floyd *
Chair, Department of Social Sciences
Associate Professor - Criminal Justice
PhD in Anthropology University of Texas
Masters of Arts in Religious Studies Baylor University
Bachelor of Arts Religious Studies Baylor University

Berry, Jeremy *
Assistant Professor - Clinical Mental Health Counseling
PhD in Counselor Education and Supervision Texas Tech University
Masters of Arts in Counseling Wayland Baptist University
Masters of Arts in Management Wayland Baptist University
Bachelor of Science in Social Psychology Park University

Bowles, Bruce *
Assistant Professor - English
PhD in English Florida State University
Masters of Arts in English University of North Carolina
Bachelor of Arts in Literature Richard Stockton College

Bracewell, Tammy *
Assistant Professor - Criminal Justice
PhD in Criminal Justice Texas State University

Brown, Randy *
Assistant Professor - Computer Science
PhD in Information Systems University of Texas - Arlington
Masters of Arts in Computer Resources Webster University
Bachelor of Science in Electrical Engineering University of Arkansas

Bunkowski, Lisa *
Director, Faculty Center for Teaching and Learning
Assistant Professor - Higher Education Leadership
PhD in US History University of Kansas
Masters of Arts in History Emporia State University
Bachelor of Arts in Spanish Emporia State University

Calk, Russell *
Chair, Department of Accounting/Finance/Economics
Associate Professor - Accounting
PhD in Accounting Oklahoma State University
Masters of Business Administration in Accounting Angelo State University
Bachelor of Science in Management Accounting Angelo State University

Chen, Hao-Min *
Assistant Professor - Clinical Mental Health Counseling
PhD in Human Development and Family Science University of Georgia
Masters of Arts in Marriage and Family Therapy Syracuse University
Bachelor of Science in Sociology National Taiwan University

Chennamaneni, Anitha *
Chair, Department of Computer Information Systems
Associate Professor - Computer Information Systems
PhD in Information Systems University of Texas - Arlington
Masters of Business Administration Southern Illinois University
Bachelor of Arts Osmania University
Bachelor of Science Osmania University

Clark, Daniel *
Associate Professor - Psychology
PhD in Educational Psychology University of Texas
Masters of Science in Clinical Psychology Abilene Christian University
Bachelor of Science in Interdisciplinary Studies Abilene Christian University

Kellie Cude *
Director, Graduate School
Associate Professor - Education
PhD in Curriculum and Instruction Texas A&M University
Masters of Education in Curriculum and Instruction Tarleton State University
Bachelor of Science in Social Psychology Park University

Daley, Michael
Chair, Department of Social Work
Professor - Social Work
PhD in Social Welfare University of Wisconsin-Madison
Masters of Social Work University of Houston
Bachelor of Arts in Anthropology Rice University

Dawson, Margaret
Assistant Librarian
Faculty Listing

Masters in Library Science Texas Women's University
Masters of Arts in English Sam Houston State University
Bachelor of Art in Anthropology and English Texas A&M University

Dietert, Michelle *
Associate Professor – Sociology
PhD in Sociology Texas Women's University
Masters of Science in Women's Studies State University of Mankato
Bachelor of Science in Psychology Texas Women's University

Dixon, Jeffrey *
Associate Professor - Political Science
PhD in Political Science Rice University
Masters of Arts in Political Science Rice University
Bachelor of Arts in International Relations History Concordia College

Dunai, Amber *
Assistant Professor - English/Linguistics
PhD in English Texas A&M University
Masters of Arts in Linguistics University of North Texas
Bachelor of Arts in English Texas A&M University

Duncan, William *
Assistant Professor - Educational Leadership
EdD in Educational Leadership - Urban Superintendence University of Southern California
Masters in Education Curriculum and Instruction University of Texas
Bachelor of Arts in Liberal Arts California State University

Dwivedi, Rahul *
Assistant Professor - Computer Information Systems
PhD in Business Administration - Information Systems University of Texas - Arlington
Masters of Science in Information Systems University of North Carolina - Charlotte
Bachelor in Information Technology State Technological University of Madhya Pradesh

Eastes, Victoria
Assistant Librarian
Masters of Library Science Texas Women's University
Masters of Arts in History Texas A&M University
Bachelor of Arts in History Bethel College

Eddins, Bobbie *
Associate Professor - Educational Leadership
EdD in Educational Administration Baylor University
Masters of Education in Instructional Supervision Texas A&M University - Corpus Christi
Bachelor of Science in History/Political Science Texas State University

Eruysal, Ferdi *
Assistant Professor - Computer Information Systems
PhD in Management Information Systems University of Illinois
Masters of Science in Information Technology Bahcesehir University
Bachelor of Science in Industrial Technology Middle East Technical University

Fiala, Sam *
Chair, Department of Counseling and Psychology
Associate Professor - Psychology
PhD in Clinical Psychology Texas A&M University
Masters of Science in Clinical Psychology Texas A&M University

Bachelor of Arts in Psychology Southwestern University

Fry, Jody *
Professor - Management
PhD in Organization Theory and Behavior Ohio State University
