B.S. LIBERAL STUDIES

OVERVIEW

The Bachelor of Science in Liberal Studies is designed for mature students who seek a flexible degree program and who do not desire or may not meet the prerequisites of a highly structured traditional degree program. This program permits students to plan, with advisement, an individualized program with access to a wide range of academic disciplines and fields of professional study. The program is not designed to provide students with the depth of content in a concentration typically sufficient to prepare the student for advanced studies within an academic discipline related to this concentration.

Program Level Student Learning Outcomes

The student will be able to:

- · Demonstrate an understanding of interdisciplinarity.
- Demonstrate an in-depth academic knowledge of three subject areas.
- Research and understand problems and issues from an interdisciplinary perspective.
- Synthesize an interdisciplinary perspective into a useful, meaningful, and practical whole.
- · Demonstrate strong writing, critical thinking, and analytical skills.
