B.S. CRIMINAL JUSTICE

OVERVIEW

The Bachelor of Science degree in Criminal Justice prepares students for a variety of careers, including law enforcement (local, state, and federal), probation and parole, institutional corrections, and research.

Students in the program find a supportive environment that challenges and empowers them to explore their individual interests in the wide realm of study in criminal justice. The Criminal Justice program is led by highly qualified faculty members who have both real-world experience and scholarly experience to enrich your learning.

Eligible students are encouraged to join the Omega Lambda chapter of Alpha Phi Sigma, the national honor society for criminal justice. Students may also join the Criminal Justice Association (CJA), which is open to criminal justice and non-criminal justice members who are interested in the field and want to engage in service within the local community and region.

Our diverse inventory of upper-level classes balances the major domains of criminal justice, including law enforcement, corrections, courts, victims, offenders, and practitioners.

Program Level Student Learning Outcomes

The student will be able to:

Code

- Explain concepts, major criminological theories, empirical findings, and trends in criminal justice.
- · Apply legal and ethical principles to the practice of criminal justice.
- Describe the structure and functioning of institutions in criminal justice.
- Identify the racial and ethnic issues associated with the practice of criminal justice.
- Demonstrate writing skills appropriate for upper-level coursework and criminal justice occupations.
